PARIS OFFICIAL DESPATCH GIVES MANY DETAILS OF ALLEGED PROGRESS AT ARRAS, AISNE, RHEIMS, FOREST OF ARGONNE—BERLIN EMPHATIC IN DECLARATION THAT FRENCH ATTACK BROKE UNDER ARTILLERY FIRE—SAY NO DAMAGE DONE BY FRENCH AVIATORS AT FREIBURG—IN NORTH POLAND, SAY THE TEUTONS, IMPORTANT POINT STORMED AND CAPTURED

[Associated Press by Commercial Pacific Cable.]  
LONDON, England, Dec. 10.—The supplementary report of Sir Frederick Sturdee, commander of the British fleet that defeated the German fleet off the Falkland Islands, says that the German cruiser Nurnberg was also sunk on Tuesday. The last report said that the Nurnberg and the Dresden were fleeing, hotly pursued.

Admiral Sturdee's report says that the action on Tuesday morning lasted five hours, with intermissions. The cruiser Scharnhorst sank after three hours' fighting. The Gneisenau, flagship of the squadron, sank two hours later. The light cruisers of the Germans scattered and the British light cruisers chased them. No British vessel is reported lost.

#### Experts Discuss Battle's Results; Admiralty Silent on Size of Fleet

[Associated Press by Commercial Pacific Cable.]  
LONDON, England, Dec. 10.—Naval experts, discussing the British victory in the Falkland Islands battle, note that all the naval engagements in the war show that defeat in modern warfare on the seas is equivalent to virtual annihilation. They point to the story of the other important battle in South American waters, off Coronel, in which the British squadron was practically smashed.

LONDON, England, Dec. 10.—The British admiralty still withholds the names of the vessels in Admiral Sturdee's victorious fleet, as well as the number of vessels sent by the British against the Germans.

#### M. C. PACHECO IS FINALLY BERTHED WITH FAT SALARY

Democratic Warhorse Appointed Chief Clerk by Circuit Judge Stuart

Democratic party leaders, after 48 hours devoted to the pleasing task of helping Circuit Judge Stuart select a Bourbon office staff, have at last met with success. In M. C. Pacheco, city and county supervisor, who was defeated for reelection on November 3, they have finally found a man who is willing, for the monthly stipend of \$150 and some handsome side-fees, to work side by side with C. D. Pringle, the second clerk who was chosen a few days ago by Judge Stuart.

It was generally reported yesterday that Manley G. K. Hopkins firmly and repeatedly declined the position, though great pressure was brought to bear upon him by L. L. McCandless, John C. Wilson and other Democratic leaders, who held numerous interviews with him on the subject. It was declared that Hopkins' refusal was based on his disapproval of the second clerk, already selected and engaged in court duty.

Further close conference between Judge Stuart and the party leaders was held in the former's chamber this morning, with the result that the name of Pacheco was announced before noon.

There were many candidates for the job, however, a number of whom were perfectly willing to have Pringle for side-partner if they could get the privilege of collecting the \$150 per month. Among these were Willie Miles, mayor Fern's secretary; Harry Wilder, Jack Kalakala, and others too numerous to mention. Judge Stuart apparently preferred a young lady clerk if he could get one, for his first tentative offer was to Miss Ellen K. Dwight, stenographer in the attorney-general's office. She declined, on the ground that she was unacquainted with clerical work.

Mr. Pacheco stated this afternoon that he had not definitely decided upon accepting the position which has been offered him, neither will he do so until he has considered and consulted with his present employers, feeling that he owes it to them to remain with them until they can make other arrangements. However, all matters in Judge Stuart's court having been postponed until the January term of court there is no immediate hurry for the change.

Miss Rosa Holt temporarily accepted the job of court stenographer, but after trying the work yesterday concluded she did not care to remain permanently and announced she wanted to quit at the end of the present week. Accordingly that position has been offered Miss Dwight and she has accepted it tentatively. She will try the work a few weeks. Meantime her place in the attorney-general's office will be filled by Mrs. Harold Huxtable, formerly Miss Margery McGuire, and stenographer for Governor Frear.

[Associated Press Cable.]  
WASHINGTON, D. C., Dec. 10.—Secretary of the Navy Josephus Daniels today declared to the house committee on naval affairs that the United States should steadily strengthen its navy in an orderly way, but that national sentiment plainly opposes military competition between this country and the heavily armed nations of Europe.

The closing testimony of Rear-Admiral Fletcher, given before the house naval committee, is that the navy of the United States is equal to that of any country in the world save Great Britain.

#### RUMOR OF A. K. OZAWA'S DEATH FLATLY DENIED

Report Was That Well-Known Japanese Attorney Had Died Aboard Chiyo Maru

A rumor which became widespread last night to the effect that Arthur K. Ozawa, the well-known Japanese attorney of Honolulu, who left this city December 4 in the Chiyo Maru for Yokohama, had died aboard the steamer yesterday afternoon, was vigorously denied this morning by the Japanese newspapers, C. C. Bittling, Ozawa's former law partner, and by other friends of the attorney. The rumor apparently is without foundation and inquiries by the Star-Bulletin today failed to bring to light the source of the report.

According to Y. Soga of the Nippu Jiji, his paper became aware of the rumor last night, when the Japanese Daily Chronicle rushed an extra on to the street to the effect that Ozawa was dead aboard the Chiyo. C. C. Bittling, when informed of the rumor, sent two wireless messages to the Chiyo inquiring as to the authenticity of the report, but up until the time of the Star-Bulletin going to press this afternoon had received no reply.

Mr. Soga further states that a local resident sent a cablegram to Mrs. K. Imanishi, Mr. Ozawa's sister, who resides in Tokio, to the effect that her brother was dead. Upon learning this Mr. Soga says that he forwarded a cable to Mrs. Imanishi denying the report.

Mr. Ozawa, who is said to be the only Japanese to practice law in the United States, had been in poor health for several months prior to his departing for the Orient. This caused him to resign the position of chairman of the Japanese committee of the Mid-Pacific Carnival, in which festival he took an active part last February, which action was deeply regretted by his associates in carnival matters.

#### ARMY BENEFITS BY NEW SCALE OF PUNISHMENT

Recent Executive Order Gives Enlisted Man Much Better Chance to Brace Up

A new executive order, relating to the limits of punishment for enlisted men and general prisoners of the army, went into effect December 1, and cases which are affected by it are beginning to crop up in the Hawaiian department.

The new order, G. O. 70, war department, is one of the most important disciplinary regulations ever made for the army, and it is generally agreed that it is a move for better conditions and will work for the benefit of the individual. It makes the limits of punishment much more elastic, so that they can be cut to fit specific cases, and gives increased power to the reviewing authority in the matter of mitigating sentences of courts martial. It gives soldiers a better chance to brace up after misbehavior, and to come through their service with a clean record.

Under the new order forfeiture of pay can be changed by the court to detention of pay by adding 50 per cent to the amount. That is to say, a soldier who is sentenced to forfeit \$10 per month for three months might get a detention of \$15 per month for three months instead, this \$45 to be returned to him at the end of his enlistment.

Instead of confinement at hard labor, a soldier may be given by the court a 50 per cent increase of hard labor, without confinement. In that case he remains with his company and does military duty, but spends extra time performing the hard labor. Sentences of confinement and hard labor may be mitigated by the reviewing authority as he sees fit.

Another important provision is that entire sentences, except those involving dishonorable discharge, may be suspended by the reviewing authority, and if the soldier remains on his good behavior for three months after the time that the sentence would have been served had it been executed the suspended sentence is annulled.

There are also added rights for prisoners before courts martial. Under the new order, if a prisoner pleads guilty, the president of the court must inform the man of the maximum punishment under the offense, and give him a chance to reconsider his plea.

#### TAX ASSESSOR ASSERTS REPORT DOES INJUSTICE

Wilder Declares Statements as to Non-Collection of Taxes Are Unfair

Tax Assessor Charles T. Wilder takes emphatic exception to the statements of waste of public funds and non-collection of taxes as summed up in a report made to the Chamber of Commerce yesterday by E. H. Paris and published in full elsewhere in the Star-Bulletin today.

Assessor Wilder declares that a gross injustice has been done to the tax office which could easily have been avoided by an impartial investigation of all the facts. In particular he declares that the statement that poll-tax books are sent out of the tax office without a receipt being given or record made of their disposition is "silly on the face of it and absolutely untrue."

"I do not wish to discuss Mr. Field's report, on which the Paris report was based, until I have seen it," said Wilder this morning when asked for a statement, "but I am willing to say that in some important respects the report of Mr. Paris does not represent the facts. I shall write to Mr. Paris and say so. I feel also that I should be allowed an opportunity to be heard by the Chamber of Commerce. Charges such as those that have been made should not be given publicity unless those who make them are absolutely aware of the facts."

"No poll-book has ever gone from our office without a receipt being given for it and when it comes back from the big business houses the employees of which we are collecting the taxes from the book is checked over carefully and gone over by Auditor Fisher.

"In the matter of tax collections, also, the report does not fairly represent the matter.

"The tax office is a public office—open to public inspection. Mr. Field came to me to collect his data and was accorded every facility. The figures he gives are the figures right from my office, and I am certain that these figures do not bear out the headlines this morning that thousands of dollars are lost every year through failure to collect taxes."

The full report made by Chairman Paris is published today on page 10 and the full report of Chairman Guild of the Ad. Club committee will be published later.

#### BAR ASSOCIATION AGAIN INDORSES JUDGE WHITNEY

Cables President Unanimous Recommendation of Incumbent in Juvenile Court

PROPOSES INVESTIGATION OF FIRST CIRCUIT COURT

Probe Will Be Made of Charge Employee Was Convicted in Criminal Court

The President, Washington, D. C. Bar Association of Hawaii at meeting held today unanimously reaffirms previous endorsement and recommendation of Circuit Judge Whitney for reappointment, calling attention not only to his general qualities but especially to his success in juvenile court work, part of his duties, and benefit to community therefrom.

HEMENWAY, President, SUTTON, Secretary.

The cable message quoted above was sent to President Wilson and to attorney-general Gregory last evening, following a meeting of the Bar Association of Hawaii at the Board of Trade rooms late yesterday afternoon at which a resolution couched in practically the same words as the message was introduced by J. Alfred Magoon and passed by the attorneys, more than 30 of whom were present.

While there was some talk concerning the resolution it was not in the nature of a discussion for there was no dissenting voice as to the wisdom or desirability of the action. It is expected that appointments to the Hawaiian bench will be made rapidly now, and that it would be useless to send additional proof of the bar's sentiment on Judge Whitney's reappointment to Washington by mail. The cable message should arrive in time to have its effect, if the association's endorsement is to have any effect.

After some discussion the association adopted a resolution offered by D. L. Withington reading about as follows:

"That the executive committee of the Bar Association of Hawaii be requested to investigate whether at the present time there is being maintained a high standard in the constitution of the courts of the first judicial circuit and in the administration of justice therein."

When the resolution was introduced and read several members wanted to know what it meant. Withington replied that he had heard rumors that one person employed in an official capacity in the local courts had been convicted of crime—the story had said it was a felony—and he thought that the facts should be determined. He also said the executive committee should be authorized to take such action as it deemed advisable if the story

#### JAPAN HAS MADE NO PROMISE OF ACTION ON SPOILS OF WAR

(Special Cable to the Nippu Jiji.)  
TOKIO, Japan, Dec. 10.—In response to a query put by G. Matsuda, a representative of the Seiyukai, or anti-governmental party, Baron T. Kato, minister of foreign affairs, today declared in an address in the chamber of deputies that the Japanese government has made no assurance to Great Britain or the United States regarding its proposed disposal of the Marshall Islands, the island of Yap or of Tsingtau, the former German naval base on the China sea.

Baron Kato further stated that Japan now has a free hand in deciding whether Tsingtau shall be restored to China or held permanently by the Japanese, and that the empire is under no obligations to any foreign powers in this matter.
