PLEA NOW MADE FOR IMPROVED WIRELESS

In spite of the willingness of the colonial government of Hongkong to meet the wishes of the commercial and shipping interests of the colony in the establishment of adequate wireless connections with other parts of the Far East, definite action has been prevented by various circumstances and for various governmental reasons and apparently the colony is no nearer a realization of its demands in this line than it was four years ago when an American concern sought a concession from the colonial government for establishing a service in the colony. The colonial government has made an appropriation from year to year for the establishing of a plant and it is now promised that something definite may be done in the course of the coming summer. In the meanwhile the colony is without wireless service except such as is possible from the presence of mail ships and warships in the harbor from time to time which may be in a position to transmit messages within the limitations and restrictions upon such service by local law.

In connection with the proposed Hongkong service considerable local importance is attached to the concession granted by the legislature of the Philippines in its recent special session to the Marconi Wireless Telegraph Co. of America for the establishing of a wireless plant for long distance service, especially to Hongkong, Singapore, Shanghai, Japanese ports, and other points.

The company's concession runs for 50 years and the concern is given the right to construct a plant in the islands for long-distance service, the service not to be allowed within the islands without further authority from the insular government. The company pays 1 per cent of its gross receipts as a tax on its franchise. It must begin the construction of this long-distance plant within two years and complete it within four years. The company's station may consist of two parts, one for receiving and the other for sending. The plant is subject to preemption by the federal or territorial governments in case of war or insurrection.

The Reformed Presbyterian Church of the United States has gone on record in favor of arbitration as a means of settling disputes between capital and labor.
