

OKLAHOMA WILL HAVE BUSY YEAR

Public Improvements Will be Very Extensive.

PROGRAM OF ENTERPRISE

As Outlined by the Report of Governor Ferguson.

Guthrie, O. T., Jan. 1.—Today begins a new year for Oklahoma. There is nothing now in view to contradict the statement that the year 1903 will be as profitable as any year that has past.

The past year has been a notable one for the territory, and brings pride to the heart of the Oklahoman.

The public improvements contemplated for the coming year are as follows, according to Governor Ferguson's report:

Anadarko—Thirty thousand dollar court house, waterworks plant, three school houses, electric lights, sewerage, jail, cotton gin, elevators.

Blackwell—City jail and sewerage system. El Reno—Electric railway, gas plant, street paving, city ownership of waterworks.

Enid—Railroad division point (two divisions, two railroads) school house, street railway, cannery factory.

Guthrie—One hundred and fifty thousand dollars for street paving, \$50,000 government building, high school building, hotel, Episcopal church.

Hobart—Waterworks, electric light plant, city building, fire department house, ice plant, three school houses, court house and jail.

Kingsfisher—Extension of water and light system, Catholic cathedral, city hall, new school house, another railway.

Lawton—Erection of a \$20,000 court house and jail, waterworks, sewerage, school houses, city hall.

Medford—Waterworks, court house. Nowkirk—Natural gas system for light and heat.

Oklahoma City—High school building, union depot.

Pawnee—Electric light plant. Perry—Waterworks system, Missouri and Pacific railroad.

Ponca City—Macadamizing business streets and building sidewalks. Shawnee—Gas plant, cotton factory, a flouring mill, garment factory, pressed brick plant.

Stroud—Erection of public school house. Stillwater—Improvements in waterworks system and electric light plant.

Tecumseh—Waterworks, electric light, oil mill. Woodward—Waterworks and street improvements.

Those now in progress are: Anadarko—Digging wells for water supply for waterworks.

Blackwell—Forty thousand dollar waterworks plant. El Reno—Fifty thousand dollar court house, new electric light plant, city hall, ten miles brick sidewalks, city library established, sewerage, sanitarium and hospital.

Enid—Brick walks, water system, street repairs, sewer system, parks, improved telephone system.

Guthrie—Twenty-five thousand dollar city hall, \$25,000 library building, \$8,000 vision depot, \$10,000 capital printing plant, \$60,000 sewerage, \$46,000 \$40,000 additional permanent walks, \$5,000 deep well, four railroads now building, two churches \$30,000 and \$20,000.

Hobart—Two brick plants, streets, sidewalks and crossings improvements, \$5,000 oil mill, \$25,000 flouring mill, two cotton gins.

Kingsfisher—A mile of guttering and concrete sidewalk. Nowkirk—High school building, Paul Valley branch of Atchison, Topeka & Santa Fe railroad.

Norman—New university building. Oklahoma City—Missouri, Kansas & Oklahoma railroad, enlargement of waterworks system, university, South Side street railway.

Perry—Arkansas Valley and Western railroad. Ponca City—Extension of waterworks mains, \$25,000.

Stillwater—Agricultural and mechanical college barn, \$15,000. Those completed in 1902 follow:

Dragged-Down Feeling

In the loins. Nervousness, unrefreshing sleep, dependency. It is time you were doing something. The kidneys were anciently called the reins—in your case they are holding the reins and driving you into serious trouble.

Hood's Sarsaparilla

Acts with the most direct, beneficial effect on the kidneys. It contains the best and safest substances for correcting and toning these organs.

Anadarko—Temporary court house and jail, telephone system, fence around court square, sidewalks laid, baseball park, and grand stand in Randlett park.

Blackwell—One 8-room brick school building costing \$15,000, electric lights, fifty-seven blocks of brick and cement sidewalks and brick crossings.

El Reno—Street paving and guttering of business streets. Enid—Waterworks, street repairs, stone crossings, new fire department, brick walks, two railroads, large school house, park improvements.

Guthrie—Thirty thousand dollars for waterworks, and \$19,000 for permanent walks. Hennessey—Waterworks system.

Hobart—Ten miles of streets graded, five miles of sidewalks laid, 125 street crossings, jail, two school houses, seven churches.

Kingsfisher—Thirty-five thousand-dollar court house, \$40,000 water and light plant owned by the city, several miles stone curbing and guttering, cement and brick pavements, fair grounds and exhibit buildings, two new churches.

Lawton—Electric light system, sidewalks, graded streets. Medford—Six thousand-dollar court house, Baptist church, large addition to flouring mill, brick sidewalks.

Nowkirk—System of waterworks, city hall, academy building for the Oklahoma Presbyterian academy. Oklahoma—Extension Frisco railroad, a municipal building, new school, new church, new fire station, extension of sewerage system.

Perry—Street paving, \$20,000; one school building, \$10,000; park improvements. Ponca—City building, \$8,000; enlarging power house and putting down large well for waterworks system, \$15,000.

Pond Creek—Brick school house, court house, waterworks system, costing a total of \$25,000. Stroud—Streets improved.

Weatherford—Eighteen thousand-dollar waterworks plant. Woodward—Telephone exchange, court house, town hall, street improvements.

NEW YEAR AT EL RENO.

Many Social Parties Were Given at Canadian County's Capital. El Reno, O. T., Jan. 1.—New Year's day was celebrated here today by many receptions. The afternoon Whist club received their lady and gentleman friends on New Year's eve, from 7 to 11, at the home of J. J. Gerrert, the following ladies assisting:

Mesdames A. J. Gerrert, P. H. Wright, F. E. Ricker, E. M. Heeler, S. B. Patton, E. C. Young, M. D. Libby, Free Smith, Misses Virginia Rhoades, Alice Van Ness, Fryberger, May Hobart, Topeka, Kane, Grace Hobart, Topeka, Kan., Lona Dea, Lacombe, Ill.

The young ladies of the Katschlin club received the gentlemen of the city at the home of Miss Irene Hollister New Year's afternoon from 3 to 6. Those who assisted in receiving were:

Misses Rohrer, Conklin, Gansoway, Bertha Greger, Hollister, Lucille Shirley, Mertie Pierce, Essie Sawyer, Parker, McClure, Blackman.

The Women's Auxiliary of the Y. M. C. A. kept one house at the Y. M. C. A. rooms from 3 to 6 p. m.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo-Quinine Tablets. This is on every signature. POPULATION OF SHAWNEE.

Census Superintendent Cassidy Thinks It Will Reach 15,000. Guthrie, O. T., Jan. 1.—The Shawnee News reports that on Monday evening the census enumerators in their reports to Superintendent El O. Cassidy showed a total of 14,010 people already enumerated.

Several days' work are yet to be done before the first trip over the city is finished, and Superintendent Cassidy in his instructions to his deputies has ordered them to keep a record of all houses at which people were not at home when they first called and where no definite data could be secured. There are a number of such places and the enumerators, after concluding their work on the first trip over the city, will return to these houses and get such facts as are necessary there.

It is the general impression that the number of residents in this city will run over 15,000, the amount claimed for some days past. The names of all parties living in the city, occupations of heads of families and whether they own the property they occupy. This will furnish data that will be of incalculable benefit to the city and assure investors of the actual population of the city.

IS MURDER FASHIONABLE?

Enid Paper Thinks It Is Especially So in Garfield County. Guthrie, O. T., Jan. 1.—The Enid Evening says: Murder is the fashionable crime, according to Juries in Garfield county. O. late years every murderer brought to trial has been acquitted. If a man steals a horse or a cow, or commits a burglary, the chances are that he will be judged and sent over the road, but if he murders one of his fellows the jury is almost sure to bring a verdict of acquittal. This condition ought not to exist, but until the jury system is amended and remedied, judges and courts are powerless to enforce the laws of civilization.

Juries tender verdicts on sympathetic pleas of lawyers for the defendants, apparently forgetting the loved ones of the victim who demand sympathy, the outraged laws which demand justification and the rights of society which must be protected.

TERRITORY MINER KILLED. George E. Withers Meets With Fatal Accident at Alderson. Alderson, I. T., Jan. 1.—Gen. E. Withers of Alderson, one of the best known miners in the territory, was instantly killed this morning in mine No. 2, operated by the Great Western Coal and Coke company. Withers was operating the mine by contract. The supposition is that he was switching cars in the main shaft when a trap broke and killed him instantly. On November 1, 1902, Withers was tragically burned within a few feet of where the fatal accident occurred. He was about 23 years old, and leaves a wife and two children, besides father, mother and several brothers and sisters, most of them residents of Alderson.

PISTOL DUEL IN THE STREETS OF HOBART

Billy Wolf Killed by Bert McLean, Both Actors.

ONESUCCEEDED THE OTHER

As Manager of the Phoenix Opera House.

Guthrie, O. T., Jan. 1.—The Hobart Republican gives the following account of a pistol duel on the streets of Hobart, in which one man was killed:

"Last night between the hours of 11 and 12 several shots rang out to disturb the peacefulness of South Main street. Investigation showed that Bert McLean and Billy Wolf had engaged in a pistol duel in front of the English Kitchen and that Wolf had been shot twice, one bullet taking effect and fracturing the bone just above the knee and the other in the bowels, the bullet ranging upward toward the heart, from the effects of which he died at noon today. McLean was shot through the buttocks and is likely to recover."

"The particulars, as near as we can learn, are about as follows: 'Wolf and McLean are actors and were attaches of the Phoenix theater. They had always been the best of friends, and in fact were so at the time and after the shooting, as they spoke in a friendly manner after both had been shot. 'About a week ago the management informed McLean that his services as manager of the theater were no longer desired, but that he could go on and do his turn as had been his custom heretofore. Billy Wolf was placed in as manager, but McLean refused to work under Wolf, probably because of jealousy. Wolf was doing his turn on the stage and is said to have been twitted by McLean's friends. This angered Wolf and he sought McLean, and McLean was also looking for Wolf."

"They met in front of the English Kitchen on South Main street, all alone, and the words that passed, if there were any, are not known. At all events, the shooting began and each claimed that the other was the first to shoot."

"The first shot from McLean's gun, a 38 double-action Smith & Wesson, shattered Wolf's leg and he fell to the sidewalk, after which Wolf fired three shots from a single action 32, one shot taking effect in McLean's body, as above stated. 'An eye witness of the shooting, who wishes his name withheld, states that after Wolf was down McLean shot him in the stomach, holding a lantern in his left hand, and then paraded around the block and said: 'Well, Billy, I guess I've got you, haven't I?'"

"I guess you have, Bert," said Wolf. "I haven't, here's another for you," McLean responded.

"Well, Bert, if you're game, give it to me," replied Wolf. "At this moment Neil Morrison, night police, arrived on the scene and disarmed both parties, taking McLean to jail. Wolf was taken to the city hall and Drs. Morgan and Lloyd were called, but they refused to take charge of the wounded man on account of his weak condition, and, thinking that every breath would be his last. This morning the fast dying man was removed to a room in the Phoenix theater, where he died a few hours later."

"Cold sweat dropped from McLean's brow when seen at the city hall this morning and the prisoner expressed deep regret at the tragedy."

"Wolf was about 55 years of age; McLean is about 25. It is a remarkable coincidence that during their engagement in the theater here they were co-actors in a scene during which McLean shoots Wolf and that the military of the stage was transferred to a real army on the night of the shooting. The two men were in the same line in the real army, and the dead man has a father living in St. Louis, a wife in Galveston and a sister—Miss Carl Deidrich—at Warren and Tenth streets, St. Louis, who have been notified. In the meantime, the body is in the hands of an undertaker."

OKLAHOMA MILITIA BOYS. Feel That the Passage of the Dick Bill Will Be a Boon.

Guthrie, O. T., Jan. 1.—The all probability the Dick bill will become a law this session of congress. As bill is of great interest to the military boys of Oklahoma. This bill places the militia on the regular army footing. Two weeks' drill every year, who fall pay for officers and men while on a real drill. The Oklahoma's share of the new appropriation will amount to \$1,800, besides an annual appropriation of \$1,000 for encampment expenses. The army rest will be increased, probably doubled. The arms will be Krak-Jorgensen rifles, same as regular army, instead of the antiquated Springfield new issued.

This advice has been received by Adjutant General Burlingame, of Guthrie, from the war department at Washington.

SLOT MACHINE WAR. Pond Creek People Determined That They Must Go.

Guthrie, O. T., Jan. 1.—A warfare that promises to be relentless in its persistence has been commenced against the slot machines that infest Pond Creek and the vicinity. It is said that the reason for the inauguration of this war is in the fact that sundries and divers peddlers who asked permission to ply their trade in Pond Creek and were refused, have resolved that if they cannot obtain a legal right to rob the unwary the other robbers, those made of wood and iron, shall cease to ply their nefarious trade.

The old saw is that when thieves fall out honest men get their dues, and if this saying holds good the multitude public may expect to have some protection against the wiles of the gambler and his natural coadjutor, the slot machine.

Let the wayfarer enter any saloon in the town and one of the first sights that greets his vision is a row of slot machines that range about the walls. They look harmless, outwardly, but inwardly they are ravening wolves. They toil not, neither do they spin, yet they are decorated with all the hues and colors of the rainbow, and woe to the unlucky individual who allows himself to be drawn into their clutches.

It is true that these gilded monsters occasionally give up a nickel or a quarter, but for every such small contribution on their part they relentlessly gather in an hundred fold. The slot machine is cold and pulseless, but it gets there just the same. It is a cruel and calculating piece of mechanism, without brains; yet it is more than a match for the human biped, also without brains, who goes up against it.

The slot machine, like other gamblers, sometimes allows the victim to make a small winning, but it is only for the purpose of luring the novice on to certain financial ruin. A row of these devilish slot machines in a downtown saloon are said to have, only last week, robbed a victim of his last cent, and then, with the diabolical cold bloodedness of their class, they are said to have deliberately cast lots for his empty purse and for the clothing on his back.

The above statement may be an exaggeration, we cannot vouch for its truthfulness; but we unhesitatingly say that in our opinion the slot machine is one of the most demoralizing institutions in the land, for the reason that it lures the boys from the path of rectitude and robs them of their change.

MAY GET ANOTHER ROAD. Katy Will Go to El Reno if Inducements Are Given.

Guthrie, O. T., Jan. 1.—The American says that El Reno is to have another railroad providing the inducements can be secured. The long looked for move to get the Missouri, Kansas & Texas to build southwest through El Reno and Lawton to Texas is about to be realized. A number of El Reno gentlemen have been working along this line for the past year, and today the charter was filed at Guthrie. It bears as directors, John A. Masters, M. D. Libby, H. D. Smith, H. K. Ricker, J. T. Ferguson, and the capital stock is placed at \$100,000.

The purpose of the company is to build a line of railroad from Falls, Lincoln county, through Edmond to El Reno, and thence southwest to a point in Texas, not yet decided.

A proposition will be submitted to the citizens of El Reno and Canadian county in a week or two for a grant of right of way through the county and terminal grounds in this city. It is estimated that this will require about \$5,000 to \$7,000. The taxpayers will be asked to secure the right of way.

At Falls the proposed line will connect with the Missouri, Kansas & Texas track which is now under construction. From that point the road branches off to Guthrie, Oklahoma City, and the line now proposed will be the main line. If this proposition falls it is the intention of the Katy to run southwest from Oklahoma through the Chickasaw nation into Texas. By the organization of the El Reno company the railroad officials believe a much better route can be secured than from Oklahoma City southwest to El Reno, as at first intended to build from Guthrie, but on looking over the surveys which have been made, that plan was found to give less advantages than the one now proposed.

CEMENT TO RED RIVER. New Railway to Be Built Between Those Two Points.

Guthrie, O. T., Jan. 1.—The Lawton News announces that a new line of railway is to be built from Cement in Caddo county, to Red River. The entire distance of the new line is about sixty miles. The road will tap Sterling and give that city a railway connection with the Frisco.

FAVORABLE STATISTICS GIVEN OUT

Section Director of Oklahoma Weather Department.

GIVES AGRICULTURAL DATA

Comparison Made With Crops of Other Sections.

A Oklahoma City, O. T., Jan. 1.—The section director for Oklahoma has issued the following bulletin:

The weather during the month was generally cloudy, with mild temperatures. An abundance of rainfall throughout the section was very favorable to growing crops and vegetation, but farm work in general was delayed considerably.

The excessive rains caused wheat to make a remarkable growth, but farm work in general was delayed considerably. The excessive rains caused wheat to make a remarkable growth, but the soil was too soft to pasture the rapidly growing grain; hence it became too rank, it even jointed in some parts of the section. During the last week of the month, however, it dried up sufficiently to permit the farmers to turn stock into the fields.

General satisfaction is reported concerning the prospects for the coming year. Evidences of rust and green loam are reported from some of the northern counties but the damage done was very slight.

The heavy rains delayed the picking of cotton and damaged the remainder of the crop. Much complaint was made that the bolls opened too slowly, or not at all, and considerable loss resulted.

Corn husking continued through the month, but the harvest was generally over by the close of the month, with very good yields.

Potatoes and turnips made rapid growth and are yielding well. Rye and clover give evidence of a large second crop.

Grass was livened up and pastures are very good. Stock is in good condition. But thirteen states have a greater acreage in corn than the two territories combined, and but nine raised more bushels of the same cereal, yet in regard to the value of the crop of that year the two territories combined rank as twentieth.

The reason for this lies in the fact that the price per bushel for corn was but 23 cents in the territories, while for the entire country it averaged 31 cents.

The average number of bushels per acre for Oklahoma was 23.9 of corn, 14.2 of wheat, 22.5 of oats; in Indian Territory it was 25.6 of corn, 8.9 of wheat, and 25.6 of oats; while the average for the whole country was 38.1 of corn, 22.5 of wheat, and 31.9 of oats.

The average value per acre for Oklahoma was \$6.9 for corn, \$7.02 for wheat, \$5.92 for oats; for Indian Territory it was \$8.92 for corn, \$4.33 for wheat, \$5.44 for oats; and for the United States the average value was 8.3 for corn, \$7.08 for wheat, and \$7.35 for oats.

The average number of acres per farm in Oklahoma was 28.3 in corn, 35.9 in wheat, 11.1 in oats; in Indian Territory it was 26.1 in corn, 32.5 in wheat, 18.7 in oats; and for the entire country it was 28.2 in corn, 25.6 in wheat, 11.9 in oats.

The value of each of the above cereals in percentage, to the value of all the crops raised, was for Oklahoma 32.7 from corn, 23.4 from wheat, 41.9 from oats, or 70.9 from the three cereals; for Indian Territory it was 41.9 from corn, 6.6 from wheat, 5.3 from oats, or 53.8 from the three; for the United States it was 35.3 from corn, 23.3 from wheat, 45.4 from oats, or 64.2 from all three.

For purposes of comparison it might be added that the value of the cotton raised, in percentage to all crops raised, was 8.2 in Oklahoma, 2.4 in the Indian Territory, and 18.9 in both territories.

From the climate and crop bulletin of the weather bureau, published at Washington, D. C., the following follows: The month was marked by exceptionally mild temperatures in all districts east of the Rocky mountains, with exceptionally heavy rains on the north Pacific coast and from the lower Missouri valley to the west Gulf coast, and more than the average amount over a large portion of the South Atlantic and Gulf states.

The reports generally show that winter wheat was in very promising condition at the close of the month. With ample moisture and exceptionally mild temperatures throughout the month, the crop made rapid advancement and too rank growth is very generally reported from the central valleys, Oklahoma and Texas.

In the early snow the Heenan fly has appeared extensively, but this pest has not affected the late sown, which constitutes the greater part of the total acreage. In Texas some fields of the early sown are from twelve to eighteen inches high and are liable to injury from cold. On the north Pacific coast the weather has been favorable for seeding.

DIDN'T LIKE CUBA. Oklahoma Man Returns from New Republic Lacking Enthusiasm.

Oklahoma City, O. T., Jan. 1.—Charles Leonard, a brother of Alderman Bert Leonard of this city, has returned from Cuba, where he has been contacted with the accounting department of the Railroad of Cuba, a line that is being operated by Sir William Van Harve.

He is now operating between Santa Clara and Santiago de Cuba," said Mr. Leonard to the interviewer, yesterday. "But Sir William will soon be in control of the entire line from Santiago to Havana."

"Under his present regime I do not like Cuba, and am back here to stay. During some portions of the year the climate is very nice in Cuba, but during the summer season, when it rains every day, it is anything but agreeable to one not accustomed."

"There has not been such a rash of Americans to the island as might have been expected. The present government is regarded as very unstable by foreigners as well as educated Cubans and Spaniards."

The boys are named Gill, and they are brothers, apparently about 14 and 12 years of age. They admit that they hired the horse from a woman at Holdenville and state that they intended going to the vicinity of Anadarko to try their fortunes in the new country. They spent the night with Officer Laine and told him that they had lived in a number of places in the territory, having resided for two years now in Okmulgee, I. T., where they will now be taken for trial.
