GERMAN CONSUL AT SEATTLE CHARGED WITH CONSPIRACY

Allegations Made They Tried to Corrupt a Shipbuilding Company Employee to Support Bernstorff's Statement—Notice of Arrest Served

[Associated Press Cable]

SEATTLE, Wash., March 17.—William Muller, German consul at this port, and his secretary, E. M. Schulz, have been served with notice of arrest upon information filed by the prosecuting attorney of King county, charging them with conspiracy in attempting to support charges that U. S. neutrality was being violated by a Seattle ship-building concern.

The German officials are charged with attempting by corruption to influence John Murdock, an employee of the Seattle Construction & Drydock Company, to sell information supporting Ambassador von Bernstorff's charge that this corporation is shipping "knockdown" submarines to Canada, where they are to be set up and used for war purposes.

Murdock, a private detective alleged to be an accomplice of Muller, has been arrested charged with grand larceny.

BERNSTORFF REITERATES DRESDEN BLEW SELF UP

[Associated Press Cable]

WASHINGTON, D. C., March 17.—Count von Bernstorff, German ambassador to the United States, announced today that the crew of the German cruiser Dresden dynamited their vessel after an attack was made on her by the British warships in neutral waters.

According to the story from Valparaiso, the Dresden was surprised while coaling in a harbor at Juan Fernandez island and after a short engagement the Germans blew up their ship, first protesting against the violation of the neutral harbor.

PLAN TO BRING NEWSPAPERMEN WITH VISITORS

House Bill Would Secure Correspondents on Congressional Trip—Proposal to Leave the Invitation List to Editors of Honolulu Dailies

Believing that the party of congressmen and other distinguished men coming to Hawaii in May should include newspapermen as invited guests of the territory, members of both house and senate have been discussing for several days ways and means for bringing the newspapermen to the territory. As a result of the interest taken in the matter by Speaker H. L. Holstein of the house and other leading Republicans, a bill has been prepared for introduction this afternoon making a special appropriation of \$5000 for the purpose of defraying the expenses of newspaper correspondents with the congressional party.

A distinct surprise to the newspapermen of Honolulu is the fact that the bill as prepared leaves the selection of the mainland correspondents to the editors of the two Honolulu dailies. This little feature was put in the bill without consultation with the editors to whom will be delegated the duty of inviting their brother scribes of the mainland.

The bill was expected to be introduced this afternoon by Representative Watkins, chairman of the house ways and means committee. It is as follows:

"An act to amend act 4 of the session laws of 1915, and to add an appropriation thereto.

"Whereas, Under and by virtue of the terms of an act entitled: 'An act to provide for the entertainment and expenses of such senators and members of the house of representatives of the United States of America and distinguished persons as may visit the Territory of Hawaii prior to June 30, 1917, and repealing act 31 of the session laws of 1912,' of the legislature of the Territory of Hawaii for the year 1915, approved on the day of _____ A. D. 1915, an appropriation of thirty thousand dollars (\$30,000) was made for the payment of the expenses for the entertainment of such senators and members of the house of representatives of the United States as may visit the Territory of Hawaii prior to June 30, 1917.

"And whereas, a doubt exists whether under and by virtue of said act payment can be made from said appropriation for the purpose of de-

Secretary of the Navy to Bring Five Battleships on Notable Cruise

PARTY WILL INCLUDE MANY PROMINENT MEN

Chairman Padgett of House Naval Committee and Others to Accompany Him

[Special Star-Bulletin Correspondence]

WASHINGTON, D. C., March 5.—Secretary Daniels of the navy department remains firm in the determination to visit Hawaii on an official tour of inspection and bring with him five battleships of the first-class. He says all the various disappointments connected with the formal opening of the Panama canal, and even the abandonment of the big junket planned for statement and diplomats, has not caused any change in his plans.

The Star-Bulletin correspondent was informed by Secretary Daniels today that though his visit to Honolulu was postponed there has been no modification of his original decision to come with an entire division of battleships. His program now includes arrival in San Francisco on July 25. He expects to devote a week to seeing the sights of the big fair. He contemplates sailing for Honolulu on August 1 or 2. He believes his sojourn in the territory will be held within a week.

Nothing has been done up to this time, said Secretary Daniels, toward formulating the personnel of his party. He has a promise from Chairman Padgett of the house naval affairs committee, to accompany him. He intends to invite a large number of those prominently connected with naval matters and urge them to see at first hand what the requirements of Hawaii are, in order that appropriate legislation may be enacted. With the work of Congress off his hands and a new naval bill ready for action Secretary Daniels soon will take up the development of his plan to visit Hawaii. He will round out his list of invitations and the personnel of his inspection party will be announced.

The elimination of the Panama canal junket came as a withering blight to all those in official circles who had figured on seeing the show at a minimum of expense. One of the big supply bills carried a neat item of \$180,000 to defray the expenses of the junket. This was dropped during the last night of the session, leaving an amazing assortment of smashed dreams and smitten hopes.

BILL INTRODUCED GIVING \$40,000 TO N. G. ARMORY

Representative Makekan introduced an appropriation bill which included a provision for the expenditure of \$40,000 by the territory to complete the construction of the armory, as requested by National Guard officers. It also would appropriate \$39,000 for the running expenses of the guard, a considerable increase over the appropriation for the two years just ending.

Nippon Premier Looking for Peaceable Agreement in Negotiations

THINKS RUSSIA WILL NOT NEED ORIENT PORT

If Slavs Get Constantinople, He Believes They Will Abandon Plans in the Far East

[A. P. by Fed. Wireless]

TOKIO, Japan, March 17.—An important statement dealing with Japan's relations not only with China but with Europe and America is given in the Osaka Jiji from Count Shigenobu Okuma, Japan's illustrious premier.

The Osaka newspaper quotes Count Okuma as saying that he expects good results from the negotiations between Japan and China relative to the demands China has made for privileges on Chinese soil. He said that Germany is instigating China to oppose Japan but the Teuton influence will be futile.

Count Okuma says he believes that if Russia secures Constantinople and an open port to the south of Europe, the Russian government will abandon its attempts to effect an outlet through the Orient. Referring to the situation with regard to the Pacific, he emphasized the fact that American-Japanese relations are becoming very friendly and are especially good at present.

ANOTHER CHANGE IN PRESIDENTS AT MEXICO CITY

[Special cable to Chinese Liberty News]

SHANGHAI, March 17 (via San Francisco).—Seven Japanese cruisers appeared yesterday off the coast of the province of Fu-kin, opposite the island of Formosa.

Beyond the menace of their presence, no demonstration was made. The populace was greatly excited, but Governor Hu Si Ying scrupulously observed the courtesies of international intercourse and succeeded in averting any untoward incident.

Want Congress Convened.
A movement is gaining headway to present a memorial to Yuan Shih-Kai requesting him to reconvene the old parliament, dissolved some months ago. There is a deep seated conviction that, in such a crisis, the fate of the nation ought not to be entrusted to one man or any one group of appointed officials, but that whatever decision finally is made should be an expression of the national will, through the chosen representatives of the nation.

Neutrality Violated?
From the same sources arise a companion movement to petition the powers to intervene. Japan is a belligerent power, runs the argument, and China a neutral power, and the Japanese demands now under consideration constitute a violation of China's neutrality.

Pivotal Battles of Campaign on Both Fronts Now Being Fought

LONDON, England, March 17.—Critical struggles on a huge scale are now engaging the attention of the great armies in both battle-zones, according to the statements of the military experts.

The contests raging around Neuve Chapelle and St. Eloi on the west and Prasznyz and Przemysl on the east are pivotal struggles in the strategy of the opposing armies. According to the opinion of expert observers, the outcome of the struggle at Neuve Chapelle where the Germans were expelled with a loss of 20,000, should prove whether the Germans can regain their lost ground by massing men in the attack.

The developments in the eastern zone should determine whether the great sacrifices Gen. von Hindenberg made in his advance against Warsaw and the later repulse of the Russians from East Prussia have been worth while.
