SUPERVISORS ON MAUI TACKLING MANY BIG JOBS

(Special Star-Bulletin Correspondence)

WAILUKU, August 6.—Maui county fathers are hard at work. Extra sessions are the order of the day, and work is actually being turned out at a lively rate judging from the mass of facts and figures that the board is investigating. It is no joke setting things into perfect running order and no one on the board is shirking any responsibility in the matter.

For one thing, the Wailuku-Kahului water works is being investigated most carefully and the books being gone over for several years past. Chairman Kalama, Fleming and Pali are the special committee, and an exhaustive report has been demanded of the department covering the entire work. No half-way business will be accepted this time and the demand has been made that everything be brought strictly up to date.

At the special meetings held Saturday and again on Wednesday, the appropriations were gone into most systematically. New buildings in the shape of school cottages, school houses or additional rooms for Hanalei, Punnene and Wailuku were discussed and although bids had been opened, yet all were rejected because of a mistake in calling for the same, and new bids will be asked for under date of August 12 at noon.

High Sheriff Wm. Jarrett of Honolulu requested that Maui county assist the territorial government in the transportation and maintenance of the prisoners now at work on Maui. The board thought the matter could easily be arranged.

WANTS TO FLUME SOIL DOWN ON TO LAVA AT PUNA

(Special Star-Bulletin Correspondence)

HILO, Aug. 6.—"Why wait 500 years until the lava, a-a and pahoehoe disintegrates and this rocky wilderness is turned into good volcanic soil? We can't wait that long, can we?" Thus queried a visitor to the Puna district the other day as he was being conveyed over the road that runs from Pahoa to Pohokai on the coast.

"What we should do is to flume soil from the mountains and dump it all over the tract to be reclaimed from this convulsion of nature. I think that if soil were flumed constantly for a long time, gradually enough would be deposited on the surface and in the many holes to form a valuable track of land. Why, fifteen years ago, the place that you now see covered with vegetation, was nothing but a bare expanse of sun-baked rock."

The suggestion was a startling one, but, when it is remembered that schemes to pipe water from Maui to Molokai have been evolved in the brains of enterprising men, and that schemes to distill ocean water in huge quantities and use it for irrigating the arid lands of Lanai and Molokai have also been proposed, the Puna proposition seems more feasible than any of the others.

There are thousands of acres of land in the Puna district that might become wonderfully productive if soil could only be placed there. That it will, hundreds of years from now, be a wonderland of agriculture, is certain unless another flow of lava wipes out everything once more.

HILO FRIENDS GIVE LINDSAY A FAREWELL

(Special Star-Bulletin Correspondence)

HILO, Aug. 5.—"Aloha nui and agala aloha" was the theme of the speeches made at the farewell dinner which was tendered Adam Lindsay of T. H. Davies & Co. on Wednesday evening last at the Hilo Hotel. One hundred and forty ladies and gentlemen, all of whom were intimate friends and admirers of the guest of honor, sat down to a banquet that was one of the best ever served in Hilo. The affair was a huge success from start to finish, and upon every side could be heard expressions of regret at the departure of Mr. Lindsay and his wife from Hawaii.

C. C. Kennedy acted as toastmaster and he carried out the duties in fine fashion. He called upon several speakers to address the gathering and each and every one of the speakers showed by their speeches that Adam Lindsay has endeared himself to everyone in Hilo.

LIBRARY ON MAUI HAS RECORD MEMBERSHIP

(Special Star-Bulletin Correspondence)

WAILUKU, August 6.—At the Maui Library Association rooms last evening the annual meeting of the organization took place. Vice-President D. H. Case called the meeting to order. Reports of various kinds were read showing the work of the year just past. The membership list showed a larger membership than in the previous history of the organization. F. F. Baldwin, D. H. Case, D. C. Lindsay, H. B. Cahill and L. B. Kaunahelo were elected trustees for a term of three years, and W. F. Pogue was elected to fill the vacancy caused by the removal from Maui of Selden B. Kingsbury.

An adjourned meeting of the trustees for election of officers and the consideration of other important business will be held on Monday at the library rooms at 1:30 o'clock.

THEATRICAL OFFERINGS NEW OPRETTA BY TALKING-MOVIES

Thomas A. Edison's latest boon to the devotee of the photo-play, the kinetophone, is proving a popular innovation at the Bijou theater, a big improvement having been shown in the operation of this wonderful invention since the opening night.

With a lighter screen and a closer adjustment of the instrument, the spoken lines of the film actors are distinctly heard over the entire theater. In taking "silent" out of the "silent drama" Edison has accomplished something that has been the dream of the manufacturing department of

the film business for the past decade. An entire change of program is announced at the Bijou for tonight, with a menu that should satisfy everyone. "Olivette," a two-reel operetta, will be the headliner of the talking movies. "The Deaf Mute," a two-part drama, is an exceptionally strong film, while "The Minstrel Olio" and "A Six Cylinder Elopement" are side-splitting comedies.

In addition there will be shown for the first half of the week a number of actual "silent drama" offerings of the usual high order that has been set by the Bijou management.

'RULE G' IS TEMPERANCE LESSON

"The greatest railroad picture ever produced" is the claim made by the Paramount people for "Rule G," now showing at the Liberty theater. Thrilling scenes follow one another in rapid succession in this offering, and the beauty of the work lies largely in the fact that the actors are not really actors at all, but are actual experienced railroadmen. Veteran engineers, conductors and draftsmen handle parts in this film that are on a par with their actual everyday work, and as a consequence the action is letter perfect.

"Rule G" is a rule adopted by the

American Railway Association prohibiting the use of liquor by any of its employees under penalty of dismissal, and the screen version brings out the experience of one railroad superintendent in his endeavor to make this rule operative along his section of the line.

The combination of railroad and booze, according to the picture, are conducive to disorganization, accidents, strikes, riots and everything that goes to make travel unsafe and undesirable. With the booze eliminated the reverse is the rule.

"The Exploits of Elaine," another thrilling episode, is also on the Liberty program for the next three days.

MOVIES SHOW MOLOKAI AT CELEBRATION OF FOURTH

Moving pictures taken by Robert K. Bonine at the 4th of July celebration of the lepers on Molokai were shown by the photographer to a small group of spectators last night.

The film is remarkably clear, and portrays the varied life at Kalaupapa, along with little views of the missionaries and doctors who make life bearable for the inhabitants of the settlement. One of the films will be sent to the island, and one will be exhibited by Mr. Bonine at the opera house later in the year.

MARRIED.

SOUSA-SOUSA—At Homesteads, Kauai, August 7, 1915, Louis Sousa of Elele, and Miss Ida Souza of Homesteads, Kauai.
