LARSEN DECIDES FROSTED GLOBES ARE GOOD THING

Question of Brightness of Auto Headlights Likely to Be Finally Adjusted

Supervisor William Larsen will tonight introduce an amendment to his ordinance for the dimming of automobile lights, the amendment to provide a frosted globe may be used to lessen the light instead of the ground glass that the ordinance first required.

Mr. Larsen says that he is not retracting from the stand he first took in regard to the good qualities of the ground glass, but that he has come to the conclusion that the frosted globe, because of its ease of adjustment, is a good feature.

"Either method," says Mr. Larsen, "will cut the lights down about 20 per cent in brilliance, and will be a remedy for some of the fast driving about the city."

Section 6 of Ordinance 63 in the city laws states as follows: "At night no person shall operate or drive any automobile, motorcycle, or other similar vehicle along any public highway or place at such a rate of speed that such vehicle cannot be brought to a complete stop within the distance ahead that the driver or operator can see an object the size of an adult person with the aid of the lights of such vehicle in connection with the light from other sources."

By this it is evident that an automobile by putting on a powerful searchlight, the faster may the automobile go. As Mr. Larsen says, "A machine could practically fly, and still come within the limits of the ordinance."

It is the idea of the supervisor that his "dimming" ordinance and the amendment to it will have a direct influence on this other ordinance.

For second reading tonight several resolutions will be presented. Among these are the resolution for the additional appropriation of \$850 to the police station, the resolution which provides for \$1137.02 to balance the books of the waterworks department, and a resolution making amendments to the six months' appropriation bill.

Supervisor Arnold's city planning ordinance is ready for its second reading, as is likewise the ordinance by Supervisor Shingle, providing for grades and sidewalk lines on Beretania street.

Supervisor Larsen's ordinance providing for the placing of the water management under one general head will be amended tonight to state certain privileges and limitations of the manager in the performance of his duties.

Those locally interested in Spreckels estate holdings will also be interested in the following from a San Francisco paper:

"Argument was had before the Supreme Court sitting en banc yesterday in the Claus Spreckels will matter. Attorney Charles S. Wheeler, representing Claus A. and Rudolph Spreckels, argued that the millions given before death by Claus Spreckels to John and Adolph, in excess of their share of the estate as heirs, are held in trust by John and Adolph for the benefit of the other three heirs.

"Peter F. Dunne, representing John and Adolph, contended that these millions belonged to them and that they also had right to two fifths of the estate remaining in the possession of Mrs. Anna C. Spreckels, their mother, at the time of her death.

"The matter has come up on an appeal taken by Claus A. Spreckels et al. from a judgment of the lower court sustaining demurrers in favor of John and Adolph Spreckels to a suit begun by the executors, Claus and Rudolph, for a distribution of the estate."

A HOME REMEDY FOR DYSPEPSIA

In view of the well known fact that probably over 90 per cent of all stomach trouble, dyspepsia, indigestion, flatulence, etc., is either directly or indirectly due to acidity, or as it is commonly called "sour stomach," it is evident that correction and prevention depends almost entirely on neutralizing the acid and stopping the fermentation. For this purpose there is nothing better than a teaspoonful of ordinary bisurated magnesia in a little water immediately after eating or whenever pain is felt. This immediately neutralizes the acid, stops the fermentation and permits the stomach to proceed with its work under normal conditions. Owing to the widespread use of bisurated magnesia by physicians and in the hospitals and for greater convenience in carrying, most druggists now supply it in 5 grain tablets, 2 of which are equivalent to a teaspoonful of the ordinary powder form. For sale by Benson, Smith & Co., Hollister Drug Co., and Chambers Drug Co.—Adv.

AQUATIC SPORTS WILL GET BOOST FROM NEW POOL

Final Plans for Whirlwind Campaign to Raise \$3000 Will Be Made Tonight

Water athletics in Honolulu, including water polo, swimming races, and certain aquatic events not heretofore possible, will be given a big impetus when the Y. M. C. A.'s swimming pool becomes a reality.

"The pool will make possible the promotion of water sports as never before in the history of Honolulu," said General Secretary Paul Super today. "It will be 60 by 25 feet, and from 8 to 9 feet deep all around, making it possible for swimmers to dive from any part of the plunge, the depth also creating ideal conditions for water polo and swimming races."

Promptly at 6:30 o'clock this evening in Cooke hall final plans will be made for the swimming pool campaign, which opens tomorrow, in an effort to raise the \$3000 balance needed for the pool. The sum of \$5000 was donated for the pool last Christmas by an anonymous donor.

Sixty men are expected to be present at tonight's dinner. There will be short talks from the team captains and pool committee members. A. E. Larimer, secretary of the men's department of the association, will explain the value of the pool from the standpoint of health and athletics.

General Secretary Paul Super will make a short talk telling of methods to be followed in the campaign. George C. Potter, chairman of the swimming pool committee, will preside. Lists of names will be distributed to the various teams. Daily reports will be made at noon luncheons in Cooke hall, starting tomorrow.

The committee's suggestions are that 20 subscriptions of \$25 each; 100 of \$10 each, and 250 of \$5 each, be secured, after which miscellaneous contributions, of sums ranging from a dollar up, will be asked. "We don't want Honoluluans to feel that they must give big sums," he said. "The pool will be everybody's pool, and we welcome individual contributions of a dollar each just as much as the bigger ones." Only association members may contribute.

The nine team captains selected to date are Jack Milton, W. F. Gaynor, W. R. Coombs, Gilbert Brown, J. S. Nott, J. E. Santos, A. T. Young, John Haglund and R. E. Lambert. The tenth will be named tonight, not having been chosen as yet.

PHONE COMPANY IS ADVISED TO TRY PUBLICITY

At the close of the investigation by the public utilities commission last night, in regard to the alleged high telephone rates which are to go into effect soon in Hawaii, Chairman Charles R. Forbes of the commission suggested to the company that it should place before the complaining citizens the same facts that had been given to the members of the commission.

So plainly had the situation been stated to Mr. Forbes and the members of his commission that he evidently felt the citizens had no cause for complaint, and his suggestion, though not a formal order, is practically the same as mandatory.

The explanation was given by Frederick G. Hummel, general manager, and John A. Balch, treasurer of the Mutual Telephone Company, which recently took over the system of the Hawaii Telephone Company and rebuilt it. They showed that old and worn-out plant which had been giving poor service had been replaced by a new and up-to-date one, at an expenditure of \$50,000.

Subscribers at the present time are paying on a flat rate basis, with various prices according to the distance of the phone from the central office. Under the new system, every long distance call will have to be paid for, though the high flat rates for distant subscribers will be much decreased. All of this, according to the testimony, will tend to balance the cost in a fair manner.

IMAGINARY "CLEAN-UP PLAN" IS TIPPED OFF

It is true that this office has received complaints regarding the presence of certain undesirable at Iwilei, commented J. Wesley Thompson, assistant district attorney, today, "and we have those complaints on file. But whoever started the rumor that this office was going to make a general 'clean-up' evidently did not know what he was talking—or writing—about."

Mr. Thompson would have but little more to say on the matter. He intimated rather strongly, however, that if his office had been planning a "clean-up," the plan was "tipped off" in good shape this morning.

"At the present time I have too much work on hand to do any work outside the office," he added. "However, this office may make an investigation of conditions at Iwilei, as they have been reported to us, some time in the future."

"Do you promise to love, honor and cherish this woman?" "Yes," said the politician, "whatever the platform is I subscribe to it."—Louisville Courier-Journal.

FORMER MATRON OF MATERNITY HOME IS DEAD

Mrs. Caroline Clark Passes Away at End of Useful Life

Mrs. Caroline Clark's life of usefulness was ended this morning at the home of her daughter, Mrs. George J. O'Neil, in Punahoa, when death took her away from the scene of an active, helpful career.

Mrs. Clark had been confined to her home the past four months. The funeral will take place tomorrow afternoon at 2 o'clock from St. Andrew's cathedral, where services will be held by Bishop H. B. Restarick. Friends and acquaintances are requested to attend. (Flowers at the church.)

The deceased was the widow of the late Rev. Abel Clark, connected with the Anglican church in Hawaii but stationed at Waianae, on this island, where he died more than 25 years ago. At one time Mrs. Clark was matron of the Kapiolani Maternity home, leaving that institution to take up church work, visiting the sick and performing other duties detailed by the bishop of the diocese. She was beloved by many of those whose work brought her in contact with members and friends of the church. Three daughters survive the deceased, namely, Mrs. Geo. J. O'Neil and Mrs. A. H. Hanns, both of Honolulu, and Mrs. A. W. Adams of Chicago, Ill., who came to see her mother and left for the mainland about two months ago. Henry Smith of the circuit court is a brother of the deceased.

TOURISTS MEET QUEEN; CALL ON THE GOVERNOR

Delighted with their gracious reception by Queen Liliuokalani and a cordial greeting from Governor Pinkham, a party of tourists here wish to express their appreciation of Hawaii's hospitality.

The party that called on the queen yesterday included Judge R. H. Looney, Dr. J. P. Looney, Miss Marguerite Looney, Mr. and Mrs. Spayde, Miss Vesey, Mr. Mecke, Miss Hillard, Miss Tutill, Mr. McDaniels, Mr. and Mrs. J. W. French and Mrs. Thomas Mills. Today most of this party called on the governor and in addition the governor's callers included Miss Flusk and Mr. Curry.

"We are all delighted with Hawaii's hospitality," said Dr. Looney today. "The queen was graciousness itself and it was a rare privilege to be able to meet her."

'ALOHA GUIDE' HIGHLY PRAISED

The following reference to the Aloha Guide appears in the New York Times book review section of July 18, 1915. This handbook of the Hawaiian Islands, it will be remembered, came off the Star-Bulletin press less than six months ago:

The Aloha Guide. A handbook of Honolulu and the Hawaiian Islands, published by Ferdinand Schnack, a Honolulu lawyer, is published in a volume entitled "The Aloha Guide." It contains an admirable description of the islands, a concise historical survey, and a variety of information of value to tourists and residents. The handbook is published by the author with the endorsement of the Chamber of Commerce of Honolulu and the Hawaii Promotion Committee. (75 cents.)

FINANCING THE WAR.

How will some of the belligerents pay for the enormous war supplies bought in the United States? This is the problem of the future in American financial circles. Orders thus far received already aggregate over one billion of dollars, and hundreds of millions more are practically sure to follow; for peace is not yet in sight, and the war has by no means reached its greatest intensity. Prognostications are futile; yet it is more than probable that the problem of financing the war has not reached the real crisis or test, and an increasing waste of life and property must be expected as the struggle grows in bitterness and destructiveness.—Henry Clews, banker.

Between 15,000,000 and 20,000,000 feet of logs drifted down into the Miramichi river and out into the Gulf of St. Lawrence as the result of the breaking of a big boom in the river. Jacob Proffer, editor of the Jewish World of Philadelphia, completed the sixteenth day of his program of "nothing to eat for breakfast and half that for luncheon and dinner."

NAVY WILL SHOW VETERANS SHIPS OF PRESENT DAY

Old and New Craft to Be Assembled at Washington for G. A. R. Convention

(Special Star-Bulletin Correspondence) WASHINGTON, D. C.—Submarines and swift running torpedo boat destroyers will be brought to Washington by the Navy Department to add a special feature to the series of events which are to take place at the national capital in connection with the forthcoming encampment of the Grand Army of the Republic. Secretary Daniels is desirous that the old veterans shall be afforded an opportunity to see some of the implements of modern warfare in order to show by contrast with those which were in use a half century ago the progress which has been made since the days when the Grand Army men and their brethren in the navy bore arms.

The fact is appreciated that because of its successful operation in European waters at the present time the submarine is the most talked of weapon of present day warfare, yet few of the veterans of the Civil War have ever seen one.

The suggestion was at first made that the department should bring to Washington the old Holland, which was the first underwater craft of our navy and from which the successful boats of today have been developed, and place beside it one of the recently constructed submarines. The fact that this vessel has been sold to a private concern will preclude that possibility, and accordingly it has been planned to bring here one of the earlier types and also one of the modern submarines in construction. An effort is also being made to have one or more hydroplanes brought here for exhibition purposes.

It is also the intention of the department to bring here the old Hartford, now at Charleston, S. C., restored to the appearance she bore in the days of the Civil War when she was the flagship of Admiral Farragut.

The Navy and the Marine Corps will also be represented by their enlisted personnel and probably some of the vessels of the Atlantic fleet. It will be possible for the bluejackets and marines to be brought to Washington, as they have on similar occasions, by special steamer to remain during the day of the parade and form an impressive part of the escort of the veterans.

In any event, the Navy Department is planning to have an interesting and impressive naval spectacle which shall include such vessels as may be brought to Washington to represent the advances made in the mechanism of naval warfare, and such ships as the Hartford that may have a historical significance, and, as well, a contribution of naval personnel to the parade which is bound to arouse enthusiasm.

Judge Swann of the New York General Sessions Court has offered his services without compensation in the investigation Governor Whitman has inaugurated of the state prisons.

Under the eugenic marriage law, weddings in Wisconsin decreased from 21,052 in 1913 to 17,245 in 1914, according to Dr. C. A. Harper, secretary of the state board of health.
