MUNICIPAL BUILDING IS PLANNED

Committee from Supervisors Will Confer with Governor Relative to Property for City

EMERGENCY HOSPITAL ALSO IS PROPOSED

Territory To Be Asked to Donate Sites for Permanent City and County Betterments

A special committee of supervisors will be appointed to confer with Governor Pinkham within a short time to ask that the territory turn over to the municipality two pieces of centrally located property, one for a city and county building, the other for an emergency hospital.

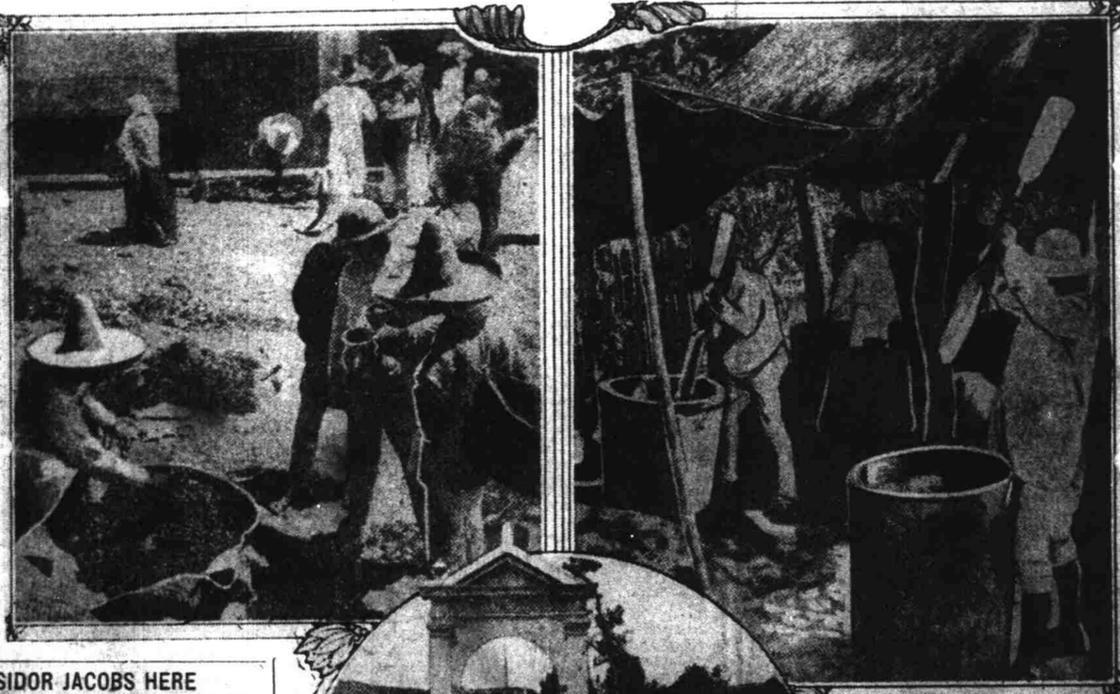

This is according to the statement made by Supervisor Walter, chairman of the committee on health of the board, today. He stated that he has taken the matter of the hospital site up with Governor Pinkham preliminarily already, and is convinced, from the manner in which the chief executive received the proposition, that the latter will do all in his power to meet the request of the supervisors.

Lester Petrie, chairman of the roads committee, has put forward the municipal hall proposition. It is planned that the two propositions, that for the hall and the emergency hospital be taken up with the governor at the same time, and it is probable if the latter agrees to turn over property for the structures, money for the erection of both will be obtained by the same bond issue.

Under an act of the last legislature the city and county is given power to issue bonds for general improvements. So far no effort has been made to raise money in this way. Supervisor Petrie is strongly in favor of taking advantage of the rights given under the statute for the erection of a municipal home. He says that with the high rents now paid for offices by the city and county it would be cheaper in the long run to own a building for the transaction of city and county business, a home that the community can be proud of as an official home that represents the dignity of the city.

Estimates have not been made yet on the cost of either such structure, nor have desired specific locations been decided on. But in both cases sites centrally located are desired, for the hospital one as near the police station as possible.

PEACEFUL SCENES IN MEXICO THAT DEFY WAR

ISIDOR JACOBS HERE TO ATTEND MEETING OF THE CANNERIES COMPANY

Isidor Jacobs, president of the California Canneries Company, arrived on the Siberia this morning, and will remain here until after the first of February.

Mr. Jacobs' visit, it was stated this morning, is to attend the meeting of the directors of the Hawaiian Pineapple Canneries Company, of which corporation he is one of the organizers and an officer. The importance of the meeting of the directors, which will be held January 30, is the decision expected to be reached for the erection of a pineapple cannery at Kapa, Kauai.

When the corporation took over from the government on lease a few hundred acres of land at Kapa, it was stipulated that a pineapple cannery should be put up on the ground. Since beginning its operations, the company has put in nearly 80 acres of pines, and homesteaders in the district have put in almost an equal amount.

Even during the stormy times a war-racked Mexico the peaceful pursuits of many of the residents of the troubled republic refuse to give way to the sword, as the accompanying pictures show. To left: "Merchants" selling "hot peppers," the Mexican's choicest delicacy. To right: Coffee-huskers at work, using crude instruments. Below: God-fearing residents leaving church, in one of the smaller villages that has been passed by in the warfare that rends the country.

JEFF M'GARN OUTLINES POSITION IN HIS FIGHT ON 'WHITE SLAVERY'

U. S. District Attorney Says He Proposes to Defend the Weak from the Strong — School Children from the Lecherous Beasts — Children Who Are Alone in the World — Will Renew Trial in Which Jury Failed to Reach Decision

After a bitter fight of several days' duration, reaching a climax late yesterday afternoon when United States District-attorney Jeff McCarn, in his address to the jury, outlined the fight he proposes to make against "white slavers," the trial of the two men and one woman accused of a violation of the white slave act resulted in a hung jury. The jury was dismissed by Judge Clemons and immediately afterward McCarn announced his intention to renew the trial in another week or two.

Nagged by the frequent interruptions of Attorney Frank Andrade, who represented the defense, McCarn twice lost his temper in the course of his talk to the jury. At the second interruption, when Andrade jumped up declaring: "That is not the evidence, Your Honor! That is not so! It is not true!" the district attorney whirled and exclaimed: "Your Honor, I demand the protection of this court! I ask protection only while I am inside this court!" At that moment the hint of fistic warfare was so strong in the belligerent attitudes of the opposing counsel that Judge Clemons, after instructing the court stenographer to determine the facts of the evidence from his notes, remarked: "It is best that counsel not discuss the question while the stenographer is looking up the facts," and added:

COURT DECISION TO HAVE SERIOUS EFFECT IN HAWAII

'Domiciled Immigrants' Are Stopped by Officials—Travel Is Hazardous

A shock amounting almost to consternation in the Oriental communities has followed the publication yesterday of news that the supreme court of the United States has held against special immigration treatment for "domiciled" aliens.

A well-known attorney and one who has followed with particular interest the legal points involved in the local controversy over the admission of these domiciled immigrants, or former residents seeking to return, declared this morning that the decision has made foreign travel very hazardous for Orientals.

"Under this decision, an alien residing in Hawaii, with home, family and large property interests here, might go to Japan or China and become afflicted with a disease that would at once bar him from returning here," said this attorney. "There is no question that this decision has raised some very serious points.

"If the supreme court holds that the decision is conclusive and inclusive, the pending cases, where Japanese are trying to return to the territory but were stopped and then took habeas corpus proceedings, will all be lost."

JAPANESE CABINET FACING IMPEACHMENT

Count Gombei Yamamoto, premier of the Japanese cabinet, who faces impeachment.

(Special Cable to the Nippu Jiji). TOKIO, Japan, Jan. 29.—The Doshikai, a newly-launched constitutional party under the leadership of Baron K. Kato, is taking steps to secure the impeachment of the members of the Japanese cabinet of which Count Gombei Yamamoto is premier. This movement is the outcome of the recent naval scandal and the Doshikai claims that, as the cabinet is responsible for and has jurisdiction over all affairs of the navy, the scandal should have at least been prevented or been made the basis of a thorough investigation. The gist of the scandal is to the effect that certain Japanese naval officers were receiving commissions from a German shipbuilding company, the charge having been brought by a German named Richter who claimed to have papers in his possession to prove his statements.

To get around this situation, Representative Fred A. Britten of Illinois today introduced in the house a bill to make the Panama governor's salary \$15,000 while Goethals is the incumbent.

TRANSPACIFIC YACHT RACE IS POSTPONED YEAR

There will be no trans-Pacific yacht race in this year, although the regular biennial event from San Diego to Honolulu comes in 1914. At the annual meeting of the Hawaii Yacht Club last night it was decided to let the race go by the board this year, in order to make it a feature of the Panama-Pacific exposition season. This move meets with the hearty approval of amateur tars, both here and on the coast, it being the general opinion that the race will be much more of a success, and draw more entries, by being put over.

Officers of the club for the ensuing year were elected last night, as follows: W. C. Wilder, president; W. R. Farrington, vice president; Frank Halstead, secretary; A. W. Neely, treasurer; C. A. Wilder, Tom Skinner and Carl Dunkhase, directors; Robert Scott, commodore; Ted Center, vice commodore. Club finances were discussed, and it was decided to take up the 1915 race in good season, with the idea of securing funds to build a new yacht to represent the islands, it being generally conceded hardly to be expected to win over the newer and faster boats that would probably compete in 1915.

He is well versed in the several dialects of the Chinese language.

LARGE BUILDING LICENSES ISSUED, OUTLOOK BRIGHT

New promises are given that Honolulu's building activities for the year will be far greater than in any other year of its history. Yesterday afternoon building licenses were issued for two structures which will require for their erection an expenditure of \$59,700. The largest of the two is for a store building to be erected at King and Nuuanu streets at a cost of \$41,700; the second is for improvements and addition to the Protestant Episcopal Church at Emma street, near Vineyard. This calls for an expenditure of \$18,000. Ripley & Davis are the architects for the store building, and K. Matsumoto is the contractor. A. Hocking is the owner. The building will be of brick, it will cover an area of 138 by 57 feet and it will require about 10 months to construct it. With these two licenses issued, the building permits for the month to date far exceed in amount involved than for the corresponding month last year. It was just recently that the Hawaiian Pineapple Company took out a license for a \$65,000 warehouse. Work on this structure is already under way. It will be completed, according to statements made, long before it is needed for the summer pack.
