

NEW COUNTIES ARE DENIED SCHOOL FUNDS

No Apportionment to be Made Them Till January.

STRANG IS SUSTAINED

He Gave a Similar Opinion When in Office.

Guthrie, O. T., July 8.—Under a ruling from the department of the interior, it has been determined that three new counties, Kiowa, Comanche and Caddo will not participate in the semi-annual apportionment of the school land funds which will be made by Territorial Auditor Baxter this month.

Governor Ferguson in order to ascertain the status of the matter asked for an opinion from the interior department. This department went into details, taking up all phases of the law, and reported that it would not be a possibility to divide the school funds, allowing the three new counties their share.

School Land Commissioner, T. J. Houston has addressed letters to the county superintendents of the three counties, explaining the situation relative to this matter. At a meeting of the school land board, it was the sentiment that the next territorial legislature should take some steps toward returning to the new counties the amount of money they lost by the ruling by Washington.

The apportionment of school lands which will be made this month, aggregating something like \$25,000, according to the reports which have been filed with the auditor, and is to be divided among 146,000 school children.

Whenever an honest trial is given to Electric Bitters for any trouble it is recommended for a permanent cure. All cases of indigestion, flatulency, biliousness, headache, neuralgia and other ailments, are cured by the use of this medicine.

AN ALLEGED MURDERER

Unearthed in the Vicinity of Prudence, Oklahoma.

Guthrie, O. T., July 8.—On account of the town of Prudence being without telephone, telegraph or railroad connection, it is difficult to secure particulars regarding the finding of the mutilated bodies of four persons near that town today.

EARLY CORN ABOUT MADE IN OKLAHOMA

Crop is Doing Well Generally but Needs Rain.

WHEAT QUALITY IS POOR

Stock of All Kinds Continue in Good Condition.

Oklahoma City, July 8.—Section Director C. M. Strong issued the following weather and crop bulletin for Oklahoma today.

He says: Fair weather with high temperature, and at times, hot, drying winds prevailed during the week. A few light and scattered showers occurred.

Threshing and harvesting of small grain and hay continued in rapid progress and wheat generally making a fair yield but is of a poor quality.

Recent rains greatly improved the condition of cotton over the Indian Territory and the crop is in good condition generally over the section.

Cane, kafir and broom corn, castor beans, millet and pastures are all doing well.

Melons and fruit are in good condition, and early fruit is abundant; the apple crop will be about average locally.

Stocks of all kinds, continuing in good condition, but water is becoming scarce over some localities.

IF A MAN LIE TO YOU

And say some other name, cinnamon, lard, oil or alleged healer is as good as Bucken's Arnica Salve, tell him thirty years of marvelous cures of piles, burns, boils, corns, felons, ulcers, cuts, scalds, bruises and skin eruptions prove it's the best and cheapest.

ARE TAKING STOCK

Tobacco Jobbers Want to Know How Much They Have.

The wholesale jobbers of tobacco in this city have been writing hard the past few days taking stock of the tobacco on hand and filling out the statement sent them by Uncle Sam as to how much of the weed they have in stock.

On the first of July the tax of 25 cents per pound was abolished and every pound of tobacco reported now means a saving of that much to the jobbers, as the government will return the revenue paid by the manufacturer to them.

It will probably be some time before the government will return the revenue, as there has been no appropriation made for that purpose yet, but Uncle Sam says that the money will be returned.

CROPS IN EAST ARE INJURED

A. C. Jones Thinks Kansas Corn Will Bring Big Price.

President A. C. Jones of the National Bank of Commerce has returned from his business trip to New York. He returned by way of Canton, Ohio, where his mother was visiting friends, and returned with her to Kansas City, where she stopped to visit the family of C. S. Jones.

Mr. Jones says that business is good in New York, but none of the eastern states are ahead of Kansas. The rains have injured the crops in nearly all the country east of the Mississippi river, and he thinks if the farmers of Kansas get a big crop, which now seems probable, they will get a good price for it.

He visited the grave of McKinley at Canton, and says the government of the United States still keeps a guard over the body. This means a foolish thing to do, as the government probably thinks some desperado might steal the body, in hopes of a ransom, as was done in the case of the body of A. T. Stewart, and it wants to prevent anything of that sort.

The new tomb will soon be finished, at which time it is supposed the guards will be dispensed with.
