SECRETARY DANIELS PLANS BIG INCREASE IN DREADNOUGHTS AND BATTLECRUISERS FOR U. S. NAVY

Estimates Will Call for Construction of a Hundred Submarines

MANY SCOUT CRUISERS AND DESTROYERS ARE PLANNED

Pacific Defenses Receive Special Attention in National Defense Program

Associated Press by Federal Wireles. WASHINGTON, D. C., Oct. 13.—Secretary of the Navy Daniels yesterday announced a five-year building program which provides not only for a vast increase in the number of warships, but a big increase in the personnel and extremely large additions for Pacific waters. Construction in the first year would exceed that of succeeding years under the secretary's plan.

The secretary says he will recommend to Congress appropriations for from fifteen to twenty new dreadnaughts and battlecruisers in proportion to the number of sea-going and coast submarines of which it is his

desire to have constructed nearly one hundred. Besides these classes the secretary will recommend appropriations for scout cruisers, torpedo boat destroyers and auxiliary ships. Seventy destroyers are included in the plan and several scout cruisers. Much significance is attached to the secretary's announcement. His intention to build up the Pacific defenses and to do most of the five-year construction work in the first year are declared to be the answer of the administration to the campaign for better national defense. Recently a navy officer was quoted as saying that the navy lacked a third of the number of men required to man properly every ship in the navy.

VILLA'S STAR IS WANING; DRIVEN FROM TOLUCA CITY

Associated Press by Federal Wireles

MEXICO CITY, Mexico, Oct. 13.—Gen. Carranza yesterday added another success to his long list of victories in the last few months. His troops captured Toluca, capital of the state of Mexico, which is the granary for Mexico City. This will end the peril of hunger in the capital, it is thought, as additional provisions, if needed, may be brought from there instead of being imported from Vera Cruz.

Commander Thomas J. Senn of the United States cruiser Chastanooga has asked that the commander of the submarine operating off Guaymas give the inhabitants information of his intention to begin a bombardment in time for them to reach places of safety, but request has been refused. The Mexican commander in reply sent a curt "it is not necessary."

MCCARN EXPECTED TO QUIT OFFICE; VAUGHAN ON SPOT

Washington Reports of New Assistant, Commending His Character and Ability, Predict Success for Him Here

RETIREMENT OF MCCARN NOT URGED BY OFFICIALS

Rumored in Capital He is Disappointed in Not Being Selected for Bench, Also That He Wishes to Run for the Senatorship in Tennessee

By C. S. ALBERT (Special Star-Bulletin Correspondent) WASHINGTON, D. C., Oct. 13.—Jeff McCarn is expected to soon relinquish his position as United States attorney for the district of Hawaii. This is the impression entertained by all his close friends. It was obtained through conversations held with the district attorney during his recent visit to this city. The appointment of former Representative Horace W. Vaughan of Texas as assistant United States attorney, to be in readiness for taking complete possession of the office when Mr. McCarn returns home, is construed as another straw of unusual potentiality. Mr. Vaughan is a high-grade man and it is predicted in all directions that he will make an official entirely satisfactory to the good people of the territory. The personal friends of Mr. McCarn desire that in discussing the future with him he strongly intimated that his residence in Honolulu would be brief. He demonstrated this by saying that he would leave his family in Tennessee and not take them back with him. He made it plain that his private practice had disappeared to a great degree and his living income had been reduced to that extent. The United States senatorship from Tennessee, in succession to Luke Lea, is the great magnet that is drawing Mr. McCarn back to the mainland. His report at home has led him to believe that he might have a winning chance in the primaries. There will be a number of candidates for the high honor and it is held that Mr. McCarn could muster sufficient strength to drag down the num. It is prophesied that a little later the district attorney will shake off the dust of Hawaii, go to Tennessee, make a whirlwind campaign and arrive for Mr. Lea's place. Reported Disappointment in Bench Situation. Another determining factor of magnitude is given by friends of Mr. McCarn. It is whispered among them that he is intensely peeved because he was not given a position on the supreme bench of Hawaii. They say that having served one year there as United States attorney he was eligible to selection, despite the law requiring the naming of bona fide citizens of the territory. He felt that because of that qualification he should be given the honor. This was knocked into dust by the reappointment of Chief Justice Robertson and the naming of Judge Whitney for the circuit bench. Whichever it is alleged that Mr. McCarn became disgusted, disgruntled and dissatisfied. At the same time it must be fairly stated that Mr. McCarn's recent interview with Attorney-General Gregory was satisfactory in every way. The department of justice people are not urging him to retire. They are perfectly willing that he should retain the office. While Mr. McCarn may be done an injustice by his friends, the appointment of Mr. Vaughan as assistant attorney remains as a significant indication that coming events soon will begin to cast their shadow before.

OKUMA PRAISES U. S. ATTITUDE IN WORLD WAR

Associated Press by Federal Wireles

SAN FRANCISCO, Cal., October 13.—A message from Premier Okuma of Japan was read to the peace meeting here yesterday by Dr. David Starr Jordan in which praise was given the United States "for setting its face toward peace and against war."

The count's message declared racial prejudice the greatest factor making for war. Europe furnishes a great lesson to humanity in its blood and suffering, the count said. The count said the peace movement could not be called new, for in Europe it was begun by Grotius, who advocated the calling in of a third power to settle international disputes.

PLEADS WITH SONS OF VETERANS TO SUPPORT 'PREPAREDNESS' PLAN

Sherman Says "Ship of State Draws Near Breakers" Hearing the "Peace at Any Price" Sirens

(By Latest Mail) WASHINGTON, D. C., Oct. 13.—In a plea for military preparedness which brought from the delegates round after round of applause, Commander-in-Chief Charles F. Sherman today opened the business session of the thirty-fourth annual encampment of the Sons of Veterans.

He made a scathing attack upon the peace-at-any-price people whom he designated as "soothsayers" who are "singing their siren song of peace while the ship of state draws nearer and nearer the breakers." Mr. Sherman declared that the lullaby "I Did Not Raise My Boy to Be a Soldier" is "damnable" and is just as reasonable as "I Didn't Raise My Girl to Be a Mother."

After outlining the needs of the country, the commander-in-chief called upon every man of 500 or Veterans in the United States to pass resolutions for national defense and asked the commanders before it adjourned to make known its attitude on this question. In the course of his address Commander-in-Chief Sherman said: "Unpreparedness of Country."

"No man's patriotism rises higher than his realization of the need that his country has for him. And what shall be said of the unpreparedness of our country? Fifty years ago we lost much time and many valuable lives because the North did not believe war was imminent. But our defenseless condition did not deter the enemy, and we paid dearly for our sins of omission. The price we paid would not have been too dear, however, if we had learned the lesson. But we did not and today we give but a sorry exhibition of what a nation's preparation should consist. The fathers of our country, feeling that a large standing army was a menace, ordained that our army in time of peace should not exceed 25,000. But think of what the United States consisted of at that time. In area 832,133 square miles and a population of less than 4,000,000. Today we have an area of 3,743,306 square miles, with irregular possessions almost equal to original territory, and the population is somewhat in excess of 100,000,000. Few Mobile Troops.

"With such enormous increase in territory and people our standing army has been slightly increased from time to time until now we have a regular army, staff and line, of only 128,018. Within continental United States we have 48,428 regulars. Of these 17,943 must be kept in fortifications. Therefore our mobile troops, including engineers, cavalry, infantry and field artillery consists of 50,475 men. The militia with paper strength of 127,000 has but 60,000 in readiness for service. Regulars of 48,000 and militia of 60,000 gives us an army of 108,000, but on account of manning the forts we could make an army of 90,000. General Leonard Wood recently said that it would take at least 30 days to mobilize our army of 108,000 to say nothing of the militia, and then we would have no reserve.

"To be reasonably well prepared for defense, we should have an available army of half a million men which would be but one-tenth the size of Germany's and one-twentieth the size of Russia and one-half the size of Japan. It is not only men that are lacking; we have neither guns nor ammunition sufficient to assure success for our army, if our nation was threatened with war. If guns are not supplied on the battlefield with the ammunition which they can be reasonably expected to use, they are not sufficient, and when a gun has exhausted the ammunition supplied it becomes as useless as junk; in fact it is worse than junk, for it must be protected by other troops. Half Million Needed.

"The war department believes, after extended study, that in case of war with a first-class power an army of 500,000 men will be needed to give this country any chance of success against invasion and that this force will be needed at once. To make it efficient it must be given its proper quota of field artillery. To do this, this artillery must be on hand, for it cannot be supplied after war is started. A municipality might as well talk about buying its fire-house after the conflagration has started. A fire department without its proper equipment is worthless irrespective of the number of men it has; and so would be your armies, unless you provide in peace the material which will make them effective in war. A city without police protection would be a mecca for all evil doers and deserve the opprobrium which would be heaped upon it for its mistaken policy—and in a large sense our nation needs equally to be protected or it may suffer as never before. Siren Songs of Peace.

"At the present time the soothsayers are singing their siren songs of peace, while the ship of state draws nearer and nearer to the breakers on which we are in danger of foundering unless our policy of unpreparedness is corrected and the pacifist, or 'peace at any price' people are hummed the lullaby 'I Didn't Raise My Boy to Be a Soldier.' Damnable! There would be just as much justification for a song entitled, 'I Didn't Raise My Girl to Be a Mother.' "Before the president can get funds for national defense he must have the

support of Congress. Before he can count on the support of Congress he must have the active, virile sentiment of the American people. "What can we as Sons of Veterans do to remedy this deplorable condition?" "First—Give to our president in this crisis the benefit of our moral support, and withhold all criticism unless fully justified. "Second—Lend our active support to the organized militia wherever possible. "Third—Make it clear to our representatives in Congress that they must immediately take steps to correct our weakness, by providing for an adequate army and navy and both sufficiently supplied with equipment and munitions to be effective. "Fourth—Develop our Sons of Veterans' Reserve and make it a greater factor in our defensive policy than ever before."

FOOD SOURING IN STOMACH CAUSES INDIGESTION, GAS

"Pape's Diapepsin" Ends All Stomach Distress in Five Minutes

Wonder what upset your stomach—just that portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stinking lumps; head dizziness and aches; belch gases and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin and in five minutes you wonder what became of the indigestion and distress. Millions of men and women today know that it is useless to have a bad stomach. A little Diapepsin instantly keeps the delicate organs healthy, and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion, if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and gets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's unnecessary—Advt.

Beginning October 1, employees of the Standard Oil Co. of Ohio, will work eight hours instead of nine a day. Their pay will not be reduced.

IN WAR ARENA

RUMANIA SHOWS SIGNS OF ALIGNMENT WITH ALLIES

LONDON, England, Oct. 13.—Rumanian alignment with Russia is being confirmed and evidence is accumulating that Bulgaria is preparing for an attack from the north. Yesterday it was learned that the civil population of Widin, a Bulgarian city on the Rumanian frontier, facing the Rumanian city of Kalafat, across the Danube, had been ordered to leave the city to be taken over by the Bulgarian troops to be placed in a condition for defense. Bulgarian engineers are also engaged in placing mines in position along the Bulgarian bank of the Danube, while at the various possible landing positions a large force of soldiers and civilians are preparing cashworks, the work going on at a feverish pace. Kaiser at Serbian Front.

According to a despatch from the Post from Copenhagen the Kaiser has come to the Serbian front. He arrived there yesterday, the despatch said. JAPAN MAY YET SEND TROOPS TO EUROPE

TOKIO, Japan, Oct. 13.—In light of developments here there is a possibility that Japan after all will send troops to Europe to aid her allies. They would be dispatched to the Balkans, it is thought, if Japan agreed to the plan. The return of Baron Ishii from the ambassadorship of France to become foreign minister, and the presence here of Hughes Laroux, editor of the Paris Matin, has reopened the question. The presence of the two men is believed to presage a full reconsideration of the international situation.

FRENCH PRESS PEEVED OVER CENSORSHIP

PARIS, France, Oct. 13.—The dissatisfaction of the French press over the restrictions placed upon it by the war office have crystallized into an organized protest, which was delivered yesterday. The protest resents the suppression of news and it is claimed that foreign papers of allied and neutral countries are permitted to publish information which is withheld from them. "These daily injuries are not merited," the protest says, "and we have resolved to submit to them no longer."

TEUTON SUBMARINE BASE DESTROYED IN MEDITERRANEAN

ATHENS, Greece, Oct. 13.—A submarine base, believed to have been used by German raiders in the Mediterranean, is reported to have been discovered by a British agent at Naxos, on the southeast coast of Greece. Much petroleum and many supplies are said to have been seized. It is from this base that the Germans are thought to have operated when they torpedoed several British transports with troops for the Dardanelles last summer.

BERLIN DENIES SLAY VICTORY AT STRIPA RIVER

LONDON, England, Oct. 13.—Advice from Berlin give partial contradiction to the earlier report from Petrograd that the Russians have in crossed their gullies in Galicia in the Stripa river district. The Germans claim they have repulsed counter attacks in this region.

BRITISH SUBMARINES BUSY IN BALTIC

COPENHAGEN, Denmark, Oct. 13.—Yesterday afternoon the German steamer Director Reppenahagen, a large steamer, was submerged in Baltic waters.

FORECASTS PLAN TO KEEP TARIFF ON SUGAR AWHILE

The Washington Times is sending broadcast the following in postal-card form:

September 27.—The advisability of retaining the present tariff on sugar is being seriously considered by President Wilson. It is learned today. While the president has not fully determined on the sugar tariff plan, it is believed to be extremely probable. A compilation of the sugar importations and revenues derived during the last few years is being made for the president by treasury officials. Facts and figures regarding the sugar schedule since 1913 are being compiled by customs officials to furnish Secretary McAdoo with information for advising the White House whether restoring the tariff on sugar will solve the revenue problem.

It also became known that the president and sounding officers and party leaders regarding the sugar tariff questions. \$50,000,000 Revenue. Under the present new tariff law sugar goes on the free list on May 1, 1916. The duty has already been reduced about 25 per cent. If the duty now in force is retained, it is estimated, it would net \$50,000,000 annually. The president is reluctant to repeal the "free sugar" proviso for several reasons. One of these is the strong lobby already organized and working vigorously to that end. Another reason advanced is that the president himself insisted, when the new law was being framed, upon the sugar tariff reduction.

"Needs of the treasury for more revenue and the political effect in Louisiana, Colorado, California, and other sugar states are considerations in favor of modifying the schedule. Other Tariff Changes. It is also reported that the administration is considering further slight tariff changes, to provide additional revenue, by increasing duties on liquors, and also possibly an extension of the income tax to smaller incomes. "Charging that persistent efforts of liquor interests at Washington are responsible for the movement which forced sugar on the free list, some of the opponents of free sugar in Louisiana are declaring their purpose to turn the state over to prohibition. In addition to statewide prohibition for Louisiana, they will seek to have the Louisiana members of the House and Senate line up for the national prohibition amendment."

The reference to the work of the liquor interests in Washington is along the same lines as that made in the article by Dr. R. O. Young of Louisiana, published yesterday.

YOSHIHITO TO COMMUTE CONVICT SENTENCES ON EVE OF CORONATION

(Associated Press by Federal Wireles)

TOKIO, Japan, October 13.—In commemoration of the coronation of Emperor Yoshihito the terms of all Japanese prisoners will be commuted on November 16. Some convicts will be pardoned and others will have their sentences shortened.

GOVERNMENT FILES BRIEF IN INCOME TAX CASES

(Associated Press by Federal Wireles)

WASHINGTON, D. C., October 13.—A government brief was filed in the supreme court yesterday in defense of the pending income tax cases in which heavier taxation of big incomes is declared to be proper in view of "the disproportionate share of governmental support borne by the poor under indirect taxation."

ITALIANS PRAY FOR DEAD RIGHT AFTER BATTLES

(By Associated Press.)

ROME.—The great extent to which warfare proves an incentive to religious devotion has been noted in correspondence from other belligerent countries, and Italy furnishes considerable more testimony to the same effect. Indeed, with but little exaggeration it may be said that the Italian army divides its spare moments between singing and praying. It is believed in Italy that King Victor's troops are the gayest and most light-hearted in all the war, for they always go into battle singing. Their first thought on returning from a struggle, however, is a mass for the repose of the souls of comrades whom they had had to leave behind on the field. The most popular song in the camps, after the devout services are over, is "Addio Mia Bella" (Good-bye, My Love).

The religious enthusiasm in the army is also reflected in the fact that so many of the Roman Catholic clergy have rallied around the flag. The military authorities have expressed themselves as greatly pleased over this, for some of them had entertained doubt that the clergymen were staunch patriots, but they have proved that they are ready to give their lives as willingly for their country as any other class of citizens.

LOAN SHOPS DO LESS BUSINESS SINCE WAR BEGAN

(By Associated Press.)

LEIPZIG, Germany.—One of the serious effects of the war has been to reduce the number of loans made by the poor of the city at the municipal pawn establishment, and to increase the number of redemptions of property already pawned. The explanation is that most of the loans, in peace time, are made by women; that most of the women are the wives of men now in the field; and that never in peace time have these women had as large an income as they do now that most of their husbands' earnings come to them to supplement what they themselves can make.

In the twelve months just preceding the war the municipal pawn shop made approximately 240,000 loans on articles ranging from silver-headed canes to babies' shoes. The exact number for the past 12 months has not as yet been compiled, but the director of the establishment is authority for the statement that the number probably will run closer to 200,000. Incidentally the money loaned will not, either, reach the figures of the year before.

YUAN SHIH-KAI GIVES NEARLY ONE-THIRD OF SALARY TO CHARITY

PEKING, China.—President Yuan Shih-Kai has contributed nearly one-third of his salary for this year to charity and public works. The Chinese president receives 360,000 silver dollars a year, which is about \$144,000 in gold. He recently gave \$34,000 for the establishment of a model primary school and contributed \$15,000 for the relief of food and fire sufferers in the various southern provinces which have suffered disaster.

Contracts of 3,500,000 pairs of army shoes for Russia were taken by the E. E. Taylor Co., of Bridgewater, Mass., and the J. M. Herman Co. of Millis, Mass. Switzerland's mobilization expenses up to Sept. 1 totalled \$28,000,000.

ACID STOMACHS ARE DANGEROUS

Common Sense Advice by a Distinguished Specialist.

"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer. Ordinary medicines and medical treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing for this purpose is a teaspoonful of bisubated magnesia, a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause greatest distress may be eaten with impunity if the meal is followed with a little bisubated magnesia, which can be obtained from any drugist, and should always be kept handy. For sale by Benson, Smith & Co., Chambers Drug Co. and Hollister Co., Adv.

Dr. Susan Picotte, one of the famous Indian women of America and one of the best known physicians in Nebraska, died at her home at Walthill, Nebraska. More than 150 strike breakers were brought to New Haven by the New York, New Haven & Hartford railroad to replace striking freight handlers.

MILLIONAIRES ARE MADE OVER NIGHT BY WAR ORDERS

CHICAGO, Ill.—A new crop of millionaires is breeding in the United States, according to a table of stock advances since the European war began, prepared by the Tribune.

According to the tabulation, the market value of listed stocks of thirteen representative companies directly benefited by war orders has increased \$492,000,000 since January 1, last. "This vast increase," the Tribune says, "includes by no means all the important concerns that have benefited by war orders. Scores of large organizations like Du Pont powder properties are ignored. Hundreds of smaller firms now wallowing in the war prosperity are not incorporated in the tabulation. The table shows that the Schwab properties, which had a market value of \$7,000,000 before the war orders began to pile in, today are given a market value of \$44,000,000—an increase of 624 per cent. More millionaires are being bred, it is said, than were bred following the "steel age" after McKinley's 1900 election. "And over all" the Tribune continues, "astride the states like a colossal, shining golden stream into his coffers, that is poured out of every corner of the land, looms the figure of J. Pierpont Morgan. "Not millions, but hundreds of millions, it is estimated by stock exchange insiders, will have come to the hands of Morgan by the time the war ends. The Rockefeller will be outdistanced. "How much money" the article says, "Morgan is making is the merest conjecture. Some say the amount is so stupendous as to be almost inconceivable."

U. S. S. MICHIGAN PROUD WINNER OF BATTLE TROPHY

(Associated Press by Federal Wireles)

NEWPORT, R. I., October 13.—With the admirals and 200 officers of the other divisions present, Capt. Albert P. Niblack, commanding the battleship Michigan of the second division of the Atlantic fleet, was presented with the battle efficiency trophy here yesterday. A letter from President Wilson congratulating Captain Niblack on the showing of his ship was read.

U. S. WON'T BOTHER WITH VON PAPAN

(Associated Press by Federal Wireles)

WASHINGTON, D. C., October 13.—Capt. von Papan, military attache of the German embassy, who wrote a letter in which he referred to Americans as "those idiotic Yankees," probably will be permitted to remain here, as it is reported the government does not intend to make any protest to the foreign office at Berlin. No action of any kind will be taken against Capt. von Papan, it is said.

120 FRENCH PLANES SOAR IN JOY OVER NEWS OF VICTORIES

PARIS, France.—At one point in the environs of Paris recently 120 aeroplanes went into the air in a spontaneous demonstration of joy over the victories for the arms of the allies, to the north and east. The point from which they rose is one of the railway transfer stations of the Paris Belt line and the arrival of ten trainloads of German prisoners brought the first indications of the successes. One airman after another rose, waving the tri-color, until 120 machines were maneuvering.
