

CAME FROM ABROAD

WHEAT GETS STRENGTH ENOUGH TO GAIN A WHOLE CENT.

Better Cables and Buying at the Seaboard for the Foreign Demand Responsible for the Access of Energy Corn and Oats Catch the Prevailing Buoyancy and Gain Something Worth While—Receipts at Chicago and at Northwestern and Primary Markets are Light—Provisions Firm, Dull and Higher.

Chicago, Feb. 5.—Wheat turned viciously on the bears and short sellers today, gaining 1 cent for May. The strength came from better cables and reported purchases by foreigners at the seaboard. May corn closed 5/8 cent higher, May oats 1/2 cent higher and provisions at advances. May wheat, which closed yesterday with sellers at 52 1/2 cents was wanted at the opening this morning at 53 to 53 1/2 cents. It rose to 53 1/2 cents, but could not get higher for an hour. Later, after selling down again to 52 1/2 cents, it advanced to 52 3/4 cents, and after another slight reaction it rose to 53 cents, and was bringing the latter price about 1:30 o'clock. The Chicago receipts were 22 cars, against 11 cars a year ago, and Minneapolis and Duluth together reported 16 cars, compared with 33 last year. The total amount received at primary markets was 53,000 bushels, compared with 79,000 bushels on Tuesday a week ago, and with 92,000 bushels on the corresponding day last year. A most significant feature of the receipts at winter wheat points was that not a bushel was received at St. Louis and St. Paul, where there were 54,000 bushels. The export clearance from the Atlantic ports comprised 250,000 bushels of wheat and the equivalent of 15,000 bushels in the shape of mastic movement, against 200,000 bushels of wheat and 15,000 bushels of mastic movement last year. The foreign orders to buy were, however, the most potent agents of the strength displayed. New arrivals and acceptances of cable orders made yesterday from London, which were for 100,000 bushels, and the limit set on Saturday last. Firm with upward tendency, was the general tone of the market. Paris quoted a moderate advance in remote futures of flour, with wheat unchanged, while in London, wheat was in June wheat and no change in nearby futures. The buying here was fair and May closed at 52 1/2 cents, and closed at 52 1/2 cents. The corn market started without any bias in either direction. It soon, however, began to develop considerable strength, and in the end led the advance in the grain markets. Receipts show a tendency to run up, with indications of anxiety among the shorts on that account. The cash demand was good, both local consumers and foreign buyers and shippers. Receipts today were 25 cars, tomorrow's estimates are only 10, and primary markets reported only 100,000 bushels on the corresponding day of the week before. The market was active at 42 1/2 cents, sparingly, but more freely than in the morning, and readily upward to 44 cents and closed there. Oats participated in the general firmness and fluctuating price, principally influenced by the higher price in the other markets. A fair business was transacted. The market for provisions offered in the cash market than could be quickly consumed, and with strength in the primary markets, it tended quickly to the speculative range. The stocks of contract grain in Chicago and other markets were in a moderate range since last week, and this was credited with assisting the advance. May wheat from 2 1/2 to 2 3/4 cents, and closed at 2 1/2 cents. The provision market was firm but dull. The receipts of corn, 18,000 bushels, 75,000 as estimated, gave the market a lift at the opening, and the bullishness of the grain market was advanced in a quiet but determined way during the remainder of the session. May pork, which closed at 10 1/2 cents, and ribs closed with 5 1/2 cents each. Estimated receipts for tomorrow: Lard, 22 cars; corn, 109, oats, 107, hogs, 24,000 head.

Chicago Markets. The leading futures ranged as follows: Articles. Open's High's Low's Close's. No. 2, 50 50 49 50 50 1/2. May 50 50 49 50 50 1/2. July 50 50 49 50 50 1/2. No. 2, 40 40 39 40 40 1/2. July 10 10 9 10 10 1/2. Cattle—Receipts, 1,500. Both killers and shippers were after supply and the market was active. The market for feeders was active and strong. Hogs—Receipts, 5,500. Packers all wanted, and under the influence of a good demand on the market, the market here was active at a little stronger price. The sales would have been scattered, but the market was active and strong. Sheep—Receipts, 4,500. Cattle, 4,500; calves, 400; hogs, 19,000; sheep, 10,000.

TIRED OF WAITING

LOND ISSUE IS A VERY LONG TIME MATTERIALIZING.

While the Administration is Waiting Till It Gets Ready the Stock Market Sits Down to Rest—American Securities Unsettled in London on the Same Account—Market Slides Slowly but Surely from the Opening, Save for One Trifling Reaction, Until Just Before Closing—Bonds Quiet.

New York, Feb. 5.—As a result of today's trading on the London market, the majority of the shares dealt in show declines ranging from 1/4 per cent to 2/3 per cent, the heaviest loss being in Coda guaranteed. There was no special activity in the market at any time, but the speculation here came utterly stagnant in the half hour immediately preceding and following delivery hour. In the early dealings London was quite a good deal higher than the American securities in London market unsettled owing to a feeling of uncertainty as to the issue of the expected United States government loan. At the opening there were fractional recessions in the general list and with a very few exceptions, prices immediately moved downward. The market was generally steady, but the depression continued in full force for half an hour, when an improvement set in, which was mostly fractional, except for an advance of 2 per cent in Alton and Terre Haute. The higher figures were noted in the afternoon. The 10 o'clock prices again took a downward turn, the declining tendency continuing until about 1:30, when a recovery materialized into stagnancy and during the half hour following, no changes of importance were noted. The market was again changed hands. During the last fifteen minutes of trading, a strong uptick in the general list, while the Rubber stock was a little higher, was noted. The principal losses on yesterday's closing sales are Colgate guaranteed, 2 1/2 per cent; Coda guaranteed, 2 1/2 per cent; Delaware, Lackawanna and Western preferred, 1 per cent; Chicago and North Western preferred, 1 per cent; Pacific Mail, Central Pacific and Wheeling and Lake Erie preferred, 1 per cent; Paul and Omaha, Louisville and Nashville, 3/4 per cent, and the Grangers, 3/4 per cent. The highest figures of the day are United States Rubber, 1 1/2 per cent; United States Steel, 1 1/2 per cent; Edison Electric of New York, 1 per cent. Distilling of New York, 1 per cent. The market was firm to strong.

Some Sensible Hints as to How to Become So. Neatness is an attribute indispensable, and one that tells its own tale, and should be observed in the dining room above all other places. Plain, neat clothing should be worn. The hair should be arranged as plainly as possible. A maid should always be well dressed, and a groom, and her shoes should be such as to render her walking as near noiseless as possible. A few rules essential to one who has the care of the dining room are given. A waiting maid should not make her appearance in the dining room until after the guests are seated. Napkins should always be folded as simply as possible. Fanatical shapes suggest the hotel and restaurant. Always place tumblers to the right, and fill only three-quarters full. In setting the table the lines of the fork should be turned up and the sharp edge of the knife blade toward the plate, placing the fork next the plate. Place the cup containing coffee at the right of each person; offer sugar and cream at the left. Always in offering anything to a guest go to the left, allowing the person served to use the right hand. Any dish from which a person helps himself must be offered at the left. Those from which the maid serves must be placed at the right. Everything relating to one course must be removed before serving another course. Always go to the right of each person to remove the dishes. The waiting maid must be responsible for the proper heating of dishes before they are brought to the table. Except in case of accident which she can not remedy, a maid should never speak to the hostess, who should be looked upon as a guest at her own table for the time being, and treated accordingly. A maid who is watchful will never permit one guest to help another in the passing of food. Avoid all appearance of haste, though one must move quickly in order to accomplish all there is to be done.—N. Y. Sun.

IT'S ALL GONE AGAIN.

Chicago, Feb. 5.—Western passenger affairs have gone to the bad all at once and are now in a worse mood than they have been in a year during the past six weeks. The Union Pacific is the cause of the difficulty and to say the least is not doing its duty. The representatives of the other lines are weary of the line in which that line acts is putting it very mild. To begin with, General Passenger Agent Lomax, of the Union Pacific announced today that the line did not intend to open the Oregon Short Line as was announced on Saturday. It was first claimed that the resolution offered by Mr. Lomax, regarding the Oregon Short Line was misunderstood by all the other lines and that in reality the Union Pacific had no intention of opening up the line. The other lines understood very positively they had not misunderstood the resolution, and the Union Pacific then claimed that it had been entrapped and that in any event it would not open up the Oregon Short Line. This announcement sent matters back with a jerk to the original position; the boycott against the Union Pacific by the Rock Island and Burlington was again declared in force and matters were worse than at the beginning, for everybody there was a war on the line. An agreement was reached less than twenty symptoms of a fight. The Union Pacific then demanded the insertion of a rule in the Union Pacific which would prevent the other lines from joining in a boycott against the Union Pacific. This was admitted that the Union Pacific was the

TOO LOW WAGES

Other Reasons Why We Get Overworked.

Depressed System is Often Badly Nourished. The more minutely all kinds of work become subdivided, the more sameness and monotonous creep into each man's labor. Day after day, day after day, in the same rut till little interest remains in the work, and the mind and body are gradually robbed of energy and healthy elasticity. Unless something is done the prolonged strain is likely to result in health failure; nervous symptoms appear, care that was once lightly cast off now sticks like burrs, slight physical exertion tires, and the end is complete prostration and breaking down of some vital organ. Business men feel this, public officials, wage-earners, housekeepers, every man and woman whose work allows little or no rest and change. At the first small beginnings of nervousness or when languid feelings do not disappear after a sound night's sleep, the prudent person should know that he or she must check this decline in health by the use of that one genuine nerve food and blood renewer, Pain's celery compound. The family physician knows its power over diseases of exhaustion and debility, and the use of that one genuine nerve food and blood renewer, Pain's celery compound. THE FIRST STAGE COACH.

It Ran Once a Month Between London and Edinburgh. The first stage coach between the two capitals, London and Edinburgh, appears to have been started in 1858. It ran once a fortnight, and the fare was 2s. The time taken to the journey is not accurately known; but by days, the coach ran between London and Edinburgh once a month only, taking a fortnight, if the weather was favorable, to the journey. In the days of stage coaches, people sometimes clubbed together and hired a post chaise for their journey, as being quicker and less expensive, and Scottish newspapers occasionally contained advertisements to the effect that a person about to proceed to London would be glad to hear of a fellow "adventurer" or two bent on the same journey, to share the expense. In 1754 a heroic effort was made to improve the London and Edinburgh coach. The Edinburgh Courier for that year contained the following advertisement: "The Edinburgh Stage-coach, for the better accommodation of passengers, will be altered to a New Gentee Two-end Glass Coach Machine, being on steel springs, exceeding light and easy, to go in ten days in summer and twelve in winter; to set out the first Tuesday in March, and continue it from Hoses Eastgate's, the Coach and Horse, in Dean street, Soho, London; and from John Somerville's, in the Canonage, Edinburgh, etc. Passengers to pay as usual. Performed, if God permits, by your dutiful servant, Hoses Eastgate."—Chamber's Journal.
