

ARE AFTER BURTON

Gang That Toler Vanquished Says Democratic Chairman

IS CUTTING THE TICKET

Plan to Get Burton Out of the Way as Chairman.

If an explosion doesn't take place in the Populist headquarters some time during the coming week a good many people will miss their guess. Such a tangle of motives and animosities is likely to go off any time and a row in the Populist headquarters is almost sure to come.

Captain Shields and Lew Butterfield were yesterday so blissfully frustrated with their leader, Colonel Toler's recognition and vindication by Governor Leidy that they could hardly settle back to work again.

But that isn't the trouble. Colonel Toler's triumph was so complete that his opposition hasn't even squeaked in defiance. They have bowed their neck, and now acknowledge that the letter to Leidy prescribing Colonel Toler was a fearful mistake.

But they have picked a new victim. Colonel Toler was too hard. Their new victim is said to be James Burton, one of the most popular Democrats in this city, and a powerful one, too.

The claim is made by the gang that James Burton has been tampered with, tampered with in the most delicate and to the whole ticket, and that he is fighting part of the ticket, and that by fighting part of the ticket he is weakening all of it.

The trouble came about by Deacon Wilson issuing a statement that he had worked for Burton when Burton was running for county clerk.

Mr. Burton at once came back in a statement. The statement denied that Wilson had worked for Burton and concluded as follows: "This statement I make in the interest of justice, as I understand that Mr. Wilson is circulating the report that I am working for him, and do not think he assisted in my defeat last fall."

The gang says this is a scandalous statement for the chairman of the county central committee to make. Of course it is astounding on the whole ticket, and the gang, it was said, go to work and force Burton out of the chairmanship.

It is a profound secret, but leaked out nevertheless. But the real point in the case has not leaked out, and that is how the gang plans to force Burton out of the chairmanship.

The Populist central committee might meet for the purpose of demanding from the Democratic central committee the immediate resignation of Mr. Burton, but it would have to be called together and Frank Nicholson and Lew Butterfield would have to call it, and as Butterfield is Burton's friend, he would flatly refuse to do anything of the kind.

Of course the Democratic central committee might be called together to ask Mr. Burton to resign, but Mr. Burton himself would have to call it, and of course he would do nothing of the kind. But the gang has some scheme for doing up Mr. Burton, and their idea contemplates him in his capacity as chairman of the county committee. Their plan and process of ousting him is their own secret.

It will probably fall as flat as the attempted proscription of Colonel Toler, and the next attempt to knock Rufe Fone off the state central committee.

Seventy-two Spaniards Die Enroute From Cuba. A Spanish steamer, Captain De Champs, from Havana on October 12, via Gibraltar for Cadiz, with repatriated Spanish troops on board, has arrived here. There were seventy-two deaths on board the vessel during the voyage.

Washington, Oct. 29.—Today's statement of the condition of the treasury shows: Available cash balance, \$22,367,211; gold reserve, \$10,829,011.

THIS REPRESENTS DR. TERRELL'S X RAY MACHINE IN USE.

The X Ray Machine enables us to make a correct diagnosis in the most complicated diseases. All patients coming to our office have the benefit of the X Ray examination. In many cases it is the only diagnosis many times is the secret of success in curing diseases.

MUSIC AND DRAMA.

UNCLE TOM. Uncle Tom, the best known drama in the world, was presented to a large house last night by Davis & Busby's Uncle Tom's Cabin company.

They played to the largest matinee house that has been at the Crawford Grand for three years, over five hundred children being present. The orchestra carried by this company is an improvement over the usual Tow show orchestra, and the band also being very good. Mr. Nickleson, who is one of the best cornetists in the United States, played an excellent solo and was splendidly applauded. Clyde Baiza, as Marks, was also very clever. The rest of the company was fair and the specialties were appreciated by the audience.

REV. LEWIS LECTURE. The lecture of the Rev. J. J. Lewis on "The Passion Play" is in itself a most interesting one and when accompanied as it is by 109 of the finest views ever given by a spectrograph it is no wonder that it has been the most successful of any lecture ever presented. The following is a partial synopsis of the views: Munich—Classic Athens restored.—The Carolingian Platz.—"Beautiful" Starnberg.—Lake Starnberg—Views in the Valley of Leach—Obersee.—The Mountain Road to Obersee.—Rita, Monasterio, Oberammergau.—The Parish Church.—Scenes in the Village.—The Homes of Lang (Calaphas), Ruml (St. John), and Moler (The Christus).—Going to the Drama.—The Auditorium.—Rosa Lang (The Madonna)—Moler (The Christus)—Ruml (St. John).—Opening Tableau.—Adam and Eve Driven from Paradise.—Entry into Jerusalem.—Expelling the Traders from the Temple.—Mary and Martha.—Mary Magdalene.—The Lament of the Bride (Tableau).—The Final Departure from Bethany.—The Farewell of Jesus and Mary.—Preparing for the Passover.—Portraits of the Apostles.—The Last Supper.—The Midnight Prayer.—"Could you not watch with Me one hour?"—The Judas Kiss.—Before Annas.—The Sanhedrin in Council.—Cainphas.—Nicoodemus.—Joseph of Arimathea.—Despair of Cain (Tableau).—Judas Pleading for Jesus' Life.—Before Pilate.—Before Herod.—Jesus Bound.—Barabbas.—Abraham's Sacrifice (Tableau).—The Crowning with Thorns.—"Ecce Homo."—Simon of Cyrene.—Bearing the Cross.—St. Veronica.—The Israelites Healed by the Uplifted Serpent (Tableau).—The Elevation of the Cross.—The Last Words.—The Death of Jesus.—The Descent from the Cross.—In the Arms of Mary.—At the Sepulchre.—The Resurrection.—The Message to Peter.—The Ascension.—The Heavenly Kingdom.

This is the second number in the Hospital Lecture course and will be given at the Crawford Grand on Saturday, Nov. 12.

This lecture besides being a popular one has been endorsed by clergymen of all denominations. The following is from Topeka: "I recommend most heartily Rev. Mr. Lewis' lecture on the Passion Play. The play is the most interesting and profitable thing that can be presented, and Mr. Lewis' presentation of it was regarded by us as a rare opportunity."

"THE GAY MATINEE GIRL." At last that bright, witty, neat, young person known as "the matinee girl" is to receive respectful, just and jolly treatment on the stage, for she is to be seen there in all her innocence and gaiety, in all her dreamy and sweet country, and in all her loveliness, but with her delightful good sense also brought to the front. Such a combination must prove irresistible, and that well known director of high class attractions, Edwin P. Hilton, promises that no person—be they matinee girl, matron or govt. man, can avoid being highly pleased with his production. The play, known as "The Gay Matinee Girl," has already been successfully seen in America and for this season is being exploited with a cast of twenty-two metropolitan favorites, headed by the comedians Monroe and Hart and America's best comedienne, Miss Mattie Villiers, who will be supported by Chas. H. Dean; Jas. P. Green; Prof. D'Hassia; Elmer Jerome; Chas. Lawrence; Wm. Herbert; Al Straus; Bert Price; Albert Waddler; Miss Myrtle Frank; Lillian Durkin; Louise Foster; Bertha La France; Emily Greene; Nellie Foster; the Sisters Whiting; Deuce Don; and other good players.

Manager Martling announces that he has signed contracts for the appearance here, during the coming season, of this dainty girl and her company, and "The Gay Matinee Girl" should be royally greeted, for it is promised that she will play to a full and amused the masses as well as the classes.

FORGETTING HIS NAME. Bank Cashier of Arkansas City Is Still Missing.

The Arkansas City Traveler says: It is three months Saturday since George A. Kimmel, the cashier of the Farmers State Bank at Arkansas City, Topeka, to attend to some business matters. He was heard from a day or later at Kansas City. Since that time his whereabouts have been unknown. He completely disappeared and has been as effectually hidden as if the earth had opened and swallowed him.

Ever since his disappearance detectives have been making an intensive search for him and so far as known they have not discovered a trace of the missing man. Of all the various theories advanced at first in regard to the disappearance of Mr. Kimmel, none have proven correct. Friends who at first were confident that he would show up at any time are losing their confidence. All are now getting to be of the opinion that Mr. Kimmel was either murdered or is confined in an asylum for the insane. These are about the only conclusions left to fall back on. How time flies, it hardly seems possible that Mr. Kimmel has been gone so long and yet the calendar says it is true. The search is still kept up, but each day the hope of finding him diminishes. People, in general, are forgetting the disappearance and in another month but few will remember the incident with any concern.

How may it be to slip out of the memory of the community in which one resides or has resided.

Laredo, Texas, Oct. 27.—The secretary of state of Nueva Leon, Mexico, officially announces two cases of yellow fever in Monterey and ten doubtful. The reports of the fever here, the quarantine officers state, will likely come from Mexican officials. The Mexican National through passenger and freight trains to the City of Mexico are running regularly and every effort is being made to prevent deaths. The weather here and within a radius of 25 miles of Monterey has turned much cooler, with frost reported at Saltillo.

Springfield, Ill., Oct. 27.—William H. Clarkston of Leavenworth, Kansas, a deputy on the train which took the negro miners to "Cuba" who is in the Springfield city hospital with two bullet holes in his head, exhibits wonderful vitality. It was thought Monday that he was dying, but now he is improving and recovering rapidly.

CONTRACTOR IS HERE

Figuring Over the Details of Constructing

NEW STREET RAILWAY

Mr. Church Says Two Thirds of Material Is Ready.

President H. B. Church, of the street railway company, came in yesterday with Mr. T. P. Rhell, of the Hudson County Contracting and Construction company, of Jersey City, and the two gentlemen proceeded at once to go over the lines to figure out the details of building the new road.

Mr. Rhell said it would take only a short time to put down the new lines; just how long he couldn't say.

Whether Mr. Rhell can do the work or not depends upon how long a time it will require for the construction, as the firm has on hand more work than it can well handle now unless the situation here will admit of some unusual arrangements.

Mr. Church said that he had about two-thirds of the material, in the way of steel for the power-house, rails, wire and poles, all ready for shipment.

The people who are putting up the money for the construction asked that Mr. Rhell be given the contract if the firm could possibly do the work, and that is Mr. Rhell's mission here now.

Mr. Church and the contractors went over the entire lines yesterday making an estimate and will probably come to some understanding before Monday night.

If Mr. Rhell cannot do the work, it is probable that Mr. Gates of Chicago, the original contractor, or some New York firm will be given the contract at once, and the new road put in immediately.

CITY TEACHERS' MEETING

Interesting Session Held Yesterday in the Normal Rooms.

The second general meeting of the city teachers was held yesterday, October 29, in the Normal rooms at the City building, between the hours of 9 and 12.

Devotional exercises were conducted by Rev. Dubois, of the Christian church, after which the roll was called. The High school teachers responded with quotations appropriate to their respective lines of work and the others answered attendance.

After some music, conducted by Miss Clark, the program proper was commenced and it proved one of the most interesting in the history of the meetings.

The teachers subscribed to the very excellent monthly Educational Foundations, and a most earnest and thoughtful discussion, according to outline of the September number, constituted the first part of the program. The meeting proved that the topics had been studied by the entire corps, and as they were assigned at the time of the discussion, no one had prepared on any special point, but all had prepared on every point.

Some very fine extemporaneous talks were made and the spirit of the whole meeting showed an honest and earnest desire on the part of all teachers to know everything possible which would aid them in giving to their pupils the right system of education, which (as discussed) was not only instructive but a development of the moral and religious sentiments. The outline embraced four general divisions:

- 1. The social function of education.
2. Development of scientific child study.
3. Normal order of child growth.
4. A wise system of school discipline.

Each topic had several sub-divisions and had all been said which might have been said if allowed, the meeting would have held many hours after the time of closing.

Along the line of physical culture, the next number on the program was devoted to callisthenics, and Miss Jane Burd presented a very good paper on the subject—"How Best to Use Peps Manual of Physical Culture in the School Room." To emphasize which she gave an illustrative lesson. Miss Burd's pupils have ever been especially proficient in this line, and the lessons before the teachers here ample testimony to the fact. The pupils were Misses Bessie Conklin, Grace Davidson, Pearl Frankenholtz, Bernice Burris and Messrs. George Merry, Earl Miller, Raymond Little, Roy Reeve.

Miss Stover, principal of the Normal school, was next on the program and her paper was "Suggestions of Plans of Study for Educational Foundations." She named a number of reference books in connection with the study, and suggested having two more placed in the city library, so that all might have access to them. The city library has a valuable collection of books on this subject, the titles of which Miss Stover named. Miss Stover's ideas have ever proved helpful and her numbers on the program always of great interest.

After some announcements from Superintendent Dyer, the meeting was adjourned. Those present were Mrs. Meehland, Misses Libbie Keith, Florence Fuller, Bertha Meyers, Josephine Whitehead, Amy Burd, Addie Thomas, Florence Taylor, Jessie Adams, Ella Hoberger, Olive Triplett, Fanny Whitbeck, Mary Brucker, Lulu Andrews, Ella Telfer, Mary Quiver, Jane Burd, Minnie Brown, Etta Fellows, Lulu Sheppard, Florence Hoberger, Eva McGee, Mary Waggoner, Alma Bradley, Anna Mulvey, Mary Shaw, Anna Stanton, Helen McCormick, Pearl McCormick, Florence Mulvey, Alice Meesman, Mamie Pigg, Cynthia Cleveland, Frank Dunkin, Leida Mills, Clara Bowen, Modie Hamilton, Jessa Clark, Mary Kelley, Helen Abner, Sallie Caldwell, Agnes Blakely, Maud Bar, Gertrude Clark, Clara Brown, Ruth Woods, Hattie Cox, Mary Jordan, Clemmie Fitch, Florence Horton, Sallie Saxe, Jennie Daugherty, Kate McNabb, Eva Phillips, Eva Minnick, Althea Miller, Belle Stover, Hattie Smith, Anna Lechard, Elizabeth Knight, Ida Kaufman, Eva Busch, Addie Brook, Emma Moore, Etta Bunniss, Anna Menden, Margaret Garwood, Gertrude Jackson, Lizzie Dickinson, Mamie McCoy, Abbie Moulton, Belle Walker, Sara Soggins, Maud McLaughlin, Agnes Conroy, Minnie Stuckey, Josie Miller, Jessie Brown, Nellie Dorsey, and Messrs. J. N. Allen, C. G. Stewart, P. H. Vermer, Leonard Young, J. M. Lee, E. T. Hummer, J. S. Carson, Frank Dunkin and D. E. Pence.

New York's Exports and Imports

New York, Oct. 29.—The gold and silver movement at New York for the week ending today was: Exports of gold, \$1,121,000; of silver, \$84,788; imports of gold, \$1,101,000; of silver, \$1,121,000. The imports of dry goods and merchandise at the port of New York this week were valued at \$1,758,000.

WICHITA COLLEGES

FRIENDS UNIVERSITY NOTES. Two new music students enrolled this week. The University endowment fund is in increasing beyond our expectations. The enrollment at the university has been increased by four students during the past week.

The front entrance, corridor and assembly room on the main floor will probably be completed before the close of the year. The beginning class in German will soon commence the study of Anderson's Fairy Tales.

Professor Birtch, who has been detained from school work, owing to illness, is again hearing his classes at the university.

Our president is with us again after a few weeks' stay in Lawrence. President Stanley has a warm friend in every student, so there is great rejoicing over his return.

Mrs. Ford is welcomed to her work again in the university. The student body is very glad that the injuries resulting from the accident are not more serious.

Four young men of the Davis Lyceum held an interesting debate at the session last Friday evening. The question was: "Resolved, That the United States is Justified in Keeping the Philippine Islands." The judges decided in favor of the affirmative.

A delightful feature of the college social life was the reception given Wednesday by the Young Women's Christian association of Fairmount to the Friends' Young Women's Christian association.

After meeting the young ladies present, all the prettily furnished rooms of the Holyoke cottage were thrown open to the pleasure of the guests. Late in the afternoon dainty refreshments, consisting of chocolate and cake, were served.

Miss Lillian Burtleigh gave a very interesting report of the state convention of the Y. W. C. A. at Lawrence, Wednesday morning. The report was read at the chapel hour before the two Christian associations.

Mr. Frank Payne presented the scientific department with two fine specimens of wild geese, which will be mounted soon.

The social event of the week was the reception given by the Sisters to the faculty and members of the Junior, Sophomore and Freshman classes. The reception was held Tuesday evening at the residence of Dr. S. B. Fleming. Many novel and interesting games were introduced; the most amusing being a "potato race."

George Washington Jackson, Frank McCune, Edwin Wilcox and Mr. Van Buskirk represented respectively the Senior, Junior, Sophomore and Freshman classes in this contest. Mr. Jackson fully preserved the dignity and superiority of the Seniors by winning the contest; and amid great cheering he was presented with an elegant potato masher—the token of victory. Excellent refreshments were served.

Professor Roulet preached at the Fairmount college last Sabbath. Miss Elen Robinson, a former member of the present Junior class, began work with her class this week.

Eighty-four Fairmounters attended Dr. Conwell's lecture. A feature of the "Matze Festival," given by the Library club November 19, will be "Aunt Jerusha's Album."

On Wednesday afternoon the Y. W. C. A. entertained the association of the Friends University, at Holyoke cottage. The delegates of the two societies who had attended the state convention gave a short report of the meeting at Lawrence. Cocoa and cake were served.

The following contributions of books have lately been received from Manchester, Vermont: Mr. J. W. Feltow, 120 vols; Mrs. J. B. Bost, 2 vols; Mrs. J. P. James, 21 vols; Mrs. Mary Soper, 3 vols; Mr. G. F. Wiley, 3 vols. From New York City: Mrs. M. Edlitz, 104 vols; Mr. Henry Towne, 89 vols; Rev. Isaac White, 2 freight boxes of magazines.

LEWIS ACADEMY. The mathematics department is under the instruction of Prof. Scott. This is the sixth year that Prof. Scott has been located at Lewis, during which time he has always taught mathematics. Under his supervision the work is thorough and the course a practical one.

The sixth grade arithmetic class is the youngest class which recites to Prof. Scott, those not so far advanced reciting to the teachers of the elementary department. The seventh grade does so-called "preparatory" work, finishing up the elementary arithmetic. The eighth grade does the highest arithmetic. The mathematical course in the academy proper consists of a year of elementary algebra—half year of higher algebra, a year of geometry, which consists of plane, solid and analytical geometry, and a year made up of plane and spherical trigonometry and surveying.

Refrigerators in this store, in a normal course in mathematics, in which each part of this work is revised, and the methods of best presenting them to the students studied. This method class, last year, numbered 32, and there are already nearly as many as this year. This means that many are studying the teachers' method of teaching, which will be intelligent and conscientious. The higher arithmetic class is also larger than ever before. A few years ago this class numbered 15 or 16, whereas, it now numbers 46.

In the various classes of mathematics, each student is expected to work each lesson at home. By this means mistakes are more easily detected, and teachers' work is lessened, and, therefore, more time is spent in the department, and, hence, since their graduation, continue the work in other schools, or by the aid of a few of the teachers, Mr. Watson, who is afterward fitted for West Point; Mr. Harry Hess, now at State University; Mr. Herbert Reed, who was one of three, out of forty-two who passed the entrance examination to Chicago University; Prof. E. Kelly, now teaching in the county High School of Wisconsin, and Mr. Forest Neason, now teaching at Waco.

The text book in astronomy is new this year. Todd's latest edition is now used. Since the academy is not subject to the state law in regard to school text books, the course can be made of the best books published, without regard to any fixed law.

The Messrs Johnson visited the academy Friday. Mr. Johnson is now moving his family here, preparatory to sending a son as a cadet to the academy.

Many of the teachers are giving the creation of noted men, in rhetorical exercises, in order to gain practice in orating. Two orations are required of seniors, one at
