

WICHITA WAS IN IT

Owen Martin One of the First to Register.

DON PORTER WAS LUCKY

He Also Got in on the Ground Floor Early.

Owen Martin returned from El Reno last night and registered for a claim there. He was one of the first to enter the booth when they were opened yesterday morning.

"I had to tell where I was born, the color of my eyes and hair, my size and weight and my age," said Mr. Martin.

"I tell you, we had a scramble. We all lined up Tuesday night before the booth reservation. There were a great many ladies in the line, which was more than 2,000 feet long. We finally divided up into two companies of fifty each and established rules and regulations for the conduct of the line. Each company appointed five men who alternated on watch to protect the rights of the entire company in the line. Our scheme worked well and we had no trouble about our places in the line in the morning.

"The man slept on the ground. They were scattered about like an army sleeping on their arms. It was a great sight to see them.

"The sun was blazing hot yesterday and many suffered seriously from the heat. In the afternoon a separate booth was set up for women.

"It is estimated at El Reno that fully 5,000 people will register there. The officials think they can take care of that many people.

"Don Porter, the well known traveling man, had come from El Reno last night. He, too, registered and succeeded in getting in early. He describes the line as something wonderful. Mr. Porter is a warm humorist and he has a hunch that he will get a farm joining the townsite of Andarbo.

"George Israel came up yesterday morning. He didn't want to try his luck. He said that a line of people several blocks long was before the land office when he left there.

There are many Wichita people at El Reno and so far as heard from all of them are lucky so far.

Extra books advertising the eastern register to accommodate the travel from Wichita to El Reno. The need will rush them to Wichita as rapidly as possible, not only because of the local demand, but also for the reason that Wichita is a rallying point for boomers from all over eastern and western Kansas.

Handfuls came in yesterday evening. Friends to make connections here and other hundreds came in from the west over the Rock Island, Missouri Pacific and Wichita & Western. At the Rock Island depot that night a scene was presented that would furnish one of the greatest spectacles in New York. The platform was literally jammed full of strange looking people, all rough in appearance and accompanied with baggage that belonged to a stranger. Many foreigners were among them. The western people can be recognized by the fact that few of them are armed. Those coming from the eastern points are armed to the teeth. They evidently believe that Oklahoma is a savage country and that it behooves every man who comes for his life to give it the protection of a gun. The south-bound trains were loaded to the gunnels yesterday. All of the crowd did not follow the "boomery" element, but the percentage was great enough to give the train a distinctive "boomery" appearance. The Rock Island is carrying a rich harvest from its passenger traffic and it is handling the crowds well. The tickets sold from Wichita to El Reno so far indicate that a great many from this city will try their luck in the new country.

FRATERNAL SOCIETY PICNIC Committee Decide to Hold One and Will Give Program.

The representatives of a large number of the fraternal insurance orders met last evening at Harmony hall and decided to hold a fraternal union picnic this fall. It is expected that a large number of out of town people will attend and the entire day will be consumed by the program. The meeting adjourned to meet at some place June 15th, when it is hoped that every fraternal insurance order in the city will be represented. This provision to be the latest affair of the kind ever held in Wichita.

HE HAS A HUNCH. Wichita Man Sure of Being Number Eight in the Drawing.

"I'll be No. 8," said a prominent poker player in Wichita last night. "I've got a hunch. It's dead sure that I'll be eight in the drawing. This morning I made up my mind, while at the breakfast table, to try for a win. I picked up and involuntarily poured the chips in the room. There were eight. I knew I had a hunch then. I went to drinking out the meal. There were baked potatoes. I omitted those in the dish-eight. Quick as a flash I went into my pants pocket and picked out the change there. I found I had three dimes, two nickels and three quarters-eight pieces. I looked up at the wall to see what time it was-eight o'clock. I was certain now. On my way down town

ON SPECIAL CAR Large Party Leave to Attend Epworth League Convention.

A large party composed of Rev. A. A. and Mrs. Parker, Mr. and Mrs. W. C. Beal, Robert McKibben, Miss Ella Hubbard, Miss Patricia, Mrs. Parker of Abbeville, Kan., Rev. W. A. TURNED WRONG SIDE OUT. Umbrella on Delivery Wagon Victim of Wind.

A delivery wagon with one of the large umbrellas was coming down Main street yesterday afternoon when a sudden gust of wind struck them and the umbrella immediately turned wrong side out. It made considerable racket during the process and the people along the street thought that a small cyclone had struck that part of town. The two men who were on the wagon turned white and made a jump for their lives. The horse, however, moved a muscle or lifted an eye, but the people were badly scared. The men drove off after they found that there was no danger and a few hours after were seen sitting under the shade of a new umbrella.

LOTS OF SNAKES Inhabitants of South End Have More Trouble.

The inhabitants of the south part of town are excited over the discovery of a great many snakes. Mrs. Wilson and Russell Sullivan killed several reptiles on the lawn in front of their homes. Parents are in fear of their children being bitten by some of these snakes.

WANTED TO SAVE MONEY. Woman Deposits Her Cash in the Postoffice.

Mrs. W. G. Keenon went to the postoffice yesterday and counted down \$300 in cash at the register table window and asked for nine postoffice orders for \$100 each made payable to her husband at this office.

Mr. Keenon is in Oklahoma and they sold their fine residence on East avenue to Councilman James Burton and the money that went into the postoffice orders was the payment that the councilman furnished for the purchase of the house.

Mrs. Keenon told the judge that she had been drawing to take that money because it means so much to them that she had a fear that something might happen to it and the idea of getting the big government of the United States to keep it until her husband returned had occurred to her and she was acting on it. Judge Enoch told her that it would be all right and he did not think there was much probability that the government would suspend before Mr. Keenon would come home.

NEW HOSE IS EXPECTED. For the Fire Department Which Needs It Just Now.

Fire Marshal Walden is expecting this week the new hose for the department which was ordered some time ago and which is needed greatly at this time when the department is called out several times a day. Most people without being urged are talking extraordinary precautions against fire at this time owing to the unusual dryness of everything. Almost everything will burn and a match tossed aside without being put out first, or a discarded cigar stub may start a conflagration.

OFFICE IS ESTABLISHED.

Mutual Life Insurance Officers in the City.

There are no surer indications of wealth and business than that indicated by the centralization of life insurance companies, the opening and establishing of permanent offices. Recently the Mutual Life Insurance company of New York, established an office in this city with a handsomely furnished suite of rooms in the Winslow building and placed in charge Mr. T. J. Scudder.

Mr. P. K. Kline, who manages the companies business for the state of Kansas, is in the city looking over the field and planning for the interests of the company. He is accompanied by Mr. Elmer S. Clark, superintendent of agencies for the state. These gentlemen, like everyone else who visit our city, speak very highly of Wichita and her great outlook.

TESTING THEIR LUCK.

Wichitans Trying to See if They'd Get a Farm.

The boys around town have a new scheme to test the El Reno drawing. There will be 12,000 farms drawn. Consequently one man in every ten will draw, or a man has one chance in ten. The boys take ten slips of paper and on one write the name of the fellow who is to draw. The ten slips are then thoroughly shaken up in a hat and the man told to draw. If he draws the slip with his name on it, he is a winner. If he fails to draw that slip his hoodoo is working and it will do him no good to go to El Reno. George McNeal, who was contemplating going to El Reno, tried it yesterday and failed and doesn't know whether to make the trip or not.

LARGE CROWD PRESENT

Two Thousand People Hear Sanford's Band.

Sanford's band gave an excellent concert at Hyde's park last night. The park was simply jammed with people, about 2,000 being present. The baritone solo had to be omitted from the program on account of Mr. Breideman's illness. Several nice trees were badly treated by some hoodlums, who had to make themselves disagreeable to most people. The program was as follows: March—"Jumping Jack Jambles"; Overture—"On Broadway"; Beyer Solo—"Selected"; Al Breideman's Minstrel—"Oh! Overtime"; Voltekr March—"Crack of the Whip"; Henry Waltz—"Selected"; Barnhouse "Joy to the World"; Barnhouse "The Mirror Dance"; Hall's March—"Mittens Girt"; Hall's

CAN'T EVEN SWEAT.

Peculiar Condition of Drouth in the Stratton Case.

Judge Irwin Stratton looked up against the breeze on the sunny side of Lee Hay's barnyard yesterday and talked with farmers about the crops. "I'll tell you," he said to an Eagle reporter, "this drought is fearful. It is so bad that I can't even get up a sweat right here against the hot wall." Some farmers talked to Judge Stratton who said there wouldn't be even an ear of corn in their section and then again some told him that there would be just a little corn in the bottom land. J. E. Howard, the miller, gave it as his opinion that the corn crop would be a bad failure.
