

HOGS TEN HIGHER

Market Made Big Advance in Prices Yesterday.

TOP PRICE WAS \$4.52 1-2

Cattle Market Was Quoted as Active and Firm.

The Wichita hog market was 5 to 10 higher yesterday. The market opened strong and an upward tendency was developed before any reports had been received from other markets.

The quality of the hogs was good. There were a number of good choice hogs in and the average was of any quality better than has been the case for some time.

There was a fair run of hogs in on Friday, although but little done until quite late in the day. There was a light run of wagon hogs for some reason, and they were very poor quality.

The market was strong in comparison with other western markets, and as usual registered a higher advance than other points.

Over Thursday's Close May Closed Yesterday.

DUE TO PLAGUE AND FROST

Corn a Shade Down—Oats and Provisions Up.

Chicago, Jan. 26.—The wheat market, inspired by higher Liverpool and Paris cables, cold weather and confirmation of Rosario plague rumors, was active and closed very strong.

Corn closed a shade depressed and oats 1/2c up. Provisions at the close were 2 3/4c up.

With Liverpool up 1/2d and Paris advanced 3/8c, local bulls were almost embarrassed by their riches.

The session opened with May wheat 5/16c over yesterday's close, at 87 1/2c.

The strength of the English market was due principally to the abandonment of Rosario plague rumors, was active and closed very strong.

MARKET ON THE DECLINE

Foreign Markets Discouraged by War News.

New York, Jan. 26.—The record of the day on the stock exchange was a repetition of yesterday in inertia, but prices went down instead of up, as was the case yesterday.

The retirement of the British from Spion Kop had a little influence as did the previous day's news of the success there.

Opening prices showed sharp declines, international stocks being quoted at about the London parity.

The weakness in London induced no selling here, however, and the local traders were disposed to buy the stocks offered for London account in the same way that they sold yesterday to meet the London demand.

No attempt was apparent to bid up prices, as the local dealers seemed content to take the offerings at the London level of prices.

The sales for London account were estimated at something over 20,000, very evenly distributed among the various international stocks.

This constituted the bulk of the day's business in railroad stocks and prices in that department never got far from the opening level.

Much the greater portion of the day's small business was in the speculative industrial and specialties.

These were weak from the start. The weakness in Sugar was attributed to operations by a speculative clique.

Metropolitan made a momentary show of firmness on belief in a hitch in the closing of the contract for the Rapid Transit tunnel.

The Rubber stocks, which have not been active recently, were forced down 1/2 point each, but the gains on sub-rubber operations were little more than half those of last week.

Owing to the diminished pension disbursements and continued heavy revenue receipts, the total gain in cash for the banks is estimated at near \$7,000,000.

It is evident that stock exchange operations have made no demands on the loan accounts of the banks.

But the placing of time loans and the buying of mercantile paper may have further expanded loan account. The sale of New York City bonds during the week may also be reflected in the loan account.

Closing prices of stocks were as follows:

That hilarious, big burlesque, rollicking comedy, "A Hot Old Time," was at the Crawford theatre soon. A laugh is promised every minute.

The comedy was written for this purpose; it is said to answer the requirements. The purport of "A Hot Old Time" is just an excuse to introduce some of the latest and most original music of the day.

A number of the day, unique characters, numerous specialties, a refined and above all one of the most prominent companies ever seen in farce comedy.

The comedy has been the hit of the last two seasons and this season it is said to be even better than heretofore.

The company has been carefully selected to include such clever artists as John W. Jones, the prince of eccentric Irish comedians; William McRobbie, a clever young juvenile; W. Wallace Black, an actor with an unusually good singing voice; John C. Leach, one of the most amusing of character comedians; Charles J. Newton and Joe Darling, in characters well suited to their respective abilities.

Miss A. A. Melrose, a leading woman of the company; Ada Melrose, a clever character and singing specialist; Annie St. Tel, the "bounding antelope"; America's most sensational dancer; Hyberta Pryme and Beatrice Rice, singing comedians; and John and Bertha Gleason, in their artistic dances and cake walks.

Their music is under the direction of Mr. Frank Hodges.

Although Athens has had a surfeit of minstrel shows this season, there was a good audience at the opera house last night and the Barlow Minstrelists made good all the favorable advance comments they have received.

The elegantly dressed first part, with its excellent special scenic effects, combined with rich costumes, made a beautiful picture, and the comedy work and singing were in keeping with the surroundings.

The comedians, Harry Ward, Lew Bald, and Chas. Cartmell and Walt Wilson, all made distinct hits.

James Palmer rendered "One Little Word" in an artistic manner, as did J. Harvey Briggs his solo "Mid the Clouds." The melodious baritone voice of Harle Wilson is probably the best we have heard this season.
