In this climate we are inclined to put off 'til "Tomorrow" those things that should be done today.

But FIRE isn't so easy-going—as some uninsured people have found out to their sorrow.

As long as fire comes unexpectedly—and it always does—steal a march on the Fire-Fiend and

ISENBERG'S COAL MINE A BIG THING

Probably because their government is doing so much of that sort of thing, the Canadians have only just been informed of the big coal land deal in Alberta province made by Dr. Hoppe of Oakland and Paul Isenberg of Honolulu, of which the Star-Bulletin gave the news some months ago. The latest information Mr. Isenberg gave to this paper was that an English syndicate had bought an interest in the tract for seven million dollars. According to the following Ottawa despatch of recent date Dr. Hoppe and Mr. Isenberg are going to develop the coal field on a large scale themselves, supplying the German naval stations on the Pacific and, after the completion of the Panama canal, the German home market with the product of their mines, which as this account and the statements made here by Mr. Isenberg agree, is a very superior grade of anthracite.

"It is learned that Dr. Reinhold Hoppe, of Oakland, California, recently located one of the best coal areas in Western Canada on the Smokey River, in Northern Alberta, about 200 miles north-west of Edmonton.

"The fields are located within 40 miles of the main line of the G. T. P., and experts have reported that the deposits are anthracite and superior to Pennsylvania hard coal.

"The area, consisting of 32,000 acres, has been leased by Dr. Hoppe and Mr. Paul Isenberg, of Honolulu, a wealthy business associate, and they contemplate starting coal mining operations on a large scale.

"At the last session of parliament a charter for a line of railway to tap the coal fields was secured. It is said that the customers secured include the German government, which requires coal for its naval stations on the Pacific.

"When the Panama canal is completed, it is expected that large shipments will be made to Germany and other countries, via Vancouver and the canal."

When in doubt, go to Hilo and cool off. Don't sound like it, but it's a fact—go and try it.—Advertisement.

THERE MAY BE **OPPOSITION TO PINKHAM**

But there can be no opposition to the claim:

1. That a change to a cooler climate during the summer months is good for the Honolulu man, woman or child. It better fits them for the duties of the coming year. The Volcano Company furnishes this climate. The highest temperature at the Volcano House this month has been 72 degrees.
2. Economy is necessary. Everybody is counting the cost these days. We have done the same, and have made a special summer rate of \$24.50 for a week, \$45 for two weeks, \$85 for a month, for first-class board and lodging, with no charge for climate, fern and koa forests for nothing, and scenery thrown in for good measure.

Take the Saturday Mauna Kea—direct run to Hilo, and let us prove what we claim. See Waterhouse Trust Co. for details.
