WHITENESS IS GIVEN HARD RAP BY SUPERVISORS

Engineering Department Suffers By Absence, Says Resolution

That the engineering department of the city is suffering through mismanagement and lack of organization, because of the fact that no engineer is in charge of the department during the alleged frequent periods of absence by City Engineer L. M. Whitehouse, is asserted in a resolution adopted by the board of supervisors last night.

Supervisor B. F. Hollinger is the introducer. The resolution instructs the roads committee to see to it that the engineering departments are reorganized and that a competent engineer is placed in charge of same during Whitehouse's periods of absence. The resolution follows:

"Whereas, it has been made to appear unmistakably that the engineering department of the city and county is suffering through mismanagement and lack of organization, there being no engineer in charge of the office in the absence of the city and county engineer; and

"Whereas, it is manifestly against the best interests of the city and county that such a condition of affairs continue, it not only meaning a delay in the work of that department but a great amount of confusion and unnecessary expense;

"Now, therefore be it resolved by the board of supervisors of the city and county of Honolulu, that the roads, bridges, parks and public improvements committee be and it is hereby requested to take the matter in hand and see to it that the said department is reorganized at once, and that a competent engineer is put in charge of it and made answerable to the city and county engineer and to the board of supervisors for the conduct of the office.

"Presented by BEN HOLLINGER, Supervisor."

MEMO'S OF MEETING OF CITY SUPERVISORS

The committee on fire department affairs of the board of supervisors last night reported favorably on a proposal to purchase \$32,250 worth of fire fighting apparatus, including three combination pumping and hose trucks as manufactured by the Seagrave Company of Ohio.

Superintendent Wise has asked the supervisors to provide for the erecting of three cages at Kapiolani park, one for the housing of "Bennie," Supervisor B. Franklin Hollinger's kangaroo protégé, one for a raccoon presented by the 91st Company, C. A. C., and the third for a monkey presented to the city by E. G. Dutsenberg.

The water and sewer works committee of the board of supervisors last night recommended that the suggestion of the chamber of commerce that the new flat rates be postponed in going into effect until meters are installed, be disregarded. The report states that if, after meters are installed, it is shown that the city has been charging extortionate rates, a refund can be made to those so injured.

A note of humor was injected into Monday night's meeting of the supervisors when H. F. Bertelmann, J. L. Young and W. L. Emory, who were recently appointed to the board of plumbing examiners, thanked the board in a letter for their reappointment, and then suggested that the job was an important one and ought to be worth \$5 apiece for each member of the examining board for each sitting. It suggested that compensation be given.

Supervisor Hollinger introduced a resolution at last night's meeting of the official board demanding that the Honolulu Rapid Transit and Land Company use Thrifty rails instead of the "T" rails complained against by a former superintendent of public works. Hollinger's instrument states that the H. R. T. & L. Co. had agreed not to use any of the objectionable rails, but that it is now laying these "T" rails on its King street extension. The resolution, as adopted, instructs the city engineer to see to it that no more "T" rails are laid.

EXPECTS SCRAP WITH LIBERALS ON MOVIE BILL

Mayor Lane appointed Supervisors Hollinger, Horner and Abia on the special committee of three to act with the city attorney in preparing a new Sunday movie ordinance, in conformance with the resolution introduced Monday night by Hollinger. Abia and Horner are the two members of the police committee who so highly recommended a Sunday permit for "Tillie's Punctured Romance," "The Girl of the Golden West," and like "Biblical" and "educational" films. When the appointments were announced and Hollinger saw that the supporters of any kind of a Sunday movie would outnumber him on the committee, he said, "I'll have a scrap on my hands now, all right."

NINETY MEN ARE OUT FOR SIXTY-THREE OFFICES

But in Only 12 of the 29 Precincts Will There Be Contests at Charter Election

Ninety candidates for 63 offices had filed for the special charter election to be held July 6 when the county clerk's office closed to further filing at midnight last night. All precincts except precinct 11 of the fourth district are fully represented. According to the law, this precinct must now go without any representation at the city charter convention to be held in Honolulu next September.

In 12 of the 29 precincts there will be contests. County Clerk Kalaokalani at the last minute filed from precinct 2 of the fourth district, and his election is assured as there is to be no contest in that precinct. The clerk's father, David Kalaokalani, Sr., is a candidate from precinct 12 of the fifth district. As only one delegate is to be elected from this precinct and three are in the race, the elder Kalaokalani must contest for the office. Following is a complete statement:

Fourth District. 1st precinct, three to elect—Clark, A. F., Logan, Daniel, Towse, E., Litfe, Samuel, Keiki, J. W. K. 2d precinct, three to elect—Fern, J. D., Wise, J. AFRAID GERMANS HAVE SUBMARINE IN MID-PACIFIC?

(Continued from page one)

to be commanded by German officers, who during the stay at Hilo have been in constant communication with other Germans on board the warbound steamer J. O. D. Ahlers, is considered significant, coming as it does, at a time when the transportation of Russian war material in the Pacific is greatest.

The British steamers Chinese Prince, Indrawadi, the Norwegian freighter Strinda and the big Japanese cargo steamer Gusan Maru are reported to have taken cargoes at New York and other Atlantic ports, which should they be destroyed by the Germans, would seriously handicap the Russian forces.

At least one freighter filled with supplies for Russia is leaving the Pacific coast daily for the terminal of the Trans-Siberian railway at Vladivostok, it was said today on board the Niagara.

The Germans have not before attempted to stem this tide of ammunition reinforcements to their enemy in a matter of comment by sympathizers of the Allies now traveling to Australia.

The Niagara steamed southward at 2 o'clock this afternoon. Its officers are gravely concerned over the outcome of the voyage to Sydney by the way of Java and Auckland. They are instructed by the admiralty to mask all lights at night and suspend wireless communication with Pacific stations.

The movements of the Maverick in this part of the Pacific will be closely watched was the prediction made today. A British cruiser now at Victoria is believed to have been ordered to Hawaiian waters. The Japanese cruiser Izumo, patrolling the Mexican coast, is reported by officers of the Niagara, will take a hand in the watching, waiting game, which within a few days is expected to center around the apparently harmless Maverick and its German officers and cosmopolitan crew.

The few officers in the German warbound vessels in Honolulu are mum as the proverbial oyster in regard to expressing an opinion concerning the mission of the Maverick. They look wise and reply to queries by a shrug of the shoulder.

The crew carried by the Maverick resembles that brought to Honolulu last year by German vessels sent scurrying from the Marshall islands to the protection of a neutral port. The motley delegation of Gilbert, Marshall Islanders, Chilenos, Mexicans and South American Indians in the Maverick have nothing to say in reply to questions from the curious. The fabled tower of Babel has nothing on the Maverick as a lingual melting pot.

Collector of Customs M. A. Franklin was asked today if he had taken official cognizance of the Maverick or its mission at Hilo. He replied that the vessel was purported to be of American register, and no report other than that had been received.

Today it seems certain the Maverick may soon be overhauled by a Japanese or British cruiser, should it steam from Hilo before the suspicion hovering about it has been cleared to the satisfaction of local representatives of the Allied powers.

The Japanese steamer Shinsei Maru and the steamer Hazel Dollar are loading at Seattle full cargoes of war supplies for Vladivostok.

The historic old First Presbyterian Church in Newark, N. J., was threatened with destruction when fire caused \$2,500 damage to the structure.
