Mr. Davis became acquainted with Miss Ireland in Bainbridge New York, several years ago when he came west, like many another young man to make his home. Not long ago they decided to make their way together. Accordingly Miss Ireland came to Wichita to meet Mr. Davis, who has been in Texas for some time in the employ of a music house. Mr. Davis is the son of Mr. Giles Davis, of 62 South Water street and will make his home in Wichita at that address for some time.

**LAWN PARTY**

**White Man Turned Yellow.**

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when he saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Filters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by Kehr's pharmacy.

**BASEBALL TODAY**

City League Teams Will Cross Bats Today.

Wichita has at last gotten a regular schedule of baseball games, and that they are appreciated is shown by the crowds that attend. The Wichita City League, composed of the four well known teams, the Owls, Eagles, Sunflowers and Catholics, is coming to the front with some crack players. The Owls, so far, have lost but one game, and are going to try hard to make it the last. The Catholics play against them today, and are equally determined that the gap between them shall be shortened. The Eagles and Sunflowers are going to strive hard to further their averages, and an all-around good time is promised to the lovers of our national game. The games will be called promptly at 2 o'clock today, at the corner of Eighteenth and Fairview. Batteries—For the Owls: Brecht and Koarna; for the Eagles, Jones and Price; for the Sunflowers, Anderson and Bolla.

**CHILDREN'S EYES**

Are often weak—vision impaired by scarlet fever and other ills, makes a child appear stupid and indolent. Parents can't be too careful. You should have your child's eyes tested; costs you nothing if you come here, and if there is need of glasses you can't find it out too soon, and there is no harm done if they don't. Our method of fitting glasses never fails to produce satisfactory results, and our charges are quite reasonable.

**Rad Circulation is the cause of most of the ills that come with old age.**

With advancing years there is a decline of strength and vigor—the machinery of the body moves with less speed and accuracy. Because of the weak and irregular action of the heart the blood moves more slowly, becomes impure and loses much of its life-sustaining properties, and muscles, tissues and nerves literally starve for lack of nourishment. A sluggish and polluted circulation is followed by a long train of bodily ailments. Cold feet, chilly sensations up and down the spine, poor appetite and disposition, soreness of the muscles, rheumatic pains, hard and fissured skin, face sores, chronic running ulcers on the lower limbs and other parts of the body—these and many other diseases peculiar to old people are due to a lack of healthy blood and imperfect circulation. Restoration to health must come through the building up and purification of the blood, thus adding strength and tone to the vital organs and quick, healthy action to the circulation.

**S. S. S. being strictly a vegetable blood purifier and the best tonic, makes it the most valuable and efficacious of all medicine for old people. It is free from all mineral ingredients, and mild and pleasant in its action. It cures blood diseases of every character, even those inherited or contracted in early life. As the system gets under the influence of S. S. S. there is a marked improvement in the general health, and as richer and purer blood begins to circulate through the body the appetite improves, and there is a softness and elasticity about the skin that you have not noticed for years; sores begin to heal, pains in muscles and joints gradually cease, and you find that it is possible to be happy and healthy even in old age.**

**Our medical department is in charge of physicians who make a study of blood and skin diseases. If you would like to have their opinion and advice in your case, write them all about it and you shall receive such information and advice as you want. This will cost you nothing. Others have found our medical department of great benefit to them—their cure being much more rapid as the result of some special directions received from our physicians.**

**Don't be your own doctor when you can get medical advice free. Book on Blood and Skin Diseases mailed to all who desire it.**
