FIERCE FIGHTING IN SUBURBS OF MEXICO CITY

Villa Marching to Capture the Capital; Zapata's Men Also Busy

[Associated Press by Fed. Wireless.] WASHINGTON, D. C., Nov. 11.—Severe fighting is taking place in the suburbs of Mexico City, and the Zapata forces are attacking San Angel and Xochimilco, eight miles south of the capital.

With a clash between 65,000 men impending, private advices from Vera Cruz say that General Carranza has acceded to the demands made by the American government regarding the evacuation of Vera Cruz by the American forces occupying that city.

This refers to the guarantee demanded by the United States that those Mexicans who afforded assistance to the army of occupation be not molested on that account.

Carranza's action is believed to be based upon his desire to have the American troops leave the country as soon as possible, in order that there may be no possible outside interference with his campaign against Gen. "Pancho" Villa and the temporary provisional president, Eulalio Gutierrez.

Reports received yesterday from Mexico City say that generals commanding 50,000 of Carranza's troops were relieved from their commands because they refused to nullify their action in signing the agreement to abide by the deliberations of the Aguas Calientes convention.

It is reported that the advance guard of 15,000 men is marching on Mexico City, which Villa has been ordered to capture in the name of Provisional President Gutierrez.

Between this army and its goal is Carranza's force of 40,000 men under command of Gen. Pablo Gonzalez. This force holds a position near Queretaro, the capital of the Mexican state of that name, about 110 miles northwest of Mexico City.

A clash between the contending factions is expected at that place.

HARBOR NOTES

The American schooner Mary Winkelman, with lumber supplied at Makiloa, is expected to arrive here about November 20.

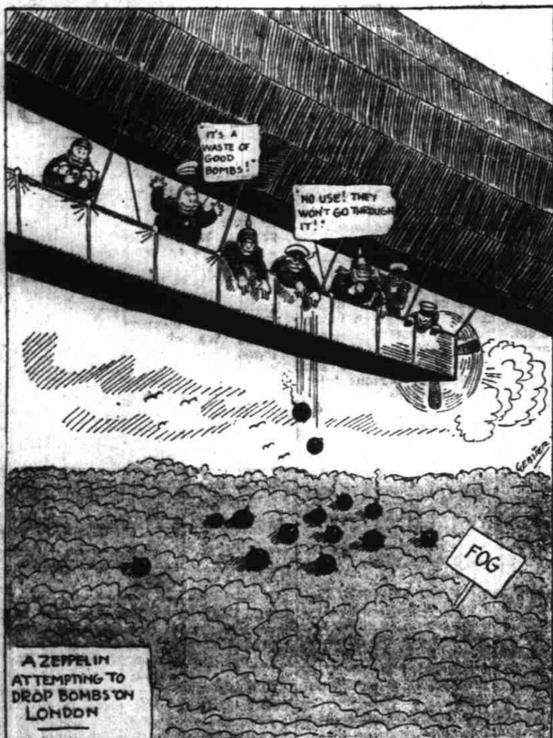

From Port Angeles with lumber, the American schooner Melrose is expected daily at Kahului, Maui. The vessel is reported to have departed from the Sound 41 days ago.

Local representatives for the schooner Alice Cooke expect the daily arrival of that vessel with about 800,000 feet of lumber. She left Port Gamble three weeks ago.

Predictions received by radiogram messages by H. Hackfeld & Co. indicate that the Pacific Mail liner Persia, from San Francisco, will arrive at Honolulu on Friday afternoon.

Among the windjammers with lumber cargoes now due daily at the port from Grays Harbor is the schooner

The Most Futile Thing In The World

A ZEPPELIN ATTEMPTING TO DROP BOMBS ON LONDON

DESTRUCTION OF EMDEN AIDS SUGAR INDUSTRY

With the destruction of the German cruiser Emden comes relief to the anxiety of Hawaiian sugar planters over the important matter of sugar bags. For their supply of this essential article in shipment of the commodity the planters look to the East Indies, but ever since the Emden's reign of terror began there has been a blue outlook for receiving any bags for the crop just starting.

"I suppose we should have had to use grain bags, together with second-hand sugar bags," was the answer of John Guild of Alexander & Baldwin when asked this afternoon what the planters would have done had the Emden not been put out of the way. Imports from the East Indies, mostly consisting of jute bags for the planters, have ranged from 600 and odd thousand to nearly \$1,000,000 a year.

SOLDIERS OF SHAFER WILL HELP CHURCH

Plan Benefit Concert to Raise Funds for an Organ for Rebuilt Kalihi Chapel

[Special Star-Bulletin Correspondence.] FORT SHAFER, Nov. 10.—The enlisted men of the garrison who attend church at Kalihi, and the men of the football teams that have been allowed the privilege of using the grounds of the church for practice, have gotten together under the leadership of Sergeant Frank Leigh, band 2nd Infantry, and have decided to show their appreciation of the cordial hospitality of the members of the church by giving in the very near future a high class musicale, the net proceeds of which will be used to purchase an organ for the recently rebuilt church. Sgt. Leigh has quite a reputation as an organizer and is not only very popular with the people of this section of Honolulu but is a master musician. The commanding officer has given his approval of the concert and has also given his consent to the use of the air dome and asked all officers and men to give their support to make the affair a success.

At a meeting of the officers of the garrison yesterday for the purpose of discussing ways and means for raising funds for the Army Relief Association, an organization whose purpose is to care for destitute and needy families of deceased officers and enlisted men, it was decided to give a sufficient number of entertainments at the air dome of the 2nd Infantry exchange to net the association about \$300 per annum. The nature of the shows now given will not be changed but about two-thirds of the profits will be used for this purpose.

On account of the prevalence of trachoma among the school children of Honolulu, the medical authorities at the department hospital are taking the precaution of examining all the eyes of the children in Fort Shafter to determine whether or not any of them are affected. While the disease is not especially dangerous it is more or less serious and is a bar to entrance to the United States by foreigners and is a cause for quarantine in other cases.

1st. Lieut. Fred A. Cook, 2nd Infantry, has been granted a sick leave of absence for one month to take effect on or about November 10. Lieut. Cook was operated on at the department hospital a couple of weeks ago and as he has not entirely recovered he has decided to join a party from the garrison going to Waimanalo for a hunting and camping trip. Others of the party are Capt. and Mrs. Bell and Lieut. and Mrs. J. A. McAndrew.

Upon the recommendation of the commanding officer, Co. "C," 2nd Infantry the following appointments and promotions have been made in that company: To be sergeant, Corp. Edgar Combs. To be corporals, Lance Corporal William H. Strother and Arthur L. Green.

MORE PROMOTION WORK PLANNED FOR CIVIC BODIES OF HONOLULU

At the weekly meeting of the Ad club tourist committee yesterday the matter of securing a complete motion picture outfit in cooperation with the Trail and Mountain club was taken up, complete estimates of cost were submitted by L. J. Warren and a committee composed of Allan Herbert the original supporter of the plan, with L. A. Thurston and R. J. Baker, was appointed to carry the matter through. The success of the week-end trips was reported such as to warrant the beginning of a series of Saturday as well as Sunday trips by automobiles, horseback and on foot, to the beauty spots of Oahu.

A communication from W. R. Cas-

tle, president of the Trail and Mountain club, was read suggesting that the Ad club tourist committee, either as such or as representing in its membership the live wires of the Ad club, the Trail and Mountain club and the Outrigger Canoe club, take up actively the care of the tourist after his arrival, leaving to the Promotion Committee the securing of the tourist. The full plans outlined were referred to the several clubs mentioned and to the Promotion Committee with an offer to assist in this way.

At the suggestion of H. Gooding Field the following resolution was passed: "This committee endorses the work which the Hawaiian Promotion Committee is doing, which is recognized to be that of bringing the tourist to the islands, but the Ad club committee believes the views of the Promotion Committee in centralizing on one man to take care of the tourist after he is brought here is not an advisable one—that this work could be better undertaken and carried out to a successful conclusion by a committee, the members of which represent all forces of the various activities of the territory and who would be better able to amalgamate all their interests so that the tourist would be receiving attention which would be impossible for a single individual to give."

It was decided to invite Mrs. Wai-ahi to a lunch to lay before the committee her plans for training a number of Hawaiian girls in the folk lore and traditions of Hawaii that they might entertain visitors with the native legends of the places of interest in the islands.
