

TURKEY HAS SENT NOTICE

Tells the Powers That She Will Chase Bulgarians.

PUT DOWN ARMED BANDS

Will Enter Macedonia and Bulgaria Itself.

POWERS MAY TAKE A HAND

Will Coerce Bulgaria If Conditions Demand It.

London, Sept. 8.—A dispatch to a news agency from Constantinople says the Turkish government is preparing a circular to the powers calling attention to the attitude of Bulgaria and declaring it is the intention of the government to pursue armed Bulgarian bands in Macedonia and even into Bulgarian territory.

London, Sept. 8.—Great Britain's refusal to assent to the Russian and Austrian proposal, outlined in the Associated Press dispatches from Berlin that the powers take coercive diplomatic action at Sofia, with the aim of severing the relations now existing between Bulgaria and the Macedonian insurgents, is traced to her unwillingness to take a step which might have unforeseen consequences. At the same time the Associated Press learns that Great Britain's refusal is not definite and if all the powers can see their way to adopt the Russo-Austrian proposal, she will participate in the coercion of Bulgaria. It is semi-officially stated here that Italy is willing to agree to the proposal mentioned in the dispatches from Berlin, but that the consent of France is doubtful. The foreign office informs the Associated Press that the British military attaché at Constantinople has not gone to Monastir as announced in a news agency dispatch yesterday. The British government is not aware that any military attachés are there, or that they intend going to Monastir.

The foreign office has received notification of the Beirut affair, but has not heard anything on the subject of the British consul there threatening to ask Rear Admiral Cotton to land marines.

BURN THE FORESTS.

Sofia, Sept. 8.—The Macedonian interior organization estimates that 50,000 women, children and old men are residing in the mountains and forests of Macedonia. The Turks are burning the forests in the districts of Lerin and Kosh, and killing fugitives who attempt to escape to the plain. The Vlach village of Gopesh, 3 hours distant from Monastir, has been burned by the Turks, who are represented to have thrown several inhabitants into the fire. The Bashli Basouks have destroyed the village of Stojovo, near Malakoterevo.

Thirteen thousand Turkish soldiers are assembled on the frontier and Pashacha, Kratovo and Boshovo are plundering the surrounding villages. The people have not complained, fearing they may be murdered. In the district of Nebel vije the Bulgarians are being treated with great cruelty and devastation that the Turkish troops, and that it would be necessary to warn the Bulgarians that they will not succeed in involving Russia in an armed intervention against the Turks and further that Russia will not permit a change in the status quo by the creation of an autonomous Macedonia or the appointment of a Christian governor.

NO NEW INSTRUCTIONS.

Washington, D. C., Sept. 8.—Cablegrams were received at the state and navy departments from Minister Leshman at Constantinople, and Admiral Cotton, commanding the American squadron now in Turkish waters, respectively, giving an account of the riot which occurred at Beirut Sunday.

FIGHTING GOING ON.

Salonica, Turkey, Sept. 8.—Twenty battalions of Turkish troops are reported to have surrounded a large revolutionary band near Octovro, thirty miles from Monastir. Fighting is proceeding. The revolutionaries have taken up a position near Lake Anlatovo, in the village of Anlatovo, in the district of Lerin.

STRIKE IS THREATENED.

Contractors Must Grant the Demands of the Union.

St. Louis, Sept. 8.—For an hour today a general strike among union artisans at the World's Fair grounds was threatened as a result of differences between carpenters and the Nevys Construction company, which is building the instrumental railway.

NEW AND TERRIBLE.

London, Sept. 8.—Everything seems to point to new and terrible developments in Macedonia. On top of the appalling accounts of the results of Turkish methods of "restoring order" in the vilayet of Monastir comes the threat by the insurgents to resort to reprisals on the same scale. The port's anxiety to suppress news by expelling newspaper correspondents from the area of the operations is held to have but one meaning. This morning's comment upon the significance of the news, first published by the Associated Press, that Russia and Austria are seeking to persuade the powers to coerce Bulgaria, as showing a belief that war is inevitable.

GRAND STAND COLLAPSES

No One Was Killed but 25 Were Injured.

THREE VICTIMS MAY DIE

Crowd Rushed to See and Support Gave Way.

MANY LEGS WERE BROKEN

Sham Battle Is Called Off and Soldiers Help.

Leavenworth, Kan., Sept. 8.—The grand stand erected on a knoll of the Fort Leavenworth reservation close to the city limits gave way this afternoon inflicting 24 persons. None were killed. Many of those injured received broken legs. The stand was put up this morning. Fully 1,500 people crowded onto it. Just about the time the sham battle concluded the grand stand broke down.

TO MURDER A CONSUL.

The correspondent continues: "The consul at Constantinople tells me that the Porte has informed Himi Pasha that it has received a threat from the Macedonian committee that the insurgents intend to murder a British consul or journalist in Constantinople."

Vice Consul McGregor notified the Turkish authorities that he will hold them responsible for any murder by either the Turks or the Bulgarians. In my opinion this is nothing but a gentle hint to the British journalists who are exposing the massacres.

A Sofia dispatch to the Daily Mail, dated September 8, says that the revolutionary committee in Constantinople will issue to the representatives of the powers a circular note forwarding them of coming events. The note is intended to justify the future action of the insurgents, and will point to the probable extermination of the Christians as necessitating the employment of the same atrocious measures by the revolutionaries against the Turks, and will contend that the responsibility for such desperate acts will rest with the powers.

LAD UP STORES.

London, Sept. 8.—The Sofia correspondent of the Times says the insurgents have laid up large stores of provisions in the mountains and even contemplate a winter campaign. The suffering to women and children thereby entailed will be appalling, but the insurgent leaders believe that the ill-clad Turkish troops will suffer more than themselves, owing to their inability to obtain supplies in a devastated country with interrupted communications.

His continued "An active interference on the part of the powers seems past praying for. Russia and Germany are urging the sultan to adopt more vigorous methods of representation while the other powers have apparently no advice to offer and content themselves with an attitude of disinterested spectators."

The Athens correspondent of the Times hears that a unit of Russian troops, the Russian foreign minister, has declared his opinion that the Bulgarian bands are guilty of greater tyranny and devastation than the Turkish troops, and that it would be necessary to warn the Bulgarians that they will not succeed in involving Russia in an armed intervention against the Turks and further that Russia will not permit a change in the status quo by the creation of an autonomous Macedonia or the appointment of a Christian governor.

RUMOR GAINS GROUND.

Effort to Cause Discord Between Japan and China.

Yokohama, August 25, via Victoria, B. C., Sept. 8.—The conclusion of a Russo-Chinese secret convention is much talked about in Pekin, and the Chinese foreign office shows special interest in denying the fact. The Jiji correspondent says that a rumor is gaining ground that the convention consists of two clauses, namely, in regard to the quarantine affairs, and the customs revenue in New Chwang.

Presumably with the idea of causing discord between Japan and China, Russia has told the secretary of the grand council in Pekin that a Russo-Japanese agreement having been concluded, Japan can no longer interfere with the Manchurian problem, and therefore China may freely enter into friendly negotiations with Russia.

The application for the receiver is made by Edwin A. McAlpin and other stockholders of the company.

Julian F. Davies spoke for the petitioners and former Judge Gilbert Collins argued in support of the motion. Attorney General Robert McCarty opposed the motion.

Vice-Chancellor Pitney said that it had all along been alleged that the complainants were allied with the tobacco trust. There was the mere allegation that they were acting for the tobacco trust.
