

DON'T TRADE EVEN

BALANCE IS STILL IN FAVOR OF THE OUTSIDE WORLD.

Kafir Collapse, Forcing Realization on Americans, and the Government's Hard Straits have Not Shaken the Money Markets to a Supposable Extent—In Wheat a Perplexing Element—Cotton in Excess of the World's Demand—Iron Prices Sinking—Cotton and Woolen Trade and Manufacturing—Bradstreet's Review.

New York, Nov. 15.—The following table, compiled by Bradstreet's, shows the total clearances at the principal cities and the percentage of increase or decrease, as compared with the corresponding week last year.

Table with columns: City, Clearances, Inc. Dec. New York, Chicago, Boston, Philadelphia, St. Louis, San Francisco, Baltimore, Pittsburgh, Cincinnati, Kansas City, New Orleans, Buffalo, Milwaukee, Detroit, Louisville, Minneapolis, Omaha, Providence, Houston, St. Paul, Denver, Indianapolis, Columbus, Hartford, Richmond, Washington, St. Joseph, Peoria, Memphis, Portland, Rochester, New Haven, Savannah, Springfield, Worcester, Portland, Me., Atlanta, Fort Worth, Syracuse, Des Moines, St. Paul, Minn., Seattle, Salt Lake, Wilmington, Del., Norfolk, Sioux City, Los Angeles, Tacoma, Saginaw, Mich., Spokane, Jacksonville, Lincoln, New Bedford, Birmingham, Hingham, Portsmouth, Scranton, Dayton, Dayton, Dayton.

The government monthly crop report has caused, as usual, rather more uncertainty as to its interpretation than previously existed as to crops. The cotton statement, lacking accuracy of acreage for which it is based, was only of speculative value, and the mere rumor that Mr. Neill had reduced his estimate of the crop actually weighed more than the official statement.

Wheat perplexes the oldest inhabitant. There is really little reason to expect any yield larger than last year's but western receipts, 8,202,864 bushels against 4,957,238 last year, do not mean security of wheat. Probably it is true that the attempt to induce farmers to keep back their wheat in July has ended, as usual, in much bigger sales at lower prices in November, and prices have now declined so far as to be the first time in many months, Atlantic exports exceed those of a year ago, having been for two weeks (four included) 2,549,284 bushels against 2,155,111 last year.

Corn is scarcely lower, but without the aid of the government report all know that the supply will largely exceed all home and foreign demands.

The output of pig iron November 15 was 247,366 tons weekly, about 10 per cent larger than ever before, and a continuance of the same production for six weeks more would make the half year's output 1,236,830 tons more, about 450,000 tons greater than in any other half year.

The demand for products of iron and steel falls off, but the heavy iron and steel industry has closed or reduced work or wages on account of lack of orders, prices are sinking, having declined 2 1/2 per cent in the last week and 4 per cent from the highest point.

For the past week failures have been 253 in the United States against 270 last year and 49 in Canada against 23 last year.

BRADSTREET'S TRADE REVIEW New York, Nov. 15.—Bradstreet's tomorrow will say: The condition of general trade continues irregular and without material change. There is a distinct falling off in demand for iron and steel, with perhaps the heaviest reaction in quotations in those lines reported in any week since the late boom in those metals reached its climax.

Total exports of wheat (fourth included) of which from both coasts of the United States and Montreal this week aggregate 3,325,000 bushels, the largest weekly total this year since the middle of January. Last week the total was 2,559,000 bushels, 12 per cent over the ago it was 2,959,000, two years ago 2,645,000 while in the second week of November 1892, corresponding exports amounted to 3,450,000, total exports of Indian corn from both coasts of the United States this week amount to 1,812,000, 50 per cent more than last week and the largest weekly total of exports of corn since the third week of April 1894.

There are 273 business failures reported throughout the United States this week.

conditions

In some conditions the gain from the use of Scott's Emulsion of cod-liver oil is rapid. For this reason we put up a 3oz. size, which is enough for an ordinary cough or cold or useful as a trial for babies and children. In other conditions gain must be slow, sometimes almost imperceptible, health can't be built up in a day. For this Scott's Emulsion must be taken as nourishment, food rather than medicine, food prepared for tired and weak digestions.

AFFECTED BY MANY

INFLUENCES ON THE STOCK MARKET ARE NOT FAVORABLE

Not Unexpected, and Therefore Might have Been Discounted—Revival of Sales of Americans for the Foreign Account Comes as a Surprise, in View of the Improved Situation Abroad—Gold Exports, Just as were Expected—Reading, Sugar and Sole Leather—Final Prices Show Fractional Net Declines—Bonds Light.

New York, Nov. 15.—The stock market today was unfavorably affected by a variety of influences, none of which were unexpected, and whose effect might therefore be regarded as discounting the expectation of a revival of sales of our securities for the foreign account. This last development had not been generally figured upon, as the street hoped for support in this market from abroad, owing to the alleged more favorable turn in the foreign financial situation.

The market opened quiet and at slight declines, but a moderate rally soon ensued which for a time proved superior to the announcement of the engagement of the Reading railway and the industry of gold movements. The effect of the news, however, was noted in a decreased volume of trading. Eventually it was the steady decline in the price of gold, resulting in a lower range of prices generally. Tobacco was the chief sufferer, yielding 3 per cent to 3 1/2 per cent.

Other conspicuously weak stocks were leather, paper, iron, steel, and miscellaneous. In Tennessee Coal and Reading, in Ovals of comparative steadiness occurred in the afternoon speculation, but in a broad way a yielding tendency was noticeable. The market closed at slight recoveries, generally from low points. The final prices show fractional net declines in most cases.

There was but slight animation in the trading in railway and miscellaneous bonds, the dealings aggregating \$919,000 only, the smallest total of transactions recorded for a long time past.

The general market looked firm as regards the recovery of the market, but in some of the usually inactive bonds, sharp concession were noted, the more important of which are: St. Paul, Minneapolis and Northern Pacific 1 1/2 per cent; Missouri Pacific 1 1/2 per cent; Pennsylvania 4 1/2, 2 per cent; Rochester and Pittsburgh consols and Reading third income 1 1/2 per cent; Reading first and Washab debentures, series B, 1 1/2 per cent; Louisville and Nashville unified four and Northwestern debenture fives of 1909, 1 per cent.

Advances: Oregon Short Line sixes and Central Pacific sixes of '96, 1 1/2 per cent; Oregon Short Line sixes of '97, and Wheeling and Lake Erie firsts 1 1/2 per cent, and Denver and Rio Grande firsts, Detroit and M. land grants and Northern Pacific terminal firsts 1 per cent.

London, Nov. 15.—The operators on the stock exchange breathed freer today, now that settlement is over. Only one failure was announced, and the foreign bourses are in normal condition.

New York, Nov. 15.—Lazard Freres will ship \$1,250,000 of gold by tomorrow's steamer. Von Hoffman & Co. will ship \$1,000,000 of gold by tomorrow's steamer.

Washington, Nov. 15.—The withdrawal today of \$1,250,000 in gold for export from the sub-treasury at New York leaves the true amount of the gold reserve at \$91,511,000.

BRADSTREET'S STOCK REVIEW New York, Nov. 15.—Bradstreet's Financial Review tomorrow will say: The signs of improvement which appeared at the close of last week have borne fruit. A moderate advance in prices is seen in the following days, and a decidedly better feeling asserted itself in speculative circles.

The export of \$1,000,000 on Tuesday seems to have been previously discounted, but the absence of a panic in the Kafir settlement at London, were factors in causing a more healthy tone to assert itself here.

Europe, indeed, repurchased some stocks, particularly St. Paul and Louisville, but the transactions represented a change of position by bears, and in no way indicate that the difference with which London regards "Kafir rails" has been changed. Indeed, the 3 1/2 per cent Erie 4 per cent, and the Philadelphia market, and a rally there ensued, which had an influence in the tone of our market.

DEY GOODS MARKET New York, Nov. 15.—There has been an irregular demand for colored and staple cottons that in the aggregate took a fair quantity of goods for current wants. The manufacturing trade have done considerable in staple prints, domestics and other stuffs suitable for waists, wrappers, etc. In a general sense the market was quiet. For printing cloths the market was quiet and quotations at 15-18.
