GERMANS TACK HUNDRED MILLION PINE ON ANTWERP.
 LONDON, Eng., Oct. 12.—Antwerp is to share the unhappy lot of the other captured cities of Belgium, a fine of \$100,000,000 having been imposed upon the city by the German government.
 This tribute was levied by the Germans as indemnity for the expense and loss of life sustained by the attacking forces during the siege and assault upon the city. The total loss of life as yet is unknown to the German commanders.

SIEGE GUNS BEING SHIPPED INTO FRANCE.
 This is an official report received here by wireless from Berlin, which also reports that the siege guns used in the reduction of the forts defending Antwerp, and in the bombardment of the city, are being sent into France for use against the Allies' positions which have been impregnable to the German artillery in the field.

The Berlin official reports say the German commander in Antwerp has informed his government that the greatest consideration was shown the principal architectural features of that city during the bombardment.
 No troops were found in Antwerp when the Germans entered the city. The attack on Antwerp was directed by General von Beseler and Prince August William. Whichever commander was the first to enter the fallen city will be decorated by the Kaiser, in recognition of the achievement.

CITIZENS MUST OBEY OR REPRISALS FOLLOW.
 From Amsterdam, Reuter's Agency reports that the citizens of Antwerp are safe.

The German military governor there has issued a proclamation stating that "refractoriness on the part of the citizens will be punished according to the laws of war, and may lead to the demolition of the city."

BELGIAN REFUGEES FACE STARVATION.
 Advice from other sources say that a famine throughout Belgium is threatened.

Exchange Telegraph advices from The Hague report that there are 600,000 Belgian refugees in Holland who cannot be provided for, and that a similar condition of famine will prevail among the homeless thousands.
 The queen is said to have gone to England.

ANTWERP MAY BE ZEPPELIN BASE.
 The French government recognizes the fact that the fall of Antwerp will prolong the war, according to advices received by the Times from the temporary seat of the French government at Bordeaux.

It is deemed certain that the Germans will fortify the captured forts, and that the city probably will become a base for Zeppelin airship raids on the British coast.

FRENCH SINK AUSTRIAN TORPEDO BOATS.
 LONDON, Eng., Oct. 12.—Despatches from Rome to the Daily Mail say that the Anglo-French fleet operating in the Adriatic sea attacked and sank two Austrian torpedo boats on Friday.

The Austrian crews were rescued by the attacking ships.
 The fight took place off the seaport of Ragusa, in Dalmatia.

ALLIES CLAIM GAINS AFTER SEVERE FIGHTING.
 PARIS, France, Oct. 12.—A brisk engagement took place early yesterday in northern France between the troops on the extreme left wing of the Allies' line and the German cavalry which had seized the points of passage over the Lys river, east of the town of Aire, lying about 25 miles west of Lille, according to official announcement made late yesterday.

The Germans were driven off, and retired into the Armentieres district, and now are practically on the Belgian border. Armentieres is about ten miles north of Lille, and 50 miles west of Brussels.

Between Arras and Oise the Germans made a vigorous attack without making any progress.
 In the center the Allies have driven the Germans back to between Roye and Soissons and gained some ground. The heaviest fighting took place in the Weverre district. The Germans delivered violent attacks in the region of Apremont, which was taken early in the day, retaken later by the Allies, and finally remained in their hands.

From the right wing there was nothing reported.
 Another official report last night said that the only new detail of the day's operations worth mention was the capture of a German flag in the fighting near Lesigny.

GERMAN AVIATORS DROP BOMBS IN PARIS.
 Two German aviators flew over Paris yesterday and launched a score of bombs in different quarters of the city.

Three civilians were killed and 14 were injured. The damage to property was small.
 French aeroplanes gave chase and disappeared to the eastward in pursuit. The result of the chase is unknown.

RUSSIAN CAVALRY BEAT TEUTON ADVANCE.
 PETROGRAD, Russia, Oct. 12.—An official announcement made last night says that the Russian cavalry has cut to pieces several bodies of German advance guards, but at what place is not stated.

MONTENEGRINS CLAIM VICTORY.
 LONDON, Eng., Oct. 12.—Reports received here from Cetinje are to the effect that the Montenegrins have defeated the Austrians attacking Sarajevo and inflicted heavy losses upon them.

JAPANESE CLOSING IN ON TSINGTAU.
 TOKIO, Japan, Oct. 12.—The Japanese lines about Tsingtau are closing in and the fighting has begun in earnest, according to an official announcement last night by the war office.

The bulletin says that the Germans are employing the fire of their forts, and that of the warships in the harbor, as well as aeroplanes with bombs, in an effort to arrest the advance of the besiegers.

The Japanese commanders report that they are sustaining no damage.
 They say that the fire of Japanese warships has silenced little fort, and the German warships in the harbor have been driven out of range of the Japanese guns.

German aviators made an unsuccessful attack upon the small Japanese vessels employed outside the harbor in dragging for mines, and the Japanese naval aviators retaliated by flying over Tsingtau and dropping bombs into the city and fortifications.

ANTWERP DEFENDERS EVACUATE CITY.
 LONDON, Eng., Oct. 11.—With Antwerp in the complete possession of the Germans, the British and Belgian defenders are making every effort to join forces of the Allies which hold the German coast and West Flanders. A large number have been cut off and are making a stand at Lokeren, in East Flanders, 20 miles southwest of Termonde. This force is now being subjected to a fierce bombardment, the roar of which can be heard at Ghent.

A Reuter despatch from Rotterdam announces that a portion of the Belgian army has crossed over into Holland and interned, while it is known that in the neighborhood of 2000 British have also crossed the Netherlands border and surrendered their arms to the Dutch authorities.

BRITISH SAILORS UNABLE TO STEM TIDE OF VICTORY.
 That the British were participating in the defense of Antwerp was made known here yesterday for the first time, when the Admiralty officially admitted the fact. The Admiralty announcement said that three naval brigades had been landed from the fleet, with heavy guns, and had been sent to the assistance of the Antwerp garrison during the last week of the German attack.

This announcement adds that in the retreat from Antwerp two brigades had reached Ostend in safety with their guns, while the other brigade had been cut off north of Lokeren. The greater part of the Belgian army has succeeded in reaching Ostend and making a junction with the British there.

The British loss, excluding those who have interned in Holland, is estimated at 300 out of the 8000 engaged.
 The extent of the damage done to the city from the bombardment and the loss of life on the parts of either the defenders or the attackers are not yet known. It is predicted that when the full extent of the casualties is known it will be staggering.

GERMAN FORCE MEETS DEFEAT.
 The movement of the German army in Belgium is now towards Ostend, but it met with a serious repulse this morning (Sunday) at Quatrecht, east of Ghent, according to an Ostend despatch to the Exchange Telegraph.

The Exchange correspondent cabled that a force of 20,000 invaders, marching on to Ghent, were met in night battle by the Allies and the advance checked and driven back. This report has given grounds to the supposition that aid is being sent to the British and Belgians besieged at Lokeren, which is only 12 miles east of Ghent.

PETROGRAD SAYS GERMAN LOSS HEAVY.
 PETROGRAD, Russia, Oct. 11.—A Reuter despatch announces that the entire German army which had advanced east into the Polish Province of Suwalki has been withdrawn, in the face of the Russian aggression, following the rout of the German forces at Augustowo.

Despite the denials of the Germans that their losses in this engagement had been heavy, the Russians have many thousands of prisoners in their hands and huge quantities of cannons and supplies. It is estimated that between killed and captured the German loss was 60,000 men.

GEORGE RODIEK GETS NEWS OF VICTORIES.
 A special despatch to the local German consul, received in Honolulu at 4:30 yesterday afternoon, says:

"Washington, October 10, 1914.
 "German Consulate, Honolulu:
 "Antwerp fell on Friday afternoon.
 "English army which held Antwerp is retreating to the north of Scheldt in effort to join the French left wing. The army of General Beseler crossed the Scheldt east and west of Termonde. The Lys bridges between Ghent and Ingelmunster are destroyed.
 "German forces north of Lille reached Cassel (France), therefore allowing possibility of throwing English and Belgian army towards coast.
 "Berlin states decisive phase of the war in western theater has been reached and the advantage is all ours. Army besieging Antwerp now free to march against French left.
 "Austrians successfully repulsed Russians at Przemyśl.
 "Decisive battle in Poland not to be expected in the near future."

JAPANESE BOMBARD TSINGTAU GARRISON.
 (Special Cable to Nippon Jiji.)
 TOKIO, Japan, Oct. 10.—United States Consul Beck left Tsingtau today and took refuge in a neighboring town. The fall of Tsingtau before the bombardment of the Japanese is imminent.

The Changing Age

Girls and boys from 14 to 19 years of age undergo physical changes which tax their strength to the utmost and the strain is always apparent from pale cheeks, colorless lips, and tired bodies—sometimes eruptions of the skin and the utter lack of the ambition and animation with which their younger years were filled.

Budding into womanhood and manhood, with the duties of school or business, demands concentrated nourishment which is readily convertible into red blood corpuscles, energy and strength, and the very best thing for this changing age is the medical nutriment in Scott's Emulsion—it possesses the rare blood-making properties of cod liver oil in a predigested form; hypophosphites for the nervous system, with the healing, soothing qualities of pure glycerine.

Its nourishing force promotes assimilation, yields direct returns in abundant, red blood, fills hollow cheeks, tones the nerves, makes all good food do good, and does it in a natural easy manner.

The sustaining nourishment in Scott's Emulsion is so helpful to this changing age that it should never be neglected—very druggist has it.

J. B. (Soldier) King, employed with the city and county quarries at Molokai, was painfully injured. Friday through the falling of a mass of rock and earth. King was engaged in the removal of material by blasting. King was taken to the hospital for treatment. He was reported as doing well and on the high road to recovery.

A FACT IN PHYSICS IS SAVING LIVES

We offer to the medical profession and humanity this new and profound FACT IN PHYSICS—influence the renal tract with an agent that opposes renal and hepatic degeneration, and urinalyses will, in many cases, within twenty days begin to show diminishing albuminuria in Bright's Disease and decreasing Glycosuria in Diabetes. Simple as it is, this means that these diseases are now being cured.

The presence of albumen of sugar (as the case may be) in a PHYSICAL FACT and its disappearance is a FACT IN PHYSICS.

Who is there big enough to question the reality of a FACT IN PHYSICS that is being daily demonstrated by the weights and measures of analytical chemistry?

Fulton's Renal Compound is the agent used in Bright's Disease and Fulton's Diabetic Compound in Diabetes.

They do not conflict with the usual treatment—can simply be added for the new purpose above. There then begins to be hope in the diseases heretofore supposed incurable. Recoveries have been reported in several thousand cases.—John J. Fulton Company, San Francisco.

Lehnhardt's Chocolates

The place to find good candies is the place where Lehnhardt's Candies are sold. You'll find Lehnhardt's Chocolates the kind that melt in your mouth.

Sold by all the Leading Grocery and Drug Stores

Candy, to be enjoyable, must be pure and toothsome—made from the best and purest of materials—such candy is Lehnhardt's.
