### Many Advantages for Guardsmen

1. A brand new \$100,000 Armory to use, with its splendid drill space, its bowling alleys, its billiard room, its hall for dancing, etc., and its fine location.
2. Social Life. The National Guard used to be noted for its fine entertainments, its theatricals, its dances, its field days, etc., and can again be so known if local young men will enroll and bring the organization up to full regimental strength.
3. Fine Physical Training. A 3-year enlistment in the National Guard means a fine course of training and discipline such as all men ought to be glad to secure. The Military Training, such as marching, drill, camping, sanitary work, shooting, learning adaptability to conditions of peace or war, etc., etc., is exceedingly beneficial.
4. Learning to Shoot Well. Ammunition is furnished and instruction given, to make you a first-class shot. Fine training for eyes, muscles and brain.
