

MESSAGE OF OKLAHOMA GOVERNOR

Conditions in Territory are Discussed

IN VERY ADLE MANNER

Recommends Changes and Points Out Faults.

The governor's message, in its most important parts, is as follows:

The story of Oklahoma, to those unacquainted with her marvelous growth and unprecedented development, must seem like a fairy tale. A simple recital of the facts in her brief history would be classed more readily by those uninitiated into the mystery of her enterprise and progress, among the stories of an enchanted land than among the plain, unembellished narratives of the birth and advancement of a commonwealth.

At a meeting on the morning of April 22, 1902, Oklahoma was practically annihilated. Today her population is, on a fair estimate, six hundred thousand. According to the census returns for 1902 the population was five hundred and forty-three thousand, one hundred and forty-three.

The assessed valuation of the Territory is \$127,423,000. This amount represents only about one-fourth of the real value of the property when estimated on a cash basis.

For a detailed review of the magnificent and wonderful development made by our Territory during the past year, and for a statement setting forth many important facts relative to the prosperous conditions now existing, I have the honor to call your attention to my report to the Honorable Secretary of the Interior for the year ending June 30, 1902, copies of which are submitted for your consideration.

The report reveals a condition of things throughout the Territory which must be very gratifying to the people who have made a great and glorious land out of beautiful Oklahoma, the wonderland of the Southwest.

It will show that 275 public schools were taught during the past year, with an aggregate enrollment of 19,621 and that the sum of \$26,577.45 was paid to teachers. There were 1,920 pupils graduated from the common schools.

The higher institutions of learning offer superior advantages to the young people of our expanding Territory. These schools are doing good work and are remarkably well patronized.

The needs of Oklahoma are building well. The foundations which they have placed for the future state has education for its chief cornerstone.

There were 1,413.23 miles of railroad required for taxation in March. This included 1,000 miles of main line and 413.23 miles of side track returned. Over 40 miles of railroad have been completed in the Territory during the past year and hundreds of miles more will be completed during the present year.

The citizens of Oklahoma are intelligent and prosperous and justly proud of the magnificent Territory which they have developed. Reference is made here to the prevailing conditions simply to call your attention to the greatness of the commonwealth and to the enterprise of the people in whose interest you are called upon to legislate.

Each department of the Territorial Government has submitted a report, covering the period required by law, showing in detail the work done in the past year and the conditions prevailing at this time. These reports are transmitted to you in printed form and you are respectfully requested to make a careful examination of the work in every branch of the administration.

AUDITOR'S REPORT The Auditor's report shows a healthy condition of affairs. The Territorial finances are in excellent condition. The amount of money received during the year ending November 30, 1902, was \$1,852,241.43; money received from all sources for the year ending November 30, 1901, was \$1,799,180.40; the warrants redeemed during the year ending November 30, 1902, were \$1,642,628.39, leaving a balance of \$209,613.04 for 1902.

The amount of money received during the year ending November 30, 1902, was \$1,852,241.43; the warrants redeemed during the year ending November 30, 1902, were \$1,642,628.39, leaving a balance of \$209,613.04 for 1902.

The powder puff may help to hide the ravages of time but it avails little to hide the ravages of disease. When the face is disfigured by eruptions, the treatment must go below the surface to the blood, which is corrupt and impure.

Dr. Pierce's Golden Medical Discovery cures disgusting eruptions which are caused by impure blood. It cures scrofulous sores, erysipelas, boils, pimples, eczema, salt-rheum and other eruptive diseases which impure blood breeds and feeds.

"I was troubled with eczema from the crown of my head to the sole of my feet," writes Mrs. Ella Quick, of Cass City, Kansas. "I could not walk at all. I was so miserable that I thought there was no help for me—at least the doctors said there was none. I went to see friends at Christmas time and there I heard of the good Dr. Pierce's Golden Medical Discovery had done for them, and was so overcome by it that I bought a bottle and used it. I was cured in a few days. I would say to all who read this, try Dr. Pierce's Golden Medical Discovery before wasting time and money."

The sole motive for substitution is to permit the doctor to make the little more profit by the sale of less meritorious medicines. He values you less. Therefore accept no substitute for "Golden Medical Discovery."

SUPREME JUDGES SAY HOW

Decision Is of Interest to New Country.

REGARDS OFFICE HOLDING

Ruling Is in Mandamus Before Court.

Guthrie, O. T., Jan. 14.—The Oklahoma supreme court made a ruling today which is of interest to all the new country. The ruling was in regard to the holding of office in the new country, the office of county treasurer.

The county treasurer-elect in Kiowa county is not entitled by law to take the office until the 1st Monday in October, 1903.

This ruling is in a case entitled Thos. E. Finley vs. E. B. Combs, wherein Finley brought suit asking for a writ of mandamus to oust the treasurer appointed by Governor Jencks.

The ruling will affect all three new counties. The opinion has not been handed down as yet, but it is expected before the end of the week.

TO HAVE NEW INDUSTRY.

Shawnee Is Expecting Packing House in Short Time.

Guthrie, O. T., Jan. 14.—The Shawnee News says: C. J. Patterson has sold a piece of property on the river at the end of South Union avenue to Mr. Skaggs who contemplates the erection of a packing house in the near future.

This location is a fine one for such a business as the river affords convenient sewerage facilities and the place is not too remote from shipping conveniences. Such an institution would also be a paying one in Shawnee as there is material in abundance for its handling.

FOR MUNICIPAL LEAGUE.

Meeting to be Held in Guthrie to Organize League.

Perry, O. T., Jan. 14.—The mayors and city attorneys of the territory will meet in Guthrie on Thursday, January 15, for the purpose of effecting a territorial organization and for ways and means of securing improvements and benefits, equal to all parts of the territory.

Mayor E. J. Ball, of Guthrie, with City Attorney James Hepburn is back of this movement and they have issued invitations, inviting the mayor and city attorneys to attend. They anticipate a big gathering and believe the meeting will be very fruitful.

The meetings will be held in the council chambers of Guthrie's new city hall, commencing at 10 o'clock in the morning. The main purpose of the meeting, it is said, is to discuss city legislation and form a measure to present to the legislature.

SUIT FOR BIG DAMAGES.

Barber Asphalt Co. Is Defendant in Case.

Oklahoma City, O. T., Jan. 14.—P. B. Smith vs. Barber Asphalt company, is the title of a suit filed in the district court wherein the plaintiff asks damages in the sum of \$5,000. The petition alleges that while performing his duties as engineer in the company's plant and while preparing a steam pump a vat holding asphalt, exploded throwing asphalt over him so that he could not see or hear, and that while trying to escape from between the rotors and boiler, he fell from the car where the rotor and boiler are located to the ground, and some heavy object fell upon his body and back, wrenching and spraining his spine and bruising his body, and that the molten asphalt scalded and burned his face and right hand, permanently injuring and disfiguring same.

The petition alleges that the machinery of the plant was known to have been defective some time prior to the accident and was also operated by incompetent hands. He asks \$200 for medical expenses and care, \$200 for loss of wages he would have earned and \$5,000 for injuries and disfigurement.

BANKS ELECT NEW OFFICERS.

Chosen at Annual Meeting Which Was Held Yesterday.

Oklahoma City, O. T., Jan. 14.—The Times-Journal says: Three of the banks here held their annual meetings yesterday.

BOUND HAND AND FOOT

With muscles drawn and throbbing with pain, and joints swollen, stiff and tender, the rheumatic patient is helpless and dependent as though bound hand and foot. No disease causes such intense suffering, such sharp, nerve-racking pains as rheumatism, and this unfeeling monster, unless checked, crushes the strength and hope of its victims.

When the system becomes infected with Uric Acid and other like poisons they are absorbed into the blood and lodged in the muscles, joints and nerves. Then with the suddenness of an electric shock, pain begins to shoot through the muscular joints affected, which often swells and inflames, and becomes tender, feverish and sore. Unless treated through the blood Rheumatism grows steadily worse.

Finally ending in shrunken muscles, immovable joints, shaky nerves, and the invalid's chair or crutches. The cure of Rheumatism can never be complete or permanent until the acid blood has been purified and the system cleansed of all poisonous matter.

S. S. S. does this promptly and surely, because it is a perfect blood medicine, and an antidote for the irritating acids that cause Rheumatism.

S. S. S. purifies and invigorates the polluted, stagnant blood, when a healthy circulation is again established, the gritty, corroding particles are washed out of the aching muscular joints, and the longed-for relief is brought about by the constant use of S. S. S. It would afford a permanent cure against the spread of black-leg among cattle throughout the Territory. Yet, this is a matter which I desire to write for special book on Rheumatism.

TO RECLAIM VAST TRACT RICH LAND

Proposed to Straighten the Channels of Rivers.

OVERFLOWED EVERY YEAR

Oklahoma Men Have Very Good Scheme.

Asher, O. T., Jan. 14.—A movement has been inaugurated by a number of planters and capitalists of Pottawatomie county in connection with eastern experts by which it is proposed to straighten the channels of Little and Salt rivers, two streams which traverse Cleveland and Pottawatomie counties and the Seminole nation by an east and west course.

Along these streams, which take a very sinuous course, lie thousands of acres of deep soiled bottom lands that overflow to a depth of six to ten inches every spring. These tracts are not swamp lands but are overflowed by reason of the tortuous channels of these streams becoming dammed with debris.

It is estimated that the straightening of the channels of these streams will reclaim not less than 50,000 acres of land, which when reclaimed will become readily worth from \$50 to \$100 per acre. In many cases fractional tracts have been reclaimed by open ditches, and on such tracts, immense quantities of potatoes, corn, fruit and other crops have been secured. Cotton in many instances running as high as one and one-half bales to the acre and of a very fine quality.

This land is now practically valueless and is being bought up by different interests at from \$10 to \$15 per acre for quick crops. Prominent among those interested in the drainage movement are George G. Borgs, W. C. Jones, Charles T. Reichert, of Asher, O. T.; E. Opatky, W. C. Dittmar, Romulus O. T.; C. H. Austin, Hamilton, Mo.; W. A. Jennings, and Graham Burham of Oklahoma City and eastern parties. At a recent meeting measures were taken to secure an immediate survey of the two rivers and the securing of estimates for pushing the work of reclaiming this land.

COPPER STRIKE IS MADE.

Many Prospectors Are Flocking to the Place.

Guthrie, O. T., Jan. 14.—A big copper strike is reported five miles north and east of Roosevelt, O. T., in the Wichita mountains, and the miners and prospectors are flocking into the place by the hundreds.

Many claims formerly entered into by homesteaders for agricultural lands are being jumped by mining prospectors, thus complicating the ownership of thousands of acres of rich lands.

TO BUILD BIG FACTORY.

Contracts Let for New Sugar Factory in Colorado.

Denver, Colo., Jan. 14.—Contracts have been let by the Longmont Beet Sugar company for the construction of a beet sugar factory at Longmont, Colo., that will cost over \$1,000,000. The plant will have a capacity of 100 tons daily and is to be ready to begin grinding beets October 1, next. Farmers in the vicinity of Longmont have agreed to cultivate 6,000 acres of beets next summer. The local promoters of the enterprise announce today that money to build the factory is to be furnished by H. O. Havens, of the American Sugar Refining company and associates, H. R. Noyes of Jersey City, N. J.; J. F. Kirby, of Cleveland, O., and others interested, went to Longmont today to locate the site for the factory and complete arrangements for its construction.

The ingredients of Hood's Sarsaparilla are in effect, strength, vigor and tone-up you want.

OKLAHOMA WISE MEN

Salons Gather Together in Territory Today.

Guthrie, O. T., Jan. 14.—The Seventh Oklahoma assembly convenes here tomorrow at 12 o'clock noon. All the representatives and councilors are here tonight and the usual amount of medicine is being made preparatory to the organization of both branches, says the Oklahoman.

For president of the council Charles W. Alexander of Woodward has a walk-away. Dr. Winkler of Kingfisher is nursing the decision that he is in the race, but the doctor's friends are apologizing for him. They say that he would make a good presiding officer and recite that he has had legislative experience, but all these things seem to count for naught in this matter. Alexander will have no trouble whatever in securing the caucus nomination.

For speaker of the house things are decidedly different. William M. Bowles of Perry, Edgar W. Jones of Guthrie and William A. (Bert) Maxwell of Yukon are vigorously pursuing the caucus ignis fatuus. All three candidates have headquarters established and are "besieging" their colleagues in turn as they reach town.

Bowles has the lead tonight and is confident he will be able to maintain it to the end. Jones is a close second and has not given up the contest by any manner of means. In fact, he asserts supreme confidence in the ultimate eventuality.

Maxwell does not claim the strength of either of his opponents, but is basing his chances of success upon the inability to connect it enough strength in either of the other candidates to give them the nomination. He has in his power to name the speaker, even if he cannot name himself.

The consensus of opinion is that with Maxwell eliminated as a factor, his strength will go to Bowles, thus giving him the nomination. This, it is believed, is the manner in which the Gordian knot will be untied.

HORSE COMMITTED SUICIDE.

Walked into Lake and Was Frozen to Death.

Wagoner, I. T., Jan. 14.—The idea of a horse committing suicide seems preposterous, but nevertheless we believe that the horse did end its own life.

We mentioned several days ago of a horse becoming wedged in among the planks at the coal chute, and after a night of suffering that the human mind could scarcely conceive, was released by the section men the next morning, the same horse to end its suffering committed suicide the next evening.

After the horse had wandered all day in a badly bruised condition as it was, and to remain a wanderer, and no one to care for it, deliriously walked in the lake of the Wagoner Light and Power company, lay down, refusing to drink, and let itself freeze to death.

"We know not the mind of the horse, but put yourself in its place and take your choice.

PRESIDENT FULLER OF THE JEWELERS ASSOCIATION

Threatened With Loss of Hearing, Smell and Sight From the Ravages of Catarrh.

Pe-ru-na Cured Him.

Mr. J. W. Fuller.

"I Feel Like a Young Man Again."

A GREAT many remedies to temporarily relieve catarrh have been devised from time to time, such as sprays, snuffs, creams and other local applications, but as a rule, the medical profession has little or no enthusiasm in the treatment of catarrh.

It is generally pronounced by them to be incurable. It therefore created a great sensation in medical circles when Dr. Hartman announced that he had devised a compound which would cure catarrh permanently.

The remedy was named Peruna and in a short time became known to thousands of catarrh sufferers north, south, east and west.

Letters testifying to the fact that Peruna is a radical cure for catarrh began to pour in from all directions. Thousands of such letters are on file in the office of the Peruna Medicine Co., Rev. E. Stubbenvoll, Peoria, Wis.

"I feel obliged to extend you my personal thanks for my complete restoration. All through the winter I suffered from throat and lung trouble, but recovered my entire health by the use of your excellent remedy, Peruna."

The following letter from a prominent gentleman of Los Angeles, is a case in point:

Mr. J. W. Fuller, President of the Jewelers' Association of Los Angeles, Cal., has been in business in that city for seventeen years out of the forty-five that he has been engaged in business. Con-

cerning his experience with Peruna he says: "I was troubled with catarrh of the head for many years. It affected my sense of smell, hearing and sight. I spent lots of money with doctors and the use of local applications to relieve me but to no purpose, until my attention was called to the wonderful effects of Peruna."

"Although well along toward the allotted span of man's life I am pleased as a child over the results, and feel like a young man again."

Such letters as the above are not used for publication except by the written permission of the writer.

A pamphlet filled with such letters will be sent to any address free. This book should be read by all who doubt the curability of catarrh.

If you do not receive prompt and satisfactory results from the use of Peruna write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Ask Your Druggist for a Free Pe-ru-na Almanac.

come good citizens. There is nothing like home. Just think for a moment how my father and mother feel to see me in jail. If I had taken their advice I would have never known what prison life was like. This makes me full of sadness. From your true friend.

"ADOLPH NICHOLAS"
