PRICE FIVE CENTS

GERMAN ADVANCE IS REMORSELESS; RUSSIA PREPARES TO TAKE FIELD

Germans Pay Terrible Price For Bloody Advance On Belgian Soil SAN FRANCISCO EXPOSITION WON'T BE DROPPED, SAYS PRESIDENT

(Associated Press by Federal Wireless:)

LONDON, ENG., Aug. 14.—It is reliably understood here that Russia has already mobilized two million soldiers on the German and Austrian frontiers, 500,000 on the Turkish and Roumanian frontiers and is holding three million more men in reserve.

Germans Loss Is Great Belgians Strike In Rear

[Associated Press service by Federal Wireless.]

BRUSSELS, Belgium, August 14.—No important movements of the rival armies were uncovered in the early part of the day.

Yesterday 10,000 Germans, cent against 7,000 Belgians in an attempt to clear the path for the German advance, lost 3,000 in dead and wounded. This was at Haslon, where the fighting was deadly. The German plan necessitated the crossing of a river under a heavy machine-gun fire.

FRONTAL ATTACKS DISASTROUS TO GERMANS

BRUSSELS, Belgium, August 14.—Reports here say that the Meeklenburg dragoons of the German army endeavored to force their way into Diest by galloping at full speed against a barricade behind which the Belgian infantry was entrenched. According to the reports only seven crossed horses surmounted the barrier.

Such disastrous frontal attacks as these are apparently weakening the spirit and morale of the German soldiery.

Individual Belgians are said to be able now to make captures unresisted.

PARIS, France, August 14.—A strong French division entered Belgium today, hurrying to the support of the Belgian troops. The French division went as far as Gembloux, ten miles northwest of Namur.

EUROPEAN WAR WILL NOT AFFECT 1915 EXPOSITION

"The Panama-Pacific International Exposition is proceeding as originally planned. The European situation is unlikely to adversely affect the project. Of the 37 nations which have expressed their intention to participate, only three are engaged in war. France cables that her participation is assured, and none of the other nations involved in the war have withdrawn. The loss of exhibits from the warring nations will be balanced by increases from elsewhere. Attendance at the exposition probably will be increased by Americans and South Americans unable to go to Europe."

The foregoing wireless dispatch was received this morning by H. P. Wood, chairman of the Hawaii Fair Commission, from Charles C. Moore, president of the Panama-Pacific International Exposition. The message comes in reply to a query from the local commission regarding the effect of the present European embroilment on the exposition in 1915. The message indicates that the work is going ahead in spite of the trouble, and that the exposition will not be postponed on account of it. The message from Mr. Moore serves to clear up all doubt whether the exposition project would be carried out as originally intended. "The Hawaii Fair Commission has expected that an answer of this nature would be received in response to its query," said chairman Woods this morning. "With this belief in mind, the commission has gone ahead with its plans, let the contract for its building and proceeded as usual along other lines. The commission believes that Honolulu's time now has come to get to the front in securing publicity for the islands, and the body intends to take advantage of every opportunity to advertise. It is the firm conviction of the commission that the exhibit which the territory will place in the Hawaii building at the exposition will serve to turn tourist travel to Hawaii on a larger scale than ever before."

EVERYBODY WILL EAT PINEAPPLE ON THE MORROW

Hawaiian Product to Be Served
On Land and Sea—Wilson Has It On Menu

Tomorrow is Hawaiian pineapple day!

On land and sea, on Hawaii and on the mainland of the United States, in Canada, certain sections of the Australasian continent and in many other sections of the world the Hawaiian pineapple will be one of the principal items on the menu of the club, restaurant and in the home.

Pineapple will reign as King on August 15, this year, next year and in the years to come, provided the efforts of the promotion committee are not miscarried.

President Woodrow Wilson is going to eat Hawaiian pineapple. Several cans of the Island's choicest pack have been forwarded to that executive. Like gifts have been bestowed upon the mayors of the largest cities of the United States and Canada.

MARAMA AND THE NIAGARA TO SAIL WHEN IT IS SAFE

"Under instructions, the S. S. Marama and the Niagara will be held in this port indefinitely," said E. S. Gordon, British consul, this morning. "Either or both vessels may get away within 12 hours or it may be several days before they sail. It all depends on the degree of safety with which they can leave this port. The instructions are explicit and the vessels may get away tomorrow, they may sail Sunday or it may be some time before they leave Honolulu."

6.53 PRICE FOR SUGAR; STOCKS UP

(Associated Press by Federal Wireless).
NEW YORK, N. Y., Aug. 14.—Refined sugar today is \$7.50 per hundred less two per cent for cash.

The following cable quotation has come to the Hawaiian Sugar Planters' Association:
SAN FRANCISCO, Aug. 13.—Sugar: 96 degree test, 6.53c. Previous quotation, 5.95 cents.

News received by cable late yesterday afternoon that raw sugar had jumped to 6.53 cents per pound on the New York market, the highest figure recorded for many years, stirred sugar men, stockholders, plantation and shipping men and brought even more excitement to the local "Wall Street" than it has been undergoing for the past week.

The jump in price from 5.95 to 6.53 came officially to the Hawaiian Sugar Planters' Association just after the second edition of the Star-Bulletin went to press but the news of the advance was at once widely heralded and stocks rose to even greater heights than they had yet attained. They were still on the climb today.

A. D. Cooper, representing San Carlos Milling Company, received cable news this morning that the remainder of the cargo which recently arrived in New York by the British merchantman Satsuma was this morning sold at the splendid figure of 6.52. The Satsuma carried 3080 tons, of which the first half was sold three days ago for 5.25. The last half of 1540 tons, sold at 6.52, brings the average to 5.88 and puts San Carlos Milling Company and stockholders on "Easy Street."

Stocks stiffened all along the line this morning, the news of sugar cargoes arriving and due to arrive under high prices helping to boost the optimism encouraged by the general outlook.

At a meeting held yesterday afternoon, the trustees of Oahu college approved the first assignment of scholarships for the coming year as reported by the finance committee. At the opening of the fall term, a second assignment will be made to cover changes or withdrawals. The college now has 59 scholarships.

JUDGE CLEMONS TO TAKE KOREA FOR WASHINGTON

Federal Judge Goes Unexpectedly on Leave of Absence—Mission Not Made Public

Judge Charles F. Clemons of the federal court will sail tomorrow morning on the Pacific Mail liner Korea on his way to Washington where he is going as the result of important cable messages recently exchanged. He is on a leave of absence the length of which is uncertain.

The nature of Judge Clemons' mission was not given out for publication today. It is, however, quite evidently of real importance.

It cannot be stated whether the trip is the result of the activities of District Attorney McCann or not, though the report appears authoritative that the situation here arose before McCann's arrival in Washington. For several weeks past there have been persistent rumors that a fight was being made against Judge Clemons by a Democratic faction here which boasted openly that it would secure his retirement from the bench. Whether this faction has gained ground with the attorney-general and is continuing its alleged campaign to get the federal judge ousted for political reasons cannot be learned definitely.

FEDERAL SITE UP FOR ACTION IN HOUSE ON MONDAY

[Special Star-Bulletin Cable]
WASHINGTON, D. C., August 14.—The Honolulu federal site bill is slated for positive action by the House of Representatives next Monday.
C. S. ALBERT.

BANK COMMISSIONER O. K.'S LOCAL BONDS

WASHINGTON, D. C., August 14.—The state bank commissioner of the state of New York has authorized the acceptance of the Hawaiian bond issue as security for savings bank investments.

Germans Drive Forward May Traverse Waterloo

[Associated Press Service by Federal Wireless.]

TIRELEMONT, Belgium, August 14.—Late this afternoon, at 5:45 p. m., news came from the battle line that the Germans have made a pronounced advance today, in spite of the losses to which they have been subjected.

The general advance is toward Tongres, St. Trond, Diest and Aerschot, and several army corps are participating in it.

The front extends from St. Trond to Hasselt.

The Belgians are erecting formidable defenses around Namur, where they will make their second stand.

All civilians have been disarmed to forestall German reprisals against Belgian non-combatants found with arms.

BELGIANS EXULT OVER RESISTANCE

BRUSSELS, Belgium, August 14.—Belgians are today exultantly relating an anecdote to the effect that the German minister to Belgium said, when a colleague asked him the day after war was declared why he did not leave, "It isn't worth while. The Germans will be here tomorrow."

TURKEY PAYS HIGH FOR GERMAN CRUISERS

LONDON, England, August 14.—The Exchange Telegraph says that Turkey has paid \$20,000,000 for the two German cruisers Goeben and Breslau, which fled into the Dardanelles straits and are reported to have been interned, the German government preferring to give them up this way rather than to have them taken prizes of war or sunk in an unequal combat.

BELGIANS ROUT GERMAN CAVALRY

LONDON, England, August 14.—From the government press bureau it was given out today that the Belgians surprised and routed an encamped body of German cavalry at Ngehesse today, capturing many prisoners, cannon and machine-guns.

LONDON, England, August 14.—Victor Duras, American vice-consul at Liege, Belgium, who was a witness of the first two days of the hard fighting between German and Belgian troops in and around Liege, says that the Germans undervalued the Belgian soldiery and paid an enormous price for their mistake.

His story of the encounter is that the Belgian generals pulled off a coup by which they permitted the Germans to pass the forts en route to the city of Liege, and after the Kaiser's army had marched past the forts the Belgian attacked it in the rear. The well-directed cannon-fire from the forts poured a rain of shell upon the Germans while the front of the invading army was swept by Belgian artillery fire.

Duras estimates that the Germans lost three times the number of men that were lost by Belgium.

BRUSSELS, Belgium, August 14.—Three German aviators, flying over Belgian forces during yesterday's fighting at Diest, were brought to the ground by artillery fire sent into the air. Two of the aviators were killed and one mortally injured.

The German cavalry has retired on Huy, between Namur, the second line of the Belgian defense, and Liege.

SAN FRANCISCO BROKERS FAIL

SAN FRANCISCO, Cal., August 14.—The well-known brokerage firm of J. C. Wilson & Co. has gone into voluntary bankruptcy, due to the war.

LIEGE FORTS INTACT TODAY

BRUSSELS, Belgium, August 14.—The Liege forts are reported intact late this afternoon.

The Germans have suspended the bombardment of six forts on the right bank of the river and have concentrated their field-gun attack upon the six forts west of the city. The defenders have been instructed to destroy the forts before they surrender to the enemy.
