See Hawaii First

EVERYBODY SAYS that it is a fine thing for the Hilo Board of Trade to advertise Hawaii; but—

Talk Is Cheap

A GOOD MANY PEOPLE ARE "FROM MISSOURI" and we ask you Honolulu people who have recently been to Hawaii, to help along the good work and prove our statements by telling your friends what you saw and what you think about our claims:

- That Hawaii is a good place; For spending a restful, quiet but invigorating vacation; For spending a vigorous, tramping, exploring vacation; For taking long or short auto trips; For seeing spectacular scenery, tropic jungle scenery; and volcanic phenomena of all kinds; That the transportation and accommodations are good; That the prices are reasonable.

For literature and particulars, see in Honolulu: Hawaiian Promotion Committee, Inter-Island Steamship Co., Volcano Stables Co., Waterhouse Trust Co.

OBSTINATE CATARRH

cannot be corrected by local treatment; to arrest the flow of secretion you must remove the cause; this symptom is only one of nature's warnings of a run-down system.

Build your strength and vital forces with SCOTT'S EMULSION; it supplies the needed lime and concentrated fats; the glycerine soothes and heals the delicate organs; the emulsion nourishes the tissues and nerve centers and makes red, active blood.

Scott's Emulsion overcomes catarrh by compelling health and vigor. Scott & Bowne, Bloomfield, N. J. 13-79

NEWMAN SAYS

Watch for the 15th of August.

Help! Help! Help what? Help who? Why the Hilo Board of Trade asks those who have recently visited Hawaii to help prove that Honolulu people will make no mistake if they see Hawaii first. See their ad in today's Star-Bulletin.—Advertisement.

DIES AT 109, LEAVING 200 DESCENDANTS

[By Latest Mail] PHILADELPHIA.—Mrs. Freda Videutzky, who died here today in her 109th year, leaves 200 descendants. There are eleven grandchildren and seventy-four great grandchildren in this country, while her daughters here say that eleven more grandchildren in Russia have at least one hundred great grandchildren in that country and two great great grandchildren. Mrs. Videutzky was born in Kief, Russia, in 1804. She lived there until she was 93 years old, when she was brought to America. Curiously she had only three children of her own and all of her descendants come from her two daughters, who raised immense families.

Occasionally a man kicks because his name is in the paper—in small type. A French inventor and aviator, Percin, took his son with him on his first flight in a new machine. The aeroplane turned turtle, crashed to the ground, the gasoline tank exploded, and the two were burned to death.

SAY MAN IS LESS WILD THAN WOMAN

English Writers Declare Male Standard of Civilization Is Higher

LONDON — A curious controversy is going on in the Daily Mirror in regard to the question whether woman is nearer savagery than man. It was started by the statement of an English author that the higher types of savages have embarrassingly rich languages and are gifted talkers. If he says, this is a marked attribute of savages, then it is certainly also one of women, for, as far back as records carry, women have always been notorious talkers.

A doctor said in regard to the question: "A man may chat, but a woman only chatters. Savages chatter all day long, mostly about nothing. The higher type of savage is particularly rich in his language; so is the higher type of civilized woman. You cannot restrain either type—both must have their way. Women are born talkers, and it is somewhat significant that girl babies usually speak much sooner than boy babies.

"That women are more children of nature and less highly civilized than men is a fact accepted by most alienists and psychologists. In the first place women are notoriously deficient in logic. Now the ability to draw deductions from logic, and to be actuated by such logical deductions, is the chief point of difference between civilized and uncivilized man. The untutored savage weeps when he is sad and laughs when he is glad, being affected by no restraining influences. Women in their relative ability to control superficial emotions again show that they have not advanced as far from primitive ways as have men."

DEAD WHALE MENACES NAVIGATION IN NORTH

SEATTLE. — Captain C. Curtis, master of the tank steamer Oleson, bound from Port San Luis to Seattle, sent a wireless message to the local branch of the United States Hydrographic Office reporting a dead whale as a menace to navigation off Destruction Island. The message said the carcass was fifty feet long, twenty feet wide and stood fifteen feet out of the water. Captain Curtis reported that he had planted a black flag and a lantern on the carcass as a warning to mariners.
