PRICE FIVE CENTS

GROUND BROKEN FOR HAWAII BUILDING MATSONIA, WITH BIG ISLAND DELEGATION, ARRIVES IN A. M.

SENATOR COKE IN ADDRESS AT CEREMONIES

Hawaiian Swimmers Salute Flag as S. S. Sonoma Passes Out on Homeward Journey

ELABORATE PROGRAM HAD BEEN ARRANGED

Miss Louise Effinger Chosen to Hoist Colors of Monarchy Over Fair Site

[Associated Press by Fed. Wireless.] SAN FRANCISCO, Cal., July 7.—Hawaii's building at the Panama-Pacific exposition was formally begun today with ground-breaking ceremonies on the commanding site secured by the territory.

The steamer Matsonia with a delegation of visitors from the islands, including Senator James L. Coke, one of the speakers, arrived early this morning, permitting the passengers to attend the exercises. The Hawaiian swimmers, returning on the steamer Sonoma, saluted the flag as they passed.

According to the arrangements made in advance, the program was carried out by representatives of Hawaii. Short addresses were made by Commissioner John Effinger, Hon. Norman Watkins, chairman of the finance committee of the house of representatives; George Rolph, secretary of the committee that originally looked after the Hawaiian site; A. P. Taylor, director of publicity for the fair commission, and representative of the Promotion Committee, and Senator James L. Coke. The rest of the program was:

Unveiling of flanelle, decorated with Hima leis, by Miss Louise Effinger, daughter of Commissioner Effinger.

Christening of site by Mrs. Victor Houston, wife of Commander Houston, U. S. N., Hawaii's first Hawaiian cadet at the U. S. naval academy, Annapolis.

Raising of Hawaiian flag, the standard of the old monarchy and republic of Hawaii, now the standard of the territory, by Mrs. Albert P. Taylor, great-granddaughter of Capt. George Beckley, first commander of the Honolulu fort under Kamehameha the Great.

Solo by Mrs. Marlon Dowsett, Hawaii's prima donna, "Aloha Oe." Hawaiian singing by members of Hui Nalu and Healani swimming clubs of Honolulu.

Strewing of flowers on dedicated ground.

BUDGET FOR 1915 CARNIVAL PLACED BEFORE DIRECTORS

The consideration of Director-general James D. Dougherty's budget for the 1915 Mid-Pacific Carnival, scheduled to have come up at a meeting of the board probably will take up the carnival directors at 2 o'clock this afternoon, was deferred until 1:30 the Carnival poster.

PLAN TO SEND MAINLAND LEPEERS TO HAWAII TEMPORARILY DROPPED

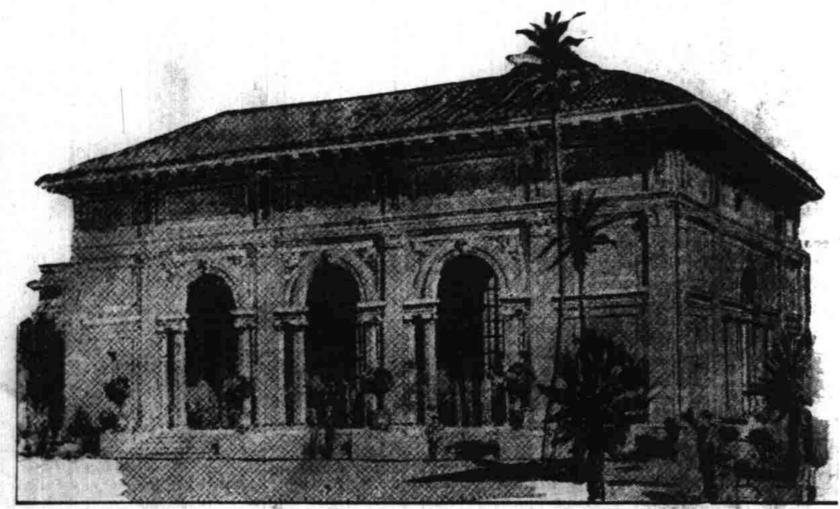

Congress Overlooks the Many Bills Proposed When Early Turned Up in Washington

By C. S. ALBERT. [Special Star-Bulletin Correspondence.] WASHINGTON, D. C., June 22.—The suggestion that all mainland lepers be segregated in Hawaii has subsided into at least a temporary lull. There are no present indications that pending bills in Congress will be taken up and pushed to completed legislation during this session. All signs point to a deferment of the entire matter until some new outbreak arouses interest on the point involved.

When John Early, whose leprosy has been questioned and denied by some of the leading physicians in the country, came here and lived at the most fashionable hotel in town before being discovered, there was a storm of activity on Capitol Hill. All sorts of bills were introduced to provide an appropriate asylum for those thus afflicted. There was the usual excitement that always afflicts statesmen when an event of that nature occurs. Among the various measures proposed in Congress were some designating the transportation of all lepers to Hawaii. An allowance of \$1 a day for each person was to be paid by the federal government. These bills met with considerable favor at the outset for this reason:

It was widely advertised that the government had expended a large sum of money in arranging the first leprosy sanitarium in the world in Hawaii. It was contended that because of this outlay it was eminently proper that all the afflicted ones on the mainland should become the beneficiaries of these improvements.

The fact that some money was expended as indicated, and that the accommodations provided are of a superior character, has been the chief argument used by those members of Congress who suggest that all lepers be segregated in Hawaii. Beyond this statement the movement has received no encouragement. It doubtless will be used for all it is worth and more when the matter of legislation on the subject comes up.

Hawaii's building at the Panama-Pacific Exposition in San Francisco in 1915, from the architect's drawings, ground for which was broken today, with elaborate ceremonies. Below, Senator James L. Coke who delivered one of the addresses during the ceremonies.

Senator James L. Coke, one of the speakers, arrived early this morning, permitting the passengers to attend the exercises.

clock tomorrow afternoon, at which time an adjourned meeting of the directors will be held. The members of the directorate intend considering the budget item by item, and it is not expected that the work will be completed at one meeting.

The figures thus far presented to the board include secretary, office supplies, etc., \$750; tickets and ushers, \$750; pennants and badges, \$250; and programs, \$300. One of the members suggested that the tickets and ushers item be cut in half. "Let us appeal to the civic pride of the people; let us ask the young men of the city to give their services free in this capacity."

Regarding programs, Director-general Dougherty suggested that the permission of the Chamber of Commerce be secured to allow the selling of advertising space. Then, he said, the committee could afford to give the programs away, and that the advertisement would pay the cost of printing.

LARGER HARBOR MEANS MILLIONS FOR HONOLULU

Kalihi Channel Project Together With Bonded Warehouse Would Bring Commerce

"Not only should the Kalihi channel be deepened and the Honolulu harbor enlarged, but it should be done immediately, it will mean as much as \$10,000,000 a year to Honolulu," was the emphatic statement made yesterday by Percy W. Baker, chairman of the harbor committee, and a resident of this city.

"The project for the enlargement of the harbor is now at least three years behind the times," he continued. "With the opening of the canal Honolulu will be in a position to become positively, and not theoretically, the 'cross-roads of the Pacific.' However, she will be unable to take advantage of her position in this regard until there is something done to accommodate the shipping of the world.

"One of the best ways to accomplish the desired result would be for the candidates of every political faith and for any and all objects to make a declaration of intention to work for this needed harbor improvement; also, for every citizen to work and work hard and quick for the same result."

"In connection with the fight for the enlarged harbor a sister fight should be carried on for the establishment of bonded warehouses in Honolulu. This would prove a great aid to the steamship companies of the world and would bring millions of dollars to this port. Freight rates could be reduced to such an extent that I believe I am safe in making the assertion that the sum spent here eventually would reach a figure of \$10,000,000 a year.

"With a bonded warehouse in Honolulu a vessel loaded with machinery or other merchandise for which there is a large market in the Orient, could leave Boston with a full cargo, sail to a Japanese or Chinese port, pick up a cargo for Australia and thence ship the latter through the bonded warehouse in Honolulu, picking up a cargo in Honolulu for the east coast of the United States.

"Under existing conditions a skipper, sailing from Boston with a cargo for the Orient, plays safe and charges a sufficient freight rate to insure the expenses of taking his cargo out and returning to his home port on an empty bottom. This is true of any port. With a warehouse here, where goods could be held free of import or export duty, in bond, that same skipper (Continued on page four)

TRANSPORT SAILS AT 5 WITH OAHU PASSENGERS

The transport Sherman sails for San Francisco at 5 o'clock evening, and the 250 casuals from Oahu, for whom the ship has been held up 24 hours, will get transportation after all.

This afternoon a cable message was received from Washington, authorizing the carrying of the Oahu men on the Sherman, in spite of the fact that there will be more men aboard than the life saving appliances of the ship can take care of. The Sherman was to have sailed yesterday afternoon, but was held over pending word from the War Department.

R. B. PARK QUITS ENGINEER'S JOB ON HARBOR BOARD

Friction With Caldwell Leads to Resignation—Notes of the Commission Meeting

Owing to variance in opinions and policies relative to local harbor work, R. B. Park, for the past year and a half engineer for the Board of Harbor Commissioners, tendered his resignation at a meeting of the board this morning. The resignation was accepted and will take effect July 31. It was stated this morning that Mr. Park's action did not come unexpected, from the fact that friction between the engineer and J. W. Caldwell, chairman of the commission, has been in evidence for some months past.

Mr. Park, who is a civil engineer by profession, is planning to leave for the mainland early in August. He will visit San Francisco and Los Angeles as he has been offered positions in both cities.

At the request of the members of the commission, Engineer Park this morning presented at the meeting estimates regarding the cost of the proposed project to make Pier 7 a permanent structure. The estimates show that, in order to carry out this plan properly, about \$67,648 will have

LYNCH SAYS HE WAS VICTIM OF A DOUBLE-CROSS

Affidavit With License Commission Sets Forth Deals Involving C. G. Bartlett

Startling allegations concerning the financial deals centering around the Pacific saloon, involving what he declares to be bad faith on the part of Charles G. Bartlett, are contained in an affidavit filed by Charles J. Lynch, who claims full ownership of the saloon, with the liquor license commission last Friday.

It is expected that this and other matters relating to the conduct of saloons will be taken up by the license commission at a meeting in the hall of supervisors at 4 o'clock this afternoon.

The investigation of the Waikiki Inn is slated to come up at that time. It is not certain whether the license commission will go into the relations of Bartlett, the brewery manager, and Lynch, as the commission has no power over the brewery, the latter holding a territorial license.

The Lynch affidavit says: "The Territory of Hawaii, City and County of Honolulu, ss: Charles J. Lynch, being first duly sworn, deposes and says: In the latter part of January, 1912, I was employed by the Inter-Island Steam Navigation Company. I knew Charles G. Bartlett, manager of the Honolulu Brewing and Malting Company, and about that time I had a conversation with him in which he suggested that he would like to see me better my position. I had spoken to him about a year and a half before

BIG JOB AT PEARL HARBOR WILL BE LET

Bids on Five Industrial Buildings Called for August 15—Aggregate About \$250,000

News has been received from Washington that within a few weeks a big construction contract for Pearl Harbor will be let. Contractors who have heard the news are rejoicing as it opens up a job estimated roughly at a quarter of a million dollars just about the time when gangs and office forces are likely to be in the midst of midsummer idleness.

The new Pearl Harbor work is made up of five industrial buildings to be erected at the naval station. Bids will be opened at the bureau of yards and docks, navy department, Washington, at 11 o'clock on the morning of August 15. Plans and specifications may be obtained on application to the bureau or to the commandant of the naval station.

The contract to be let is for the erection of the five buildings, the structural steel having been purchased under a separate contract some time ago. The new industrial buildings will complete the full equipment of the yard, the original plans calling for 12 buildings, seven of which have already been constructed.

The additions will consist of paint shop, metal storage shop, lumber storage shop, boat shop and pattern shop.

HAWAII TO HAVE ART EXHIBITS IN NEW YORK

Ford Attended to This Little Matter and Tells How the Deed Was Accomplished

By ALEXANDER HUME FORD. [Special Star-Bulletin Correspondence.] CHICAGO, Ill., June 24.—Hawaii is to have three exhibits next year in the Municipal Art gallery of the city of New York. In January there will be an exhibit of travel posters, and I have promised to enter those of Hawaii and other Pacific countries. During the summer there will be a pictorial exhibit of the San Francisco exposition, and I have pledged pictures of the Hawaiian building and exhibits. During October, November and December there will be a Pacific art and travel exhibit, with stereoscopic and motion pictures every night. We selected this season for the reason that Furten Holmes will then be delivering his lectures on Pacific lands in New York.

How did it come about? Well, I was walking down Irving Place full of the "Review of Reviews" office, to explain that I would have articles in the Mid-Pacific Magazine next year from the heads of all the governments of the Pacific, and that I wished a page review a month. As I was passing a magnificent palatial building a block in extent, I noticed a great sign board that read, "Municipal Art Gallery," and below a placard which read, "Travel Advertising."

Prominent Japanese Educator to Lecture While in Honolulu

Prof. Shigetaka Shiga, prominent Japanese educator, who will lecture in Honolulu.

Prof. Shigetaka Shiga Will Pay Visit to This City En Route to Washington Conference

Prof. Shigetaka Shiga, a professor in Waseda university, Tokio, and one of Japan's foremost educators, will arrive in Honolulu on the Nippon Maru July 14, and will spend three weeks here prior to continuing his journey to Washington, D. C., where he will attend the International Conference of Americanists.

Professor Shiga will be the guest of honor at a number of receptions and banquets which are being arranged by prominent local Japanese. During his stay here he will deliver three lectures in the Knights of Pythias hall. The professor has held many important positions in his own country, but has turned most of his attention to matters educational. At the close of the Russo-Japanese war he was chosen a member of the boundary committee to decide on the boundary lines of the island of Sakhalen.

WILLIE RITCHIE LOSES FIGHT TO FREDDIE WELSH

British Champion Takes World Title From San Francisco Boy in 20 Rounds

[Associated Press by Fed. Wireless.] OLYMPIA STADIUM, London, July 7.—Freddie Welsh is the new lightweight champion of the world. The British boxing marvel took the title away from Willie Ritchie of San Francisco in twenty rounds of fast fighting tonight. The decision went on points, neither man being in much danger of a knockout in the last round.

Welsh's cleverness and speed put him in the lead early in the contest and the best that Ritchie could do was to draw up even at the sixth round. Toward the end of the fight the American seemed to be doing better but Welsh kept piling up points.

Welsh's speed and cleverness overcame Ritchie's superior ruggedness and heavier punch, and earned the Britisher the decision in today's international ring meeting. There were no knockdowns during the fight, and no one was hurt. Welsh was unable to inflict punishment on Ritchie, and the latter was unable to reach Welsh with telling blows.

(United Press by Federal Wireless.) RINGSIDE, LONDON, Eng., July 7.—Freddie Welsh, fast and confident, started the fight like a winner. At the end of three rounds the battle was all in favor of Welsh. He has had every round.

At the end of six rounds honors were even, the American having battled hard to overcome his opponent's lead.

The tenth round, however, found Welsh again with the lead. His footwork at this point was dazzling and he was boxing with great speed.

He went to the fifteenth Ritchie did better work. He seemed to be "coming back," and he showed that he had plenty of power left behind his punches. The American contingent at the ringside was jubilant. Welsh still kept the champion going at top speed.

CARRANZA AND VILLA AGAIN NEAR SPLIT

General Angeles, Ardent Friend of Latter, Dismissed by Former, Causing Trouble

REPORTED MUTINY IS CONFIRMED BY FUNSTON

Huerta's Troops on Point of Rebellion—American Outposts Affected

[Associated Press by Fed. Wireless.] TORREON, Mex., July 7.—A new and serious break between Gen. Francisco Villa, the active head of the Constitutional forces, and Gen. Carranza, leader of the revolutionary party, was threatened today when Carranza dismissed Gen. Felipe Angeles, an ardent Villa partisan. Up to the time of Angeles' dismissal, prospects were good for establishing better feeling between Villa and Carranza than has lately existed. Villa is reported to be bitterly incensed at the discharge of his friend and is expected to take some vigorous measures to assert his authority.

FUNSTON CONFIRMS REPORT.

[Associated Press by Fed. Wireless.] WASHINGTON, D. C., July 7.—A serious mutiny of Huerta's soldiers against their commanders and against the rule of the dictator is in progress among the Mexican forces confronting the American outposts a few miles outside the city of Vera Cruz. The report of the mutiny has been confirmed by telegraphic advices from Gen. Frederick Funston, commanding the American troops.

AMERICAN LINES THREATENED.

[Associated Press by Fed. Wireless.] VERA CRUZ, Mex., July 7.—The Mexican commander of the forces outside this city has notified Gen. Funston that the mutineers are threatening to attack the American lines. He says that if the attack is made, it should not be considered by the United States as made under the orders of the Mexican officials.

UPTON SINCLAIR STARTS HUNGER STRIKE IN JAIL

Wife Pays \$5 for Spouse's Effort to Publicly Rebuke Younger Rockefeller

[Associated Press by Fed. Wireless.] NEW YORK, July 7.—The court of general sessions today confirmed the sentence of \$5 fine or three days' imprisonment pronounced upon Upton Sinclair, novelist and Socialist agitator, last April. Sinclair was convicted of disorderly conduct for attempting publicly to rebuke John D. Rockefeller, Jr., for his attitude in the Colorado mining strike.

Sinclair refused to pay the fine and was sent to jail. There he began a "hunger strike." After two days his wife paid the fine and he was released.

BLACKFOOT CHIEF IS PARDONED AFTER 34 YEARS' IMPRISONMENT

[Associated Press by Fed. Wireless.] WASHINGTON, D. C., July 7.—After 34 years' imprisonment, the noted Blackfoot Indian chief, Spoope, has been freed upon a pardon by President Wilson. Officials of the bureau of Indian affairs, under the department of justice, believe that Spoope, who was convicted of murdering a white man, killed the pale-face in self defense.

This was the claim always strongly set forth by Spoope and his friends. Since his imprisonment the chief has become a legendary tribal hero. He will return to his daughter, now a middle-aged woman. He has not seen her since she was a baby. Practically all of his immediate relatives are said to have died during his long imprisonment.

DAVID KAHALELELO MAY BE CANDIDATE FOR DELEGATESHIP

David Kahalelelo, prime mover and organizer of the Lahui party, is passing the word around among his political cohorts that he himself will be a candidate for delegate, running as a Lahui against Prince Kuhlo and all comers.

He will not become such a candidate, he lets it be known, if Kuhlo agrees to come into his camp and give the Republicans a dumping. But the way things look now to Kahalelelo and others of his political cult, Kuhlo is going to stay on a Republican grounds and is just now very busy tilling it for the coming campaign.
