Tourists, officers of the army and navy and their ladies and the society folk of the city are invited to a dance to be given on the roof garden of the Alexander Young hotel this (Tuesday) evening, beginning at 9 o'clock.—Adv.

President of the Erie Ry. Knows What Hand Brakes Meant.

FRED DOUGLASS UNDERWOOD President The Erie Railway.

Clerking was too tame for Frederick Douglass Underwood. He could see his finish as a weigher of sugar and counter of eggs if he stuck to the country store, so he applied for a job as brakeman and got it.

He made good as a brakeman, as a conductor, as a trainmaster, division superintendent and again as general manager of a big system.

When the Erie needed a level-headed, quick-thinking president, the directors made overtures to Underwood—the man who had worked his way up from freight cars with hand brakes.

What Mr. Underwood has done for the Erie in a few years is simply an exemplification on a greater scale of what he has done since boyhood. He has saved money, has made every dollar invested count and has given the public the best there was in the box.

A dollar spent is gone.
A dollar saved is a dollar made.

A dollar banked here starts earning more money.

A FLEET OF OIL TANKERS?

Can you imagine 60 large oil tank steamers coming into Honolulu harbor, each tanker loaded with 40,000 barrels of oil? This amount represents the yearly contract just closed with the Associated and Standard Oil Companies of California—two and one-half million barrels.

Four years ago, after making a careful and exhaustive investigation of the Lakeview No. 2 Oil Company's prospects to deliver the goods, I decided to sell their stock in Hawaii. It was at that time simply a hole in the ground, but with every prospect of success. My friends and others bought stock in the company solely through confidence in my statement. The company, later on, brought in the largest oil well ever discovered in the United States. They have on hand over 3,000,000 barrels of oil in surface reservoirs and an unlimited supply under ground.

My satisfaction, after many months of anxiety, is that the stockholders' confidence was not misplaced.

Four hundred shares former selling price \$100, are now worth **TWELVE HUNDRED DOLLARS**, this big profit only being possible in the oil business, and explains John D. Rockefeller's great accumulation of wealth. **OUR FIRST DIVIDEND IS PAYABLE MARCH 15.** I look for this stock to go to \$10 per share within twelve months.

Men or women, if you wish to better your condition in life and be somebody, now is your opportunity. I predict that if you buy some of this stock, it will help you to buy your own automobile and live on easy street. Why not? Read this advertisement over again, then drop me a letter or come and see me.

'SOUL-COLONY' FOR PALMYRA IS A POSSIBILITY

(Continued from page one)

25 miles of Palmyra, and if the colony owned a powerful motor launch and had a small radio station they could keep in touch with the outside world through these, going out to meet the big steamers as they pass that point. Near Fanning Island.

Moreover, Palmyra is only 165 miles distant from Fanning Island, the location of a cable station at present, and with a power launch that place would be within easy reach of the colony.

"The chief difficulty in establishing an institution of this kind, as I see it, would be in gathering together the right sort of people, those who would prove congenial in the long solitude of the mid-sea islands, able to live near each other, yet independent each of the other and without discord or misconduct.

"If I decide to venture the experiment I shall visit these applicants on the mainland, calling upon each in turn, to ascertain as carefully as possible whether they are the right sort. At first I should accept only a select few, these to form the nucleus of the larger colony which might be built up on the islands later."

The judge says he has figured out the economic side of the proposition and that the financial part of the scheme, while not promising returns as luring as some other propositions he has in mind for the islands, could be made satisfactory if one were content with a small monetary return. Figured in contentment, however, it would be made to yield huge profit, he surmises.

Several Plans in View.

However, the judge has not yet committed himself unreservedly to the visionary plan. He is considering other suggestions for the development of his insular possessions. He has not given up entirely the idea of a colony of south sea islanders, employed by the month, year or crop, to engage in the copra industry. He also is viewing with interest a proposition by a number of Hawaiians who, with their families, would establish homes at Palmyra and develop the fishing and copra resources of the beautiful coral lagoon and island group on a percentage basis.

Meantime, before he reaches a conclusion Judge Cooper contemplates another visit to the islands. He expects to sail southward again on his schooner, the Luka, some time next month, with a small company of friends to inspect the property, make a further study of its flora and fauna, do some fishing and indulge in a short vacation from business.

He probably will not arrive at a decision on any plan for the commercial or sentimental disposition of the islands until he returns from that trip.

REPUBLICANS OF SENATE DISCOVER AN 'INSURGENT'

(Continued from page one)

clerk; John Aylett, sergeant-at-arms; William Kaluakini, messenger; J. K. Kamanao, janitor; S. K. Kau'ili, chaplain; W. J. Sheldon, Hawaiian interpreter.

There were 26 Republican members at the meeting and although it lasted only 90 minutes, committees were agreed upon and bills apportioned and discussed. The meeting resembled a gathering of peace representatives and harmony prevailed. The selection of all officers except that of Hawaiian interpreter was nearly unanimous. In the latter contest W. J. Sheldon won over James H. Hakuole by a few votes. J. K. Kamanao was named janitor, winning over his opponent by one vote.

Speaker Holstein will name committees and their chairmen as soon as the house convenes tomorrow morning. After the senate and house have succeeded in making their organization, Governor Pinkham will be ready to deliver his legislative address.

R. W. Breckons presided at the caucus and Norman K. Lyman is now acting as temporary speaker. A committee was appointed which will caucus on all measures before their introduction and roll calls. This committee consists of the following: H. L. Holstein, at large (chairman); J. P. Hale, East Hawaii; D. K. Kanihiko, West Hawaii; Antonio Garcia, Maui; D. P. Isenberg, fourth district, Oahu; Edwin K. Fernandez, fifth district, Oahu, and J. K. Kula, Kauai.

The military committee of former sessions will be incorporated into the health and police committee and a new civil service committee will be instituted. Those who will be on the committees which Speaker Holstein will name tomorrow are as follows:

Finance, Norman Watkins; education, C. H. Cooke; health, police and military, J. H. Coney; judiciary, W. T. Rawlins; accounts and public expenditures, Antonio F. Tavares; public lands and internal improvements, Dr. G. H. Huddy; agriculture, forestry, irrigation, manufactures, promotion and immigration, D. P. R. Isenberg; miscellany, N. K. Lyman; enrolment, revision and printing, Edward Waiakohi; rules, Eli J. Crawford; county, municipal and civil service, Eugene K. Aiu, and journal, H. L. Holstein.
