PRICE FIVE CENTS

PUNCHBOWL RESIDENTS TURNED OUT OF HOMES

FAMILIES IN NEED ASK FOR AID

Occupants of Homes for Forty Years, Driven Out, Appeal for Help

According to Mrs. C. H. Jordan of the Associated Charities, more than fifty families have been made homeless by the recent sale of the Punchbowl lots and although the government has given those who were unable to purchase preference rights until September 15 to move, the new owners of the lots have given the order to get out and have already begun the destruction of the old cottages which were formerly occupied by these tenants.

All through the past week, the work of destruction and reconstruction has been going on while the old tenants, some of whom have occupied the land for many years, have been evicted and have been forced to seek aid of A. de Souza Canavarro, Portuguese consul, and the Associated Charities in helping them find new homes within their means.

The cottages on Punchbowl left standing that are for rent and the new ones being erected by the recent purchasers of the lots have been placed out of the reach of the evicted residents it is said, owing to the increase in rent. In some instances the rents have been doubled while in all instances, they have increased two or three dollars.

Price Out of Reach.
The new cottages rent for twenty or twenty-five dollars a month, said Mrs. Jordan while discussing the situation this morning. "Such a price is away out of reach of these families, some of whom have occupied their old homes for many years."

"Not only are the new cottages high priced but the old shacks which formerly rented for eight and ten dollars a month and were not worth that, have had their rents raised to ten and twelve dollars a month. Several families whose rents we have had to pay in the past owing to their impoverished circumstances have had their rents doubled and the Associated Charities is unable to meet this increase."

"All morning long, we have received

W. DUSENBERG BLINDED WHEN BOTTLE BREAKS

Eyeball Cut by Flying Glass, Will Go to Mainland for Treatment

WILL SAIL WEDNESDAY TO FIGHT FOR EYESIGHT

Feared One Is Destroyed, and Famous Oculists Will Try To Save Other

Through the bursting of a soda water bottle which he was attempting to open at Haleiwa yesterday, Walter Dusenberg, a prominent young stock broker, probably lost one eye and may be entirely blinded. In an effort to save his eyesight, he will sail on the Mongolia Wednesday for San Francisco to submit to such treatment as the famous oculists of that city may prescribe. Dr. William G. Rogers and a trained nurse will accompany him on the trip.

With a party consisting of Mr. and Mrs. E. S. Dusenberg, their little son, and Mrs. Alexander Dusenberg, Walter Dusenberg arrived at the Haleiwa Hotel shortly before noon yesterday. They planned to eat their lunch on the beach at Waialua Bay. The boy of the party asked for a bottle of soda water and attempted to open it when his Uncle Walter intervened, remarking that he would open it, as it might explode and put his nephew's eye out.

He struck the bottle on a stone to remove the cap, when it exploded and a fragment of glass struck him in the right eye, cutting through the upper lid into the eyeball in a vertical gash three inches long.

Dr. Wood of the Waialua plantation gave him temporary treatment, and he was then hurried to town to the Queen's Hospital. Here a consultation of Doctors Rogers, Judd, Straub, Walters and Major Kennedy of the army medical corps was held. It is understood that it was at first decided to remove the injured eye, but it was later pointed out that there was one chance in a hundred that if he was hurried to San Francisco, the oculists there, with better equipment, might save the one eye, and could at least make sure of preserving the sight of the other. As a consequence, he will be sent to San Francisco on the Mongolia.

WINDJAMMERS FROM ATLANTIC COME NO MORE

Sale of Nuuanu Marks End of Shipping Industry Covering Fifty Years

STEAM POWER DRIVES OUT SAILING PACKETS

Bark Foohing Suey Has Made Last Trip With Brewer Line

The arrival of the American bark Nuuanu at Honolulu on July 25, after a disastrous voyage from New York, covering a period of 348 days, during which time the vessel was twice well-nigh wrecked through a series of encounters with gales and tempestuous seas in the vicinity of Cape Horn, represents the final call at Honolulu of a sailing vessel in the former lucrative trade between Boston and New York and the Hawaiian Islands.

With the sale of the Nuuanu some days ago to Captain Barneson, the veteran shipowner of the Pacific Coast, passes out of existence what for a half century has been familiarly known as the Brewer Line.

The sole remaining vessel, the American bark Foohing Suey, which sailed May 15 from the port of Mahukona with a full cargo of sugar destined for Delaware Breakwater, is said on good authority to have made her last trip from the East Coast of the United States to the Islands. Passing of Interest.

The passing of the Brewer line of sailing packets, which for several decades have plied between Boston, New York and the Islands, bringing shipments of general merchandise and returning with full shipments of sugar, supplied through the Sugar Factors Company, is a matter of much historical import to all who have had to do with the shipping in these Islands.

The final withdrawal of the windjammers, which at one time comprised a fleet of a half dozen fast clipper ships and barks, plainly tells the story of the prowess of steam over sail. A flood of recollections were recalled by old-time shipping men today when definite information was received at the agency of T. H. Davies & Co., to the effect that the Brewer Line of sailing packets was no more.

Many here recall the more or less regular visits of such vessels as the Amy Turner, the Martha Davis, the Helen Brewer and Tillie Starbuck, the two latter vessels leaving their bones in old Neptune's domain. For several years the Nuuanu and the Foohing Suey represented the last survivors of an unequal fight between the sailer and the large and faster steam freighter.

40 Years in Service.
Captain Walter Lyman Jesselyn, the veteran skipper in the bark Nuuanu now awaiting orders at this port, has been with the Brewer line for nearly forty years.

During his employment with Brewer & Co., he said he went into almost

New Army Law Ousts Wood Hits At Soldiers

GENERAL LEONARD WOOD, CHIEF OF STAFF OF ARMY.

WASHINGTON, D. C., Aug. 26.—Under the army bill which has been signed by President Taft, General Wood is legislated out of office, March 4, under a provision which forbids the appointment of any officer as chief of staff who has not had ten years' service with troops prior to his appointment as brigadier general. The other provisions of the army bill calling for sweeping changes in its organization are retained as in the bill which was vetoed by the President.

With the army appropriation bill for approximately \$80,000,000 safely signed by the President, the entire military organization of Oahu is keenly interested in further details that will give the provisions of the act. There are several revolutionary changes in the organization of the army, which, when the bill was last heard from, were still incorporated in it, and these are of far more interest to the army as a whole than any personal controversy between the President and Congress over the affairs of General Wood, which it is understood has ended with the legislation of General Wood out of office.

That enlisted men are all by the wave of economy that is sweeping over matters military, is indicated by a cable received this morning by Captain Cooke, the army paymaster, instructing him that men discharged after August 24 were to be paid only 2 cents per mile travel money, instead of 4 cents. The men, however, have the option of accepting quarter-master's transportation and subsistence.

This is a sharp blow at the enlisted man, who can least afford to lose any bonuses or privileges. Heretofore a man who enlisted in New York, and whose time expired on Oahu, could draw down something like \$128 for mileage back to the place of enlistment, and then turn round and re-enlist.

According to the evidence, Kagawa's two children had a propensity for fighting, consequently he tied their arms and hands together and then fastened them to two trees in order to prevent further hostilities.

"Tying children up to keep them in order is putting them on a level with four-footed beasts," said Judge Monsarrat while fining the defendant \$1 and costs. "Putting them in a corner with their backs to the wall is far more effective."

And the father departed, promising to take the judge's advice as soon as he reached home.

It is said there was no vote against this ruling when it was put to the meeting, and therefore Lualaba's selections were barred.

Now it is claimed that under Section 17 of Article I of the Republican rules, no second for the nomination was necessary.

CANAL BILL TO HAGUE TRIBUNAL

British Newspapers Make Bitter Attack On Measure As It Has Passed Congress

LONDON, Eng., Aug. 26.—The newspapers of all shades of political opinion unite in condemning the Panama Canal toll bill as it passed Congress. They declare that it is in direct contravention of the Hay-Pauncefote treaty, violates treaty rights in British ships, and can not be tolerated. It is said that an appeal to The Hague tribunal is certain.

DARROW MUST STAND TRIAL

LOS ANGELES, Cal., Aug. 26.—Clarence Darrow will probably have to stand trial on the second grand jury indictment for alleged bribery, although on the first, charging complicity in the attempt to bribe Veneman George N. Lockwood, he was declared not guilty.

Darrow's petition to dismiss the second count on the indictment, charging bribery of Juror Robert F. Bain, was refused today by Judge Hutten, to the surprise of most of those in court when the petition was returned denied. Juror Bain was the first of the jurors sworn, and the prosecution claims a strong case against Darrow on this count.

MORE SENATORS UNDER FIRE

WASHINGTON, D. C., Aug. 26.—Governor Glasscock of West Virginia today demanded an investigation of the elections of Senators Clarence J. Watson and William E. Chilton on the charge that their seats were secured by bribery.

"RECALL" OUT FOR JOHNSON

SAN FRANCISCO, Cal., August 26.—A petition for the recall of Gov. Hiram W. Johnson has been started. It is believed only insignificant, however. Gov. Johnson says he is informed that it is backed by Rudolph Spreckels, and when Spreckels heard this, he retorted "Liar!"

WIRELESS FAKER DIES IN JAIL

ATLANTA, Ga., Aug. 26.—Christopher Columbus Wilson, president of the United Wireless Company and prime mover in the stock-selling scandals which sent him and other officers to the penitentiary, died here today.

KAISER PAINFULLY ILL

BERLIN, Ger., Aug. 26.—Kaiser Wilhelm is painfully ill with muscular rheumatism.

Some mistake may have been made in dispatches last night and today regarding the health of the German sovereigns. This morning's news was to the effect that the Empress was in a precarious condition, while Associated Press news this afternoon says distinctly that the emperor is ill. It is possible that both have been attacked by illness.

GENERAL DEFICIENCY BILL PASSED AND SIGNED

WASHINGTON, D. C., Aug. 26.—The general deficiency bill was signed today.

The general deficiency bill has carried the provision for the disposal at auction of the Schofield military reservation water rights on a long-term lease, but this was dropped last Saturday and the bill passed without it. The leasing of the water rights is therefore undisposed of and will come up at the next session of Congress.

GOV. MARSHALL OPENS CAMPAIGN IN MAINE

PORTLAND, Maine, August 26.—Governor Thomas R. Marshall of Indiana, Democratic candidate for vice-president, today opened his campaign with a speech here. He attacked the present tariff as "shifty, uncertain and dishonorable," declaring that the Republican party has failed to deal intelligently or justly with the tariff situation.

ROOSEVELT SAYS GLAD FOR LOEB TO TALK

NEW YORK, N. Y., August 25.—Col. Roosevelt today expressed himself as delighted to have Collector Loeb testify before the Congressional investigating committee regarding the campaign fund of 1906.

M'LOUGHLIN WINS NATIONAL TENNIS CHAMPIONSHIP

NEWPORT, R. I., Aug. 26.—Maurice McLoughlin, the sensational young California tennis player, today won the national singles tennis championship by defeating W. F. Johnson of Philadelphia. McLoughlin played a brilliant, dashing game that proved too fast for Johnson.

CONGRESS ADJOURNS AT LAST; WORK ENDED

WASHINGTON, D. C., Aug. 26.—Congress today ended its work and adjourned.

get together, Prince Kuhio and his party returned to Waialua for lunch.

SUGAR 4.17c.
A cablegram from E. Pollitz & Co. to H. Waterhouse & Co. states that sugar sold for 4.17 in New York today.

The oil tanker Marion Chilcott of Honolulu with a load of fuel oil, was reported off Koko Head at 2 o'clock this afternoon.

JAPANESE AVIATOR HERE; WILL TEMPT FATE OVER CITY

Sadaichi Doi in Home-Made Biplane Says He Will Soar Over Honolulu

Sadaichi Doi, Japan's first aviator, has come to Honolulu and will make several flights here. He is now preparing to dare the perils of the air in a flight over the city within a few days.

Sadaichi Doi arrived here from San Francisco on the Pacific Mail liner China last Friday and is now stopping at one of the Japanese hotels. After his flight in Honolulu he will proceed to Japan to make exhibition flights at various points there.

Eleven years ago Doi landed in San Francisco, a common laborer from the Orient. His early years in the United States were spent in the hardest kind of manual labor. Later with his savings he opened a jewelry and art shop and became prosperous in a modest way.

In the latter part of 1910, chancing to see a big aviation meet in San Francisco, he became fired with ambition to be an aviator, and after watching Ely, Parmelee and others fly, he began to work on a biplane of his own. Starting in May of last year, he completed the flyer in September. His first trial flight was a failure, but he refused to be discouraged and set to work to improve his machine. Since then he has made two successful flights in San Francisco, and he made up his mind to become a professional aviator. His biplane is twenty-eight feet in length from wing to wing, with a propeller six feet and ten inches long. The motor is of 25 horsepower and now ready for flight.

Doi intends to try to fly across the Chosen Channel after reaching Japan, a flight declared to be much harder

than that across the English Channel.

"Bud" Mars and Didier Masson are the two birdsmen who have actually flown here, although a number of aviators have passed through the city and several unsuccessful attempts have been made. Masson's flight from Schofield Barracks to Kapiolani Park ranks as the most notable of the few feats performed locally.

ONOMEA WILL CUT A MELON

Fifty Per Cent. Stock Dividend To Be Considered Next Thursday

Stockholders of Onomea Sugar Co. will meet at the office of C. Brewer & Co., Ltd., at 10 o'clock on Thursday for the purpose of considering an amendment to the charter of the corporation and an increase to its capital stock.

It is proposed to make an increase of 50 per cent. to the capital stock, which will raise the number of shares from 50,000 to 75,000, and the par value of the stock, at \$20 a share, from \$1,000,000 to \$1,500,000. The sale quotation of the stock has increased this month to date from 52.25 to 53.50, or an advance of 3.50. This month also the monthly dividend was increased from 40c a share to 60c. The company has a surplus in the treasury which the directors consider justifies them in recommending the increase of capital stock.

This increase will be made in the form of a stock dividend, each stockholder receiving new stock in the proportion of one-half a share for every share held at date of increase. On the basis of the present asked price of 60, the stock should be worth 40 on the market after the increase.

G. R. CARTER TO GET INTO FRAY ON MAINLAND

Ex-Gov. George R. Carter, chairman of the Progressive Party in Hawaii, will not be here for the territorial campaign, according to his present plans. He expects to be on the mainland, leaving here on September 11.

His voice will be raised from the stump in support of Col. Roosevelt and the Progressive principles, if he gets into the fray as he expects to.

Mr. Carter expects to put his children in school, going to Baltimore with Miss Carter.

"There does not seem much here that I can do," he said this morning, "and I probably shall get into the fight on the mainland."

The departure of the local leader of the Bull Moose will be partially offset by the arrival of A. L. C. Atkinson from Chicago, where he represented Hawaii and pulled down the national committee for this territory. Atkinson is due on the Manchuria August 29.

STAND CHILDREN IN CORNER; IF THEY ARE BAD, SAYS JUDGE

Monsarrat Opposes Whipping and Instructs Parents as to Proper Method

Don't spank them or tie them up, but make the children stand in the corner, when they misbehave. All other corrective methods are cruel or ineffective, according to Judge Monsarrat who made the recommendation in regard to training the young in jail today.

KUHIO URGES LAIE HARMONY

Delegate Kuhio headed a party that went to Laie yesterday in an endeavor, it was stated today, to harmonize what threatened to be a small Republican row in the precinct. It appears that the action of the chairman of the precinct club meeting on Friday night, in ruling one of the seats of nominations out of order, threatened to disturb the political peace of Kahuku. Joseph Kauhawa, who handed in one of the sets of nominations, got no second for his suggestion and the chair ruled the nominations out of or-

23 GAMBLERS FINED \$119 IN POLICE COURT

Sixty-four alleged gamblers were arraigned in court before Judge Monsarrat this morning. Twenty-three of the number received fines and costs amounting to \$119, while the cases of the other forty-one, arrested in a raid Saturday night on a gambling den at Hotel and Smith streets, were continued.
