HUNT'S SUDDEN FLITTING CAUSE OF BOND MIX-UP

More trouble regarding bail bonds was stirred up in Judge Ashford's division of the circuit court Wednesday afternoon when it was discovered that Edward Hunt, who was a bondsman for Henry B. Lewis, convicted of second degree robbery, and who left the territory in the last Matsonia, also was bondsman for Eugene Love, indicted by the territorial grand jury on three counts for embezzlement.

Lewis has been sent back to jail as he was unable to secure new bondsmen. The Love case now is awaiting a decision from the supreme court concerning the legality of the drawing of the grand jury which indicted the defendant. The question was reserved in the Scully-Fisher-Chilton case, and has been awaiting decision for about six months.

BIG FILMS ARE SECURED ONLY FOR THE EMPIRE

The management of the Empire theater announces the entire release of the General Film and Pathe Companies will be shown exclusively at the Empire theater and at no other play house in Honolulu. The service embraces the best productions of one, two, three and four-reel dramas, farce comedies and educational features. They are the best that can be obtained in the market today regardless of price. The new service for the Empire includes the entire output of the Vitagraph, Selig, Pathe, Biograph, Lubin, Kalem, Mina and other producing companies associated with the General Film programs.

Tomorrow there will be a sale of delicatessen and children's clothing. The proceeds will go to Kapahulu Mission. The sale will be held in the building next to the Japanese Bazaar, Fort street.

ROLL-CALL OF 'COUSINS' WILL SHOW 20 WHO HAVE PASSED AWAY

Annual Meeting of Hawaiian Mission Children's Society Tomorrow

When the roll of the "Cousins Society" or Hawaiian Mission Children's Society is called tomorrow afternoon there will be 20 names to which there can be no response. The four generations of Mission children mourn the death of 20 cousins who last year answered the roll.

Among the more widely known of the members who died since the meeting last April were Dr. A. B. Clark, former government surveyor; Warren Chamberlain, who was born in the coral house back of the church 84 years ago, and Rev. W. B. Oleson, who died on a train in Arizona, March 19, of this year.

The roll call of the living sons and daughters of the first missionaries showed the Judd family in the lead last year with 21 of the first generation living. The Cookes were second with 13 silver-haired Mission children, of the first Cooke generation. There are now but 108 of the first generation living, the total number of descend-

ants, including children, totals over 1000.

The Cousins Society no longer enforces inactive missionary work, but supports several scholarships. New officers will be elected at the business session from 3:30 to 4:30 o'clock tomorrow afternoon in the tent set in the rear of the Mission house. The retiring officers are G. R. Carter, president; Miss Agnes Judd, vice-president; Mrs. R. W. Andrews, secretary; Lyle A. Dickey, treasurer, and R. W. Andrews, recorder.

A feature of the gathering will be the display of photographs of living cousins in America and foreign lands, who are unable to be present. All visitors interested in the society will be welcomed to the meeting and given an opportunity to see the old and young generations side by side, contrasting memory with the building of the future.

The society will hold its annual meeting at 3:30 p. m., at the Mission House, 583 S. King street. The invitation to attend extends not only to enrolled members, but to all who are interested in the memorial work which they are doing.

NATIONAL GUARD HEAD HASN'T YET BEEN APPOINTED

The term of office of J. W. Jones, colonel and adjutant general of the National Guard of Hawaii, expired two weeks ago and Governor Pinkham has made no move towards re-appointing him to that position. The governor declines to comment upon the matter.

"Governor, is it correct that Col. Jones' term expired two weeks ago?" the executive was asked.

"Well, suppose it had?" was the answer, accompanied by a smile.

"Have you any other candidate for the position under consideration?" was the next question.

The governor ended the interview by saying that "it pays to use discretion sometimes."

STUDEBAKER MAN GIVES AD CLUB LIVE POINTERS

Members of the Honolulu Ad Club assimilated some new and interesting ideas about advertising Wednesday, when, at the weekly luncheon, L. A. Tilley, representative of the Studebaker Corporation, spoke on the general topic of "Who pays for advertising."

"From statistics handed me this morning I find that \$775,000 worth of automobiles have been imported by Hawaii since July 1 last," said Mr. Tilley. "That looks like prosperity, in spite of free sugar. I want to say that for the volume of business done, there are fewer salesmen in Hawaii than would be the case in any mainland city of the same size. This means that the advertising of the standard makes is what is selling the cars. Advertising can't lie, for it must have the real thing behind it."

When it came to the crucial point of who pays for advertising, Mr. Tilley said that it was not the manufacturer, nor the jobber, nor the retailer, nor the consumer.

"The man who does not advertise pays for your advertising," said Mr. Tilley, "because he doesn't do a sufficient volume of business to compete against you."

PUNAHOU NOTES

[Special Star-Bulletin Correspondence] PUNAHOU, April 22.—The Punahou "bumps" have come back. These bumps have been placed at the main entrance of the Punahou grounds, at the Alexander street entrance and at intervals along the roads leading by the Punahou preparatory school, from the Alexander street gate. It is believed that these bumps will be an effectual reminder to automobile drivers who have been driving too fast through the Punahou grounds, especially at the time when the Punahou preparatory school opens and closes. There have been some narrow escapes on the part of some of the small children and the trustees of Punahou are taking no chances on an accident.

Bumps are high enough to necessitate slowing down a car to a low rate of speed. The first man that went over the bumps was heard vehemently to remark that he thought that the man that prepared the bumps had had practise in digging trenches.

In order further to prevent any possibility of accidents the Alexander street gate will hereafter be closed to all wheeled traffic during school hours, from 8 o'clock in the morning to 2:30 in the afternoon. This will allow the children from the preparatory school to take the car at the Alexander street corner without any danger of accident.

This morning in chapel, instead of the usual organ selection and a hymn, Miss Pearl Sutherland spoke of the opera "La Favorita," which will be given tomorrow night at the Bijou by the Bevan Company. The Bevan company has offered special rates for the faculty and pupils of Punahou, so Miss Sutherland told a little of the story of this opera. It was written by Donizetti, and was first played in 1840. It is not very popular in America, but the Italians are very fond of it. At the close of this talk a record was played on the victrola from this opera, sung by Caruso.

The three seniors who are to take part in the commencement exercises have been chosen. The faculty first selected the five best compositions, and three were chosen from the five. The five students had to read their compositions, and the three best speakers were chosen from that group. Those who are to take the parts are Grace Bredhoff, Dorothy Hoogs and Chin Chei Kwat.

At the end of last term there was a tie between the freshmen and seniors in the interclass games which the school had been playing. This game will be played off tomorrow afternoon at 4 o'clock. There is keen interest to know who was out the highest or lowest class in school.

Yesterday a meeting of some of the second team baseball boys was called and Parker Woods was chosen captain of the second team for the season which is about to begin.

"ME FOR 'GETS-IT' WHEN I HAVE CORNS"

Simple As Saying It: Never Fails.

It does your heart good to see how easily and quickly any corn comes out when you put "GETS-IT" on! And then when you've gone along for years trying everything, when you've sat up nights wrapping up your toes in bandages, smearing on salves that rub off or swell up the corn, pasting on cotton plasters that make corns pop, and slaughtering your toes with pruning them to the quick with scissors—and then you put on 2 drops of "GETS-IT" and see your corn fall right off—why, it just looks like a miracle. Just try it. "GETS-IT" never fails. No pain, no trouble. Use it for any corn, callus, wart or bunion. "GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago. Sold in Honolulu and recommended as the world's best corn cure by Benson, Smith & Co., cor. Fort and Hotel Sts., and Hollister Drug Co.—Advertisement.

Names Four Members of Summer Faculty

H. W. Kinney, superintendent of public instruction, has announced the names of four of the members of the faculty of the summer school which will open in Honolulu on July 6. Mrs. E. Jane Oremba will have charge of the domestic science courses, Charles M. Baldwin of geography, E. Allen Creevey of vocational shop work, and William C. Avery of mathematics. As previously announced Prof. F. A. Clowes will direct the instruction in agriculture, and Prof. Cyril O. Smith of Kauai will again be general director of the school.

PREP. SCHOOL PUPILS OUT FOR SCHOLARSHIP

Many of the pupils of the Honolulu preparatory schools are working hard for the annual \$100 scholarship at the College of Hawaii which is offered by the Honolulu Chamber of Commerce. This year the scholarship examinations at the college will be held from 3 to 5 on the afternoons from May 24 to 27.

The pupils attaining the highest average in examinations in four subjects will be awarded the coveted prize. The quizzes are scheduled as follows: May 24, English; May 25, United States history; May 26, mathematics, and May 27, plane geometry.

That fully nine-tenths of the people of Honolulu and an equal proportion of public organizations favor the civic center site for the proposed federal building is set forth in a letter sent to Byron R. Newton, assistant secretary of the treasury, by the "Outdoor Circle of Honolulu. Mr. Newton will have the final selection of the site for the new structure.

Interest in poultry raising in the Olia district on Hawaii is being stimulated by the vocational training going on in the schools of the Big Island and under the direction of E. G. Allen. Many of the public school children now have small inclosures and are experimenting with small broods of chicks.

Why "No Coffee" for Children?

Many parents who drink coffee would not allow their children to touch it.

The 2 1/2 grains of the drug, caffeine, in the average cup of coffee, is far more injurious to the susceptible nature of a child than to an adult, but, just as constant dripping will wear away stone, so will the repeated doses of caffeine undermine the strongest constitution.

Parents who would protect their own health as they do that of their children, will see the reason for quitting coffee and using

POSTUM

This pure food-drink contains nothing that is harmful or injurious, but is, on the contrary, healthful and invigorating.

Postum is easy to make; has a delightful snappy flavour, very much like Old Gov't Javas; and is good for both children and adults.

Postum is sold in two forms—Regular Postum, which requires boiling. Instant Postum, which is soluble in hot water—made instantly in the cup.

Both kinds are equally delicious, and the cost per cup about the same.

"There's a Reason" for Postum

—sold by Grocers everywhere.
