MAKE SUMMARY OF RULES FOR PARCEL POST

One thousand copies of a digest of parcel post regulations will soon be sent to all postoffices in the territory of Hawaii, for distribution where they will do the most good. The condensed form has been prepared by Frank T. Sullivan, superintendent of mails of the Honolulu postoffice.

Concerning size of packages, the maximum must not exceed 84 inches in length and girth combined. Length is found by measuring the greatest distance in a straight line between the ends, but not around the parcel. The thickest part is the girth. For example, a parcel 35 inches long, 10 inches wide, and five feet high measures 65 inches in girth and length combined.

A feature of the synopsis is an arrangement of the zones as concerns the territory of Hawaii. Starting with Honolulu, this city and Oahu are in the first zone, where the rate is 5 cents for the first pound and 1 cent for every additional pound. In the second zone are Molokai, Lanai, Maui, Kauai, and parts of Hawaii, where the rate and limit of weight are the same as in the first zone.

Other portions of Hawaii more distant from Honolulu are in the third zone, to which the charge from here is 6 cents for the first pound and 2 cents for every additional pound or fraction. The weight limit is 20 pounds.

The United States, Philippine Islands, Shanghai and Alaska are in the eighth zone from Honolulu. To this zone, the rate is 12 cents for the first pound, and the same for each additional pound. The weight limit is 20 pounds.

Automobile tires will be accepted for mailing regardless of size. Packages of tires weighing 50 pounds can only be sent to places in the first and second zones. To points in the third and eighth zone, the package must not weigh more than 20 pounds.

Eggs will be accepted for mailing regardless of distance when each egg is separately wrapped with excelsior or cotton, and packed in a strong container made of double-faced pasteboard, metal or wood. Perishable or fragile articles have to be so designated.

When Your Eyes Need Care

TWO MURDERERS TAKE STAND TO TELL OF FIGHT

Two murderers took the stand in Circuit Judge Ashford's court today as witnesses against one Cristito Ostrio, a Filipino, who was charged with having used a cane knife to carve an inmate of Oahu prison.

One of the murderers was the man who was cut up, and was called as the complaining witness. This was a Filipino named Eulalio, who killed his wife at Waipahu. The other was a Japanese. On the other hand the defendant now is serving time for an assault with a dangerous weapon.

According to the testimony, Ostrio and Eulalio, while working with a prison gang, had a quarrel which resulted in a fight. Ostrio used a cane knife and Eulalio defended himself with a shovel. Eulalio, while backing away from his opponent, fell over a tree, whereupon Ostrio jumped in and used the cane knife with telling and bloody effect on Eulalio's head and right hand. The prison luns stopped the fight.

After deliberating about 10 minutes a jury returned a verdict of guilty against Ostrio. Sentence will be pronounced at 9 o'clock next Saturday morning.
