Culture is not an accident of birth, although our surroundings advance or retard it; it is always a matter of individual education.—Hamilton W. Mabie.

LET HAWAII BE REPRESENTED

The move to send Dr. J. S. B. Pratt, president of the territorial board of health, to the International Congress of Hygiene at Washington next month is the right move for this territory to make.

Hawaii has a reputation to guard and to herald to the world—a reputation for healthfulness. That is the kind of a reputation that will bring thousands of tourists here.

ENCOURAGING THE NATIONAL GUARD

The maneuvers of the Hawaiian guardsmen ending yesterday again showed that the local militiamen take readily to the "war game" and prove themselves apt in the field.

THAT CUBAN AFFAIR

Talk of complications between the United States and Cuba because of the assault on Hugh S. Gibson, the charge d'affaires of the American legation, will probably not incite either party to actual hostility.

Gibson was set upon in a Havana hotel by the Cuban newspaperman, and while he figured in the center of a whirl of arms, legs and Cuban expletives, he was not seriously injured.

There is no evidence that anything was behind the affair except the hot-headedness of the Cuban reporter.

THE CHURCH AND INDUSTRY

Labor and capital alike will find food for serious thought in the statement read last Sunday night at the Labor Day services as the attitude of the federal council of churches upon modern industry.

"We hold that the organization of capital or the organization of labor cannot make wrong right nor fight wrong; that essential righteousness is not determined by numbers either of men or dollars."

activity, activity of a practical kind. It does not agree that ministers or congregations can rest content with the academic discussion of ethical problems, to the exclusion of action toward settling these problems.

We don't think the duty of all Christian people to concern themselves directly with certain practical industrial problems. To us it seems the church must stand—

For equal rights and complete justice for all men in all walks of life.

For the right of all men to the opportunity for self-maintenance, a right to be ever wisely and strongly safeguarded against encroachments of every kind.

For the right of workers to some protection against hardships often resulting from the swift crises of industrial change.

For the principle of conciliation and arbitration in industrial dissensions.

For the protection of the worker from dangerous machinery, occupational disease, injuries and mortality.

For the abolition of child-labor.

For such regulations for the conditions of toil for women as shall safeguard the physical and moral welfare of the community.

For the suppression of the "sweating system."

For the gradual and reasonable reduction of the hours of labor to the lowest practicable point, and for that degree of leisure for all which is the condition of the highest human life.

For a release from employment one day in seven.

For a living wage as a minimum in every industry, and for the highest wage that every industry can afford.

For the most equitable division of the products of industry that can ultimately be devised.

For suitable provision for the old age of workers and those incapacitated by injury.

For the abatement of poverty.

To the toilers of America and to those who by organized effort are seeking to lift the crushing burdens of the poor, and to reduce the hardships and uphold the dignity of labor, this council sends the greeting of human brotherhood and the pledge of sympathy and of help in a cause which belongs to all of those who follow Christ.

This is a mighty battle to be fought, and the churches are beginning to fight with a faith as splendid as the faith of the Crusades and far nobler in sincerity of aim.

Mayor Fern has now before him for action the ordinance which, under the pretense of establishing a "municipal record", cloaks a political scheme devised by certain supervisors for personal purposes.

Kansas has returned a popular majority for Curtis, Republican candidate for senator, of 10,000 votes over Gov. Stubbs, the Bull Moose leader in that state.

Gov. Wilson's speech of acceptance is called by the Democrats a masterly document, on a lofty plane of Jeffersonian thought.

Racing at Kapiolani park received an encouraging revival yesterday, and with capable, intelligent management it should become a feature of Hawaii's varied sport-life.

As the blue-bird is the harbinger of spring in the states, so is the homescoming schoolteacher the harbinger of fall in Hawaii.

China "regrets" that Great Britain will not allow her to seize Tibet as a province.

The political trouble-makers did not take a holiday on Labor Day. They are always on the job.

Gov. Wilson has now opened his campaign in seven different places.

the same time they will not endorse any particular party, but will vote a block vote for those men whom they think will give them the best representation in the Legislature.

It is conceded by all hands that the tacking of a party slate does no good to the union as a whole, and that after the men get in they do not do any good for the working man.

The meeting was well attended considering that the day was not observed as a general holiday, most of the stores keeping open a half day.

valuable information for the health department of these islands.

Also, the Congress is a feature inaugurated by the federal government and it is quite natural that the Territory should be expected to pay due respect to the event.

HILLO CLUB IS WORKING FOR IMPROVEMENTS

The Hilo Club is working for improvements in the city. The club has a number of members who are interested in the city and are working for its betterment.

Several Honolulu visitors were noticed and there were also visitors from Maui and Kauai so that the club took on a real island air. After some exciting games the first prize at the Hilo Club tables went to Mrs. William McKay and to Dr. Elliott, president of the Board of Health, who put up a score of over thirteen in the six games played.

Mrs. McKay was presented with a handsome cut glass cheese dish while Dr. Elliott was presented with a useful box of traveler's requisites. It is believed that the improvement club is here to stay and that many enjoyable functions will be given from time to time under its auspices.

ATTORNEYS ARRANGE BIG CALENDAR FOR COOPER

The majority of Honolulu's leading attorneys, twenty-three in all, gathered in Judge Cooper's court this morning to aid in the arrangement of the court's calendar of civil cases. Fifty-one of these suits were set for hearing, making the calendar so heavy that Judge Cooper probably will be kept busy every legal working day from now until the latter part of October.

The last case is set for November 18, and it is considered likely that many of the hearings will not be finished before the last of the year. The length of some may conflict with the date set for others and continuances may be found necessary.

Also, for the next fortnight Judge Cooper may be called upon to handle some criminal cases, as Judge Whitney is leaving for a vacation on Kauai and Judge Robinson is on the coast on a three months' leave of absence. There are few hearings set for the next two weeks in Whitney's court, however, and the probation officers will handle such juvenile cases as may require attention before Judge Whitney's return.

SATAN "USED TO HOT WEATHER." August, we are told, is the favorite month for the vacations of Philadelphia ministers, and few will begrudge them their well-earned holidays. To those who say that Satan never takes a vacation in the summer, the classic reply of the clergyman may be quoted: "Yes, but he is more used to hot weather."—Philadelphia Bulletin.

Lieut. Gen. Green Clay Goodloe, U. S. M. C., and Mrs. Goodloe are making a winter trip in Maryland, Virginia, and West Virginia. They will spend a short time in Braddock Heights, Buena Vista, Berkeley Springs, and in Winchester.
