WHAT \$10 DID FOR THIS WOMAN

The Price She Paid for Lydia E. Pinkham's Vegetable Compound Which Brought Good Health.

Danville, Va.—"I have only spent ten dollars on your medicine and I feel so much better than I did when the doctor was treating me. I don't suffer any bearing down pains at all now and I sleep well. I cannot say enough for Lydia E. Pinkham's Vegetable Compound and Liver Pills as they have done so much for me. I am enjoying good health now and owe it all to your remedies. I take pleasure in telling my friends and neighbors about them."—Mrs. MATTIE HALEY, 501 Colquhoun Street, Danville, Va.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial. This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

BUSINESSMAN IS SAID TO BE SOON QUITTING HAWAII

Administration Credited With Making R. M. Morton's Stay Here Impossible

Robert M. Morton, superintendent of the American Can Company of Honolulu, intends to leave the islands for California, according to a statement credited to him by the Evening Tribune of Pendleton, Oregon. The Tribune says that this statement is made direct to it in a communication.

Mr. Morton when shown the article by the Star-Bulletin stated that the communication quoted was entirely personal and written without any thought of publication. His leaving the islands, he said further, has nothing to do with business conditions here, nor was he responsible for the personal allusions, especially as to being "general manager," the company having no office or that rank connected with any of its plants. He has no objection to the printing of his views on business conditions in Hawaii at present, saying, "They are just about as I see things."

The Tribune of August 6 declares: "One finds a state of affairs in the Hawaiian Islands that leaves no question of the times during the troubled days.

Apart from the general reports touched upon in places with optimism there comes a direct statement of affairs in the archipelago upon the irrefutable authority of a leading business man of Honolulu and who makes his statement direct to the Evening Tribune in a communication.

Is Leaving—Blames Administration.

"Robert M. Morton is general manager of the American Can Company. He is known in these parts, where he has visited friends. He now announces his intention of leaving the islands for California, until such time as business gets better in the islands. Of the magnitude of his concern he states the cannery grew from a capacity of 3,000,000 cans to 54,000,000 cans a year during his management and he found things in a high state of prosperity until the past year or so.

"He says: "Business here in the Hawaiian islands is pretty quiet, and is certainly hard hit by the present Democratic administration. There have been plenty of failures and stocks have dropped fully 50 per cent."

"Mr. Morton goes on to explain that many of the plantations are running at a heavy loss, and are only hanging on, desperately, in a wild hope that conditions will change somehow, and give all a chance to retrieve their lost fortunes.

"He also makes the significant statement that he believes not one Democrat will be elected in the Hawaiian Islands in the coming election. The voters and all the thinking people here, it seems, sustained too heavy a loss to make any further experiments with the administration, and mean to know what they are getting next time. Fruit Men Desperate.

"Commenting upon the ominous state of affairs that has brought the planters and exporters to the verge of ruin in the islands, Mr. Morton states that many places will be forced to close unless a quick and favorable change occurs. Fresh pineapples that sold for \$20 and \$21 a ton a year or two ago are now going as low as \$3.50. Some of the growers have term contracts with the packers on a sliding scale, and they are getting \$11.15 a ton for their pine. As it costs, on an average, about \$14 to raise the pine, the loss is apparent. In fact, states Mr. Morton, thousands of tons have even gone as low as \$5 to \$3 a ton. No Market for Fruit.

"But this, it seems, does not tell the worst of the tale. There are about 8000 tons of fruit unsold on the islands at this time. This supply, perishable as it is, stands ready to be taken away for \$2.50 or any price that can be obtained.

"While these facts are covered by market reports officially, the statement assumes local interest by Mr. Morton's acquaintance with this section of Eastern Oregon, and becomes authentic by reason of his high standing as manager of a leading industry of Honolulu."

AUGUST NUMBER OF 'CHILDHOOD' IS ATTRACTIVE

The August number of Childhood, just off the press with its striking and catchy cover, contains much to interest not only the children of Hawaii but grown-ups as well.

The "Simon Says" page deals with "Sir Knights and Lady Knights" in a wholesome way. There is something about the "Campfire Girls" of particular interest to the young folks of Hawaii, many good short poems, a well-selected assortment of humorous sayings and verses, and "The Children's Hour" deals with swimming and advice to bathers. The Sub Club contains an offer that will be found attractive. One article that is of general importance is that on Children's Interests at the San Francisco fair.

The book is tastefully illustrated with appropriate photographs. Miss Sara D. Featherstone, the editor, makes announcement that she will open her Open-Air School, Diamond Head, on September 9. This is the second year of the school.

LEAHI HOME TO BENEFIT BY PLAY ENTIRELY LOCAL

Home Talent Will Depict Home Scenes, Words and Music from Homemade Pens

As it was written in this city by a local resident, and as its setting is the pit of the world-famous volcano of Kilauea, therefore it is natural that Honolulu lovers of good theatricals should be the persons to witness the initial production of "The Spirit of Hawaii," a three-scene vaudeville sketch from the pen of Edward A. Douthitt.

The author of the sketch has arranged to produce it at the Opera House for three nights next month during Regatta week. Honolulu theater-goers will benefit through what is promised to be three evenings of keen interest and enjoyment; and Leahi Home, which takes care of the city's tubercular patients, is going to benefit through having turned over to it the proceeds of the three productions. The local try-out of "The Spirit of Hawaii" will be purely a benefit for the home.

The very few persons who have read the sketch predict that it will meet with instant favor in the eyes of the thousands who witness "big time" vaudeville on the mainland, where it is to be introduced shortly after its initial production here. It has jumped into instant favor with the Chamber of Commerce, the Ad Club and the Promotion Committee and, when taken to the mainland, will be produced under the auspices of the last-named organization as a promotion feature. At a meeting of the Ad Club last Wednesday, a committee was appointed to assist the author in securing the necessary talent to complete the cast.

Regarding the three productions here Regatta week, already local talent is being volunteered, and society is taking a keen interest.

For the local productions, W. H. Hutton will be seen in the role of the English playwright who dreams the dream that serves as a plot for the sketch. As Lehua, the immortal dweller of the volcano, Miss Fenella Miles, familiarly known as the "Ad Club Girl," promises to gain unqualified success. She is a sweet singer, is ambitious and energetic, and is proving an apt pupil in the role. Mr. Hutton's splendid tenor voice will be heard to great advantage, and a number of musical features, arranged by Prof. Carl Miltner, will be included which will add to the interest of the sketch. Preliminary rehearsals now are progressing at an excellent rate under the direction of D. William Douthitt and, as soon as the remaining parts in the cast are filled, a general rehearsal will be called.

HAROLD BAUER'S DATE CHANGED

Harold Bauer, the great pianist, has changed his plans about coming on the Canadian liner Makura, possibly on account of war conditions, and instead will voyage from Australia on the Oceanic liner Sonoma, according to cablegram to Manager W. D. Adams of the Opera House.

Manager Adams announced today that Bauer's piano recital will be held on the evening of September 14 at the Opera House. Tickets go on sale at the Promotion Committee rooms on Monday morning, September 7.

AN EASY WAY TO GET FAT AND BE STRONG

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This masterpiece of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through its re-generative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into every starved, broken-down cell and tissue of your body. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive and efficient.

Caution:—While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles it should not be taken by those who do not wish to gain ten pounds or more.

The vessel, it is said, will be sold or chartered to British owners and will be operated in the transatlantic trade. She will probably retain her American registry.

W. P. Kenney, president of the Great Northern Steamship Company, who has been in Seattle several days, refused yesterday either to confirm or deny the report. The desire to dispose of the Minnesota is said to be due to plans to devote the energies of the company to operating the new liners Great Northern and Northern Pacific

between Astoria, Ore., and San Francisco. If the Minnesota is removed the Great Northern Steamship Company's offices will be shifted to Astoria.

The Minnesota has always been a white elephant on the hands of the Great Northern, according to Tacoma waterfrontmen. Several years ago a sister vessel, the Dakota, was caught in a tide and carried ashore in the Orient. Since then the Minnesota has been operating alone. Capt. Garlick, master of the Minnesota, is a Tacoma.

RIO DE JANEIRO, Brazil.—A new submarine cable along the coast of Brazil is proposed in a bill before the congress. The cable will be in two sections, with stations at Recife, Bahia, Rio de Janeiro, Santos, Para and Rio Grande.

One of the objects of an Australian antarctic expedition will be the establishment of a meteorological station to give warnings by wireless of the severe storms which sweep far southern seas.
