Please give our best wishes to any member of the League who you may

**Use Tyree's Antiseptic Powder**

It is safe, sure and powerful. The danger in using antiseptic powder is not in the powder itself, but in the use of it. Tyree's Antiseptic Powder is so safe that it can be used on the most sensitive parts of the body. It is a powerful germicide and disinfectant. It is used by the military and naval forces. It is used by the police and fire departments. It is used by the hospitals and clinics. It is used by the general public. It is used by the army and navy. be able to secure in Hawaii, and tell them that the women of the States are watching with keen interest the part they are taking in the movement for American national defense.

With personal thanks for your personal service, I beg to remain, Very sincerely yours, (MISS) ELIZABETH E. POE, General Secretary.

**Mrs. Ballou's Letter.** Mrs. Ballou's letter is as follows: Washington, D. C. November 17, 1915. My dear Mrs. Dillingham:

I am sending you today a report of the very enthusiastic meeting of the Woman's Section of the Navy League held in Washington by delegates to the first "Woman's National Defense Conference." The enthusiasm has been most unanimous, and an organization which includes many of the most prominent women of the country has been formed for practical work.

Miss Poe, the general secretary, in opening the meeting, said:

"It gives me great pleasure to be able to report to you on the most important work in behalf of peace ever attempted by the women of America. It speaks well for the common sense and patriotic judgment of the women of this country that in these days, when advocates of peace-at-any-price still abide noisily in the land, they did not join in any numbers in the foolish and unpatriotic demand for dismantling the country's defenses and tempting by our undefended riches the rapacity of any nation with the lust of war."

"Instead, there came a concerted and practically unanimous demand from American women that this country, so precious and dear to all of us, should be made so strong that no foreign nation would dare to enter into a contest with us."

Miss Poe said that the Woman's Section of the Navy League was organized in July, 1915. She described the sending of 20,000 pledges to the women of the country, and the instantaneous response that the pledges received, under which nearly that number of women declared their

signed intention to do their share to awaken lawmakers "to the dangers of our present undefended condition."

Miss Poe said: "We want 1,000,000 members by January 1, and this gigantic task can be accomplished if every present member of the Woman's Section of the Navy League will take it upon herself to personally secure a certain number of signers."

The pledge referred to is: "I pledge myself to think, talk and work for patriotism, Americanism and sufficient national defense to keep the horrors of war far from America's homes and shores forever."

I have had the honor to be put upon the Board of Governors as a representative from Hawaii, and I feel perfectly sure of the hearty cooperation of the women of Hawaii. Of course, the value of preparedness is inestimable to Hawaii. The army and navy are our every-day life, but, aside from the consideration of the islands for their strategic value, we are a rich, beautiful country, and must necessarily be a tempting morsel to our foes. It is inevitable that, should we ever have the misfortune of war, Hawaii must be in the midst of the conflict, and consequently must suffer much destruction and heartache.

And so it is most dear to the heart of every Hawaiian woman that we should be capable of keeping ourselves at peace. The women are most urgently asked to give their moral support to further the President's program. Already, in a few weeks, 40,000 women have come forward with an overwhelming cry that America should be for the Americans, and asking that our homes and children be protected by an ample defense against any invader. Certainly, we, with our wonderful country of thousands of miles, our great prosperity from ocean to ocean, our greatest of all people, have no thought but that of peace and good will toward all men, and with no possible sinister purpose we ask that our house be built upon the rocks of conscious strength and not upon the shifting sands of political creeds. We hope to have enrolled one million women by the New Year, and to be able to add to the President's plea before Congress the indorsement of the women of the United States, who know so well the blessedness of peace and the sorrowful cost of war, that we have ample preparedness.

Very sincerely, MRS. SIDNEY (LUCIA BURNETT) BALLOU.

In her letter Mrs. Ballou also quotes at length Col. Thompson, president of the Navy League, who enthusiastically indorses the movement.

**Local Meeting Called.** In furtherance of the request made in the two preceding letters, Mrs. Dillingham has asked that the ladies of Honolulu who are interested join in establishing a Honolulu branch of the Woman's Section of the Navy League come to the roof garden of the Young Hotel on Thursday morning at 10 o'clock, at which time it is hoped that a very large list of organizing members may be secured and forwarded to Washington.

Hawaii has always been recognized as leading in all public service matters, and it is hoped that the women of Hawaii will respond to this appeal. No initiation fee or dues are charged, but what is asked is genuine sympathy and support to the movement.

### DANCE AND MUSIC AT THE YOUNG HOTEL TONIGHT

This evening a dance will be given on the roof garden of the Alexander Young hotel, commencing at 9 o'clock.

Tourists, officers of the army and navy and their ladies and local society people are cordially invited to attend. In the rathskeller, during the dinner hour (6:30 to 8:30) Miss Edith James will sing and a quintet will render Hawaiian music—Adv.

A decision was handed down in federal court today remanding Ko Matsumoto, a Japanese woman, to the custody of the federal immigration authorities for deportation. The woman was refused entrance into the territory by the immigration officials and filed a petition for a writ of habeas corpus.

It is the absorbing topic wherever engineers gather, and experts, skeptics and enthusiasts are alike in making it the current feature of motor car progress.

It is the logical development of the perfectly balanced "Six" into a lighter, more compact "Twelve," having a uniformity of torque and a smoothness of action hitherto unknown.
