SEARCHERS IN HULL OF F-4 FIND BODIES; ONE SOON IDENTIFIED

REMAINS IN SUBMARINE LOCATED

Solemn Quest for Men Entombed in Diver Bears Fruit in Identification of George T. Ashcroft Shortly Before Noon

NO CONCLUSIONS AS TO CAUSE OF ACCIDENT

Gaping Hole in Hull and Bent-in Plates, Debris Inside, All Being Examined; Special Board Holds Brief Session to Begin Systematization of Notes

[Associated Press by Federal Wireless]
WASHINGTON, D. C., Aug. 31.—The navy department has instructed the special naval board examining the F-4 to exhaust all possible clues to determine the cause of disaster. Navy officials do not fear whatever revelations may be made.

The sea gave up the dead of the submarine F-4 today. Hoping against hope that their dead comrades might be crowned with success, navy officers and enlisted men entered the wrecked and torn hull on the inter-island drydock this morning and began their search for what might remain mortal of the 31 who went down to death last March 25.

Their search is being rewarded. At noon the remains of one crew member, George T. Ashcroft, gunner's mate, first class, who was from Los Angeles, were identified beyond reasonable doubt.

Other evidence of bodies are being found but not sufficiently to establish identification. And yet there is hope that before the task is finished, more of the brave men of the F-4 will be identified.

Following the investigations that were made this morning in the recovery of Ashcroft's body from the F-4, a meeting of the naval board of inquiry is now in progress at the local naval station.

Members of the board are Rear-Admiral C. J. Boush, lieutenant-commander, J. A. Furer, lieutenant, K. B. Crittenden, and lieutenant, Harry R. Boush, recorder. This is the first formal meeting held by the board since the boat was placed on the dock. The results of their meeting this afternoon will be cabled at once to the navy department at Washington.

All that made possible the identification of the skull of Gunner's Mate Ashcroft was a gold plate and bridge work found in a little pile of sand a few inches from a portion of Ashcroft's skull hardly larger than an orange. This was the only body identified up to this afternoon.

Dental records of all the submarine's crew made it a matter of only a few minutes to identify the plate and fit it to the jawbone. Dr. H. C. Clark, chief surgeon of the U. S. cruiser Maryland, by comparing the gold plate with the description of it in the dental record, proved without question that it came from Ashcroft's skull.

The piece of skull and upper jawbone lying close to the gold dental plate were hardly larger than an orange or a small saucer. No skeleton was near the plate, only pieces of bones, with here and there fragments of flesh. The skull identified by means of the dental work as Ashcroft's was not intact, but consisted only of the upper forward portion. The rest was missing.

This important and single piece of identification was made shortly before 11 o'clock today. The plate and portion of skull were found half-buried in a little pile of sand on the floor at the forward end of the submarine's middle compartment, where the great gash was torn in the F-4's side when the cables cut through as an attempt was being made last May to tow her to shore.

The morning's work brought no other reward, so far as identifying the little left of the bodies, than the finding of Ashcroft's skull. There were no shreds of uniform near the remains, according to Lieut. K. B. Crittenden, commander of the submarine flotilla. "We found nothing else this morning to enable us to identify any others of the crew," he said. "There were just a few bones here and there, no articulated skeletons."

Shortly before noon, the bulkheads leading to the engine room were opened, but such a rush of tainted air met the officers and workmen that the

Gaping Hole In Side of Submarine Shown as Battered Vessel Lies on Drydock

This remarkable photograph of the F-4 in drydock was taken early this morning by a staff Bulletin photographer. It shows the F-4 between the pontoons, lying on her starboard side with the gaping hole well forward. The vessel is shown in the position in which she was towed in from outside the harbor over to Quarantine wharf and thence to the drydock last evening. She is almost upside down. It is through this hole that the naval experts entered last night and today to make their examination of the hull, and also through this hole that the men went in their task of clearing away debris in the search for the bodies of those who perished last March. The hole in the F-4's side was made, say those who have followed the salvaging from the start by the cables when the attempt was made several months ago to drag the submarine into the harbor, the strain being enormous, crushing and tearing the steel skin.

F-4 LIFTED FROM SEA INTO DRYDOCK LAST NIGHT; BOARD MAKES INSPECTION

Submarine Comes to Surface While Curious Crowd Watches Night Work From Every Vantage Point—First Inspection After Sunken Vessel is Raised in Drydock Reveals no Bodies

At 3 o'clock this morning navy men began groping in the battered hulk of the submarine F-4 for what human trace of her 31 men may be found after five months and five days of submersion in the sea.

Lifted out of the harbor waters last night upon the inter-island drydock, after being towed from Quarantine wharf, the submarine came to the surface at 11:45 o'clock for the first time since the morning of March 25, when she sank in a practice dive off Honolulu and failed to come up.

Two hours after she began to rise on the slow-lifting bed of the drydock, the special navy examining board—Admiral Boush, Lieut. comdr. Furer and Lieut. Crittenden, commanding the submarine flotilla—entered through a great gaping hole well up forward the torn shell which confined Lieut. Ede and his crew. It was then long after midnight but a large crowd, sympathetic, morbid, curious, loitering, still waited upon the wharf and vantage points surrounding the dock. The crowd remained until somewhat more than half an hour later the brief preliminary examination was concluded. Almost instantly the news ran through the throng that no trace of the men had been found in the hull. And immediately the people hurried away. Work was discontinued for the night, to be taken up again at 8 this morning.

Last evening saw the final stage of the F-4's raising, a feat that has called for the utmost of courage and endurance, for engineering skill, for inventiveness and most of all for rare persistence and optimism on the part of the navy men. When just before midnight the receding waters revealed the gaunt, twisted steel hull of the five months of salvage work was reached—and reached successfully. The F-4 was raised and in drydock and there remained then the scant hope of finding inside some human remnant to give burial to, and some evidence of the cause of a naval tragedy that stands sadly unique in American naval history.

There was not a hitch in the final stage of the work once it was started. Yesterday afternoon, as told by the Star-Bulletin at that time, it was believed the drydock would be clear by 5 o'clock of the three barges which were on for repairs and the hope then was that between 5 and 6 the submarine could be towed across the harbor

MAKE A. P. TAYLOR SECRETARY FOR PROMOTION WORK

Given Position Formerly Held By H. P. Wood at Salary of \$250 Per Month

A. P. Taylor was elected secretary of the Hawaii Promotion Committee at a meeting of that body which adjourned at an early hour this afternoon. Mr. Taylor, who has been acting secretary of the committee since the resignation of H. P. Wood was accepted on June 20, will receive a salary of \$250 per month. Mr. Taylor was for fourteen months in San Francisco in charge of the Pacific coast bureau of the Promotion Committee, and returned here in January to fill the vacancy made by Mr. Wood's absence. He was previously connected with the Advertiser editorial department for thirteen years and was chief of detectives of Honolulu in 1907 and 1908. Mr. Taylor has been in Honolulu since 1898 when he arrived from Washington, D. C., where he had been secretary of the Hawaiian annexation committee. Numbers of letters were read at today's meeting which have been re-

CALIFORNIA POWDER TRAIN EXPLODES AND TWO MEN ARE KILLED

[Associated Press by Federal Wireless]
PINOLE, California, August 31.—By the derailing of a train at the powder plant of the Hercules company, a few miles from here, a load of 7000 pounds of dynamite exploded. The engineer and fireman of the train were killed and a laborer hurt.

Nine buildings were razed by the force of the explosion and many windows broken. The shock was felt for miles.

The Hercules company is said to be controlled by the Dupont company, the eastern arms and ammunition firm.

DEATH CLAIMS MRS. LYDIA COAN AT AGE OF EIGHTY

Was Born in Islands in 1834, and Was First Principal of Kawaiahao Seminary

Word was received this afternoon just as the first edition of the Star-Bulletin was going to press of the death of Mrs. Lydia Bingham Coan, widow of the celebrated missionary Rev. Titus Coan. Death resulted from the after effects of an attack of pneumonia.

Mrs. Coan was 81 years of age, and was the first principal of Kawaiahao Seminary. She celebrated her eightieth birthday anniversary last Christmas. She was born in Honolulu on December 25, 1834, and was the youngest child of Rev. and Mrs. Hiram Bingham, who came to the islands for the first time in 1820.

She received her education in the United States and, after teaching in the East for some years, returned to Hawaii in 1867, to become principal of the Kawaiahao female seminary. She held this position for six years.

On October 13, 1872, she married Rev. Titus Coan, who died in Hilo in December, 1882. Since 1883, Mrs. Coan has lived continuously in Honolulu.

The news of Mrs. Coan's death will come as a severe shock to Honolulu, especially to kamaainas. In spite of her advanced age she took an active part in mission and church work, and was known and loved for her kindness and generosity.

The funeral services will be held tomorrow afternoon at 4 o'clock at Kawaiahao church, Rev. O. H. Gulick and Dr. Doremus Scudder officiating.

WYOMING MOURNS PERSHING DEATHS

All Over State Business is Suspended While Funeral Takes Place at Warren Home

[Associated Press by Federal Wireless]
CHEYENNE, Wyoming, August 31.—All over Wyoming today business in the cities and towns was suspended and activities ceased while the funeral of Mrs. J. J. Pershing, wife of Brig-Gen. Pershing, and their three children took place. Mrs. Pershing, the daughter of Senator Warren of Wyoming, and her children were suffocated to death in a fire at the Presidio, San Francisco, last week. A cortege wound from the train, which brought the bodies, to the Warren home. The bodies were viewed by hundreds of friends. They will be buried in one grave at Lakeview.

JAMAICA STORM DAMAGE LARGE

[Associated Press by Federal Wireless]
KINGSTON, Jamaica, August 31.—Official news of the hurricane at Cayman Brac, the British-owned island near here, says: "Two hundred houses and 98 per cent of the coconuts are gone. The postoffice, customs house and court-house have been torn from their foundations. At least 1500 are destitute. The steamer Cunaco has been lost and two persons are known to be dead."

SENATOR TILLMAN GOES DOWN IN SUBMARINES

[Associated Press by Federal Wireless]
BROOKLYN, N. Y., August 31.—Senator Ben Tillman of South Carolina today inspected the submarines U-2 and the Edison batteries of the K-6, descending in both.

CLARK EXPECTS TO RESIGN.

Road Overseer Charles Clark expects to present to the board of supervisors this evening his resignation from his present city position. Clark said this afternoon that City Engineer Whitehouse asked him for his resignation last Saturday. Charges have been made that Clark wrecked a city auto while on a "joy ride" a week ago Sunday.

An order for 5,325 passenger and freight cars, to cost about \$2,800,000, was received by the Pittsburg Trade Commission from France.

GERMAN ADVANCE ON GRODNO STEADY; ALLIES LOSE BATTLE AT GALLIPOLI

Turks Said to Have Won at Seddul Bahr—Other News From the War Zones—Allied Submarine Shatters Constantinople Bridge—Strike of Wales Coal Miners Has Been Settled

[Associated Press Service by Federal Wireless]
LONDON, England, August 31.—The German advance upon Grodno, the stronghold which defends the road to Petrograd, is steady and there are fears that the fortress cannot hold out. The Germans are approaching from the east and southwest. At the Stripa river the Russians have stopped the enemy's progress.

Wales Coal Miners Claim Victory

LONDON, England, August 31.—The strike of Wales coal-miners has been settled. The terms of the settlement are not made public. The miners say their demands have been granted.

Turks Said To Have Won Battle

LONDON, England, August 31.—According to reports here the Turks have defeated the Allied forces at Seddul Bahr, Gallipoli peninsula.

LONDON, England, August 31.—A submarine of the Allies has shattered the bridge from Constantinople to Galata.

ALASKA FREIGHTER SINKS IN SPITE OF EFFORTS TO TOW HER TO THE BEACH

[Associated Press by Federal Wireless]
SEATTLE, Wash., August 31.—The Alaska Steamship Company's freight steamer Edith is sinking, the loss being \$250,000. The crew abandoned the vessel yesterday. The steamers Hinchinbrook and Mariposa took the vessel in tow but later dropped their lines, finding the vessel continuing to sink.

WARSHIPS PASSING CANAL

[Associated Press by Federal Wireless]
PANAMA, Canal Zone, Aug. 31.—The battleships, Missouri, Ohio and Wisconsin passed here today en-route to Annapolis from their Pacific cruise.
