Star of Bethlehem

The Miracle Play at Punahou

POSTPONED to MONDAY NIGHT

The play will positively be given Monday night, — if pleasant, in front of Pauahi Hall, if it rains, in Charles R. Bishop Hall.

Music Makes Home Sweet Home

They tell the story of how John Howard Payne, wandering friendless and homeless in the streets of London, looked into the lighted windows of a home and found his inspiration for the song that will live throughout all time.

Lamp light and fire light, happiness and good cheer, and music floating out to him in the winter night, filled his soul with longing, till out of his misery was born the sweetest song of all ages, "Home, Sweet Home."

Lamp light and fire light and music—that is home. Of all the luxuries of life, music is the most necessary. And one might almost add of all the necessities of the inner life, music is the most luxurious.

Why, a home isn't half a home without music. And today there isn't the slightest reason for any home being without it—not even a money reason.

If you haven't a piano in your home, get one today. If you do not play the piano and have no children who ought to learn, get a player piano. The player piano is one of the most wonderful inventions of the age. You can pour every bit of the music of your own soul right into it. You, with a few hours' practice, can play with a master touch.

We have so many wonders in this twentieth century that we are apt to treat them lightly. To have made such a statement as the one above a few hundred years ago would have been considered such a wild idea that they would have burned you at the stake. Yet here it is today an accomplished reality.

Or to have said a hundred years ago that the human voice could be reproduced in all the rareness of its quality in timber and in tone at the least would have been considered the height of extravagance in imagination.

Yet today through the Talking Machine you can sit in your own home and listen to the world's greatest artists singing just as wonderfully as they ever sang before an audience.

More than that. Today, on account of the European war, the family of the most inland parts of these United States can enjoy the same musical advantages as the people of the great Metropolitan centers.

For, on account of the war, there will be no grand opera this year and all that anyone will have will be the talking machine reproductions of these world famous voices.

Opera and concert and entertainment of all kinds come to you through this marvelous reproduction of the human voice; and through this equally wonderful reproduction of instrumental music.

Now that we have come to these long winter evenings, whatever else you do, see that you have some music in your home.

Get a piano, a player piano or a talking machine. Let the music of your home float out upon the night with its friendliness and good cheer.

Read the advertisements in this paper. They will help you in your choice. The modern terms upon which all musical instruments are sold make it possible for everyone to enjoy this luxury.

Make up your mind that some music is coming into your home today.

DEATH VISITED SUGAR PLANTERS

CHIYO MARU ON VOYAGE

The winged messenger of death overtook the fast Toyo Kisen Kaisha liner Chiyo Maru on its way from the coast to the Hawaiian Islands, a Japanese woman, a steerage passenger, being summoned last Tuesday night. The remains were embalmed and will be taken to Yokohama for interment. A family of little children is left in the care of the kindly disposed ship's officers.

Sharing with the Pacific Mail Company the transportation of a vast quantity of cotton to Japan, the Chiyo Maru was berthed at Pier 7 this morning with one of the heaviest cargoes destined for the Orient ever carried in the vessel. Captain W. W. Greene met the worst weather on the voyage as he approached the islands. Heavy rain and strong winds were the rule.

Three passengers are leaving the Chiyo Maru at Honolulu. Hon. W. W. Rockhill, who was proceeding to Peking as confidential advisor to President Yuan Shih-Kai, when overtaken by a severe chill, and his removal to a local sanatorium became necessary. The diplomat is accompanied by Mrs. Rockhill.

The Chiyo Maru is scheduled to steam for Japan and China ports at 4 o'clock this afternoon. 38 cabin, 83 second class and 204 Asiatic steerage passengers continuing the voyage to the Far East. Joining the vessel at Honolulu will be more than 100 Asiatic travelers.

From the Japanese steamer was landed 344 sacks of later mail from the mainland. Save the appointment of A. Evans to the position of chief steward, few changes were noted in the staff.

Chief Steward Evans Again on the Job
Back in harness in the role of chief steward in one of the largest liners in the Toyo Kisen Kaisha transpacific fleet, Albert Evans, for the past 29 years a regular visitor to the port with the arrival of ocean-going passenger steamers, has been given a berth in the Chiyo Maru, that this morning made the port from the Coast. As chief steward in the Pacific Mail and Japanese lines, Evans became well known to a host of Honoluluans in the years he was identified with the Asia and the Nippon Maru. When the smaller Japanese steamer was withdrawn from the service at the beginning of the European war Evans was given a position on shore. His return to the sea was the occasion of much congratulation from local shipping circles today. He takes over the duties of Chief Steward Herman Leffman, who may be given another steamer.

Windjammer May Race
An interesting race between two well-matched sailing vessels may follow the departure yesterday afternoon of the schooners Fred J. Wood and Robert R. Hind, each destined for the North Pacific coast after having been discharged of shipments of lumber.

Robert Mather, former master of the wrecked S. C. Allen, has waged that the Fred J. Wood, his present command, will be the first to enter the South, while Captain Wikander of the Robert Hind, is equally confident that his gallant lumber carrier will lead in the race across the Pacific.

Hundreds of bales of Australian wool are piled on the lower and upper floors of Pier 7. The product was removed from the German warbound steamer Pommeru and will be transferred to the American-Hawaiian freighter Mexican.

GREAT GUNS ARE BOOMING; READ THIS

We have them, and soldiers, too. Everything in the line of toys and holiday gift books for children—the very latest. Our stock is too numerous to mention. Call and inspect our immense stock and take our advice—SHOP early before all the best are gone. We are open every night until 9 o'clock.

WALL, NICHOLS & CO., LTD.

MEETING DRAWS NEAR ITS CLOSE

This morning's session of the planters' convention was highly interesting in the information it yielded of new devices and processes in the factory which promise gain both in economy of operation and in higher extraction of sugar.

E. D. Tenney introduced some "pep" when he took exception to an opinion that an increase of two or three per cent in the amount of sugar obtained from the cane would appreciably compensate the industry for the damage it received from the Underwood tariff.

All the time he desired was given to W. G. Hall for a description of the Searby cane shredder, which everybody appeared to think would revolutionize the process of preparing the cane for the rollers.

A. Gartley, chairman of the committee on manufacturing machinery, in opening the discussion of the report on that subject, stated that some difficulty had been met in getting material from the engineers, because they had favored their own convention lately held in preparing data. In his opinion the greatest happening of the past year was the introduction of the Messchaert groova rollers, called after their inventor, the engineer of Wai-pahu mill.

R. S. Norris, sugar technologist of the experiment station, following comments by E. Kopke, gave the opinion that the adoption of surface condensers was a movement in the wrong direction. J. N. S. Williams thought that some mills lacking in capital for new installations that might obviate the use of condensers would need to retain the latter. Mr. Gartley urged that if the present high extraction was to be maintained all parts of the mill must be made as nearly permanent as possible.

Mr. Norris was called on to lead the discussion of the annual synopsis of mill data issued by the experiment station. Hitherto regarded as a confidential document, with mills designated by numbers instead of names, the meeting now decided to give it a more public character. At the suggestion of President Lowrey it was voted to use the names of mills in future prints of the document, and the meeting further decided to place it on the mailing list of agencies for distribution to mill engineers, chemists, etc. The same action was taken with regard to all the reports of the association.

It is urged in the report that sucrose extraction is not a fair basis for exact comparison from any standpoint. In beet factories, it is pointed out, "the efficiency of the work of extraction is gauged by the per cent of sugar in the pulp." Mr. Norris accordingly gives a table showing how the factories would rank on the basis of the per cent of sugar left in the bagasse.

In the discussion Mr. Norris mentioned that the best results of the year were achieved by Ewa Mill, Messrs. Kopke, Moir, Gartley, Renton and Scott took part in the debate on methods.

Recess was taken at 12 o'clock till 1:30. It is said to be doubtful if the members will have time to visit the experiment station in town and the sub-station at Wai-pahu this session.

A stowaway, believed to be a Russian subject, alleged to have stowed away on the Oceanic liner Ventura from Australia, is held at central station pending further investigation. The man has related varied and conflicting stories. He claims to have been exported from Sydney because it was believed that he was a German spy. The police department were asked to take charge of the stowaway upon his arrival here yesterday morning.

J. E. Boyle, driver of automobile number 1447, is alleged by the police to have run down a Korean named Kim On Tie. Victoriano Ramon, a Filipino, was this morning taken to police headquarters, it being alleged that he was found in the room of a Japanese named Matsaki. Ramon has been booked on a charge of burglary.

Taking a quantity of material for the Commercial Pacific cable station at Midway, also Christmas cheer for the colony of officers and employees, with Alex. Tinker, a cable operator as a passenger, the schooner Fluorence Ward departed for the isolated island yesterday afternoon. Captain Piltz was delayed in getting away owing to a shortage of crew.

THOSE AMERICANS AND NATIONALS DID SURE PLAY SOME

FAST BALL

YESTERDAY. DID YOU SEE THEM? THEY MAKE YOU THINK OF THE WAY THE CITY TRANSFER CO. PLAYS THE BAGGAGE GAME ON A BUSY DAY—SWIFT AND SURE.

VESSELS TO AND FROM THE ISLANDS

(Special Wireless to Merchants' Exchange.)

Friday, December 4.
NICKILTEO—Sailed, December 4, schooner Prosper for Hilo.
PORT ANGELES—Dec. 4, schooner Oceanic, bound for Port Allen, returned.
SEATTLE—Sailed, Dec. 3, S. S. Hydades for Honolulu.
YOKOHAMA—Sailed, Dec. 4, S. S. Nippon Maru for Honolulu.
PORT TOWNSEND—Arrived, Dec. 3, schooner Blakeley, hence November 12.
SAN FRANCISCO—Dec. 4, passed by S. S. Strathblane for —, hence November 21.

Radiograms.
U. S. A. T. Sheridan arrives from Manila Saturday, 6 a. m., and sails for San Francisco same day, 5 p. m.
S. S. Chiyo Maru sails for Yokohama 4 p. m., today.

LOCAL AND GENERAL

Rare pearls and jewels in exquisite settings of platinum, gold and silver. Wall & Dougherty.

A declaration of intention to become an American citizen has been filed in the office of the clerk of the federal court by Manuel Vasconcelles, a native of Funchal, Madeira.

A meeting of the board of directors of the Chamber of Commerce of Honolulu will be held in the new headquarters of the chamber, rooms 308-12 Kauikealani building, next Wednesday afternoon at 3 o'clock.

Tomorrow morning at 10 o'clock The Outdoor Circle will hold its regular meeting at the home of Mrs. F. J. Lowrey. Various committees will be appointed.

The Waialae, Kaimuki and Palolo Club entertainment to be given this evening in the Liliuokalani school building has been postponed on account of the weather.

Committees will be appointed and other matters of business disposed of at a meeting of the members of the Outdoor Circle which has been called for 10 o'clock tomorrow morning at the residence of Mrs. F. J. Lowrey.

The supreme court today handed down a decision affirming the decision of the second circuit court in the suit of Charles J. Schoening, Fred P. Roscrans and others against William Miner and others.

Circuit Judge Whitney today appointed Archibald A. Young and C. C. von Hamm as executors of the estate of the late Ruth Young, to serve without bond. R. W. Shingle and Willard E. Brown were appointed appraisers of the property.

PASSENGERS ARRIVED

Per T. K. S. S. Chiyo Maru, from San Francisco, Dec. 4.—For Honolulu: J. F. Comins, Mr. and Mrs. W. W. Rockhill. For Yokohama: F. H. Bugbird, Mrs. F. H. Bugbird, K. Ito, M. Kambe, J. Kojima, K. Kurita, W. MacLean, T. Noyori, Mrs. T. Noyori, S. Oishi, S. Shiga, J. G. Stanley, C. B. Stetson, H. Sumida, K. Takayama, Rev. K. Tsunashima, L. Van der Heist, C. A. Whitehead. For Kobe: G. Dickely, W. G. Fox. For Shanghai: Mar. O. Miller, P. W. Wang. For Hongkong: M. Geary, M. Greenfield, Mrs. M. Greenfield, H. F. Hungerford, Mrs. B. Hess, J. Jensen, H. P. Linnell, Miss Gladys Linnell and maid, Mrs. R. H. Moore, Miss Nadine Moore, E. Rosenfeld, Mrs. A. M. Sherwood, Capt. N. Smith, Mrs. R. A. White, C. Xuto.

PROPOSALS will be received at the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., until 10 o'clock a. m., January 5, 1915, and publicly opened immediately thereafter, to furnish at the naval station, Pearl Harbor, Hawaii, a quantity of naval supplies, as follows: Sch. 7697: Steel rails and cross ties, spikes, red-wood ties, gate valves. Applications for proposals should designate the schedules desired by number. Blank proposals will be furnished upon application to the navy pay office, Honolulu, T. H., or to the Bureau, SAMUEL MCGOWAN, Paymaster-General, U. S. N. 11-18-14. 6927-Dec. 4, 11.

SEALED PROPOSALS endorsed "Proposals for Electric Traveling Cranes" will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock a. m., December 12, 1914, and then and there publicly opened, for three electric traveling shop cranes at the Naval Station, Pearl Harbor, Hawaii. Plans and specifications may be obtained on application to the Bureau, H. R. STANFORD, Chief of Bureau, November 16, 1914. 6927-Dec. 4, 11.

OUTDOOR WORK NOW IS WELL UNDER WAY

The organization of the Outdoor Committee of the Promotion Committee was completed at a meeting this morning by the election of the following officers and committee chairmen: G. H. Tuttle, chairman; H. L. Strange, vice-chairman; H. Gooding Field, recording secretary; A. H. Ford, corresponding secretary; L. A. Thurston, intermediary officer between the Promotion Committee and the Outdoor Committee. The division of work was made as follows:

Game fishing, hunting and entertainment, H. Gooding Field; good roads,

trails and accommodations, L. A. Thurston; surfing and other amateur sports, G. H. Tuttle; finance, H. L. Strange; excursions, organization and publicity, A. H. Ford.

Albert Deltz and E. A. Walters are reported by the military authorities to have made their escape from the guard house at Fort Armstrong between 1 and 6 o'clock this morning. Harbor Officer Carter, who captured the men when they attempted to get away on a transpacific liner some days ago, was again commissioned to capture the prisoners. A detail of 20 enlisted men patrolled all territorial wharves today with the hope of placing the deserters under arrest.

What Happened to the Cats?

Not long ago the U. S. Government made some experiments to determine the poisoning qualities of caffeine (the drug in coffee).

Twenty-seven healthy cats were given an average dose of 5 4-5 grains of caffeine—about as much of the drug as is contained in 2 cups of coffee.

What do you suppose happened?

The Cats all Died!

See Government Bulletin No. 148, Bureau of Chemistry.

Of course they were only cats.

But there are plenty of people who dose themselves with enough caffeine every day to kill a cat and Cripple a Man, not at one blow, but by little blows repeated daily.

Of course some systems are strong enough to stand all kinds of abuse, but most systems are not. And when a man or woman observes a growing nervousness or sleeplessness, heart trouble, stomach, bowel or eye disturbance, it is time to quit coffee and turn to a real food-drink, free from the coffee drug, "caffeine."

It is easy to shift from coffee to

POSTUM

for in POSTUM one gets a delicious drink with the true nourishment of whole wheat from which it is made. Postum is roasted (like coffee) with a bit of wholesome molasses, looks like coffee and has a delightful flavor resembling Old Dutch Java, but is entirely free from the coffee-drug, caffeine, or any other drug or harmful substance.

Postum comes in two forms: Regular Postum which must be boiled. Instant Postum—soluble form—made in the cup instantly with hot water. Grocers sell both kinds and the cost per cup is about the same.

"There's a Reason for" POSTUM
