That cannot be surpassed if it can be equaled anywhere in the United States. We will at once begin making arrangements for our own part of the work, though naturally it will all be under the direction of the committee of officers that General Funston will appoint.

Mr. Dougherty understands that the infantry will be brought in from Schofield by train, the carnival management looking after the transportation. Cavalry and artillery will be marched to the city. The matter of camping grounds, reception, etc., for the troops while here will be taken up at once by Director Dougherty with the city officials.

"We are assured that every available man from Schofield will be brought to Honolulu," said Mr. Dougherty. "The men from the nearby posts will, of course, be in the city for the Carnival week. Only those troops necessary to look after Schofield will be left behind."

Another big feature of military aspect is a mass band concert in which all the military bands of Oahu will participate together with the Hawaiian band, under the direction of Prof. Henry Berger. This in itself promises to be one of the most attractive events of the Carnival program.

As Washington's birthday falls on Sunday next year, Monday will be observed as the patriotic holiday, the troops commemorating the national anniversary by their big parade through the city streets in the morning.

LURLINE CARGO SIBERIA CARRIED MEXICANS ON SHIFED BY NEPTUNE MANY WHO WERE BARRED A MYSTERIOUS MISSION

Neptune took a hand in the rearrangement of a considerable portion of the cargo carried in the forward hold of the Matson Navigation steamer Lurline, while on the voyage from San Francisco to Honolulu.

The Lurline bucked into a very nasty brand of weather of last Wednesday which continued for about 22 hours. Seas swept the decks, but from this source no damage is reported to have been done.

Despite adverse winds and seas, the Lurline steamed to Honolulu in six days and 12 hours. The cargo for discharge at this port amounts to 2735 tons. In proceeding to Kahului on Thursday evening the vessel will leave several hundred tons of merchandise. The Lurline was given one day's later mail the consignment amounting to 83 sacks.

Two Shipments of Sugar. Sugar awaiting shipment on the island of Hawaii at the time the steamer Kilauea sailed from Hilo included the following, according to a report that reached this city with the return of Purser Phillips: Punaifu 6873, Honouso 2456 sacks.

Among 336 Asiatic steerage passengers traveling in transit from the coast to Japan and China were a delegation of Japanese and Hindus who are alleged to have been denied admission to the United States because having been afflicted with hookworm.

The number of Oriental passengers in the Siberia was considered as unusually large. The liner was delayed in sailing from the coast, the vessel having fouled the steel cable that held a tug to a berth at the wharf.

Weather conditions were favorable for an uneventful trip across the Pacific. Captain Zeeder endeavored to make up a portion of the time lost at San Francisco with the result that the vessel gained a berth at the wharf before 5 o'clock last evening.

The Siberia was dispatched for Japan, China and the Philippines at 8 o'clock this morning. A few lay over passengers joined the vessel at this port.

Thurlow Greets Many Friends. Al Thurlow, who for years was identified with the local business field, and who has joined the Pacific Mail in the capacity of chief steward, was given opportunity of greeting a host of former friends and acquaintances last evening with the arrival of the liner Siberia from San Francisco.

To make liberal purchases of small arms, rifles, munitions, as well as field pieces, the product of the large armaments at Osaka and Tokyo, Japan, four Mexicans, declared to be prominently identified with the Hoera administration, sailed with the Pacific Mail liner Siberia for the Far East this morning.

There are several large concerns at Osaka, the great manufacturing center of Japan, where quantities of small arms and shot and shell are turned out. As a result of the demands brought about by the Japanese-Russian war, the finest equipment procurable was installed.

It was freely stated last night that the delegation of Mexicans might continue their journey in quest of munitions to Shanghai, China, where one of the largest arsenals in the far east is at present located.

In shipping arms and other war material, it is predicted that much of the Japanese product might pass through Honolulu in the steamers following the direct line from Japan to the Mexican and Central American coast, and would be manifested as machinery or agricultural implements, as was the case when supplies were rushed to Japan during the war with Russia.
