

ON JANUARY FIRST

Whittaker Plant Will be Running in Full Blast.

OPERATED BY CUDAHYS

Mr. Dulaney Tells of the Signing of the Contract.

Mr. W. R. Dulaney returned from Chicago over the Rock Island last night one of the best pleased men in Wichita. A reporter for the Eagle called at Mr. Dulaney's residence at the corner of Third and River streets last to find out some of the particulars about the Cudahy packing house. He found Mr. Dulaney very much pleased with the result of his trip to Chicago. When asked what had become of the other members of his party, Mayor Ross, J. O. Davidson, Charles Smythe and J. H. Stewart, Mr. Dulaney said they felt so good over securing Mr. Cudahy that they remained to celebrate the occasion. "We arrived in Chicago last Thursday morning," said Mr. Dulaney, "and we met John Cudahy as per agreement in his office in the board of trade building. We talked over the entire matter that day and on Friday met again. It was 10 o'clock on Friday that the contract was signed and the whole matter settled. Talton Embury of Cincinnati, who was the first superintendent of the union stock yards here, was with us. He has known Mr. Cudahy for a long time. When we asked him for his opinion in regard to what we were doing he told us that Cudahy was about the very man we needed here in Wichita. Mr. Embury was greatly elated over our securing him. When we went to St. Louis to buy the Whittaker plant, Ex-Governor Francis told us that if we were going to get Jack Cudahy it was all right for Wichita. He said Cudahy was the kind of a packer that would make a stock market. I am satisfied in my own mind that this city did a great thing when it secured Mr. Cudahy to come here. "How soon will Mr. Cudahy commence work on the plant here?" "He told me when I left Chicago that he would arrive here the latter part of next week with his superintendent. He will look over the property and go to work immediately to get the house in order. And just as soon as the necessary repairs can be made he will commence buying and killing hogs. "My talk with Mr. Cudahy convinced me that he means business and that he has faith in Wichita as a packing center. After the contract was signed he told us that he hoped to be able to double the capacity of the house here inside of ten years. The capacity of the house at present is sufficient to kill and take care of 300 hogs a day. "Mr. Dulaney was not willing to state just how many days will be required to make the repairs to get the house in order, but he estimated that no great length of time would be required. Some of the parties interested have stated that the house could be put in condition for operations by the first of December, but others who know more of such big undertakings say that it will be the first of January before all of the proposed improvements can be completed. "There is a question as to whether any considerable number of people in this city even among those who have given their share of cash to help bring John Cudahy to Wichita fully appreciate its value. When the big Whittaker plant is again running and employing hundreds of men, then and not till then will many fully realize the importance of this movement. The people who do business at the stock yards probably understand the situation better than any others in this city. They know what the Dold plant is to Wichita and they are also informed in regard to the demand for Dold's products. These men are simply well over the securing of Cudahy to come here. They know something of the capacity of southern Kansas and Oklahoma to produce hogs. It was only last week that a Sumner county farmer sold a car of hogs at the union stock yards. He owns 50 acres of land and sells ten car loads of hogs every year. When Cudahy comes and he and Dold go after the porkers Wichita will become one of the great hog markets of the west, and that will be an incentive to southern Kansas and Oklahoma farmers to raise more hogs. More hogs will mean more packing houses, or the enlarging of those already here. The people interested in trade at the stock yards believe that Wichita next year will move up in the column of packing centers to about sixth place, and there is reason to believe they are right. "PRICKLY ASH BITTERS cures disease of the kidneys, cleanses and strengthens the liver, stomach and bowels."

STARTS WITH A COLD.

Catarth is a Lingerin Cold Which Refuses to Yield to Ordinary Treatment.

Catarth usually starts with a cold in the head and if left unchecked in this climate, rarely gets well of itself. As fresh cold is taken the disease spreads, getting deeper and deeper, creeping along the mucous membranes from nose to throat, from throat to windpipe, from windpipe to bronchial tubes and from bronchial tubes to lung cells. The mucous membranes all connect, one with another. Hence it is easy to spread from one part to another lined with this same membrane. This is why catarth in the head soon effects the throat and finally the stomach itself, bringing on chronic catarth of the stomach, which is a most obstinate form of dyspepsia. Everybody is now well agreed that catarth is a blood disease and not a local one, and the attempt to cure by local applications simply gives temporary relief from the purely local symptoms without the remotest effect in staying the progress of the disease. There is a new preparation recently offered to the public that is apparently destined to do away with every other form of catarth treatment. This new remedy is not a secret patent medicine, but is a large, pleasant tasting tablet composed of Sanguinaria, Eucalyptol, Guaiacol, Hydrastin and other valuable and harmless specifics, which are taken internally and seem to have a remarkably beneficial effect upon the blood and mucous membranes, apparently eliminating the catarth poison from the whole system. These tablets while being pleasant, convenient and absolutely safe to use have made cures in long standing cases of catarth that are little short of marvelous. They are sold by druggists under name of Stuart's Catarth Tablets, and any catarth sufferer who has tried liniments, lotions, ointments, salves, etc., and realized their ineffectiveness and uselessness, will fully appreciate the difference between a mere palliative and a permanent cure after giving Stuart's Catarth Tablets an impartial trial. All druggists sell them at 50 cents for full sized packages and no matter where the catarth is located, in the head, throat, lungs or stomach, Stuart's Catarth Tablets will surprise you with the effective results of even a few days use.

the city to make it his permanent home. Mr. Benjamin Nichols purchased Nos. 720 and 722 South Emporia avenue yesterday for an investment. The price paid was \$300. The sales of the two properties were made by the firm of Israel Bros. Constipation is the rock that wrecks many lives; it poisons the very life blood. Regularity can be established through the use of PRICKLY ASH BITTERS. It is mildly cathartic and strengthens the stomach, liver and kidneys.

BRING SUIT FOR \$10,000

Judgment is Asked Against Cherokee and Pittsburg Co.

Late yesterday evening a suit was filed against the Cherokee and Pittsburg Coal and Mining company for the recovery of \$10,000. The plaintiffs in the case are A. H. Fabrique, O. D. Barnes and J. H. Atchell, and are represented by Mr. C. V. Ferguson as attorney. The case arises from a controversy over the ownership of the Sheets building. The plaintiff's statements as filed yesterday are substantially as follows: Mr. L. G. Sheets owned lots 113 and 115 on East Douglas for a considerable length of time prior to 1897. That he was really the owner although the legal title was in the name of Jacob Sheets, L. G. Sheets holding the power of attorney, which gave him the entire control of the property. In 1892, L. G. Sheets began the erection of a brick building on the lots and he entered into contracts with builders and material furnishers for the erection of the building. Only one story was built that year and then the work was suspended. L. C. Jackson furnished material to Mr. Sheets amounting to \$4,800 which was unpaid. In 1897 Mr. Jackson became insolvent and transferred all his interests to the Cherokee and Pittsburg Coal and Mining company. In 1897 the company proposed to Sheets to pay off all claims against the property and finish the erection of the building. To secure the company a deed was made by both Jacob and L. G. Sheets. It was stipulated in the deed that the company should keep a correct account of all expenditures and if at any time Mr. Sheets should desire to refund the money paid out, the property should be reconveyed to him. The above mentioned company erected the building, rented same until a few weeks ago, and then sold the property for \$25,000. Now L. G. Sheets transferred all his interests in the property to A. H. Fabrique, et al. They claim the company has refused and still refuses to give any account of the money expended. The plaintiffs allege that the company has unpaid at least \$25,000 more than it has cost them. The plaintiffs claim that the \$25,000 is due them by virtue of the fact that they now own the interests of L. G. Sheets.

BERTRAND IS ACQUITTED

Tried in City Court on Money-Stealing Charge.

Frank Bertrand was tried in the city court yesterday on the charge of stealing \$20. He was arrested some time ago on the complaint of John Harvey who lives near Coldwater. The evidence in the case was found insufficient yesterday and Bertrand was turned loose. Bertrand worked for Harvey a few days before the street fair, and then returned to his home in the western part of the county. On Sunday after the fair, Mrs. Harvey missed \$20. Suspicion fell on Bertrand and accordingly he was arrested. It could not be proved, however, that Bertrand was guilty. All the evidence was the suspicion of Mr. and Mrs. Harvey. Frank Bertrand is a young man past twenty and was raised in this county. He has always been well thought of and has never been guilty of any misdemeanor. It was unfortunate that he had to go to jail, but he did not lose the confidence of his friends.

PLACING THE MACHINERY

Buckridge Pump Factory Preparing for Business.

The Buckridge Pump company are placing the new machinery for the manufacture of pumps in the old creamery building on Third street, and within a few weeks the company will be in position to commence the manufacture of their goods. The building has been leased, and should the quarters become inadequate for the business the chances are that the company will build.

TOPEKA AVENUE HOME SOLD

W. J. Weidenbach Secures 917 South Topeka St. for \$2,100.

Mr. W. J. Weidenbach has purchased the residence property at 917 South Topeka avenue, and the consideration was \$2,100. The property was owned by Joseph Corwin and the sale was made by A. T. Heller. Mr. Adolph Rodan yesterday purchased the property at 27 Bluff avenue for a home, the price paid being \$700. Mr. Rodan recently resided in Missouri, but being an old Wichitan he again came to

FORCED TO BUILD

Henry Bolte Furniture Co. Erecting a Warehouse.

ESTIMATED COST \$2,500

Firm Fails to Secure Buildings for Storage Purposes.

The work of erecting a two-story warehouse for the Henry Bolte Furniture company is now in progress, and when completed will cost \$2,500. The building is located on West Waterman street and is a frame and will have corrugated iron sides. The floor room will be 10,000 square feet and all of it will be used for the storing of furniture for the use of the firm's up-town house. The erection of the new warehouse is the result of the inability of the Bolte people to secure a building or even rooms for the storage of their goods during the coming season. It has been the custom of the firm after the store was filled up with stock to store the balance, to be placed in the store as the occasion might demand. This year, however, is the first time that the firm has had difficulty in securing a place to store the goods, and the new building seemed to be the only solution of the problem. Messrs. Grant & Grubel, contractors, have charge of the erection and the work of construction will be pushed as rapidly as possible. The Bolte people now need their warehouse. They have two floors in their present location and both of these are filled with goods. The rear of the store is a balcony, and this is arranged so that goods can be placed on it. The fact that a new building has to be erected for storage purposes because another cannot be secured is ample evidence of the demand for business blocks and stores. This demand for the buildings only means that others will need to be erected in the city for the business interests.

LADIES' HANDKERCHIEFS

Saturday night we put on sale a box of Ladies' twenty-five cent Embroidered Handkerchiefs that were slightly soiled. On account of the bad weather there was no sale, so tomorrow we offer them at the same price—15c.

LADIES' UNION SUITS

In the Underwear department we are showing a new line of Ladies' "Oneita" Combination Suits in sizes 3 to 6. There are 50 dozen in the lot, and tomorrow they go on sale at 60c a garment.

AT THE DRESS GOODS COUNTER

Ten pieces Camel's Hair Suits, in the new checks, at 49c a yard. Ten pieces all-wool Venetians, 42 inches wide, at 55c. Ten pieces Satin Prunella cloth, in black or colors, worth \$1.50 a yard, Monday \$1.19.

MANY YET TO REGISTER

Figures Given Out Show Increase Since Last Census Week.

The week has been a busy one with the force in the city clerk's office, but for all of that there are many people who have not registered. The registration as compared with the same period four years ago is slightly in advance, but the fall registration of 1896 is in advance of that of the past week. Many people in the rush of the week's work have forgotten to register. Many have been out of the city. On Monday the business of the city commences again, but the people should not forget about the registering matter. The figures given out by the city clerk last night are as follows: First ward—First precinct, 246; second precinct, 284; third precinct, 415. Total, 1,145. Second ward—First precinct, 375; second precinct, 308; third precinct, 303. Total, 1,110. Third ward—First precinct, 432; second precinct, 454; third precinct, 328. Total, 1,190. Fourth ward—First precinct, 255; second precinct, 422; third precinct, 349. Total, 1,110. Fifth ward—First precinct, 311; second precinct, 284. Total, 595. Sixth ward—First precinct, 260; second precinct, 372. Total, 632. Total registration, 1900, 5,793. Registration in fall of 1899, 6,157. Registration in fall of 1898, 5,741. Diseases, spells of blindness, headache and sour stomach are caused by torpid liver and constipated bowels. PRICKLY ASH BITTERS removes the cause of the trouble and puts the system in perfect order.

JAPANESE MISSIONARY HERE

Dr. J. P. Moore Preaches at the Reformed Church.

At the Reformed church, at the corner of South Topeka avenue and Lewis street, Rev. J. P. Moore, D. D., who for almost fifteen years has been a missionary in Japan, will preach this morning and evening. Dr. Moore went to Japan when missionary work was just beginning to get a foothold on the island. He is a man of broad, liberal education, of practical experience in missionary affairs and whose long experience in the work will fit him to give a clear and accurate presentation of the encouragements and successes, as well as the trials of the foreign work. The public is cordially invited to hear Dr. Moore at 11 o'clock in the morning and at 7:30 in the evening. The doctor will not speak at great length at either service, owing to the fact that he is just convalescing after a long and serious illness.

FOR A SURE WINNER

Former Wichita Man Will be City Clerk of Los Angeles.

The Los Angeles Herald, received by J. R. Mead, has a portrait of E. P. Ford, formerly of this city now a candidate for city clerk in Los Angeles, and the following write-up: "Elisha Ford had a walkover for clerk. He went in with a burrah. When nominations were called for, Byron Oliver took the stand and made an eloquent plea for the old soldier who had sacrificed ambition and all else to enter the service of his country when the war broke out. Mr. Ford entered in the Eighty-seventh Illinois regiment in the beginning of the war and served through without distinction. 'The Republican party,' said the speaker, 'always recognizes those who

AT Cash Henderson's Tailored Suits and Jackets

The latest creations of the best man tailors in New York, made of the new materials and elegantly finished. Our immense line of tailored Suits and Jackets comprises everything in the way of the latest fashions for Fall and Winter, surpassing those of any previous season for beauty and workmanship.

French Flannelettes

We still have left a number of pieces of those beautiful Flannelettes, and we want to get rid of them. You all know what these goods are, and this is just the time of year they are comfortable for waists and wraps. The price is still 14c.

LADIES' UNION SUITS

In the Underwear department we are showing a new line of Ladies' "Oneita" Combination Suits in sizes 3 to 6. There are 50 dozen in the lot, and tomorrow they go on sale at 60c a garment.

AT THE DRESS GOODS COUNTER

Ten pieces Camel's Hair Suits, in the new checks, at 49c a yard. Ten pieces all-wool Venetians, 42 inches wide, at 55c. Ten pieces Satin Prunella cloth, in black or colors, worth \$1.50 a yard, Monday \$1.19.

THE WOMAN OF THE PRESENT

is different from the woman of the past. She's natural, independent—and we admire her for it. If she sees an article of men's attire that's to her liking, that enhances her good looks, that increases her comfort, she casts the dictates of "Dame Fashion" aside and straightway adopts it. Men are slower in such matters; they lack the "discriminating instinct" to grasp the right side, the natural side, of a new proposition pertaining to their apparel.

JUST NOW THEY ARE DISCUSSING THE PROPRIETY OF WEARING LADIES' STYLES OF SHIRT WAISTS—NEXT SUMMER.

When next Summer comes we'll have them if the men want them. They don't want 'em now, but they do want Stiff Bosom Colored Shirts, and we've got them. We've got the best Stiff Bosom Colored Shirts in the world, because we've got "Monarchs"—and we sell them at little bits of prices: \$1 to \$1.50, and we'll give you your money back if they fail to satisfy in any particular.

...HERMAN & HESS...

BEFORE A GRATE FIRE

You will spend many pleasant evenings during the early winter, but you want coal that will burn to ashes inferior quality coal fills the house with smoke and produces little heat. We handle the best grade coal for grate, furnace, hard and soft coal heaters and ranges, and we guarantee our coal to be clean, dry and every lump coal. Quality, quantity and price are right at Jackson's. Phone us your order, or call at office. We will be pleased to serve you and will surely please you.

STONE, BRICK, LIME, CEMENT

All kinds of Building Material, the best of all kinds and at lowest prices. When ready to build, specify a permanent wall, put in drain tile or sewer pipe, all set with us about material.
