IRON TRADE CONCESSIONS

Record Wool Sales-Cottons Rising--Exports Increase.

New York, Nov. 22.—R. G. Dun & Co.'s weekly review of trade for tomorrow will say: Monetary anxieties have faded with sales of bonds to the treasury under the recent offer, the fall in sterling exchange in spite of the dearer money abroad and easier here, and the receipt of about \$70,000 net from the interior during the week. There is no trouble in the commercial money market as there has been none and loans on securities have ruled at easier rates. While the extraordinary volume of business throughout the country requires greater activity of currency than in ordinary times, there is no indication that the volume has not been ample all the year, and the course of the money market throughout the interior shows that the embarrassment here has been due to operations outside of the industries and general trade.

The iron industry shows no yielding in material, but a little advance in Bessemer pig at Pittsburg, with large inquiries for next year. Prices of rails are maintained, with one contract reported of 20,000 tons for Japan, and another pending for South Africa. A single order for car axles covers 20,000, or 2,500 tons. Structural prices do not yield, and angles are quoted higher. But works which have nearly or quite filled their orders are seeking others, with concessions of \$2 per ton in eastern bars, \$1 in steel hoops and sheets and on bar at Pittsburg, while cut nails are quoted 14 lower. The general ratio of prices for all finished products is now 2.4 per cent lower than November 1, though the average for pig iron is 1 per cent higher. Copper is unchanged. Tin has been depressed to 27 1/2 cents by London speculation. Lead is unchanged, spelter is lower, with rates at \$1.40, and aluminum is higher at 32 cents for ton lot.

Heavy orders in the past are reflected by shipments of boots and shoes amounting to 281,272 cases in three weeks, 14.5 per cent more than in 1897, and 32 per cent more than in 1894, with other years still smaller. New business is checked by continuing depression, which has reached in some grades 30 cents per pair, with one large contract in grain creole at 22 1/2 cents per pair advance.

Sales of wool pass all records, having been at the three chief markets, 61,844,203 pounds in three weeks of November, with rates at \$1.40, and aluminum is higher at 32 cents for ton lot. Heavy orders in the past are reflected by shipments of boots and shoes amounting to 281,272 cases in three weeks, 14.5 per cent more than in 1897, and 32 per cent more than in 1894, with other years still smaller. Wheat, including flour, shipments for the week aggregated 285,877 bushels, against 450,947 bushels last week, 5,811,728 bushels in the corresponding week of 1898, 5,465,153 bushels in 1897, 7,753,028 bushels in 1896, and 2,400,336 bushels in 1895. Since July 1 this season the exports of wheat aggregated 55,468,546 bushels, against 48,134,983 bushels last year, and 109,438,673 bushels in 1897-98. Corn exports for the week aggregated 4,149,523 bushels against 4,031,718 bushels last week, 2,993,516 bushels in this week a year ago, 2,380,706 bushels in 1897, 2,500,892 bushels in 1898, and 1,820,883 bushels in 1895. Since July 1 this season corn exports aggregated 92,125,483 bushels, against 68,222,767 bushels during the same period a year ago, and 29,599,143 bushels in 1897-98.

Business failures in the United States tend to increase slightly, as usual at this period, and number 202 for the week, as compared with 199 last week, 192 in this week a year ago, 233 in 1897, 226 in 1896 and 228 in 1895. Bankruptcies in the Dominion of Canada for the week number 28, as compared with 19 last week, 27 in this week a year ago, 34 in 1896 and 32 in 1895.

Chamberlain's Pain Balm Cures Others, Why Not You? My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well.—Adolph L. ONE SAMOAN TREATY SIGNED And the Other Is Ready—Terms of the Two Documents. Washington, Nov. 22.—Two treaties for the final partition of the Samoan islands have been drawn and one of them already has been signed. The main treaty is tripartite in character, between the United States, Great Britain and Germany, by which the territorial arrangement of the islands is fixed. It is quite brief, comprising only four or five articles, the essential features being that Great Britain and Germany renounce all claims in the islands of Tutuila and the outlying islands which go to the United States and this government and Great Britain renounce interests in Upolu and Savaii, which go to Germany. The present expectation is that this treaty will be signed in Washington, in which case the German and American Ambassadors Panncocker and Von Holleben will be the signatory parties, although it is still possible that the execution of the document may occur in London. The second treaty is between Great Britain and Germany and is longer than the first, covering the rights and interests of the Tonga and Samoan islands and other settlements brought about by the Samoan partition. The United States does not sign this treaty and is only indirectly concerned. It is understood that this collateral treaty has already been executed in Berlin and that the signing of the tripartite treaty will bring to a close the negotiations for the division of the islands.
