The transport Thomas will bring many officers to Fort Shafter, some returning from leave spent on the mainland and others who are joining the garrison for their tour of foreign service. Among the latter are Lieut. Rockwell, who has been assigned to the 2nd Infantry, and Lieut. Rehnke, Corps of Engineers. Dr. Deiber, who has been traveling through the East for the past two months, is a passenger on the Thomas as well as Lieut. and Mrs. Camp, Lieut. and Mrs. Abraham and Lieut. Robert Love, Signal Corps, all of whom have been on leave of absence. Mrs. Love will not return with Lieut. Love, as their tour of service in Hawaii has almost ended, so will remain with her family on the Pacific coast until the lieutenant returns from Honolulu which will be in about two months.

The "Diamond from the Sky" has proved itself one of the most popular serial pictures ever shown at the aerodrome, Fort Shafter, every installment draws a packed house, and at the last one it is believed that over 1500 persons were present. The aerodrome was planned not for money making scheme but to provide amusement for the enlisted personnel of the garrison, and in that it has been most successful for thousands of people and these shown during the month. The management tried to secure the best moving pictures obtainable, showing all of the popular stars in the moving picture world, and each week a most attractive program is arranged with new and then a little dash of vaudeville such as Ben Wise and Katie Wilson, who are appearing at the popular theater.

Many captains who had asked to be sent to the war college in Washington this year have by a recent order from the war department been disappointed as this communication announces that the policy will be, except under the most exceptional circumstances, that only field officers will be available for this detail. The idea, of course, that the officers of the higher grade have the first chance to take the course then after all the field officers have had the opportunity, the captains will be available for the detail which is regarded as a stepping stone to the general staff—the goal of every ambitious officer.

Beginning today there will be general police and fatigue at the fort. This work will be performed between the hours of 7:30 a. m. and 11:30 a. m. Saturdays and Sundays excepted. Major Michael J. Lenihan, 2nd Infantry, has been placed in general supervision of the work and he will assign a sector to each organization. A similar general fatigue was had during the early part of last month but some parts of the post were not thoroughly policed, due to the short time allotted for the work but now all parts of the fort will receive attention and within a few days Fort Shafter will be the cleanest post in Oahu.

The commanding officer at the fort has received information that the next transport from the mainland will bring fifty-five recruits for the 2nd Infantry. This will bring the total for the regiment to approximately 2000 men.

1st Lieut. Raymond A. Wheeler, Corps of Engineers, has been ordered to proceed to Castner on or about November 1, 1915, and return in connection with engineer work on the island of Oahu.

Sgt. Daniel Gilites and seven enlisted men of Company 1, 3rd Battalion of Engineers, were ordered to Castner in connection with engineer work on the island of Oahu.

1st Lieut. J. B. Richardson, 2nd Infantry, has been relieved as prison officer, and 2nd Lieut. R. G. Calger, 2nd Infantry, has been appointed in his stead.

A guard of one non-commissioned officer of Company K, 2nd Infantry, has been directed to conduct General Prisoner Louis Kleinhaus to Schofield Barracks.

NOT TOO LATE TO ENTER Y. W. C. A. FRENCH CLASS

The Young Women's Christian Association found it impossible for various reasons to organize its French class when the other classes were being organized a month ago, and the class held its first session last Tuesday afternoon at the temporary office of the association. It is therefore not too late for others who wish practice in French conversation to join the class.

The teacher is Miss Elmore Tasartez, a native of France and the teacher of French at the McKinley high school. The class will meet for an hour each Tuesday afternoon at 2:15 o'clock. The course will continue until Christmas and will probably be followed by a more advanced course in the new year. Further information may be secured from the office of the Young Women's Christian Association on the second floor of the Castle & Cooke building.

IMPROVED RADIUM TREATMENT DEVISED

PARIS, France.—An advance in the employment of radium against the ravages of cancer is reported to the French Academy of Sciences by Professor Roux, who describes how Drs. Diberne and Rigoud succeeded in harnessing the radium rays and condensing them by the same process as that used for liquefying air. The lack of radium salts hitherto has been an obstacle to the treatment of cancer. Condensed rays, which are inclosed in hermetically sealed tubes, are equally as efficient when placed in contact with the cancer wound as are the salts. The supply of radium rays, however, is practically infinite.

SGT. EVANS NOT AMERICA'S BEST SHOT AFTER ALL

Original Telegrams, Misinterpreted, According to Mail Advices from Florida

Official reports of the results of the national rifle competition at Jacksonville, Fla., participated in by the Hawaii team, arrived this morning and show that Sgt. Thomas J. K. Evans did not win the national individual match. The reports state that Sgt. Evans won 50th place in the national individual match and that his shooting was surpassed by Sgt. James Ho, who won 26th place in this contest. Sgt. Evans' record is 306, with Sgt. Ho's two points better, 338.

When the Star-Bulletin received a photostatic radiogram from the state camp at Jacksonville, it was taken to National Guard headquarters for elucidation. There a group of officers interpreted the message to mean that Evans had won the individual match and that Ho had won 26th place against a field of 728 competitors.

The official returns, however, throw a different light on the situation, and show that Sgt. Ho's marksmanship is several points superior to the good record made by Sgt. Evans. What Evans did win 1st place in, National Guard headquarters today he held, is in the National Guard try-out for the all-service match. He is thought to have won first place in the try-out, thus standing first in the team of 16 National Guardsmen picked from the best shots in the National Guard, to shoot against a picked team representing the army, navy and marines in the all-service match.
