

The KANSAS STATE MEDICAL and SURGICAL INSTITUTE AND SANITARIUM.

Incorporated and Chartered under and by virtue of the Laws of State of Kansas.

Permanently established at Wichita for the treatment of all Chronic, Nervous, Blood, Skin and Private Diseases, and performing all Surgical Operations.

DR. J. H. TERRILL, President of the Kansas State Medical and Surgical Institute and Sanitarium. It is the most widely and favorably known specialist in the Southwest. His long experience, remarkable skill, and universal success in the treatment and cure of nervous, chronic and surgical diseases entitles him to the full confidence of his afflicted countrymen.

THE ABOVE IS A COPY of the instrument used by Dr. Terrill in the examination for Catarrh and all throat and nose diseases. A cure guaranteed in every case of Catarrh. Medicine and instruments furnished for home treatment.

Dr. Terrill goes to New York or Chicago every year to take a special course in Chronic Diseases, and private instructions in electricity. The Doctor has invested over \$10,000 in Batteries, Electrical Appliances, and Instruments for the treatment of chronic diseases. The like cannot be found in any institution in the Southwest. Call and see for yourself.

WOMEN-Dr. Terrill has made diseases of Women a specialty for the past twenty years, and cures when other fail.

TO YOUNG AND MIDDLE AGED MEN. A SURE CURE. The awful effects of early vice which brings on general weakness, destroying both mind and body permanently cured. We guarantee to cure you or no pay.

We give a Written Guarantee to Cure the following Diseases: Diseases of the Kidneys and Urinary Organs. Catarrh, Piles, Prostration, Venereal, Stricture, Lost Manhood, Varicocele, Skin Disease, Syphilis, All its forms, Rheumatism.

Examination and consultation free. Correspondence will receive prompt attention. Our book of 75 pages sent free on application.

138 NORTH MAIN STREET, WICHITA, KANSAS.

OF GENERAL INTEREST. -It is strange indeed, if true, that the most popular of humorous entertainments is modeled on the oddities of a people who are deficient in the sense of humor. Yet a manager who has been associated with a minstrel troupe of real negroes says that the greatest trouble experienced by him was in trying to get them to be funny.

-Four \$1,000,000 bank notes have been struck at the Bank of England. Samuel Rogers, the banker poet, possessed one of them; one went to George IV., and is in the Windsor castle library; another belongs to N. M. Rothschild, while the fourth remains at the Bank of England, where it may now be seen by visitors.

-A post office fisher who piles his traps in Billings Bay, an arm of the Gulf of Mexico which indents the state of Mississippi, recently discovered the sunken wreck of an old French man-of-war, which he is now trying to dispose of to the government. The vessel was one of a fleet of three, which was sent to colonize Louisiana some two centuries ago, and many curious relics were found within her hull.

-There are two words in the English language which contain the vowels in their regular order, viz: "abstemious" and "facetious." The following words each have them in irregular order: Mendacious, authoritative, disadvantageous, enouraging, efficacious, instantaneous, importunate, nefarious, objectionable, precarious, pertinacious, sacrilegious, simultaneous, tenacious, unintentional, unequivocal, undiscoverable and vexatious.

-The maharajah of Bhownagur is the lion of the hour in London. He is an oriental potentate who has traveled from India to England to attend the opening of the Imperial institute and to fulfill a long-cherished desire of paying personal homage to the queen and empress. He is an enlightened young man of thirty-five, who is considered one of the most benevolent of the native rulers of India, having spent five millions of dollars in charities.

-John Hansen, Craig of Danville, Ind., is undoubtedly the largest man in the world. He is thirty-seven years old and weighs nine hundred and seven pounds. He is six feet and five inches high, measures eight feet and four inches around the hips, eighteen inches around the ankle, twenty-nine inches around the knee and sixty-six inches around the thigh next to the body. He requires forty-one yards for a suit of clothes, and three pounds of yarn for stockings. Mrs. Craig is a good-looking blonde and weighs one hundred and thirty pounds.

-Congressman Thomas J. Geary, of California, the author of the Chinese registration law, has always employed Chinese servants in his California home, because they are practically the only good ones to be obtained in that part of the country. Since the law bearing his name was enacted it is said that his wife has been unable to keep her Chinese servants or to hire others, as a boycott has been declared against the Geary household. The peddlers of fruit and other articles, who are principally Chinese, also refuse to sell any of their goods there.

-Joseph Francis, who died not long ago at the age of ninety-two years, probably did as much for humanity as any one man. He invented, among other things, the metallic life car, used by life-saving crews, and the first car of that kind saved the lives of two hundred persons in 1856. Mr. Francis received many honors from European governments for his invention, but it was not until 1888 that congress voted him a medal, which was presented to him by President Harrison in 1890—forty years after the great value of his invention had been demonstrated.

-A fire occurred recently in a show window at Boston caused by the sun, which focused through a magnifying glass, and set fire to a photograph. This is only one instance of the frequent recurrence of unexpected fires by concentration of the sun's rays by magnifying glasses or by concave mirrors. A few years ago a bright tin dish concentrated the rays of the sun in a store window at Lynn, and caused a sufficient fire to well out the fire department. There have been many fires in physics, laboratories of colleges, and in private homes, caused by the sun's rays focused through a lens or a magnifying glass, and set fire to a photograph.

A PANIC.

As we anticipated, our low prices have created a panic among the Clothing Merchants of Wichita. It is amusing to see them squirm. We have now a few more of the EXUNE CLEANSING SALES. No doubting for all know when we advertise a sale, we mean just what we say. Everything in our house has got to go, nothing reserved. You can now buy suits of us at \$8.00 that other merchants are selling at \$15.00. Our \$12.00 Suits are well worth \$20.00, and all other goods in the same proportion. Our stock is new and good first class; we do not handle trash and therefore do not advertise anything but good goods. We are now selling at lower prices than ever had before; Men's Suits, Boys' and Children's Suits, Tailor Suits, Summer Coats and Vests, Men's Pants, Boys' Knee Pants, Underwear, Shirts, Hats, Neck Ties and in fact our entire stock. A beautiful Bow and Arrow given with each Boy's Suit. This is a bona fide Slaughter Sale of the best stock of new goods ever brought to Wichita. Remember the number of our store.

MR. COLE was the practical clothing man and head of the late firm of COLE & JONES

J. S. COLE & CO., ONE-PRICE CLOTHIER & FURNISHER.

224 East Douglas Ave. Wichita, Kan.

WEATHER BULLETIN. WEATHER BUREAU, DEPARTMENT OF AGRICULTURE. WICHITA, Kan., June 23, 1893. Forecast for Wichita and vicinity: Fair and warm Saturday, followed by cooler Sunday night or Sunday. During the past twenty-four hours the highest temperature was 90, the lowest 60, and the mean 80, with warmer, clear weather; high south winds and a marked fall in pressure.

The average temperature thus far this month has been 74. For the past four years the average temperature for the month of June has been 70, 70, 70 and 70. WASHINGTON, June 23.—Following is the forecast up to 8 p. m. Saturday: For Missouri—Showers and probably severe local storms Saturday; cooler southerly shifting to north winds. For Kansas—Showers and probably severe local storms; winds shifting to northwest.

A BURNING TOWN. ALBUQUERQUE, N. M., June 23.—The coal mining town of Gallup is on fire, and as there is no water works nor fire company in the town, it is at the mercy of the flames. The fire started in a stack of hay in the rear of a store situated in the center of the town, and has spread in all directions. Particulars are wanting.

THE AMERICAN MECHANICS. DETROIT, June 23.—The Junior Order of United American Mechanics adjourned Sunday night. Stephen Collins of Pittsburg was appointed national organizer. The installation of new officers took place.

SHIPWRECKED SAILORS. NEW BEDFORD, Mass., June 23.—Three officers of the wrecked whaling bark Sea Ranger arrived here by rail today from Port Townsend, Wash. One of them, John Rogers, has been shipwrecked three times, but never before met with such outrageous treatment by white men as he and the crew met with at Sitka. When the thirty-six men reached Sitka they had nothing but the clothes on their backs, and, though they appealed to Captain Rogers of the United States steamer Medonia, the latter refused to help them unless paid. A second appeal failing, Rogers says that they pawned the ship's chronometer for \$200, and that they had money to take them to Port Townsend.

People who give Hood's Sarsaparilla a fair trial will realize its great merit and speak well of it. ENGAGED. WASHINGTON, June 23.—The engagement of Representative W. C. P. Breckinridge of Kentucky and Miss Madeline Pollock is announced. Miss Pollock was at one time clerk in the interior department, but, it is said, her place by a remark made at the time of General Sherman's death.

FOREIGN NOTES. LONDON, June 23.—It is rumored that the Herschel committee proposes to close the Indian mints, but only conditionally on the repeal of the Sherman act. Valparaiso, June 23.—Late correspondent in Rio Janeiro by telegraph that Sarah Bernhardt was robbed of jewels valued at 300,000 francs in the Brazilian capital.

CHOLERA. PARIS, June 23.—A steamer from St. Louis, France, arrived at Malta last night with three cases of cholera on board. There were two deaths from the disease during the voyage. The vessel was quarantined.

ASSASSINATED. MAGNOLIA, Miss., June 23.—William Butler was assassinated by white caps in a barroom yesterday evening when he was on his way home from court. He was a witness against some of the murderous gang.

KNOWLEDGE. Things comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs. It is excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers, and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance. Syrup of Figs for sale by all druggists and purveyors of groceries. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

THE ONWARD MARCH OF CONSUMPTION is stopped short by Dr. Pierce's Golden Medical Discovery. Always, you have a better, sweeter, more reliable, more complete recovery and cure. In these scrofulous conditions of the blood which invite Consumption; in severe, lingering Coughs, and Weak Lungs, which threaten you with Phthisis, Consumption, and other fatal diseases, when other help has failed—this medicine is a proved remedy.

Blood-chasers, strength-restorers, and flesh-builders, nothing like it is known to medicine. The "Discovery" far surpasses any Cod Liver Oil and its oily compounds as a flesh-builder for those reduced in weight below a healthy standard. It is guaranteed, as no other medicine is, that it will cure Bronchitis, Throat, and Lung affections, and in every disease that can be reached through the blood, if it ever fails to benefit or cure, you have your money back.

Prompt relief and a permanent cure for your Catarrh, will certainly follow the use of Dr. Pierce's Catarrh Remedy. It will pay \$50 reward for any incurable case.

declaring that he would resign his seat in order that he might act independently. LONDON, June 23.—The matter of the documents that the Paris organ Cocarde alleged to have been sent to the British embassy in Paris came up in the commons this evening. The parliamentary secretary of the foreign office declared that no documents had been stolen, and added that those read by M. Millevoye in the French chamber were forgeries.

PARIS, June 23.—The report of the committee of inquiry into the Panama scandal was presented in the chamber today. It excoriates M. Floquet and Deferey, and proposes to strip the latter of his 100 deputies were bought with Panama money.

THE CHICAGO DERBY. CHICAGO, June 23.—The great American Derby, three times the length of the British Derby, was held at the world's fair, and valued to the winner at \$50,000, will be run tomorrow at Washington park. Tonight seventeen horses are named as likely to start. The indications are for showers, and should there be a heavy track a horse race is not likely to go to the post. Following are the owners, horses and jockeys, with anticipated betting at the opening tomorrow. Lookout and Boundless will carry the bulk of the western money, and Clifford the rest of it.

BASEBALL. AT CLEVELAND. Cleveland..... 4 0 0 4 3 0 12-13 Pittsburgh..... 1 4 2 0 1 0 0 2-13 Baseballs—Cleveland, 17; Pittsburgh, 17. Errors—Cleveland, 3; Pittsburgh, 9. Batters—Cleveland, 24; Pittsburgh, 24. At Boston. No game; wet grounds. AT PHILADELPHIA. Philadelphia..... 0 0 0 0 1 0 13-5 New York..... 1 0 0 0 0 0 5-11 Baseballs—Philadelphia, 7; New York, 12. Errors—Philadelphia, 1; New York, 2. Batters—Philadelphia, 24; New York, 24.

AT CHICAGO. No game scheduled. A VALUABLE REMEDY. BRANKETT'S PILLS purify the blood, stimulate the liver, strengthen the kidneys, regulate the bowels. They were introduced in the United States in 1853. Since that time over sixty millions of boxes of BRANKETT'S PILLS have been used. This, together with thousands of convincing testimonials from all parts of the world, is positive evidence of their value. BRANKETT'S PILLS are perfectly reliable, absolutely harmless, and safe to take at any time.

THE WORLD'S FAIR. CHICAGO, June 23.—At a meeting last night of those having in charge the Methodist exhibit at the world's fair, it was decided not to withdraw the exhibit. The exhibit, however, will be covered with canvas on Saturdays, and all members of the fair will be asked to help in the work. There will be preaching at the fair grounds on Sunday afternoon by Rev. Dr. J. J. Thomas of Chicago. He is the noted pastor of the Central Christian church, and services will be held in festival hall. An elaborate musical program will be given. It is expected that 1,000 seats in the hall will be all occupied. The weather was beautifully clear and deliciously cool today. As a result thousands of visitors made early application for seats at the world's fair. So great was the number of people passing through the gates during the morning that the officials anticipated an attendance for the day of fully 200,000.

The exposition officials have joined hands with the United States Christian Missionary Society of the Central Christian church, and propose to make the 24th of July one of the events of the nineteenth century. Neither money, science nor skill will be given. The committee on arrangements says that the night display will surpass anything ever before attempted in this country. The attendance today was 169,000.

man is a Democrat, why was it necessary for him to go before a meeting of the populists and say: "I come before you today under rather embarrassing circumstances. I anxiously depicted on every face, but I come before you as I came before election. I have not changed. I got a letter from the congressmen, requesting me to send him certain facts regarding myself to go into the Directory. I tossed the document aside and made no reply, but when the Directory came it had me down as a Democrat. I suppose the clerk must have got his information from the 'Pittsburg Courier' and under his guidance, and in whose behalf he claimed title to consideration in matters of appointment under a Democratic administration. Mr. Hudson went before the populist convention that nominated him and said that he had left the Democratic party for good, making the campaign on the issue that both the old parties were corrupt, but since his election to congress he says: 'I stand where I stood before, and the election of Mr. Hudson appears as having reaffirmed his allegiance to the fortunes of the People's party.'

THE CHEROKEE INTRUDERS. WASHINGTON, June 23.—The board appointed by Secretary Smith to appraise the value of the improvements of the intruders on the homesteads, the populist agitation is expected to get to work by the middle of next month. There has been some delay in the matter of the disbursing agent of the board getting his bond prepared. The disbursing agent, Peter Perrot of Indianapolis, mailed his bond in the mail, but it was lost. After some days the department notified him that he should send it in his hand, when he replied that he had mailed it long ago, and some investigation was concluded that it was in a batch of mail that was destroyed on the road, and he was informed that the department could accept the bond if it was not a duplicate of the one he had better try and get up another one. He prepared a second and took the case to the office, but it was lost again. He is also the disbursing agent, and will get something extra for his services in this regard.

In the meantime, the department is preparing the instructions. They are rather voluminous and take in the whole matter of the Cherokee intruders. The board will be instructed by the department to visit the homesteads and personally examine all the improvements and estimate their value, and, having done that, enter it in the records. If, after all the intruders have been visited, it is estimated that the total amount to more than \$250,000, the board is instructed to cut all the allotments proportionately so that the whole will come within the amount appropriated. It was expressed wish of congress to allow only that amount for all the improvements. This was the compromise first proposed by congress. It does not matter if the improvements of all the intruders amount to double the amount allowed by congress, they only get the amount allowed, and they will get that proportionately. There is a general belief, based upon the claims of the intruders before the senate and house committees, that the improvements of the intruders will amount to very much more than the sum of \$250,000. In fact the Cherokee delegates claim to include the improvements of the intruders all at a fair valuation, but they insisted that the intruders should suffer financially to some extent, and that the improvements of the intruders should be paid for by the government. The department's instructions will direct the board to take the advice of the Cherokee and to give the intruders. There is a general desire to avoid being an intruder, and to settle this question the sooner the better. It is expected that there will be a good deal of trouble in getting the board settled, but it is believed that the board will be able to do its duty.

THE FRENCH SCANDAL MILD. PARIS, June 23.—Dr. Charcot and Dr. Barraud, the eminent French physicians who were sent to Bourneville, Eng., to ascertain the exact condition of Cornelia Herz, whose extradition to the French government requested of Great Britain because of her connection with the Panama scandal, have made a report which agrees with the statements of the English physicians, to the effect that the condition of M. Herz is such that his extradition is an impossibility. The facts were stated in the chamber of deputies yesterday.

M. Millevoye asked several questions concerning the extradition of M. Herz and the documents alleged to have been stolen from a strong box at the British embassy. M. Barraud stated that he had seen the text of several other documents in respect to negotiations with Mr. Austin Lee, second secretary of the British embassy in Paris, all of which bore the date of April 2. M. Millevoye started in to read one of the documents. He got as far as the name of the chamber, when M. Barraud interrupted him and begged the president of the chamber to consider the matter an international question. Baron de Merly suggested that the chamber resolve itself into a secret committee to read the documents, but the suggestion was voted down.

M. Millevoye further accused M. Clemenceau of delivering to England private letters that had passed between M. Ribot, late prime minister, and minister of foreign affairs, and the French minister to Egypt, and between M. Ribot and the French ambassador at Constantinople. He produced a list of names of the papers, and the papers which he had produced, and the amount of money given as bribes. He read, and an uproar broke out in the chamber.

"Temp, 30,000 francs; Le Matin, 30,000 francs; Le Jour, 55,000 francs; Rochefort, 80,000 francs; Clemenceau, 50,000 francs." At this point the uproar and confusion in the chamber became tremendous. The members of the Extreme Left arose from their seats and demanded that M. Millevoye leave the chamber. M. Millevoye, however, stood his ground and when a semblance of order again was restored, he said: "The whole thing is a scandal. Barraud received 50,000 francs."

M. Barraud sprang from his seat and exclaimed: "I expect the chamber to vote my honor." M. Clemenceau and all the members of the party of the Extreme Left again arose from their seats and booed. After a time they insisted that the rest of the paper be read. M. Millevoye again started to read, but M. Barraud, who is a French socialist, stated that he could not listen to him, and would resign his seat rather than do so.

The order was then moved to the effect that the chamber condemn the documents as spurious, and regret the time that had been wasted in reading them. This was presented. This was adopted by a practically unanimous vote, only four members voting against it while 49 voted in favor of it.

M. De Ronelle retired to a committee room, where he spent a lengthy period, and returned to the chamber most indignant. M. Millevoye left the chamber, saying:

THE COUNTY FAIR. affords an excellent opportunity for the pick-pocket to get away with his ill-gotten gains. If you would be protected against his skill, be sure that the bow or rim is a

Jas. Boss Filled Watch Cases, which are made of two plates of gold soldered to a plate of composition metal. Look equally as well as solid gold cases, and cost about half as much.

Guaranteed to wear 20 years. Always look for this trade mark. None genuine without it. Sold only through watch dealers. Ask any jeweler for pamphlet or send to the manufacturers.

Keystone Watch Case Co., PHILADELPHIA.

WASHINGTON, June 23.—The Star this evening has a long interview with Secretary Morton on the subject of the populist movement and the financial question. The secretary expresses the opinion that the populist party is in process of disintegration, and that the Democratic party, being committed to policies not in accord with the teachings of the populists, cannot have an alliance with them.
