INTER-ISLAND TANGLE IS DEADLOCKED

PRESIDENT TO ANSWER LATER

Masters And Mates Reserve Right "to Act as Seems Best Under Circumstances," Voiced by Attorneys For Association

Considering the reply of the inter-island company to its request for an answer by 1 o'clock today for its request for a conference, Honolulu Harbor No. 54, Masters, Mates and Pilots' association, is holding a meeting this afternoon, beginning at 3 o'clock. Indications point to an agreement by the association to the inter-island company's statement that it will take the matter up on Wednesday.

It is reported that the marine engineers' association will meet tonight and decide to stand by the masters and mates.

The inter-island company countered the move made by the Masters and Mates Association yesterday, at a meeting held this morning, and the results of which were given out by President Kennedy this afternoon shortly after one o'clock. The company asks for more time in which to reply to the demands of the Harbor made by resolution yesterday afternoon. In turn the Harbor will hold a meeting at three o'clock this afternoon at which the reply of the company will be discussed, and whatever "action deemed best under the circumstances," to quote one of the attorneys for the captains, will be taken by their body.

After citing the resolution, a copy of which will be found below and a letter from Attorney Ashford to the management of the company, the corporation in its reply says:

"Honolulu Harbor No. 54, care of Messrs. A. Tullitt, M. O'neal and O. W. Olsson, Committee, and Messrs. A. S. Humphreys and C. W. Ashford, Counsel.

"Honolulu, T. H.

"Gentlemen:

"Your letter of January 27th, 1913 received after 9:30 a. m. today has been considered by us as carefully as was possible in the short period intervening between its receipt and the writing of this answer at 1 p. m. Accompanying the letter was your verbal statement preferred through your attorneys to the effect that should your Harbor fail to receive an answer according to their demands by 2 o'clock today you would act as though your demands were refused.

"As soon as possible all available directors of our company were consulted. We were unable to confer with all of the directors, one of them being ill. Both of these gentlemen are not only directors but large stockholders. We feel that they should be present, if possible, at a meeting called for the determination of the very important questions covered in your communication. We feel further that the propositions contained in your letter are of so great importance not only to the stockholders themselves, but to the public generally, that the short time allowed us by your verbal request is wholly insufficient to afford proper consideration thereof.

"A meeting of the Board of Directors has been called for Wednesday morning for discussion of the questions raised by your letter. As soon as the board acts, you will be notified of the position taken by it. Respectfully, Inter-Island Steam Navigation Co., Ltd., By James A. Kennedy, President; by Norman E. Gedge, Secretary."

Fear General Tie-up.

Developments in the embroglio between the masters and pilots of Local Harbor 54 and the Inter-Island Steam Navigation company pointed to a general tie-up of the service of the company. The captains filed with the

EUROPEAN SOCIALIS AND OTHERS PROTEST AGAINST WAR, WHILE SOLDIERS OF THE ALLIES HASTEN THEIR PREPARATIONS

In Vienna, Berlin and Paris the socialists planned and carried in to effect monster demonstrations against the assumption of war.

Lieutenant Tarraxheff, the first Bulgarian aviator to go on a scouting expedition, was also the first to lose his life. He was setting off toward Adrianople when his machinery went wrong and he crashed to the ground, receiving terrible injuries. He is seen here saying good-bye to General Yankoff.

SHELDON THINKS GRADNIECES TO THE LEGISLATURE SHOULD ACT

William J. Sheldon, of Waimea, Kauai, veteran representative from the Garden Island, believes that the present controversy between the Inter-Island Steam Navigation Company and the Masters, Mates and Pilots' Association is important enough to deserve legislative attention, and accordingly Mr. Sheldon plans to bring the matter up when the legislature meets next month.

Representative Sheldon is quoted yesterday as saying that if the inter-island tries to put new men in as mates there is likely to be a marine disaster that will shock the territory. He holds that the men brought down from the coast have not enough experience in local waters.

According to reports from Kauai, Mr. Sheldon hopes to have the legislature take the matter up and if feasible pass a law that would prevent men unfamiliar with Hawaiian waters being put in responsible positions requiring them to navigate the steamers which ply in these waters.

It was pointed out this morning that the territory very likely has no power to pass such a law because of the federal regulations controlling inter-island and high-seas navigation.

SUGAR GRADUALLY SHADING DOWN

According to the following cablegram received by Alexander & Baldwin, Ltd., this afternoon, the basis for future arrivals of Hawaiian sugar in New York is a shade below the latest quotation of 3.45 to the planters.

"Oregonian arrived today, basis 3.45, last half of Alaskan's cargo.

"American and Howell quote basis for refined at 4.45, Federal and Arbuckle at 4.30.

"Raws in position to affect basis for Hawaiian arrivals are worth 3.42. Market steady."

NEW OFFICERS FOR MERCHANTS

Officers of the Merchants' association were elected by the directors this afternoon as follows:

Charles Bon, president.

O. C. Swain, vice-president.

George G. Guild, secretary.

M. M. Johnson, treasurer.

The case of Kim Bong Choon, charged with conducting a gambling game, was nolle prossed in Judge Robinson's court today.

company's management through their attorneys, C. W. Ashford and Judge A. S. Humphreys, an ultimatum, which called for a formal reply to their demands formulated at a meeting yesterday, and pending a reply to this marked time until the hour set as a limit, 1 o'clock, in which the company's answer might be made.

At the offices of the company there was much apparent activity. A practically full board met and was in session for a long time, but it was late before Mr. Kennedy, president of the company, was enabled to make any announcement.

Mr. Ashford, who is now actively

Congress Thanks Mr. S. M. Damon

The generosity of S. M. Damon in donating to the navy all the fresh water necessary for Pearl Harbor, has been officially recognized by congress. Admiral Stanford, chief of the Bureau of Yards and Docks, who was here last summer, brought the matter before the house committee on naval affairs.

The army and navy Register reports the incident as follows:

The House committee on naval affairs has placed on record its appreciation of the act of a citizen of the island of Oahu upon which is located the naval station at Pearl Harbor as well as an Army post. Mr. Damon owns a magnificent estate on the island upon a parcel of which the government sunk a well from which a natural flow of 900,000 gallons of water per day is obtained. This water is piped to the naval station, a distance of three miles. The water is unlimited and provides a very satisfactory supply. Mr. Damon made the nominal charge to the government of \$1.00 for this valuable privilege and civil Engineer Stanford, chief of the bureau of yards and docks, stated that the result had only been made possible on account

of the public spirited and generous attitude of Mr. Damon.

It is well to make special mention of such an act as this and we publish that part of the hearings before the committee relating to the matter.

In explaining what had been done with a previous appropriation for a water supply Civil Engineer Stanford said:

A well has been sunk which is yielding 900,000 gallons of water per day. The water has been pronounced by the bureau of medicine and surgery suitable for potable use. The well is on an area which has been offered by Mr. Damon at a cost of \$1, a nominal charge, and gives the government what might be called an unlimited and satisfactory supply, which should be good for an indefinite period. Execution of title papers transferring the property is now being arranged. The money previously appropriated will be used for necessary pumping equipment and for pipe line to connect the well with the yard a distance of about 3 miles, and together with other funds under water

MORE THAN THOUSAND WOMEN HEAR RAYMOND ROBINS TALK

More than a thousand women crowded Central Union church last night for one of the most remarkable religious meetings ever held in this city. It was the special meeting for women held by the Men and Religion campaigners, and Raymond Robins, spoke to a church full of women just as eagerly interested in his message as the men have been.

Without flowers of eloquence, but with a directness and force that had more effect, Mr. Robins dwelt quite as much along social service and practical civic improvement lines as on ethics and dogma. Mrs. L. Tenney Lack, president of the Y. W. C. A., presided and on the rostrum were a number of prominent women of Honolulu.

Taking as his text the "Social consciousness of Christ," Raymond Robins delivered his message simply but powerfully. He read the second chapter of Luke and laid especial emphasis on the 19th verse. "But Mary kept these things and pondered them in her heart." He spoke of the close contact that Christ had with his fellow men and of the great work he accomplished through this association. One of the strongest points brought out by the speaker was the responsibility of the women in the going on all over the world. The women must help, he said, or the work will be of no value. Great stress was laid on the value of personal service. He said that understanding people only comes through close association. He spoke of his

SET DATE FOR THE RE-OPENING OF WAR

Allies In London Begin Drafting Note to Turkey Which Will Formally Sever the Diplomatic Relations Now Existing--Even With Uttermost Haste Delays Will Stall Off Hostilities Until February Eleventh

LONDON, Jan. 27.—War between the Turks and the Balkan allies is again certain. Authorities assert, however, that with the best wish in the world to fly at each other's throats, the belligerents will not be able to come to blows until February 11.

The allies here this morning began the drafting of the formal note discontinuing the relations between the Balkan states and the Ottoman. Even with the uttermost celerity, the diplomatic formalities can not be completed before the date stated above, as there are certain necessary delays in transmission of the document to the Powers. Despatches from Constantinople announce that the Mussulman is rushing preparations for war as speedily as possible and expects to be in better trim for conflict than at any time since the beginning of his war with Italy.

Split Over Suffrage Bill

LONDON, Jan. 27.—The Cabinet today announced that it would drop the franchise bill, which had been made an administration measure, because of the difficulties raised by the woman suffrage amendment. This amendment, it is said, would have so altered the substance of the bill that an entirely new measure would have become necessary.

Mrs. Parkhurst, leader of the militant suffragettes here, stated today that she will call upon the suffragettes to declare a guerilla warfare against the authorities. Her plans, she said, would include strikes and if necessary riots. The suffragettes, added their leaders, are going to stop at nothing to get the ballot.

Sheriff Works For His Prisoner

NEW YORK, Jan. 27.—General Daniel Sickles, well known veteran of the Grand Army, was placed under a technical arrest this morning. As a matter of fact, he is not even under guard. The old man is prostrated by the whole affair, which grows out of a shortage of \$25,000 in the funds of the New York state monument commission, of which he is the head. The public opinion is that General Sickles is the victim of inefficiency lower down, and as an evidence of this feeling the sheriff who is nominally his jailer this morning began the work of raising funds to pay off the shortage for which the general is technically responsible.

Huge Packing House On Fire

CALGARY, Alberta, Jan. 27.—More than seven thousand dollars' worth of meat has been destroyed by a fire that swept the largest packing house in this city today. The firemen were powerless to down the blaze, which continued until practically all the plant had been destroyed. It is feared that a famine of meat in the northwest of Canada will result.

Thorpe Confesses To Charge

NEW YORK, Jan. 27.—Out a short time after the trial of James Thorpe, all-around champion at the Olympic games, confessed his guilt of the charge of professionalism and volunteered to relinquish all the trophies won by him at the games and other amateur meets. The confession came as a shock to his friends.

Sugar Trust Official Jailed

WASHINGTON, Jan. 27.—Charles Heike, former secretary of the American Sugar Refining Company, will have to serve a term in prison and pay a fine of five thousand dollars for his part in the weighing frauds discovered in Brooklyn some years ago. This was the sentence handed down by the supreme court of the United States, before which the case had been tried.

Olympic Champ On Trial

NEW YORK, Jan. 27.—The trial of James Thorpe, the Carlisle student and Olympic games all-around champion, charged with professional baseball playing, began before the A. A. U. officials this morning. There are a number of witnesses and the case may take several days.

Refined Sugar Down Fifteen

NEW YORK, Jan. 27.—Refined sugar dropped fifteen points on the market here this morning, to the tune of nammering by shorts. The market is believed regaining its tone.

GRAND JURY ON ALLEGED BIGAMY CASE TODAY

The federal grand jury resumed its sessions this morning, taking up first the cases of Jesse W. Clark, or J. C. Steele, accused of bigamy, and Sergeant William S. Hagemann, of the First infantry, held for the murder of Private Henry Gerken at Schofield Barracks on the evening of Dec. 8. The former case was taken up first and the indictment is expected this afternoon. It is understood an effort will be made to bring the bigamy case into court for trial tomorrow morning, so that the two women brought from San Francisco as government witnesses may be examined and released at the earliest moment.

Investigation of the soldier murder affair probably will require considerable time, unless indictment is returned soon merely to hasten a thorough airing of this mysterious affray in court.

Governor Frear has issued a call for a meeting of the charter revision committee of thirty-three, to be held in the senate chamber at the capitol building at 8 o'clock next Friday evening, to discuss the next of the proposed new charter which has been prepared by the special committee appointed to draw up a tentative form.
