ANOTHER QUEER FISH ADDED TO BISHOP MUSEUM

From a Japanese fisherman a few days ago, the W. Thompson, artist and model of the Bishop Museum, secured a rize that he regards as cheap at a price of three dollars paid for it.

It is a new species yet to be determined, which was caught in the deep sea of this island. The specimen is 2 ft 8 1/2 inches long, narrow in breadth more than a foot in depth incline of fins. Its build denotes a fishwimmer.

Most peculiar about the fish is a series of thirty curved spines, appearing on both sides of the dorsal fins above of the ventral ridge below. The mouth is also curious, being round and capacious, and, while the teeth are inconsequential, there is a set of abutment muscles within the jaw which gives the creature in life great power drawing in its prey of smaller fish eight or 10 inches long was found whole in the stomach of the specimen.

Still another anatomical oddity is a breastbone unlike that of a bird, formed by joining of two bones in a point which is situated back of the gills throat, so that the head has a free motion remotely like that of a snake. When the mouth is opened in swallowing, the skull recedes and rests on the breastbone.

The fish is silvery in color. This specimen, a female and contained roe in which numbered an estimate 45,000 eggs. In the books there is a fish, very similar to the description of this stranger, having rows of scales and a sucking mouth, but it is very much inferior in comparison. Many rare fishes have appeared in time to time in the collection, the Bishop Museum, caught in alien waters and brought of the fishes. Dr. David Starr Jordan, on of his visits to the institution, stated that he had never identified many new species as he found the fish at that time the museum had kinds modeled which had never before been scientifically classified.

Mr. Thon has promptly moulded the new treasure for the public eye, the specimen itself has been preserved in pickle.

A Word to Women On Health

Women are generally careful about their health, and they are apt to make good use of remedies known as disinfectants and antiseptics are included in this class, but the greatest care should be exercised in using any which contain poisons, unless prescribed by a physician.

By reason of its absolute safety and its beneficial results, physicians have strongly recommended Tyree's Antiseptic Powder. It is unequalled as a preventive of contagious diseases, healing diseased tissues, ulcers and delicate membrane passages, and ideal as a douche. A 25-cent package makes two gallons standard solution. Sold by druggists everywhere. Send for booklet and free sample.

BIJOU THEATER

There will be a gala time at the Bijou theater tonight when Monte Carter (Izzy) and his company will stage their farewell performance. Tonight will positively be the last appearance of this company in Honolulu as they make their departure on the Sierra tomorrow. This company is winding up an eleven weeks' season of good business.

"Izzy, the Baron," is the title of the farewell show and it was greeted with packed houses last night. The show is one laugh after another and it is a snappy musical comedy. The musical numbers are pleasing and are headed by a specialty song and dance by Monte Carter. The chorus girls' contest will be given in addition to the regular show tonight.
