## PRESIDENT WILL PRESS BILL FOR MERCHANT SHIPS

### Chief Executive Preparing to Force His Pet Scheme Through Congress

[Associated Press by Federal Wireles] WASHINGTON, D. C., Nov. 28.—Some details of the new shipping bill, to be pressed by the administration again, providing for the purchase and operation by the government of merchant ships for the development of American foreign trade, are beginning to come out. It is expected, in connection with this Ship Purchase Bill, which will follow closely the lines of the bill defeated by the senate filibuster in the last session, the president will recommend some further drastic legislation. His plan, as it is reported, will be to place power in the proposed shipping board, to be created by this legislation, to regulate the rates and the practices of all steamships using American ports. This power of rate making and rate enforcement shall be exercised by the board over foreign as well as domestic ships and will also apply to foreign steamships destined to American ports. It is stated that the president is as determined in his support of the Ship Purchase Bill this time as he showed himself to be in the last session and it is understood that he has been studying all the criticisms of the bill in order to secure arguments to meet them. The bill will be made a large part of the administration program, after the defense measures are well launched.

## PAGE REPORTS ON ANCONA TRAGEDY TO WASHINGTON

[Associated Press by Federal Wireles] WASHINGTON, D. C., Nov. 28.—Ambassador Page has forwarded from Rome to the state department his official report on the sinking of the Italian liner Ancona by a submarine flying the Austrian flag, as a result of which 299 persons, including many women and children, were drowned or killed. The ambassador's report includes the depositions of the captain and the first officer of the Ancona. Both officers declare that, while the Ancona attempted to escape when the submarine was first sighted, the liner was promptly stopped when the shells began, obeying the first warning shot. Despite the slowing down of the liner, the shells persisted, continuing even while the lifeboats were being lowered, the shells striking the ship while the passengers were getting into the boats. None of the lifeboats were struck, however.

## JAPAN OPPOSES CHINA BECOMING ENTEENTE ALLY

[Associated Press by Federal Wireles] TOKIO, Japan, Nov. 29.—Japanese public opinion, as expressed in the press and unofficially amongst the publicists, is strongly antagonistic to the entrance of China into the alliance of the Entente, the generally expressed opinion being that should China become an ally of the Powers it would place her in a position equal in the Orient with Japan, a position inimical to the doctrine that Japan should hold a predominating role in the Orient, especially in relation to China.

## DANIELS PREDICTS GREAT FUTURE FOR WIRELESS TELEPHONE

[Associated Press by Federal Wireles] NEW YORK, N. Y., Nov. 28.—Secretary of the Navy Daniels was the principal speaker at a Lotus Club dinner given last night in honor of John J. Carty of the American Telephone Company whose recently spoken words in Washington, were conveyed by wireless telephony first to San Francisco, next to Honolulu and next to Paris. Wireless telephony will soon be so perfected that a man will be able to speak around the world, Secretary Daniels predicted in his speech, in which he said that the great credit for the strides that have been made should go to the genius of the guest of honor, Mr. Carty.

## SCHWAB TRUSTEE OF CORNELL UNIVERSITY

[Associated Press by Federal Wireles] PHILADELPHIA, Pa., Nov. 28.—Charles Schwab, the steel magnate, has accepted a membership on the board of trustees of Cornell University.

## BREAKWATER AT HILO COVERED BY HUGE WAVES

[Special Star-Bulletin Correspondence] HILO, Nov. 28.—Hilo was visited by a big sea storm on Sunday and Monday last and the waves ran high for several days. The surf was coming from the northeast, and the breakers came in with a rush over the many reefs and dashed themselves on the beach from the Waikuku river to Waiakoa, with great force. The spray was tossed high in the air, and the spectacle was a thrilling one. Out at the breakwater the surf came plunging in until it hit the artificial reef and then, mounting the structure, ran over it from end to end. The breakwater stood the strain well and no damage was done. It was feared in Hilo that the big derrick of Contractor Marshall, which stands on the end of the completed section of the breakwater, would be toppled over by the waves, but nothing of the sort happened and everything is snug and safe. The steamer Mauna Kea, arriving on Sunday morning from Honolulu, had to leave her moorings at the wharf and take up an anchorage in the bay. It was too rough at the wharf to allow the steamer to stay there and be bumped all the time. Along the coast towards Hamakua the storm was severe also, and reports say that the waves ran very high. At Waipio the storm was almost as bad as that of some weeks ago, but, as the waves were running in a different direction, there was no damage done to the quarry plant of Contractor Marshall. Fairly heavy rains also fell during the early part of the week, but nothing like the downpour of 10 days or so ago. The showers have not done any damage, and evidently do not extend very far inland as the Waikuku River has been low for a week or so.

## REVOLUTIONARY PLOTS IN EGYPT DENIED BY BRITISH AMBASSADOR

[Associated Press by Federal Wireles] WASHINGTON, D. C., Nov. 28.—The British embassy yesterday issued a general denial of the reports which have been received here in private mail and telegraphed from this center concerning reported revolutionary activities and conspiracies in Egypt. The internal situation throughout Egypt was never more tranquil, states the embassy, which declares that there is no truth whatever in the various sensational publications of reputed Egyptian constitutions which have appeared in the American press.

## ALASKA CITY SUFFERS FROM WATER FAMINE

[Associated Press by Federal Wireles] SEWARD, Alaska, Nov. 28.—There is a serious water shortage at the government railway town and the anchorage, where a number of ships are frozen in for the winter. Holes are being chipped in the ice of the river, through which a supply for the ships is being pumped, and this is now the only source of supply. This water is being sold at the rate of a dollar a barrel in wholesale lots. An ordinary bucketful costs 15 cents with two buckets for a quarter. The water system, through which the town and the port will be supplied, will be ready, it is expected, in two weeks more.

## DIABETES

We announce this new FACT IN PHYSICS—influence the renal tract with an agent that opposes renal and hepatic degeneration and urinalysis will, in many cases, within twenty days begin to show diminishing sugar in Diabetes in people of 50 and over. There having been no agent on prescription counters to reduce sugar in Diabetes (except opium which is not a specific—see Van Noorden on Diabetes) the importance of an anti-glycosuric is immediately manifest. That sugar can be reduced and that many of those succumbing to Diabetes can have lives prolonged to other terminations has been established by urinalyses and confirmed by disappearing symptoms in many cases. The presence of sugar being a PHYSICAL FACT, and its disappearance a FACT IN PHYSICS there is no uncertainty as to the results that have been obtained. The agent to reduce sugar (Fulton's Diabetic Compound) can be had at Honolulu Drug Co. Ask for pamphlet. Current bulletin of recoveries and rationales mailed on application. John J. Fulton Co., San Francisco, Cal.—adv.

## SUIT FOR \$53,000 AGAINST MRS. THAW DISMISSED

NEW YORK, N. Y.—The suit of John B. Gleason, an attorney, against Mrs. Mary Copley Thaw of Pittsburg, mother of Harry K. Thaw, for \$53,000, claimed for professional services, was dismissed by Federal Judge Mayer. Gleason claimed that Mrs. Thaw had misled him as to the defense of her son through misrepresentations she had made to him concerning the will of William Thaw, Harry's father.

Henry B. Torgemann, a retired fireman of New York was awarded \$5000 damages for injuries received when he was knocked down by an automobile of the Department of Water Supply.

## PACIFIST FORD NEEDS TWO SHIPS TO CARRY ENVOYS

### Overwhelming Number of Acceptances Pour In For Peace Junket

[Associated Press by Federal Wireles] NEW YORK, N. Y., Nov. 29.—The success of the "Peace Ship" mission undertaken by Henry Ford of Detroit is now assured so far as numbers are concerned, although no representative of the federal government will accompany the party, nor will any of the states be represented by any high officials. Mr. Ford sent out many invitations to representative men and women to join the mission which he proposes to send to the various warring capitals in the interest of peace, and the acceptances are now pouring in. So many have accepted that the liner which Mr. Ford is chartering to carry the party will be unable to accommodate all and yesterday it was found necessary to secure additional accommodation. All the first class cabins available on the Danish liner Oscar II and all the first and second class cabins on the Danish liner Frederik VIII have been taken by Mr. Ford. The mission is being made at the sole expense of the automobile manufacturer, who has announced that he is willing to spend his entire fortune in the cause of the restoration of peace.

## HUGE YIELD OF COFFEE SURE AT PAAULO RANCH

[Special Star-Bulletin Correspondence] HILO, Nov. 28.—"Anyone who can spare the time should take a run out to see Abe Louison's coffee plantation near Paulo," said James Barron, the well-known Hilo man, the other day after he had returned from a visit to Louison. "Abe" continued Barron, "Louison will harvest 5000 bags of coffee beans this season. He has 400 acres of land under coffee and the crop is a bumper one. The trees are simply laden with the berries and the branches are bowed down with the tremendous crop. "Trees that were planted 18 years ago are as bright and clean and as full of berries as the youngest lot that are bearing. Mr. Louison has evidently, by experience and by reading, found out the secret of successful coffee cultivation and he is being rewarded for his industry and belief in the future of coffee. Many other people threw up coffee growing a long time ago, but Louison stuck to it. There is only one thing needed now, and that is a tariff on foreign grown coffee so that the domestic crop can have a show against the alien stuff. "Shade is a great thing in coffee cultivation and Mr. Louison is an ardent advocate of that feature in cultivation methods. When clearing the land years ago he left all the old trees standing so that they would shade the coffee trees. In fact, in places where there were not many old trees he planted hundreds so as to get the necessary shade. "Louison has 1000 acres in fee simple and if he could make sure that a duty would be put on foreign grown coffee he would go ahead with the further development of his estate."

## ANTI-TUBERCULOSIS LEAGUE REFUSES ONE CAFE OFFICIAL O. K.

As a result of an inspection which has been carried on for a month past by the Anti-Tuberculosis League, 10 of the league's certificates were issued on Saturday to restaurants and cafes of the city as follows: Palace of Sweets, Honolulu Chop Suei House, Union Grill, Alexander Young Cafe, Sweet Shop, Columbia Cafe, Hofbrau Cafe, Eagle Cafe, Royal Cafe and the Home Cafe. Conditions at the Hoffman Cafe on Hotel street were such that no certificate was granted by the inspectors, according to their report. Daily inspection is being made of the eating establishments about town, and it is probable that others will be granted certificates soon.

## JAPANESE DISAPPEARS

On November 16 a Japanese of Kahuku, by the name of Shorakubo disappeared from home and it is believed that he has been washed away by the freshest in the stream near the camp where he was living. People saw him at about 5 p. m. and he said that he was going to the school after his children, but when the children got home no father had appeared; so that a search was begun for him, but up to date he has not been found. People have searched the stream and even the sea beach but in vain.—Kohala Midget.

## SIX HUNDRED STRIKING MACHINISTS OF THE 12-INCH SHELL DEPARTMENT OF THE WESTINGHOUSE MACHINE CO. PLANT IN PITTSBURGH RETURNED TO WORK, HAVING BEEN GRANTED AN 18 PER CENT WAGE INCREASE.

A Constantinople report states that

## RECALLED ENVOY WANTS HEARING

### Gaffney Says He Is Innocent of Charges Which Led to Dismissal

[Associated Press by Federal Wireles] NEW YORK, N. Y., Nov. 29.—T. St. John Gaffney, recently recalled as American consul at Munich, Germany for unneutral conduct, on complaint of both Americans and British, arrived here from his former post yesterday. He announced that he would go direct to Washington to face the charges filed against him in the state department, as he is yet officially ignorant of what the charges are upon which he has been recalled and dismissed from the consular service. He states that he has been unfairly treated, being attacked while he was absent and 3500 miles away and condemned without a hearing, his resignation being asked for before he had a chance to answer to the charges. Gaffney was charged with hostility to the cause of the Allies and of being openly pro-German, although officially he was representing Great Britain and France at Munich as well as the United States.

## IN WAR ARENA

### BERLIN SAYS OPERATIONS IN SERBIA BIG SUCCESS.

BERLIN, Germany, Nov. 29.—An official statement covering the campaign in the Balkans was issued yesterday by the war ministry, which states that "neither impenetrable roads, impassable mountains or the absence of reinforcements or shelter could check the Germans in their advance into Serbia. "More than 100,000, at least half of the entire Serbian army, have been captured by Germany and her allies, while the Serbian casualties and their losses through desertions cannot be estimated. "The German losses, considering the difficulties overcome, have been extremely moderate and no disease has appeared in the German ranks. "With the recapture of Rudnik, in the operations on Saturday, a victory accompanied with the capture of 2700 Serbians, and the flight of the scanty remains of the Serbian forces into Albanian mountains, Germany has concluded her operations in Serbia, the object of the campaign, that of opening communication with Bulgaria and Turkey, having been accomplished.

## DESPERATE GERMAN ATTACK ON THE LABYRINTH REPULSED.

PARIS, France, Nov. 29.—Following the explosion of a mine before the French positions in the Labyrinth, on the Artois front, the Germans made a general attack in a desperate effort to regain the labyrinth, from which they had been driven in the general September offensive. In hand to hand fighting the Germans secured a foothold, but French counter attacks drove them back and recaptured the trenches. Last night the Germans were still occupying the crater formed by their mine, but had lost at all points on the French lines. Before Givenchy there has been trench fighting with hand grenades, elsewhere along the western front being quiet.

## TURKS CLAIM VICTORIES IN GALLIOLI FIGHTING.

LONDON, Eng., Nov. 29.—Although there have been no big actions in the Gallipoli, the reports from Constantinople claim some successes for the Turks.

## AMERICAN VICTIMS IN ARMENIAN MASSACRES.

BASEL, Switzerland, Nov. 29.—News papers here have received information that a number of American and other foreigners are among those killed in recent massacres in Armenia. Foreigners at Urfa, Mesopotamia, assisted the Armenians in defending themselves as long as possible, being finally overborne and slaughtered by the Turks. At this place an American missionary, believed to be Francis Leslie of Michigan, was killed.

## GORIZIA NOT YET IN ITALIAN HANDS.

VIENNA, Austria, Nov. 28.—The Austrian fortress of Gorizia is still holding out, according to an official report from the war office last night, although the announcement intimates that it may fall at any time. The position is under the continuous fire of the Italian infantry, says the report, while the Italian artillery attacks have now merged into one great battle, extending along the entire coast front lines.

## SWISS FINE BRITISHER FOR ESPIONAGE.

GENEVA, Switzerland, Nov. 28.—Peter Wright, an Englishman, arrested by the Swiss authorities and accused of espionage, was yesterday convicted by court-martial at Lausanne and sentenced to pay a fine of 1500 francs and serve a three months' term in a Swiss prison. At the expiration of his imprisonment he will be expelled from Switzerland and forbidden to return within five years.

## GERMAN EMBASSY THINKS BOY-ED'S BEING HALLUSED

### Report Says Naval Attache Will Be Subject of Diplomatic Protest

[Associated Press by Federal Wireles] WASHINGTON, D. C., Nov. 28.—The "harsh treatment" accorded by the American federal authorities to Capt. Boy-Ed, the naval attaché of the German embassy, during the course of the trial of Karl Buecz, the resident director at New York of the Hamburg American line, and those indicted with him for conspiracy to break the American neutrality laws, is being resented by the German embassy and will be made the basis for a diplomatic protest, according to a statement made here yesterday from a reliable source. The members of the embassy staff believe that Capt. Boy-Ed has not been treated with the courtesy his position in the German embassy demands and that his name has been dragged into the courts unnecessarily and in a highly disagreeable way. The connection of the naval attaché's name with various alleged war plots is also highly offensive to Count von Bernstorff and the embassy. It is certain, says the informant of the embassy's state of mind, that a protest against the treatment of Boy-Ed will be lodged with the secretary of state. The outcome of the trial will determine the strength of the language to be used in the protest.

## WHOLE FAMILY WIPED OUT BY MURDERER, WHO THEN SUICIDES

[Associated Press by Federal Wireles] NEW BRUNSWICK, N. J., Nov. 28.—Murder on a wholesale scale, with the murderer possibly a suicide, was discovered near here yesterday when neighbors visited a farmer's house and found a whole family wiped out, the dead bodies lying all over the house. The farmer, his wife, his daughter and her husband and two farm hands were found dead, each body being filled with bullets. A revolver of a caliber that corresponded to all the bullets extracted from the six bodies was found lying between the two farm hands, each of whom had been killed by a shot through the head. It is suspected that one of these two killed the other five and then blew his own brains out. No motive whatever for the wholesale slaughter can be ascertained.

## WINTER WEATHER HALTS FIGHTING ON EAST FRONT.

PETROGRAD, Russia, Nov. 29.—With the exception of a feeble German attack against the Russian lines on the River As, in the north, at a point southeast of Mitau, which was easily repulsed, there has been a complete calm along the eastern front. The weather has been stormy, rendering military operations almost impossible. With colder weather and a general hardening up of the roads, the general activities are expected to recommence.

## TURKS CLAIM VICTORIES IN GALLIOLI FIGHTING.

LONDON, Eng., Nov. 29.—Although there have been no big actions in the Gallipoli, the reports from Constantinople claim some successes for the Turks.

## AMERICAN VICTIMS IN ARMENIAN MASSACRES.

BASEL, Switzerland, Nov. 29.—News papers here have received information that a number of American and other foreigners are among those killed in recent massacres in Armenia. Foreigners at Urfa, Mesopotamia, assisted the Armenians in defending themselves as long as possible, being finally overborne and slaughtered by the Turks. At this place an American missionary, believed to be Francis Leslie of Michigan, was killed.

## GORIZIA NOT YET IN ITALIAN HANDS.

VIENNA, Austria, Nov. 28.—The Austrian fortress of Gorizia is still holding out, according to an official report from the war office last night, although the announcement intimates that it may fall at any time. The position is under the continuous fire of the Italian infantry, says the report, while the Italian artillery attacks have now merged into one great battle, extending along the entire coast front lines.

## SWISS FINE BRITISHER FOR ESPIONAGE.

GENEVA, Switzerland, Nov. 28.—Peter Wright, an Englishman, arrested by the Swiss authorities and accused of espionage, was yesterday convicted by court-martial at Lausanne and sentenced to pay a fine of 1500 francs and serve a three months' term in a Swiss prison. At the expiration of his imprisonment he will be expelled from Switzerland and forbidden to return within five years.

## CROWDS GREET MIKADO'S ENTRY INTO CAPITAL

### Associated Press by Federal Wireles

TOKIO, Japan, Nov. 29.—Following a ceremonial visit to the Imperial Shrine at Momoyama, near Kioto where rest the remains of his father Emperor Mutsu-hito, the emperor returned to his capital yesterday and proceeded from the new union station to the Imperial Palace, through dense throngs of cheering people. The emperor was accompanied by the entire cortege which had accompanied him to Kioto for the coronation ceremonies, and his costumes and those of the member of the cortege were of the ancient gorgeous patterns. As the return to Tokio was a part of the visit to the Imperial Shrine, the crowds at the capital and those which surrounded the various railroad stations between Kioto and here were not allowed to cheer, greeting their emperor with bowed heads and in silence. This gave an air of solemnity and tone of reverence to the return of the emperor. In the Tokio crowds were many Americans, including the bluejacket of the U. S. S. Saratoga, on leave from their ship lying at anchor at Yokohama. Baron Kato, the minister of foreign affairs, yesterday called upon Admiral Winterhalter and conveyed the thanks of Japan to the United States for the participation of the admiral and his men in the naval review. Now that the coronation program have been concluded, a week of general festivities will follow, in which American and Japanese officers will mingle in the various receptions planned in honor of the two nations' ambassadors, and Mrs. Guthrie, Naval Attaché, and Mrs. Kato are among those who will entertain.

## WOMEN EAGER TO PLEAD CAUSE ON FLOOR OF HOUSE

[Associated Press by Federal Wireles] WASHINGTON, D. C., Nov. 28.—The executive committee of the Congressional Union for Women's Suffrage, which is to press the matter of a constitutional amendment to extend the franchise to women throughout the United States on the same terms with men, announced yesterday that permission would be asked of Congress to allow two spokeswomen to appear on the floor of Congress to urge the passage of their measure. The speakers selected are Francis Jolliffe and Sarah Bard Field of San Francisco.

## CARRANZISTAS MOVE TO CHECK YAQUI RAIDS

[Associated Press by Federal Wireles] TOPOLOBAMPA, Nov. 28.—A force of Carranzistas is being rushed to Los Mochis and Aguila Hacienda, as a precaution against further raids by Yaquis, according to a report on the situation wired to Admiral Winslow, who is steaming to this point with his flagship, Las cruces, San Diego. The expeditionary force under Admiral Winslow is expected to reach here on Wednesday.

## IN FIVE MINUTES NO SICK STOMACH, INDIGESTION, GAS

"Pape's Diapepsin" is the Quickest and Surest Stomach Relief. If what you just ate is souring on your stomach, or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely get relief in five minutes. Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or live pills for biliousness or constipation. This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery. Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes.—adv.

## BRITAIN TO WORK WITH JAPAN ON CHINA PROBLEM

TOKIO, Japan, Nov. 28.—The British ambassador here made an important communication to the foreign office yesterday, stating that he had been instructed to inform the Japanese government that the British government would take no action respecting China without first consulting the government of Japan and working in harmony with the Japanese.

## CANADIAN WHEAT CROP TAKEN OVER BY GOVERNMENT

### Entire Product of Dominion Commandeered For Use of Britain's Allies

[Associated Press by Federal Wireles] WINNIPEG, Manitoba, Nov. 29.—The bulk of the Canadian wheat crop, which has just commenced to move east to the Ontario mills and south to the American mills, is taken over by the Canadian government for the use of the Allies. Yesterday an order was issued commandeering the stocks now in the elevators at the head of the Great Lakes and in the Eastern provinces, aggregating some 50,000,000 bushels, while it is expected that the western crop, of which 150,000,000 bushels will soon be available, will also be seized by the government. Government Pays Fair Price. The price to be paid by the governments of the Entente for the wheat taken over has not yet been fixed, but it is announced from Ottawa that payment will be made through the Canadian government and that the price will be adjusted on a fair basis, with the speculative features eliminated. The 20,000,000 bushels seized yesterday is, it is understood, to be shipped to Italy on the order of the Italian government. The available balance of the crop is to go to Great Britain and France. The Canadian wheat crop this year will be a record one well in excess of 200,000,000 bushels, leaving a balance ample for all domestic requirements. Reduces United States Supply. The bulk of the Canadian wheat heretofore has been exported to the United States for milling, thence being reexported through New York to Europe, with the millers securing a drawback of the duties paid on the raw material. Reports from Chicago last night state the belief of the dealers there that the action of the Canadian government in commandeering the Canadian crop is not likely to have any permanent effect upon the price in the United States, although the diversion of the crop direct to Europe will have a depressing effect upon the milling industry.

## MASONIC TEMPLE Weekly Calendar
