Many people who attended the delightful concert at the Young Hotel roof garden on Saturday evening were obliged to forego the assistance of the elevator in returning to the lower floor owing to a mishap to the apparatus. The spring buffers with which the cars are fitted, are said to have averted what might have proved serious injuries to a number of persons. A break in the hydraulic pipe put the machinery out of commission for hours. Save the flooding of the basement no damage was done.

DAILY REMINDERS

Flags to decorate the whole town at Wall, Nichols Co.—advertisement. Phone 3431 if you desire figures on electric lighting especially for the Carnival. Hawaiian Electric Co., Ltd., King street. Frank Baker, formerly with Henry Hughes, now at Auto Livery with his new 1914 Chalmers car. Phone 1226.—advertisement. Wanted—Two more passengers for round-the-island trip in 1914 Pierce-Arrow or Locomobile. Lewis Stables, phone 2141.—advertisement. The Lurline tomorrow—lucky boat!—brings a fine shipment of delicious fresh California fruit and vegetables—also that excellent Puritan butter—to Henry May & Co., Ltd. Phone 1271 early.—advertisement. Silva's Toggery, Ltd., is proud to carry, as their main item, the line of Hart, Schaffner & Marx clothes—as up to date no better line has been put on the market. You yourself undoubtedly know this to be true. The monthly meeting of the Outdoor Circle will be held at the home of Mrs. F. J. Lowrey, Lunalilo and Victoria streets, Tuesday at 3 p. m., Feb. 10. All members of the Neighborhood Circles invited to be present. The Club, ever mindful of the desires of the well-dresser of moderate means, has assembled all of this season's popular fabrics, weaves and styles in the new spring suits and they await your pleasure. You might, at the same time, look over our latest in neckwear. The Woodlawn tract has the best roads on the island, so Chas. Desky says. At any rate nearly everyone will vouch for the fact that they are as smooth as glass. Motoring over them through the Manoa valley is a diversion that is quite worth your while. Woodlawn lots are being sold at a low figure considering their advantages. "Aching heads made good as new" is a sign that might well be displayed by any chemist who sells "Shac", for this article quickly banishes pain and leaves the head clear. An aching head can't do itself justice. Give it a chance by using "Shac". Insist on "Shac".—advertisement. REAL ESTATE TRANSACTIONS Entered of Record Feb. 6, 1914, from 10:30 a. m. to 4:30 p. m. WILLETT & GRAY'S SUGAR TRADE JOURNAL GIVES LATE REPORTS

Willet & Gray's Sugar Trade Journal for January 22 says: U. S. Atlantic Ports Markets—Sales at New York: Owing to impending tariff changes, Porto Rico sales include the following provisions: If sugar arrives in January, full contract basis; if arrival first week in February, 85% reduction; if second week in February, 17% reduction; if arrival during second-half February, entire reduction in duty, say 343c is taken off. Statistics by Special Cables—Cuba: The six principal ports: Receipts, 65,000 tons; exports, 32,000; stock, 91,000 tons, against 28,000 tons last year. Central grinding, 154, against 143 last week, 156 last year and 146 in 1912. Entire island receipts for week, 101,000 tons, against 61,000 tons last week, 92,000 tons last year and 72,000 tons in 1912. Stocks in the United States and Cuba together of 264,366 tons, against 243,672 tons last week and 104,615 tons last year, an increase of 19,751 tons from last year. Europe—Stock in Europe, 4,015,000 tons, against 3,865,000 tons last year. Visible Supply.—Total stock of Europe and America, 4,275,366 tons against 3,969,415 tons last year at the same uneven date. The increase of 305,951 tons, against an increase of 317,005 tons last week. Total stocks and afloats together show a visible supply of 4,875,366 tons against 4,094,615 tons last year, or an increase of 779,751 tons. Raw.—The week under review has been more interesting than several preceding weeks, because it marks a turn upward in the general course of the market in Cuba and the United States. It is evident that the jobbers and dealers throughout the country let their stocks run down to low limits, while the people of the country, regardless of tariff reduction, kept right on using the usual normal amount of sugar, if not more on the basis of 4c per lb. cost for Granulated—the lowest price known for many years. This had led to an unexpected buying of raws by refiners, causing an advance for the week in centrifugal sugar from 3.28c per lb. to 3.35c per lb. for Cubas, on large purchases from the new Cuba crop, estimated at about 350,000 bags. Porto Ricos also advanced 3.26c to 3.30c per lb. The business of the week included Cubas for January-February shipment at 2s c. & f. (3.35c) to the extent of 200,000 bags and Porto Ricos for arrival February 10th at 3.30c per lb. There have been some 12,000 tons of old crop Cubas in store here since several months ago, and the Arbutle refinery having delayed arrivals, we have a shortage of immediate supply and bought 50,000 bags of these at 3.35c per lb., basis 96 deg. About 5000 tons remain to be sold. Sellers of Cubas are now seeking a further advance of 1-32c to 1-16c per lb., asking 2 1-16c c. & f. for February and 2 1/4c c. & f. for March. There is some speculative buying in addition to the refiners' demand, and 2 1-16c c. & f. has been paid for February and 2 1/4c c. & f. for March for this account, but the offerings for March are very few thus far. The Cuba crop progresses favorably, without rains to interfere with grinding. The entire island receipts were 101,000 tons, with 154 central works, increased to 32,500 tons with 9,000 tons to Europe. It is not likely, however, that shipments to Europe will increase above purchases already made, for it is a singular condition that exists just now, inasmuch as Europe has not participated in the least in the improvement going on in our country, beet sugar quotations remaining unchanged from last week except that futures for February are 3/4d. lower. Atlantic port receipts were small and less than requirements, which latter increased considerably under the stimulated demand for refined at the local basis. Regarding cane crops outside of Cuba, the Java crop is now reported full up to early estimates. Australia reports an increased crop of 40,000 tons. All West Indies report normal crops instead of the short crops of last year. At the close the market is strong, with remarkably few sugars on offer, for which 2 1-16c c. & f. is asked for January and February shipment. March is slowly offered, and not less than 2 5-32c c. & f. would be accepted. A further advance is expected in view of the demand for refined, even on the hand-to-mouth basis. Beet Sugar Industry. UNITED STATES.—Weather and crop.—The government bulletin for the week ending January 19, 1914, report a rapid rise of temperature at the opening of the week, which brought thawing conditions to most beet-producing states. As practically all the beets are now worked up, these conditions should do little harm. There were moderate rains in most sections except eastern Colorado and Kern California. These latter will do great good as in the ample distribution of moisture in that state this winter the section west and south of Los Angeles has been greatly slighted but will now be as well provided with moisture as more northern sections. In many sections of the state planting is now well advanced and is generally weeks ahead of last year. A press report from Oxnard says that 3911 acres of beets had been planted to January 1, 1914, against only 933 acres to same date last year. The sowings are expected to total about 15,000 acres near that factory. Near Santa Ana it is said that land rents for beets, which have been extremely high, are being reduced to partially offset the lower beet prices and that labor also promises to be lower. The press reports that the Visalia factory has now secured contracts covering 5000 acres of beets, which will give it a good season. About half this acreage has already been planted and the beets are up on much of it. The germination was good and the stand is generally splendid. It is now planned to open the campaign about June 15. This and Spreckels will probably be the most northern factories to work in the state next year. As latest reports indicate that the Asameda factory may not operate, and that farmers who grow beets in that section will have to ship to Spreckels. The close of the 1913-14 campaign at Eterevia is reported on January 1. The results of the season are said to have been most satisfactory. Further reports regarding contracts for next year say that the Riverdale (Illinois) factory is offering \$5.75 per ton for beets delivered at the factory, while the Decatur (Indiana) factory is offering \$5 per ton and pays freight up to \$1. Other central companies are either naming the same rate as the Michigan Sugar Company or are not yet stating what they will do. There seems a general tendency throughout the country, however, to cut down all factory expenses for repairs, improvements and the like to the greatest possible extent. The close of the campaign at Menominee Falls (Wisconsin) on November 27 is reported, after a season lasting only 51 days. Last year this factory ran well past the new year. A Steffens process was installed in it recently. EUROPEAN BEET CROP.—F. O. Licht cables us specially from Magdeburg, Germany, January 16, 1914: "No change in the situation." January 20, 1914: "No change in the situation."
