

ANOTHER NICKEL RAISE

Hogs Yesterday Were Quoted Steady to 5 Higher

TOP PRICE WAS \$5.25

Cattle Receipts Were Medium and Market Unchanged

The hog market was flush yesterday from early morning till late at night. There was a constant incoming of stock both by car load lots and wagon loads. Nearly all of the car load hogs brought above \$5.00 and one bunch netted the neat figure of \$5.25. According to dispatches hogs were 10 to 15 cents higher in Chicago, strong to 5 cents higher in St. Joe and 5 to 10 cents higher in Kansas City. All day yesterday the Wichita market was steady to 5 cents higher, a greater portion of the receipts bringing Saturday's price.

There was also a goodly number of cattle on the market which commanded excellent prices. Stockmen have at the moment a large bunch of stockers and feeders, about 300 or more, which they wish to dispose of. Country buyers who are looking for stock of this kind would, no doubt, do well to select from this bunch as they are now going at reasonable figures. Until some of these cattle are sold the market will be amply supplied and not many could be sold for shippers. But the prices are fair for anything in the cattle line.

The market closed steady, and a late dispatch from Kansas City says that the market there closed strong. The quotations are prominent for the hog market.

Hog Sales. (By an arrangement between the packers and commission men, hogs arriving late in the night are fed, watered and weighed up on arrival and the next morning sold at the previous day's prices. These hogs are quoted under the head of "early sales" and the fresh receipts, the sale of which is governed by the market for the day on which they are sold, are quoted under the head of "late sales.")

Table with columns: No., Dusk, A.V., Price. Lists various hog sales with prices ranging from \$3.00 to \$5.25.

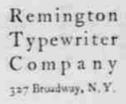

Table with columns: No., Dusk, A.V., Price. Lists various cattle sales with prices ranging from \$1.00 to \$5.00.

Table with columns: No., Dusk, A.V., Price. Lists various sheep and horse sales with prices ranging from \$1.00 to \$5.00.

IN AND ABOUT THE STOCK YARDS

C. A. Alkman, of El Dorado, shipped his first car load of hogs into the Wichita market yesterday. Mr. Alkman was well pleased with the prices and says he can make money by shipping here. It is peculiar, but nevertheless it is true that politics is being talked considerably nowadays among the stockmen. Superintendent W. R. Doherty said yesterday he would not attend the cattle convention at Okemah this week. Business is too rushing about home for him to leave. That "Tiff" is the only Kentucky publication who circulates around the stock yards, and a mighty good inspector he is. Ed Healey, one of the local commission men, has been suffering with a monstrous cauliflower on the back of his neck for the past three weeks. John Healey was in Augusta yesterday to see about shipping a car load of hogs. Among the shippers yesterday were: Pat McKinley, Newport, Kan.; Alvin; W. A. McKee, Kismet, O. T.; George Ambell and Horton Caldwell, Kan.; George Amour and Redding, Berwyn, Kan.; Ernest Linnson, Wichita, O. T.; three Nolan Brothers, Lamont, O. T.; three cars of hogs; C. A. Bellas, Pockman, O. T.; hogs; Frank Lee, Houston, Kan.; Henry V. N. Cook, Jefferson, O. T.; hogs; J. B. Garrett, Garden Plain, Kan.; cattle; D. Loomis, Garden Plain, Kan.; cattle; W. S. Eaton, Colwell, Kan.; cattle; C. A. Price, Atlanta, Kan.; hogs; A. E. Stevenson, Kismet, O. T.; hogs; H. M.

"For good work, quick work, easy work, and all kinds of work, give me the Remington," says the experienced operator.

KANSAS TOPOGRAPHY

Iola Quadrangle Has Been Surveyed and Mapped.

OIL AND GAS LANDS

Country Is a Level Prairie and Well Settled.

Washington, Feb. 22.—The Iola, Kansas, quadrangle has been surveyed and mapped and the topographic sheet which is the result of this work may now be had for the sum of five cents on application to the Director of the United States Geological Survey, Washington, D. C. It is expected that this map will find a ready sale among the people interested in the development of the oil and gas lands of this district. Map in hand, prospectors may more clearly perceive the relative advantages and probabilities of their respective claims and more easily take or drive from point to point. This sheet will be especially interesting when taken in conjunction with the report on the oil and gas fields of the Iola quadrangle which Dr. George I. Adams, assistant geologist of the Survey, expects to bring out in the spring. The topographic features of the map are neither many nor striking. The country is a level prairie, and is well settled, judging from the number of farm houses and towns shown on the map. The Neosho river, which traverses the quadrangle from north to south, is the only conspicuous natural feature. It is the most important economic feature as well, for along this river bottom the main deposits of oil and gas have thus far been found.

The most important towns of the quadrangle are Iola, Chanute, Humboldt, and La Harpe, which lie in the western and northern productive portion of the oil-gas field. Bronson, Moran, Elmora, and Samburg are in the eastern border of the field. Erie, St. Paul and Walnut are other towns on the sheet. The works of man rather than those of nature are the prominent features of the map. The quadrangle is well supplied with avenues of communication. The Atchison, Topeka and Santa Fe Railway and the Missouri, Kansas and Texas traverse the quadrangle from north to south and both have branches cutting it east and west. More characteristic than the railroads, however, are the country roads. The whole district is cut by roads into squares like those on a checker-board. Smooth, hard, straight, even roads are here, that are not better than a blind horse who had set forth with an other guide than his own trusty nose and a feeling somewhere in his anatomy for the points of the compass. Who shall say that the stalwart individuality, the alertness and directness of the Kansas farmer may not be, in some measure, the result of his fine roads? Independent he is as any countryman may be, but isolated never. He holds his own, but keeps in touch with his neighbor. Co-operation, when it applies to threshing his grain, controlling his liquor supply, or manipulating his ballot, is a principle he never reflects. A farmer's alliance would be a foregone failure in a country of bad roads.

The field work for this map was done by Mr. Russell Duke in 1902. A similar map of the Independence quadrangle, which adjoins the Iola quadrangle on the west, is now in preparation. The Governor of Oregon has appointed a Commission on that Subject. Washington, Feb. 22.—An interesting instance of the way in which the operations of the Reclamation Service may assist in securing uniform state laws is contained in the fact that Governor George E. Chamberlain, of Oregon, has recently appointed a commission to draft a bill which will modify the existing water laws of that state in such a way as to make them harmonize with the provisions of the Reclamation Act. Need for similar revision of water laws is felt in other states and it is hoped that Oregon's example will be followed in all the states affected by the Reclamation Act. That such revision would simplify the problems of the Reclamation Service is a fact accentuated by an opinion recently delivered by Mr. Fred Campbell, Assistant Attorney General, concerning the legality of withdrawing public lands from settlement. The Director of the United States Geological Survey had recommended that all lands within half a mile on each side of the center line of Salmon river, Okla., be withdrawn from settlement. Mr. Campbell declared, however, that there is no authority to make such executive withdrawal of public lands in a state as will reserve the waters of a stream flowing over them from appropriation under the laws of the state, or will in any manner interfere with its laws relating to the control, appropriation, use, or distribution of water. He had his opinion upon Section 8 of the Reclamation Act, which states the nature of the general settlement of the act with regard to the impounding of Chinese labor, draws attention to the fact that no counter petition has been started to counteract the petition in its favor. The Board, he says, refrained studiously from expressing any opinion to the opposition in Cape Colony, which he describes as largely political, he points out that the Cape Parliament has twice passed legislation for the introduction of Chinese labor, but that it has never been put into force on account of the expense. Recently an experiment was made with the introduction of Italians and Swedes and it was noted that when the land was protected as far as the reservation of land will protect and preserve such rights.

Chicago, Feb. 22.—Receipts 26,000. Market steady. Good to prime steers \$3.60; stockers and feeders \$2.80; hogs \$4.50; calves \$3.00; sheep \$2.50; lambs \$2.00. Hogs—Receipts 26,000. Market steady. Good to prime steers \$3.60; stockers and feeders \$2.80; hogs \$4.50; calves \$3.00; sheep \$2.50; lambs \$2.00. Sheep—Receipts 6,000. Market strong to higher. Top \$3.50; bulk of sales \$3.25; native wethers \$2.50; market steady. Sheep—Receipts 6,000. Market strong to higher. Top \$3.50; bulk of sales \$3.25; native wethers \$2.50; market steady. St. Joseph, Feb. 22.—Cattle—Receipts 2,500. Steady. Natives \$2.75; cows and calves \$2.50; stockers and feeders \$2.25. Hogs—Receipts 4,500. 5 to 10 higher; light \$3.50; medium and heavy \$3.25. Sheep—Receipts 4,500. Active, steady to higher. Lambs \$5.00; yearlings \$3.25; ewes \$4.00. St. Louis, Feb. 22.—Cattle—Receipts 6,000; market steady to strong; beef steers \$3.80; stockers and feeders \$2.80; hogs \$4.50; calves \$3.00; sheep \$2.50; lambs \$2.00. Hogs—Receipts 6,000; market steady; pigs and hams \$4.00; hogs \$4.50; calves \$3.00; sheep \$2.50; lambs \$2.00. Wool Market. Liverpool, Feb. 22.—Wheat—Spot nominal; futures steady; March nominal; May \$1.00; July \$1.00. Chicago Produce. Chicago, Feb. 22.—Butter—Firm; creameries \$1.00; dairies \$1.00. Eggs—Faster; at market, cases included \$2.00. Cheese—Strong; dairies \$1.00; twins \$1.00; young American \$1.00. Poultry—Live, steady; turkeys \$2.00; chickens \$1.00; springs \$1.00. Quotes a Precedent. France Was Liberal in the Spanish-American War. Paris, Feb. 22.—Exchanges of communications of a friendly character have continued between France and Japan with respect to the stay of the Russian squadron at Jibuti. French Sumnerland, France did not hesitate to make a complete explanation of her reasons for not ordering the Russian ships to depart and it is said in a reliable quarter that this explanation was thoroughly satisfactory to the representative government. The frankness with which the French government dealt with the Washington question was gratifying to the political diplomats and it is asserted that there is no reason to believe that any friction will arise between the two countries regarding the incident. France seeks as she has told Japan and the other powers, to maintain an attitude of loyal neutrality and has no intention of departing from this policy. But so far as ordering the Russian ships to leave Jibuti, this has not been done so as to have done so would arouse the French whose sympathies with Russia is well known and certainly her ally do not desire. The officials say that France has shown her firmness to belligerents during the Spanish-American war when an American military officer attempted to make a repair in the French West Indies. She was compelled to leave forthwith, but the French officials did not require a rigid enforcement of the regulations and the cruiser was permitted to remain until her repairs were completed. It is claimed that this American precedent justifies the stay of Russians at Jibuti. It is recognized in diplomatic circles that the Jibuti precedent may be a serious one for France as if a Japanese squadron attempts to come to the Atlantic to operate against the Russians in the Baltic. London, Feb. 22.—Senator Leslie Stephen, president of the Ethical society, is dead. He was born in 1822.

Quotes a Precedent. France Was Liberal in the Spanish-American War. Paris, Feb. 22.—Exchanges of communications of a friendly character have continued between France and Japan with respect to the stay of the Russian squadron at Jibuti. French Sumnerland, France did not hesitate to make a complete explanation of her reasons for not ordering the Russian ships to depart and it is said in a reliable quarter that this explanation was thoroughly satisfactory to the representative government. The frankness with which the French government dealt with the Washington question was gratifying to the political diplomats and it is asserted that there is no reason to believe that any friction will arise between the two countries regarding the incident. France seeks as she has told Japan and the other powers, to maintain an attitude of loyal neutrality and has no intention of departing from this policy. But so far as ordering the Russian ships to leave Jibuti, this has not been done so as to have done so would arouse the French whose sympathies with Russia is well known and certainly her ally do not desire. The officials say that France has shown her firmness to belligerents during the Spanish-American war when an American military officer attempted to make a repair in the French West Indies. She was compelled to leave forthwith, but the French officials did not require a rigid enforcement of the regulations and the cruiser was permitted to remain until her repairs were completed. It is claimed that this American precedent justifies the stay of Russians at Jibuti. It is recognized in diplomatic circles that the Jibuti precedent may be a serious one for France as if a Japanese squadron attempts to come to the Atlantic to operate against the Russians in the Baltic. London, Feb. 22.—Senator Leslie Stephen, president of the Ethical society, is dead. He was born in 1822.

TIRED BACKS

Come to all who are forced to overtax them in their daily duties. Ever realize that it may not be the back that's tired, but the Kidneys! The Kidneys are over-worked, become congested, and when they "play out" the back will tell by its aches and pains. Healthy people have strong backs. Learn to be healthy by keeping the Kidneys healthy. Doan's Kidney Pills keep the Kidneys healthy and cure all Kidney and Bladder Ills, Urinary Derangements, Diabetes, Dropsy.

Doan's Kidney Pills. Price 50 Cents. A TRIAL FREE. To Wichita Eagle Readers.

WICHITA PROOF

Mrs. Mary Freed, of 1112 North Washington avenue, says: "During thirty odd years I have been subject to backache and other annoyances due to over-excited or weakened kidneys. I have taken an unlimited amount of medicine and I have been treated by more than one physician. Long ago my back ached so severely that I was unable to turn in bed, but latterly other complications were more in evidence. I will be only too pleased to give minute particulars to any lady in Wichita who suffers from kidney complaint and wishes to know what course to pursue to get relief. In the mean time my advice is to go to the Moore Drug Co., 216 East Douglas avenue, procure Doan's Kidney Pills and take a course of treatment."

REVOLT AMONG TROOPS.

Additional Details of the Revolutionary Developments. London, Feb. 22.—Correspondents of the London press furnish some additional details of the recent revolutionary developments among Russian troops in the garrison of Sevastopol, which resulted, as already reported, in many arrests, including that of one Kantorovich, a hospital practitioner. It seems that for several months strangers among them a woman had been visiting the camp and disseminating revolutionary doctrine. Kantorovich, who is a Social Democrat, during the summer often met the soldiers in the open field and visited their quarters. In November several infantrymen reported to their officers that they had been induced to attend private gatherings in which a civilian took part. They pointed out the civilian in the street. He was arrested, and proved to be a member of the Socialist revolutionary party named Grigorovich. A sailor who had brought him to the meetings succeeded in making his escape, one of the sentinels permitting him to pass and wishing him a pleasant journey. Soon afterwards it was discovered that sailors doing sanitary duty and members of the crew of the man-of-war Potemkin were in the habit of reading revolutionary literature, and thirty or forty of the men of the Potemkin were arrested. A good deal of excitement was caused at headquarters by these discoveries. An inquiry was held, and officers were asked how they explained the success of revolutionary propaganda among the soldiers. One result of the inquiry was an order requiring officers to remain on the watch in the soldiers' quarters until after midnight. The Prefect of Sevastopol wants to bring the whole matter before a court-martial so that a sentence of death, or in any case of exile with hard labor, may be passed on the ringleaders.

Every Woman

Interested and should know. MARVEL Whirling Spray. The new Whirling Spray. Full particulars and directions for use available to ladies. MARVEL CO., Times Bldg., New York City.

PAUGH & CO

Successors to McCoy & Underwood and Bridge & Campbell. LIVE STOCK COMMISSION MERCHANTS. Union Stock Yards, Wichita, Kan. Correspondence solicited. Markets by Eagle and Drover's News sent free.
