LONG WRANGLE ABOUT COST OF TWO NEW AUTOS

Larsen Thinks a \$550 'Tin Lizzie' Would Do as Well as a More Expensive Overland

"Gentlemen," said Supervisor Logan in the assembly room of the board of supervisors last night. The chattering ceased. "The mayor called me up and said he couldn't attend the meeting tonight, so I guess we can't have any fight over the new rules of procedure."

The gallery looked disappointed and several got up from their chairs and left the room.

"We'll have to argue over something," said Supervisor Larsen, with a grin. "Yep, that's right," agreed Hollinger. "Partly so that the fighting members of the board could be left in their chairs ready to engage in a verbal battle, the supervisors selected Logan to act as chairman in the absence of the mayor. As soon as Chairman Logan had called the meeting to order the arguing commenced."

The police committee, through its chairman, Supervisor Horner, recommended that the police department be given two Overland late model automobiles and that the city purchase same from the Schuman Carriage Company for \$1900. The company offered to accept the Oldsmobile and the Ford now used by the department in lieu of \$400 on account. One of the new cars is to be for the sheriff and the other for the deputy sheriff.

Arnold opposed the purchase vigorously. He said that the present cars are good ones and that if a couple of hundred dollars were spent in overhauling them they would be as good as new and would do the police department for several years. And anyway, he said, there was no sense in giving the sheriff and the deputy sheriff an automobile each and besides he thought \$400 was a mighty small amount of money to be allowed by the Schuman company on the two automobiles.

Horner got up and declared his faith in the police department and urged the purchase of both machines.

"Sometimes the sheriff is out of town in one car and a call comes that a murder has been committed somewhere about town," he said, "and then the deputy sheriff has to get there quick."

"Is that so," sarcastically cut in Arnold. "I'll ask you, Mr. Horner, if it isn't so that the captain of detectives is the man who goes to these scenes of murders and suicides, that Mr. Asch doesn't go anyway until it is in the hands of the coroner and his jury?"

Horner said he did not know. "Then the police committee ought to go into some of these things a little more thoroughly," Arnold said. "The deputy sheriff needs a machine to serve papers with," Horner then announced.

"Now see here," Supervisor Larsen interjected. "I don't see why a \$550 'Tin Lizzie' wouldn't do just as well to serve papers with. I don't see the sense of buying the deputy sheriff a more costly automobile just to use for serving papers. However, I won't back the proposition if the rest of you want it."

The proposition went to a vote after Hollinger had urged that the Locomobile now used by the department be retained and converted into a morgue automobile. Over Arnold's negative the proposition was adopted.

The sanitation committee, through Chairman Ahia, recommended that a Denby truck at \$2350 be purchased for the garbage department. The lowest bid was by the Royal Hawaiian Garage for a Reo truck at \$1650, just \$700 less money than that which will be paid for the Denby truck. Supervisor Larsen reminded the board that there are no Denby trucks in the islands and that broken parts will have to be secured from the mainland.

A large order for war munitions was received by the Bartlett-Hayward Co. of Baltimore, from the British government.

General Muller, one of the leaders of the Boer revolt, was sentenced to two years' imprisonment for treason at Pretoria, South Africa.

CITY CONSIDERS MAKING NEW BID ON PLAYGROUNDS

Overtures towards the purchase by the city of playgrounds now owned by the Bernice Bishop estate were made at last night's meeting of the board of supervisors. The estate had asked \$98,610 for three playgrounds, and at last night's session the parks committee of the board recommended that \$75,000 be offered and that the purchase at that figure be made.

Supervisor Arnold, a member of the committee, did not concur in the report so far as the Beretania street playground is concerned.

"I favor purchasing the other playgrounds," he said, "but the Beretania street grounds are valuable and the estate could not afford to sell them at less than the price asked by the city, a little more than \$50,000. My reasons for not wanting to include these playgrounds in the purchase are, first, that they are two blocks only from Aala park; and second, that I would rather see a few thousand dollars spent in purchasing the adjoining property to Aala park and have the playgrounds put there where there is lots of fresh air. The Beretania street playgrounds are surrounded by tenements and therefore would not be as healthful for children as Aala park."

The park committee recommended that the purchase be accomplished as follows: Ten per cent down, 10 per cent in 1916, and 10 per cent in the first half of 1917. The remainder, or 70 per cent would be provided by the next board of supervisors. The proposition was postponed until a later meeting.

Supervisor Shingle introduced a resolution to appropriate \$5900 for the parking of Kalakana avenue from Kalia road to Makee island and also a resolution to appropriate \$4200 to build sidewalks and curbing in front of the city's property in the fire limits.

DOG SAVES GIRL, IS KILLED BY SNAKE

The life of little Agnes Miller, the six-year-old daughter of Mr. and Mrs. John Miller of Fairfield avenue, West Caldwell, N. J., was saved by her faithful Collie, Don, when he attacked and killed a snake which was about to strike her. The dog, which was a fine specimen of his breed, was bitten twice by the snake and died two hours afterward.

The little girl with her elder sister, Miss Clara Miller, and the dog were playing on the lawn of the Miller home. She had "tagged" her sister and was running toward some stones which ornamented the lawn. As she reached them she was horrified to see a large copperhead snake at her feet. Too frightened to move, the child screamed.

The dog sprang to her side and seeing the snake attacked it. A battle between them followed. The dog was buried with honor.

Mlle. Anna Pavlova and her ballet will dance in this country the coming season in conjunction with a grand opera company which is being organized to accompany her. She will have a limited engagement at some New York theater and will tour the country.

KANAMORI WILL DELIVER MANY SERMONS HERE

Noted Speaker and Salvation Army Worker From Japan Makes Short Trip to Hawaii

To arrange a schedule for Rev. M. Kanamori, the Japanese Salvation Army worker who arrived in Honolulu a few days ago, and who is to hold a series of revival services among his countrymen, a meeting of the Japanese Ministers' Association was called this morning in the building of the Japanese Y. M. C. A.

Mr. Kanamori, who left today to deliver several addresses in Hilo and vicinity, will return to Honolulu next Tuesday morning, and will be a speaker at the Pan-Pacific Club luncheon on that day at the Y. M. C. A. gymnasium, following in the evening with an address to Japanese at the Makiki church. On Wednesday afternoon at 3 o'clock a women's meeting will be held at which time the ministers request that all white families who have Japanese servant women in their homes urge them to attend. Mr. Kanamori will speak at South King street church.

On Wednesday night of next week he will deliver a sermon at Makiki church again and on the following evening at River street Methodist church.

A children's meeting will be held on Friday morning, the time and place to be announced later. The meeting that night will be in the Nuuanu church. On Saturday afternoon at 3 o'clock a reception to Mr. Kanamori will be given in the Japanese Christian Association. In the evening he will hold open air services with the Salvation Army on Hotel street.

On Sunday morning at 10 o'clock he will speak to the inmates of the Oahu prison and at 11 o'clock will deliver a sermon at Central Union church. The following day Ewa plantation will be visited by him.

Mr. Kanamori, who is considered one of the most eloquent speakers in the Japanese language, is a preacher of 36 years' experience. He is a graduate of Doshisha University, the school founded by the famous Dr. Nishihama and in which Dr. Sidney Gulick is an instructor.

MOSQUITOES CAN NOT REAR BROODS IN WAIKIKI NOW

After a brisk campaign, the board of health has announced that the district in Waikiki extending from the duck ponds south of the city to Diamond Head has been wiped clean of stagnant water, old tin cans and other things which might invite mosquito breeding.

Inspector Harry Klemme of the mosquito bureau, who conducted the campaign, says that the unusually large swarms of mosquitoes which were reported in the Waikiki district about a week ago, were largely due to the fact that householders had neglected to seek out and destroy the breeding places. Vents to cesspools had been left open and empty tin cans had been allowed to lie around, thus affording excellent places for the pests to multiply. The board of health inspectors screened a large number of cesspools, picked up all the old tin cans, drained swamps and used quantities of oil during the campaign.

The board now is conducting a campaign against mosquitoes in Kaimuki.

TO PUT ON FLESH AND INCREASE WEIGHT

A Physician's Advice.

Most thin people eat from four to six pounds of good solid fat-making food every day and still do not increase in weight one ounce, while on the other hand many of the plump chunky folks eat very lightly and keep gaining all the time. It's all bosh to say that this is the nature of the individual. It isn't Nature's way at all. Thin folks stay thin because their powers of assimilation are defective. They absorb just enough of the food they eat to maintain life and a semblance of health and strength. Stuffing won't help them. A dozen meals a day won't make them gain a single "stay there" pound. All the fat-producing elements of their food just stay in the intestines until they pass from the body as waste. What such people need is something that will prepare these fatty food elements so that their blood can absorb them and deposit them all about the body—something, too, that will multiply their blood corpuscles and increase their blood's carrying power.

For such a condition I always recommend eating a Sargol tablet with every meal. Sargol is not, as some believe, a patented drug, but is a scientific combination of six of the most effective and powerful flesh building elements known to chemistry. It is absolutely harmless, yet wonderfully effective and a single tablet eaten with each meal often has the effect of increasing the weight of a thin man or woman from three to five pounds a week.

CANNERIES LEAD IN PERCENTAGE OF ACCIDENTS

Have Reported More Than One-third of Those Occurring Since First of July

Of the 150 accidents to employes which have occurred in Honolulu and vicinity since July 1, when the Workmen's Compensation Law went into effect, 52, or a little more than 33 per cent, have been reported by canneries and preserving companies, according to the industrial accident board.

Next to the canneries come the sugar plantations, which have reported 40 accidents. Those plantations reporting the largest number of accidents were:

Ewa, 12; Kahuku, 7; Oahu Sugar Company, 14, and Waialua Agricultural Company, 6.

Canneries and preserving companies reporting the largest number of accidents were:

Hawaiian Preserving Company, 11; Hawaiian Pineapple Company, 18; Libby, McNeill and Libby, 17, and Thomas Pineapple Company, 2.

The Honolulu Iron Works has reported only four accidents since July 1. Ten accidents have been reported by the Hawaiian Dredging Company. The Honolulu Rapid Transit and Land Company has had two accidents and the Inter-Island Steam Navigation Company three. The city and county reports that it has had only one accident to employes since the law went into effect.

The industrial accident board estimates that accidents to employes are occurring at the rate of from two to three a day.
