The savings of the people are seeking investment that will bring quick and sure returns. Some things look good and yet you are in doubt as to the benefits directly coming. This doubt we want to remove entirely. We are going to give you values this week that will show a clear saving to you of a good portion of the money you intended to spend. Read the store news on this page, then look at the goods, and if we don't get a portion of your ready Cash we'll go out of business.

WILL YOU BUY 20 Thousand Dollars Worth of Dry Goods for 10 Thousand Dollars This Week?

This is the amount we want to sell you; and this is about the way we want to sell it. Yes we know you see such statements in the papers almost every day; but we don't make them but seldom and when we do they are about as we state. Every bargain we mention will be on sale here tomorrow morning, and hundreds of bargains we don't mention. There won't be any strings tied to them, and no signs "Keep off the Grass."
