Consumption Takes 350 People Daily

in the United States and the deadly germs claim more victims in cities than in rural districts, due no doubt to the increased number of indoor workers in confining quarters and their lack of sunshine.

Tubercular germs always attack when the system is weakened from colds or sickness, overwork, overstrain, confining clothes or any drain which has reduced the resistive forces of the body. But nature always provides a corrector and the best physicians emphasize that during changing climate our blood should be kept rich and pure and active by taking Scott's Emulsion after meals; the cod liver oil in Scott's Emulsion warms the body by enriching the blood—it peculiarly strengthens the lungs and builds the resistive forces of the body to avoid colds and prevent consumption.

If you work indoors, tire easily, feel languid or nervous, Scott's Emulsion is the most strengthening food-medicine known; it builds energy and strength and is totally free from alcohol or any stupefying drug—every druggist has it.

HAMAKUA QUEST FOR RENEWAL OF LEASE IS REFUSED

Carrying out the policy laid down by it some time ago, the land board at a meeting yesterday afternoon denied the application of the Hamakua Mill Company for a 15-year renewal of its lease on 207 acres of cane land. It asked for renewal at \$5 an acre.

R. H. Trent of the board submitted the resolution, passed by the Kaula Chamber of Commerce criticizing the action of the board in fixing the rental price of the Kapaa cannery site, and going on record as favoring the lease of the land at a rental of \$1 an acre. The action was taken on the resolution.

The application of the Cornwell Ranch, made through A. M. Brown, for a 15-year lease of 457.38 acres of rocky grazing land, at 25 cents an acre, was granted. Several town lots at Waimea, Kohala, were agreed to be offered for sale at auction. The application of Frank H. Greenwell for the lease of 1280 acres of grazing land at Kealahou, Kona, was granted. The upset price was fixed at 25 cents.

Opinions on State Colleges

State College of Washington (1912). Appropriated by the state legislature for current expenses \$242,500. Received from the federal government 91,000. Received from tuition and other charges for educational services 15,532. Miscellaneous receipts 32,155. State appropriation for extension work 10,000.

Total income for the year, \$392,240 (not including \$45,000 for the state agricultural experiment station). Total faculty 41. Total students (collegiate classes) 321. (Data from Report U. S. Commissioner of Education, 1912, Vol. 2.)

The present situation in Mexico has caused no small number of Honolulu people to entertain fears for the safety of friends residing in the southern republic. George P. Castle yesterday afternoon learned that his daughter, Mrs. Alfred Tozzer, who, with her husband, has been stopping in Vera Cruz, is safe in that city and soon is to leave for Galveston, Texas. Professor Tozzer, who is an archeologist, is affiliated with Harvard College and, with his family, has been spending the winter in Mexico.

THIS NEW MEDICINE SAVES YOU MONEY

We are druggists right here in your town and make a living out of the drug business, but it is because people have to have drugs and not because we like to see people suffer—we don't. Our duty is to render the best service we can, and when someone is ailing, we are interested in seeing them take the best medicine there is for their particular trouble. We don't recommend "cure-alls," as we don't believe there are such things. We don't want you to spend more than you have to. Some of you get small wages, and when you're sick, none at all, and you should get the most you can for your money.

We recently came across a new remedy for increasing strength and building up people who are run-down and emaciated. We know that a slight trouble sometimes grows into a serious one, and to stop it in the beginning, will save you money in the end. This new compound is called **REXALL OILIVE OIL EMULSION**. It is the best remedy, when you are run-down, tired out, nervous—no matter what the cause. It doesn't merely stimulate you and make you feel good for a few hours, but takes hold of the weakness and builds you up to a healthy, normal condition. It is a real nerve-food tonic and builder of good blood, strong muscle, good digestion. It contains Hypophosphites, which tone the nerves, and pure Olive Oil, which nourishes the nerves, the blood and the entire system. Pleasant to take. Contains no alcohol or habit-forming drugs. We promise that if you are not perfectly satisfied with it, we'll give back your money as soon as you tell us. Sold only at the 7,000 Rexall Stores, and in this town only by us. \$1.00. Benson, Smith & Co., Ltd., Honolulu.

PARTY FROM HAWAII IS GIVEN JAPAN'S ALOHA BEFORE ARRIVAL

Wireless Messages to Shinyo Maru Carry Many Invitations to Excursionists

By RILEY H. ALLEN.
(Staff Correspondence)

ON BOARD T. K. K. SHINYO MARU, April 23.—Nearing the end of a voyage of an unusual interest and a maximum of pleasure, the Hawaiian excursion party has (already) been welcomed to Japan and to the public and semi-public functions prepared by the hospitable people of the Land of Cherry Blossoms.

For four days past, ever since the Shinyo got into wireless touch with Japan stations, messages have been coming from Yokohama and Tokio with invitations literally too numerous to mention in detail. With the arrival of wireless messages last night, the welcome to the visitors from Hawaii assumed unexpected proportions. It is already evident that leading businessmen of the great cities and statesmen of the empire are planning to receive the Hawaiian party as ambassadors of peace, friendship, closer business and personal relations and mutual understanding.

At the present time, among the invitations extended to the Shiba party are the following:

On Tuesday afternoon, for tea at the noted villa home of President Asano of the T. K. K. line. This home, famous around the world for its beauty, surroundings and contents of wealth and art, is half way between Yokohama and Tokio.

On Tuesday evening, a formal dinner at the home of President Asano.

On Thursday evening, a formal dinner to be given by the bankers of Yokohama at Yokohama. The heads of the Yokohama Specie Bank, Mitsui Ginko, the bank of Japan and Dai Ichi Ginko are joining in extending the invitation.

On Sunday, April 11, Count Okuma, by many declared to be Japan's greatest living statesman, will give a great party at his home in Tokio. The details of the program are not yet known, but by wireless Prof. M. M. Scott, principal of McKinley High school, has been asked to respond to the toast to the Hawaiian party. Four decades ago Professor Scott created the public school system of Japan, revolutionizing ideas and methods of education. Advance word has come that on this visit to the island empire he left 33 years ago, he is to be signally honored.

By wireless today there arrived a pleasant greeting from His Excellency Hisikichi Itaki, consul-general for Hawaii. Mr. Itaki is now at Tokio on a leave of absence and took this much-appreciated way of showing his aloha for the members of the party, with most of whom he is personally acquainted.

S. Sheba, editor of the Hawaii Shinyo and promoter of the excursion party, is keeping in wireless touch with Japan to get the latest news on the cherry blossom season and on the state of health of the empress dowager. She is now reported to be in a very precarious condition.

Weather conditions are said to be rather unfavorable for the wonderful views of the cherry blossoms and there is some talk of a change in itinerary that would take the party first to the south and then to the north. This will not be, however, until after the ceremonies of welcome and the social greetings have been made and exchanged.

SCHOFIELD SOLDIERS PREPARING FOR MAMMOTH EVENTS AT FAIR

(Special Star-Bulletin Correspondence)

SCHOFIELD BARRACKS, April 24.—Several thousand fighting men are laboring every morning on the range and drill grounds of Lilehua. During the leisure hours of the afternoon and evening they are making an equal amount of preparation for the threatened invasion of Schofield by the pleasure-seeking hordes from Honolulu and the other army posts of Oahu. In the one case they are working out means of taking people's lives, while in the other they are studying every known scheme for relieving them of their small change.

When the invasion of Mexico shall take place is somewhat indefinite and uncertain as far as the troops here are concerned, but Colonel G. K. McGunaghe, the "Tear of Lilehua," has ordained that the fort shall be impregnable except on the 6th and 8th days of next month, with a day of truce between. This will be the days of the great and much-talked-of County Fair, when rifles will be left in the racks, and uniforms in the lockers and all Schofield will turn into a country town of the Middle West on circus day.

The fair grounds are to partially encircle the old royal hunting lodge, now the quarters of the commanding officer, and will extend to the railroad track at Jones' station, where the main entrance will be situated. Every available tent at the garrison has been requisitioned for the exhibits and the booths, and will cover an area of more than 10 acres. The new baseball park adjoining the fair grounds is being rushed to completion, and the quarter-mile track encircling the ball field will be ready for a long list of racing events. It is rumored that an officer of the infantry of much avoirdupois who once upon a time charged up San Juan hill, long after the battle, has issued a formal challenge to all comers of his proportions for a foot race of any distance.

Tumblers and trapeze performers are practicing at all odd moments. The figure and face of the young cavalry sergeant who will take the part of the lady circus rider are calculated to bring envy into the hearts of the slim debutantes. The stunts with which she will amaze the populace will be performed on the back of a spirited cavalry charger, instead of on the usual type of slow-moving white circus horse with a back like the top of a grand piano. For lovers of fine and well-trained horses the circus alone will be worth the trip to the highland post. The only shortcoming of the circus will be the absence of the animal tent. The wild regions around Schofield were vainly searched for animals to exhibit, but even the snakes for the side show had to be imported, and it was found that neither Barnum & Bailey's nor Forepaugh's circus could loan their animals at this time of the year.

Preparations are being made by the firms in town to make their exhibits unusually attractive, and every possible accommodation will be afforded them by the fair committee. For those who wish to make merry, the Midway will be found a paradise of fun with its dance hall, cabaret restaurant, and 101 attractions, and if you cannot spend all your money there, scattered all over the grounds will be pretty faces with capjoling smiles behind counters piled with candy, flowers, ice cream cones, peanuts, frankfurters, cigars and what-nots who will be ready to take your last nickel.

The justice of the peace in preparing a code of laws to fit the occasion, and who is to him who seems the purchase of a gold brick, or is too wise to be caught in the snare of

Fort Shafter Notes

(Special Star-Bulletin Correspondence)

FORT SHAFTER, April 25.—The results of the target practice for the 1st battalion, 2nd infantry, and the individual qualifications thereunder are as follows:
