What

Good Fuel Is to an Engine

Right food is to the body—the source of vital energy.

Grape-Nuts

is a good food in every sense of the word.

It is made from the natural food grains—wheat and barley; is perfectly cooked; partially pre-digested for easy, quick assimilation; and has fine flavor. Besides being rich in body-building elements, it contains the Phosphate of Potash (grown in the grain) which Nature specially requires for rebuilding the tissue cells in brain and nerves, and which can only be supplied through daily food.

HOW TO SAVE YOUR EYES

Try This Free Prescription.

Do your eyes give you trouble? Do you already wear eyeglasses or spectacles? Thousands of people wear these "windows" who might easily dispense with them. You may be one of these, and it is your duty to save your eyes before it is too late. The eyes are neglected more than any other organ of the entire body. After you finish your day's work you sit down and rest your muscles, but how about your eyes? Do you rest them? You know you do not. You read or do something else that keeps your eyes busy; you work your eyes until you go to bed. That is why so many have strained eyes and finally other eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches; they never cure. This free prescription, which has benefited the eyes of so many, may work equal wonders for you. Use it a short time. Would you like your eye troubles to disappear as if by magic? Try this prescription. Go to the nearest wide-awake drug store and get a bottle of Optona tablets; fill a two-ounce bottle with warm water, drop in one tablet and allow it to thoroughly dissolve. With this liquid bathe the eyes two to four times daily. Just note how quickly your eyes clear up and how soon the inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment, but marvelously effective in multitudes of cases. Now that you have been warned don't delay a day, but do what you can to save your eyes and you are likely to thank us as long as you live for publishing this prescription.—Adv.

CADETS TO BE HEARD AT FORT SHAFTER TONIGHT

This evening the people of Fort Shafter will have the pleasure of a reception of their opera house performance by the Kamehameha cadets, and the entire post is looking forward to it. The amateurs and other shining lights, who are now getting ready for the next big amateur night on June 4, will be especially interested in the stage work of the boys and the quartet parties will probably give pretty close attention to the singing.

The new stage is large and commodious and Lieut. F. A. Cook, who has personally controlled its construction, has wisely provided ample dressing room accommodation. This stage should prove a mighty useful thing to the post in many ways and will afford Lieut. Cook opportunity to do what he has had in mind for some time past—putting on all sorts of shows and entertainments.

Tonight old and new exchange officers meet, for Lieut. A. F. Booth, who is attached to the Kamehameha schools now, was exchange officer at Fort Shafter and built the aerodrome. Lieut. Cook, the present exchange officer, has entered the scope of the aerodrome's entertainment and has made it extremely popular.
