

# AMERICAN FLAG FOR GERMAN FREIGHTER

It is reported that negotiations are under way for the change of hands of the German steamer Serapis of the Kosmos fleet, and that the vessel under new ownership will be shifted to American registry, as in the case of the former Kosmos carrier Alexandria, now the Sacramento, en route ostensibly for the West coast. Although the Serapis is still lying at anchor off Sausalito, with the German colors flying over her taffrail, and no application has been made for a transfer, it is believed that the steamer will shortly follow in the wake of the Sacramento. On account of the reported demoralization of services formerly conducted by British and German freighters to the West coast shipping men are of the opinion that the traffic can be secured by American interests. It is reported that the docks of West coast ports are congested with freight and that substantial rates are offered for its transportation. The cargo taken by the Sacramento was negotiated for through Mexico City agents, although the West coast importers and exporters formerly conducted a considerable amount of their business through Hamburg. On her return voyage the Sacramento is to bring locally consigned freight which is tied up in the Kosmos steamers Memphis and Kamaik, now laid up in South American ports.

## WHAT CAUSES COLDS?

This question and "How to Prevent Colds" is asked a thousand times every day. A cold is really a fever, not always caused by the weather but due to a disordered condition of the blood or lack of important food elements. In changing seasons fat foods are essential because they distribute heat by enriching the blood and so render the body better able to withstand the varying elements.

This is the underlying reason why the medicinal fats in Scott's Emulsion quickly overcome colds and build strength to prevent more serious sickness. It contains nature's medicinal fats, so skillfully prepared that the blood profits from every drop, and it is free from harmful drugs or alcohol.

**Opium Cache is Unique.**  
Federal officials were today introduced to a new and novel preparation of opium for export with the capture of Palacio Torres, a member of the crew of the Pacific Mail liner Korea, who, apprehended by Inspector Dodd of the customs staff, was brought before Collector M. A. Franklin where, upon being searched, the drug was discovered concealed in unique manner about the person of the smuggler. The opium had been prepared in the form of small cakes which Torres had hidden under his hat, in the tops of his shoes, in the lining of his clothing while some was neatly tucked under

the heavy growth of hair on his head. The Filipino declined to give any statement regarding the presence of the drug upon his person. Collector Franklin turned the man over to the federal authorities for further investigation.

Antone Sanchez, a Porto Rican, was found guilty by a jury in Circuit Judge Ashford's court this morning of a statutory offense and was sentenced to four years' imprisonment.

The members of the board of supervisors will meet at noon tomorrow. There will be little business other than the ordinary routine work.
