

TRIAL OF ROSENBAUM

Has Been Postponed From Monday to Wednesday.

LETTER WILL BE PUT IN

Which is Alleged to Show the General's Complicity.

Guthrie, O. T., March 18.—(Special)—The date of the court of inquiry to hear evidence wherein Adjutant-General P. C. Rosenbaum is charged with knowing something of the signing of Colonel Stiles at the local depot last December has been changed from Monday, March 22, to Wednesday, March 23. The prosecution will use the subpoenaed letter as a portion of much evidence in connecting Rosenbaum with the disgraceful performance. Stiles and Douglas were together when the eggs were thrown.

"Guthrie, O. T., Dec. 27, 1897. "Captain MacGregor Douglas, Oklahoma City, O. T.

"Dear Captain—I do not remember whether or not I expressed to you as fully as I intended my regrets at the deplorable circumstances which occurred here on the night of the 22nd instant. I did not, I wish to do so now, and especially with reference to your being concerned in the matter. I regret and feel very bad about the affair, principally on account of the fact that Colonel Stiles was an applicant for the position which I now hold, and for the further reason that since I have been in office my ideas of duty and of right have frequently compelled me to adopt views opposite to those of Colonel Stiles. If it can be any comfort to you, I can truthfully state to you that nearly every officer and soldier in the national guard who lives in Guthrie has expressed to me their grief that you were accidentally and unintentionally subjected to the treatment which you received. For I, and every member of the national guard, so far as I know, regard you as a meritorious officer, an honorable gentleman and an upright man. Frustrating that this finds you in good health and spirits, with kind regards to your father, I remain your friend,

"PHIL C. ROSENBAUM."

RIGHTS OF CERTAIN INDIANS

House Committee Agrees to Leave Them to the Court of Claims.

Washington, March 18.—The house committee on Indian affairs has agreed on the bill to submit to the court of claims the questions as to the status and rights of the Delaware Indians in the Cherokee nation, the Mississippi Choctaws in the Choctaw nation, the Chickasaw Freedmen in the Chickasaw nation, and the inter-married persons in all three of the nations.

DRUGGISTS OF OKLAHOMA

Will Meet in Annual Convention at Guthrie, April 13-14.

Guthrie, O. T., March 18.—(Special)—The eighth annual meeting of the Oklahoma Pharmaceutical Association will be held in Guthrie Wednesday and Thursday, April 13 and 14, concluding with a complimentary banquet to the visiting druggists. During the meeting the following program will be observed:

Convention at 1:30 p. m. Invocation, Bishop Brooks.

Address of welcome, Geo. Barnes. Response, Hon. D. A. McConnelly, Mulhall.

Reading of minutes of last meeting. Payment of dues and receiving new members.

Paper, "Uniform Association Labels," by Dr. J. B. Briggs, Ingalls, O. T.

Papers, "Practical Pharmacy," by the "Pharm." John Wand, Oklahoma City. Discussion.

Papers, "The Best Recreations for the Closely Confined Pharmacist." (A cash prize of \$10 for the best paper on the above subject.)

EVENING SESSION. Prize papers, "The Disposition of One's Time When an Apprentice, so as to Become a Well Equipped Druggist and Business Man."

(For the best paper on this subject the latest indexed edition of the United States Dispensatory is offered.)

Paper, "Successful Advertising for the Pharmacist," by F. D. Little. Discussion.

Opening of query box and report of committee on queries.

Adjournment. THURSDAY MORNING SESSION, 8 a. m. Invocation, Rev. Dibble.

Get More and You Get Less Why is it every sarsaparilla which tries to sell itself, ranges itself against Ayer's as the standard? Why is it that all have to offer extra inducements—bigger bottles, fancy wrappers, cheaper prices—anything, everything, but the one inducement of quality?

Ayer's Sarsaparilla has never been equaled by any cheap imitation of it, and quality tells, just as blood tells. It is the standard. "I have sold Ayer's Sarsaparilla for more than twenty-five years, and have never heard anything but words of praise from my customers. Not a single complaint has ever reached me. A preparation must possess great merit to maintain such a reputation. I believe your sarsaparilla to be the best blood purifier that has ever been introduced to the general public. I often hear other manufacturers say that this is good as Ayer's, but no one ever yet heard it said that Ayer's was 'as good' as any other kind. They always set Ayer's up as the standard of excellence."—S. F. Boren, Duluth, Minn.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50 cent bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N. Y.

Payment of dues and receiving new members. Secretary's report.

Report of the secretary of the Board of Pharmacy.

Reports of committees. Prize paper, "Who is the Live Druggist?"

(For the best essay on this subject a set of metric weights from 50 grains down to one centigram, and a set of measures from 32 ounces down to one ounce is offered.)

Prize paper, "Golden Seal and Cinchona." (A collection of official organic drugs for the best paper on these subjects.)

Business session. During the afternoon the convention will be entertained by a program of field sports and athletics between two teams representing the west side and east side druggists.

AFTER MANY LONG YEARS

Frisco is to be Put Through on the Original Survey.

El Reno, O. T., March 18.—(Special)—President A. A. Robinson of the Frisco, in a recent interview at Albuquerque, N. M., said: "The Frisco intends in a very short time to extend its line from Sapulpa, I. T., to Albuquerque, N. M., to make connection with the Atlantic and Pacific at that point. The Atlantic and Pacific is at present being operated by the Frisco and it is the intention of the company to have a through line from St. Louis, Mo., to San Francisco, Cal. The original Atlantic and Pacific was surveyed through Oklahoma before it was opened for settlement. The extension is being rapidly pushed from Sapulpa to Oklahoma City, and from there on through El Reno to Albuquerque. El Reno now stands on the original survey and there is no reason to doubt but what the road will be pushed along as fast as possible.

CATTLE TAX CASES

Injunction Granted in Favor of Kansas Cattlemen.

Guthrie, O. T., March 18.—(Special)—Hon. Chester L. Long, of Medicine Lodge, Kansas, is in the city on legal business. He represents a number of cattle owners who are resisting the collection of taxes on cattle brought into the territory later than March 1, 1897, and Judge Burford today granted a temporary injunction restraining the sheriff and treasurer of Woodward county from proceeding further in the collection of the taxes until the matter is heard at the May term of the district court at Woodward.

DICK PLUNKETT'S LETTER

To Governor Barnes, with St. Patrick's Day Wishes.

Guthrie, O. T., March 18.—(Special)—In distributing St. Patrick's day favors Dick Plunkett, Judge Haines' Irishman courtier, remembered Governor Barnes with a miniature of the red Irish shamrock and a sprig of the shamrock, the remembrance being accompanied by the following autograph letter:

"Newkirk, O. T., March 17. "Hon. C. M. Barnes, Guthrie, O. T.

"My Dear Governor—Please accept the harp and shamrock I send to you with my compliments, assuring you that they are from a friend and representative of the Emerald Isle. Hoping that success may attend your efforts and that the Good Lord will abolish all obstacles in your path as did St. Patrick from said Ireland, I remain your friend,

"DICK PLUNKETT."

METHODISTS AT LYONS

Sessions are of Great Interest to the Townspeople.

Lyons, Kans., March 18.—The attendance of this community upon the sessions of the conference is beyond the average of the places where the conferences are held. Last night the church was densely packed to hear addresses upon the work of the board of church extension by Bishop Cranston and Dr. M. S. Hard. One of the pleasant side features of the conference is the reunion at several hospitable tables of the present and eight of the former pastors of Lyons. In every way the people of this city seem to be trying to make the stay of the ministers among them enjoyable, and they are succeeding admirably.

The session today was largely given up to routine minute business, which was not of great public interest, but of importance to the conference. The pastors of the Wichita district as a token of their appreciation of his services as presiding officer, presented to Rev. W. J. MacIntosh, upon his retiring from the district, a handsome gold watch. When the question of choosing the place for the next session was raised Eldorado, Arkansas City and Newton were placed in nomination, and Eldorado was chosen. Miss Hunter, a deaconess from the Bethany hospital, addressed the conference in the interest of that institution.

The afternoon was given to the anniversary of the Woman's Foreign Missionary society, with an address by Rev. G.

BULLETIN OF The Wichita Daily Eagle.

Wichita, Saturday, March 19, 1898

Weather For Wichita Today: Fair; cooler; northwest winds. Sun—Rises, 6:05; Sets 6:11. Moon—Rises, 4:26.

W. Isham, a returned missionary from China, followed by the conference report by Mrs. A. V. Loose of Peabody.

This meeting was followed, as the other afternoon meetings have been, by a program of service, led by Rev. S. Brink.

At 1 o'clock today the Lyons Salt company placed a number of conveyances at the disposal of the conference and many of the members visited the salt plant and descended into the mines. The business of the conference is being dispatched smoothly and rapidly and the appointments may be ready to be announced on Saturday evening.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.—Josh. Edgar, Germantown, Cal. For sale by Druggists.

NOT TO BE DAUNTED

(Continued from First Page.)

or resentment, either as a nation or as a defender of the rights of the people of the western continent in their conflicts with the European nations, because Spain is the administration will and following the suggestion of the United States government, has granted to the people of Cuba all the liberties compatible with the historical rights of Spain over the island of Cuba, as recognized by all civilized nations, the United States included.

"Secondly, because I cannot assume that the wise statesmen who direct the policies of this great nation, which represents in an admirable manner the best of modern democracy, would put in jeopardy all its wonderful institutions by inaugurating without plausible cause, a policy of military adventures which is incompatible with any genuine republic, inasmuch as such a policy, even if attended by military success, would inevitably lead to the establishment of might—which is always an enemy of liberty—over right, which is now supreme. No, this nation, in the administration of the world, submitted to the domain of right such a grave conflict as that of the Alabama, will not renounce its own history and role in the civilized world, by making the destinies of this great people depend on the eventuality of an armed conflict without any motive or pretext."

Senor Anguilo and his Cuban colleagues probably will be presented to Secretary Sherman tomorrow, and their formal negotiations will follow thereafter.

MOVEMENTS OF THE FLEET

Reports From Key West, San Diego and the Ends of the Earth.

Key West, Fla., March 18.—The United States cruiser Montgomery arrived here this morning from Havana and the United States cruiser Detroit said this morning for the Tortugas Islands with provisions and ammunition for the fleet. From the Tortugas the Detroit will proceed to Port Tampa to load some ammunition. The government tug Samoset arrived here this morning from Philadelphia. The Morgan line steamer Arkansas arrived here this morning from Havana with Senator Money and Congressman Amos J. Cummings and William Alden Smith on board. The United States cruiser Nashville sailed for the Tortugas with Commodore Schuyler with the departure of the Detroit. The Montgomery, with the exception of the torpedoes, the only warship in the harbor. The Iowa and the New York are still lying far out.

San Diego, Cal., March 18.—Captain Whiting of the Monadnock today received orders from the secretary of the navy to proceed with the monitors Monadnock and Monterey to San Francisco. They will leave here Monday night, and will arrive in San Francisco Thursday morning.

The British ship Peaseant, which arrived here yesterday, is coaling today, and will sail Monday for Equatorial. She will probably not touch at San Francisco. Lieutenant A. F. Fechtler is in temporary command of the Monterey, Captain Louis Kempf, who is ordered to command that vessel, has just arrived.

Boston, March 18.—The United States gunboat Macchias arrived at the navy yard today. The Macchias came here from Norfolk to undergo repairs, as in the rush of work at the Norfolk yards it was found impossible to overhaul there. She recently returned from China and is in need of a thorough overhauling.

Palau, Agaña, Islands, March 18.—The United States gunboat Bancroft from Lisbon is coaling here.

Baltimore, March 18.—The new torpedo boat, Rodgers, built by the Columbian Iron works of this city, will leave here tomorrow morning for her official trial trip. The present plan is to speed her from her to Norfolk, where she will go on commission if the trial proves successful.

Colored Man to Succeed Bruce. Washington, March 18.—It is said to be probable that the president will appoint Judson C. Lyons, colored, national committee man from Georgia, register of the treasury, to succeed the late R. K. Bruce. Mr. Lyons was a candidate for postmaster of Augusta, Ga., but the white people there successfully opposed his appointment.

Mexico City, March 18.—A largely attended meeting of American citizens, called by Minister Clayton, took place tonight for the purpose of raising funds for a monument to the dead sailors of the warship Maine. Patriotic feeling ran high. The sentiment of American residents here is against accepting an indemnity for the lives of the men killed in Havana harbor.

The best spring medicine is Hood's Sarsaparilla because it purifies the blood.

Sale of the O'Biggins Denied. Valparaiso, March 18.—Patricio Lora, minister of war and navy, says: "You can emphatically deny the story of the sale of the Chilean cruiser O'Higgins or any other warship to Spain."

AGENTS WANTED

WURM'S GREAT GUM BOOK. All about Worm's Great Gum Book and how to get it. It is the best of its kind. It is a book of 100 pages, and is a great help to all who are engaged in the gum business. It is a book of 100 pages, and is a great help to all who are engaged in the gum business. It is a book of 100 pages, and is a great help to all who are engaged in the gum business.

WHAT IS THE GRIP?

It is Certainly a Most Mysterious Disease, But Its Real Cause is Clearly Explained.

Investigation has shown that nearly every family in the city has had at least one of its members attacked by the grip, but it seems to be coming in a different form this year than ever heretofore. Men and women complain more of nausea, pains in the arms, limbs and about the back and a general lack of appetite and ambition.

Now, all this proves clearly just where the cause of the grip is located. Have you ever seen a sewer or drain clogged up after a heavy rain? It is precisely this way with the grip. The kidneys get clogged up and the poisonous acids which should pass from the system are thrown back until finally they get into the blood and so poison the whole body.

Read what the eminent Dr. Hamilton has to say upon this subject: "It is clear," says he, "that in order to drive grip and similar poisons from the system it is only necessary to open up the sewers; in other words, to put the kidneys in perfect working order so that they will carry these poisons away instead of allowing them to clog up and ruin the blood, and, unfortunately, this is not altogether an easy thing to do.

"There is, so far as the medical profession and science know, but one discovery that will quickly and effectually open up the kidneys and at the same time soothe them. That discovery, which has cured so many thousands of men and women; which is keeping so many in perfect health today, and which is used so universally all the world over is Warner's Safe Cure. It is recommended and used by the highest medical authorities both abroad and in America. It can be taken by the most aged person and the tiniest child with beneficial effect, for it is perfectly pure and harmless. Prof. Beyer of Germany, Dr. Williams Edward Hobson of England and Dr. Gunn of New York are all prominent men who speak in the highest terms of this great remedy. If you have any symptoms of the grip, let me advise you to act promptly, for you will find that Safe Cure will relieve you quickly, take you from a condition of misery and put you on the road to health."

Washington, March 18.—Some idea of the activity prevailing in naval circles is given by the statement that the pay roll of the construction department, only one of several departments in the Mare Island navy yard, for March, was \$80,000. This great expenditure per month it is said, was not equalled during the late war.

It is said to be the purpose of the president and his advisers to keep separate and distinct accounts of all funds expended from the \$50,000,000 emergency appropriation made by congress for the national defense. In accordance with this intention a separate form of requisition has been prepared and all amounts allotted from the fund are made upon the direct order signed by the president himself.

"The president wants to report to congress just how every cent of this money is spent," says a member of the cabinet today, "and for this reason is adopting the course above outlined."

The amount paid for the Mayflower was about \$400,000.

Recruiting is going on apace at all stations for the army and navy. The Michigan at Erie, Pa., has enlisted fifty-five men so far, a good report comes from all quarters. The Columbia and the Minnesota are still busy with the Detroit called from that port for Tortugas. The Macchias has arrived at Boston, where she will have slight repairs made.

The ordnance bureau of the war department today awarded contracts for a large number of steel armor-plate and decentering projectiles for the coast fortification guns. There were several bidders, but instead of giving the contract to one concern, the bureau divided the contract so that supplies will be coming from several quarters at the same time.

The new naval policy embodied in the creation of another squadron to rendezvous at Hampton Roads was also discussed at the cabinet meeting at length today, and received unanimous approval.

The San Francisco reported her arrival from Lisbon at Gravesend today. Under his orders, the commander will divide the earliest possible moment for the United States conveying the new ship. Beyond the Amazonas, her sister ship, the Abreuil and the Mayflower, no purchases of ships have been made by the navy department. A number of fleet steam yachts owned in the United States are being offered to the department, and it is probable that some of these will be purchased. Secretary Long takes the view that failing to secure the torpedo boat destroyers he wants, the best plan is for him to equip some of these speedy boats with torpedo tubes and light batteries and improve torpedo boats. The navy department is convinced that the Spanish government has not acquired possession of the Varez, the Italian armored cruiser. It would not, however, be a matter of deep concern if the report were true. The department itself had the vessel in view as a possible acquisition, but abandoned the idea, upon learning that she could not be made ready for service in less than three or four months, which practically put her out of consideration as an emergency purchase.

The gunboat Newport reported her arrival by cable to the navy department from Greytown. She will bring back to the United States the Nicaragua canal commission and then will be attached at once to the North Atlantic squadron.

Hypnotic Wonders. No one need go to Paris now to see all that is marvelous in hypnotism. In the hypnotic wards of many hospitals of this country are hypnotic subjects that a mere glance, it is said, throws them into the trance state. But in order to overcome that obstinate kidney trouble, the persistent use of Hood's Stomach Bitters is necessary. Use it also systematically for malarial, bilious, dyspeptic, rheumatic and nervous diseases.

SING UP THE DEFENSE FUNDS

Engineer's Office Starts in on Its Five Millions.

Washington, March 18.—Steps have been taken by the engineers' office for the expenditure of \$5,000,000 originally allotted out of the \$10,000,000 national defense fund for the continuation of various works of fortification. Practically all of it will be devoted to the Atlantic and Gulf coasts. While the expenditure will be under the general supervision of the engineers' office at Washington, the details connected therewith, including the letting of contracts, etc., will be left to the discretion of the local engineer office.

Washington, March 18.—The war department today made another allotment for the engineering branch of the service. This consisted of \$2,950,000 and was charged against the special appropriation of \$5,000,000. It was stated at the department that the money would be expended in the carrying out of plans for the fortification of the coast already perfected and announced in the last annual report of the chief of engineers. No new fortifications will be established from this appropriation.

ARMY REORGANIZATION BILL

Is Undergoing Discussion and Amendment in Committee.

Washington, March 18.—Senator Hawley of Connecticut, said today that it was the intention to get through congress as speedily as possible the three-battalion military bill which was introduced at the suggestion of the president in both houses yesterday for strengthening the military arm of the service and providing for its increase to 240,000 men if necessary. This bill, he said, carried a small appropriation and therefore would pass the house in advance of action by the senate.

The general desire was to secure the legislation as soon as possible, and the

PAT ROLLS SHOW IT

Activity in Naval Circles Has Been Phenomenal.

M'KINLEY KEEPS COUNT

Will Show Congress Where the Defense Fund Goes.

Washington, March 18.—The army reorganization bill was taken up at the meeting of the house committee on military affairs today, and some of its provisions were discussed. The law relating to the various items and the changes brought about from the present plan were considered in detail, but there was no action on the measure, owing to the necessity for a full discussion of each provision. It was reiterated at today's meeting that while it made sweeping changes on a war footing, the bill did not contemplate an increase of twenty-five majors. A special meeting of the committee has been called for tomorrow to continue consideration of the bill.

The committee amended the reorganization bill by providing that vacancies in the grade of major shall be filled by promotion according to seniority in the infantry arm. It was also agreed to increase the number of non-commissioned officers in each infantry company by four for the better control of the large companies under the three-battalion war formation, the total number of 250 composing each company remaining, however, unchanged.

This was effected by giving, under a war footing, twelve sergeants instead of ten, and 24 privates instead of 200 in each infantry company.

NAVAL PERSONNEL BILL

Will Be Urged Only After the Naval Appropriation Bill.

Washington, March 18.—By request of Secretary Long, the issue as to the enactment into law of the naval personnel bill will not be precipitated until the naval appropriation bill is passed by the house. This change of view of the administration was communicated to the house committee on naval affairs today by Assistant Secretary of the Navy Roosevelt, who appeared before the committee at the request of Secretary Long.

Secretary Roosevelt went to the capitol to express protest, under Secretary Long's direction, to urge the incorporation of the entire personnel bill in the appropriation bill. He had a brief personal interview with Chairman Boutwell, and previous to Mr. Roosevelt's appearance before the committee the two had a talk with Speaker Reed that lasted an hour and a half. The speaker informed them that the bill as an amendment would be subject to a point of order, and after some further discussion as to securing a rule later on, Mr. Roosevelt and Mr. Boutwell returned to the committee, where the latter advised against putting any portion of the personnel bill in the appropriation measure.

Some days ago Secretary Long, Captain Cromwell and some of the other naval chiefs had a hearing before the committee in which the secretary stated that he would be glad to have the entire personnel bill put in as a part of the appropriation bill. Failing in that, there were certain features of that measure for which the necessity is great, which he wanted inserted now.

He subsequently submitted to the committee a formal provision containing the items deemed necessary at this time and which he had verbally recommended. These were to provide on the appropriation bill for the authority of the following: Omission of two years' cruising comprising a third of the course of training of the naval cadets at Annapolis, and allowing cadets graduating from the Annapolis academy to be commissioned in service without the final two years of the course, second, changing the title of the cadet to a midshipman; third, increasing the engineer corps by 100 selected machinists; fourth, increasing the number of assistant paymasters by fifteen, and fifth, adding twenty acting assistant engineers.

Washington, March 18.—The war department today made another allotment for the engineering branch of the service. This consisted of \$2,950,000 and was charged against the special appropriation of \$5,000,000. It was stated at the department that the money would be expended in the carrying out of plans for the fortification of the coast already perfected and announced in the last annual report of the chief of engineers. No new fortifications will be established from this appropriation.

A Woman's Heart.

The wife of a clergyman tells the story of her suffering with neuralgia of the heart, with the hope that her experience may indicate to others the way to regain health.

Few bodily afflictions are more terrible than heart disease. To live in constant dread and expectation of death, sudden, instant death, with last farewells unspoken, is for most people more awful to contemplate than the most severe lingering illness.

The slightest excitement brings great suffering and danger to people so afflicted.

Such was the experience of the wife of a well-known clergyman. She tells her story for the sake of doing good to others.

"I feel," she said, speaking carefully and weighing her words, "that Dr. Williams' Pink Pills for Pale People relieved me of a lifetime of sickness and sorrow, and I cheerfully recommend them."

This grateful woman is Mrs. Wamsley, wife of the Rev. C. E. Wamsley, who lives on West Sheridan Street, Greenburg, Ind. She continued:

"My heart became affected after the birth of my youngest child, about six years ago.

"The pain was constant. Frequently it grew so severe I would be forced to cry out. I could not endure any excitement.

"It would increase the pain so I would scream and fall down in a state of collapse. In this condition I was helpless.

"These spells would come on me at home, in the street, or anywhere I might be. I could not sleep at night. I ate very little.

"Different doctors were called in. They said I had neuralgia of the heart, resulting from nervous prostration.

"The doctor treated me, but the relief they gave did not last.

"I was a physical wreck, with my eye fall on an item in the local paper describing how Mrs. Evans, of West End, had been cured by Dr. Williams' Pink Pills for Pale People. Her suffering was like mine.

"I hope other sufferers who read this account will have the faith I had when I read of Mrs. Evans.

"My husband bought me one box of the pills. The change they made in my condition was encouraging. I took another box; then bought six more boxes.

"All the time I gained in health, strength, hope, nerve force—steadily, surely!

"Before I finished the eighth box I ceased the treatment. I felt perfectly well, and the doctor said I was entirely cured."

To add weight to her story Mrs. Wamsley made affidavit to its truth before John F. Russell, a Notary Public of Greenburg, Ind.

Neuralgia of the heart is only one of many serious evils that grow out of derangements of the nervous system or of the blood. The remedy that expels impurities from the blood and supplies the necessary materials for rapidly rebuilding wasted tissues reaches the root of many serious diseases.

It is these virtues that have given Dr. Williams' Pink Pills for Pale People their wonderful curative powers in diseases that at first glance seem widely different.

This famous remedy is for sale by all druggists for 50 cents a box; or six boxes for \$2.50.

A Woman's Heart.

The wife of a clergyman tells the story of her suffering with neuralgia of the heart, with the hope that her experience may indicate to others the way to regain health.

Few bodily afflictions are more terrible than heart disease. To live in constant dread and expectation of death, sudden, instant death, with last farewells unspoken, is for
